

Chapter Ag 10

ANIMAL HEALTH

Ag 10.01	Definitions	Ag 10.17	Removal of swine from stockyards
Ag 10.02	Bovine animals, import	Ag 10.18	Brucellosis milk test procedure
Ag 10.03	Feeder cattle, import	Ag 10.19	Blood samples
Ag 10.04	Swine, import	Ag 10.20	Brucellosis test classifications; diagnostic procedures
Ag 10.05	Sheep, import	Ag 10.21	Identification of bovine animals
Ag 10.06	Goats, import	Ag 10.22	Brucellosis and tuberculosis test reports
Ag 10.07	Dogs, import	Ag 10.23	Bovine animals; indemnity
Ag 10.08	Circus, rodeo and menagerie animals, import	Ag 10.24	Brucellosis-free certified herd
Ag 10.09	Bovine animals, exhibition	Ag 10.25	Tuberculosis-free accredited herd
Ag 10.10	Quarantines, notice	Ag 10.30	Contagious and infectious diseases
Ag 10.11	Transportation, disinfection of vehicles	Ag 10.55	Swine, validated brucellosis-free herd
Ag 10.12	Diseased animals	Ag 10.56	Brucellosis testing of boars
Ag 10.13	Slaughtering establishments	Ag 10.57	Turkeys; disease control
Ag 10.14	Bovine tuberculosis quarantine		
Ag 10.15	Removal of bovine animals from stockyards; tuberculosis test required		
Ag 10.16	Swine vaccination		

Ag 10.01 Definitions. The following terms, wherever used in these regulations, shall be construed to have the meaning here indicated, unless the context otherwise requires:

- (1) "Department" means the State Department of Agriculture.
- (2) "Person" shall include any corporation, association, or firm.
- (3) "Federal bureau" means the Agricultural Research Service of the United States Department of Agriculture or such other division of that department as may be created for the execution and administration of the federal laws and regulations relating to animal disease control.
- (4) "Brucellosis" means the disease of brucellosis in animals.
- (5) (a) "Brucellosis test" means the blood serum agglutination test (standard tube or plate agglutination) and supplementary tests for the diagnosis of brucellosis, applied in accordance with techniques approved by the department.
- (b) "Supplementary" brucellosis test means the complement fixation, heat inactivation (65° C.), Rivanol, individual brucellosis ring test and other tests approved by the department for the diagnosis of brucellosis.
- (6) "Brucellosis-free certified herd" is a herd of cattle or goats certified by the department as being free from brucellosis as provided in Wis. Adm. Code section Ag 10.24. In the case of imported animals such certification shall be by an authorized agency of the state of origin under requirements acceptable to the department.
- (7) "Validated brucellosis-free herd" is a herd of swine certified by the department as being free from brucellosis as provided in section Ag 10.55. In the case of imported animals such certification shall be by an authorized agency of the state of origin under requirements acceptable to the department.

(8) "Modified certified brucellosis area" is an area as defined in paragraph (i), section 78.1, part 78, subchapter C, chapter 1, title 9, Code of Federal Regulations.

(9) "Certified brucellosis-free area" is an area which is so designated by the federal bureau.

(10) "Tuberculosis test" means the test on animals made for the purpose of determining the status of such animals in respect to tuberculosis, applied in accordance with a technique approved by the department.

(11) "Tuberculosis-free accredited herd" is a herd of cattle or goats certified by the department as being free from tuberculosis as provided in Wis. Adm. Code section Ag 10.25. In the case of imported animals such certification shall be by an authorized agency of the state of origin under requirements acceptable to the department.

(12) "Interstate health certificate" is a written certification for the interstate movement of animals, showing that animals identified thereon have been inspected and no evidence of infectious or communicable diseases was disclosed. It shall be executed only by an officially approved veterinarian of the state of origin of the shipment. It shall contain the names and addresses of the consignor and consignee.

(13) "Accompanied by an interstate health certificate" means that such certificate is attached to the waybill if the animals covered thereby are shipped by rail, boat or express, or that such certificate is in the immediate possession of the person actually transporting such animals.

(14) "Public stockyards" is any premises open to general public use for the holding of livestock pending shipment or sale. The term shall include, without limitation because of enumeration, all yards used by the operator of any common or contract carrier.

(15) "Slaughtering establishment" shall include all premises used in connection with the slaughter of animals by any slaughterer licensed in this state or maintaining inspection by the federal bureau.

(16) "Vaccination or vaccinated against hog cholera" means treatment of swine by a veterinarian with anti-hog cholera serum, modified live virus vaccine, crystal violet tissue vaccine, or Boynton tissue vaccine.

(17) "Feeder cattle" means bovine animals of the female sex of the Hereford, Angus, Shorthorn or other recognized beef breeds or mixtures of such breeds, kept for the sole purpose of feeding prior to slaughter. The term shall not be construed to include steers or spayed heifers.

History: 1-2-56; am. (1), (5) and (6); renum. (7) through (14) to be (8) through (15) respectively; cr. (7); am. (9) and (10) as renum.; am. (14) and (15) as renum.; Register, June, 1959, No. 42, eff. 7-1-59; am. (5) and (6); renum. (7) to be (8) and am.; cr. (7); renum. (8) to be (10); renum. (9) to be (11) and am.; cr. (9); renum. (10) to (13) to be (12) to (15); renum. (14) to be (16) and am.; renum. (15) to be (17). Register, February, 1962, No. 74, eff. 3-1-62; renum. (5) to be (5) (a) and am., cr. (5) (b), Register, June, 1965, No. 114, eff. 7-1-65.

Ag 10.02 Bovine animals, import. (1) HEALTH CERTIFICATE; BRUCELLOSIS AND TUBERCULOSIS TESTS. Except as provided in subsections (2) and (3) hereof, no person shall import bovine animals into this state unless they are accompanied by an interstate health certificate including thereon a report of negative brucellosis and tuberculosis tests conducted within 30 days of entry. Brucellosis tests conducted pursuant to this section shall be by the tube test method. In addition, cattle

originating in a non-modified certified brucellosis area shall be imported into this state only under a permit issued by the department. Such cattle shall be held in quarantine at the premises in this state to which they were originally consigned until they are negative to another brucellosis test conducted not less than 30 days after the previous test nor more than 45 days after the date of shipment.

This section shall not apply to animals shipped directly to slaughter- ing establishments or public stockyards inspected by the federal bu- reau, provided the animals are accompanied by a waybill or similar document; steers; calves under 8 months of age; or feeder cattle which enter in compliance with section Ag 10.03. Tests for brucellosis shall be conducted in a state or federally approved laboratory. A copy of each health certificate, approved by the chief livestock sanitary official of the state of origin of the shipment, shall be filed with the department.

(2) EXCEPTIONS, BRUCELLOSIS TEST. The requirement for a report of negative brucellosis test in subsection (1) shall not apply to:

(a) Cattle vaccinated against brucellosis between 4 and 8 months of age by an approved veterinarian if such animals are not more than 30 months of age and if the interstate health certificate discloses the date of vaccination and age of each animal.

(b) Cattle from brucellosis-free certified herds, if the interstate health certificate includes thereon the herd certificate number.

(3) EXCEPTIONS, TUBERCULOSIS TEST. The requirement for a report of negative tuberculosis test in subsection (1) shall not apply to:

(a) Cattle from tuberculosis-free accredited herds, if the interstate health certificate includes thereon the date of the last tuberculosis test and the herd certificate number.

(b) Cattle from a herd in an area designated by the federal bureau as a "modified accredited area", if the interstate health certificate includes thereon a report of negative tuberculosis test of the entire herd within 12 months prior to entry.

History: 1-2-56; am. (1), (2) (b) and (3) (a), Register, June, 1959, No. 42, eff. 7-1-59; am. (1), Register, February, 1962, No. 74, eff. 3-1-62.

Ag 10.03 Feeder cattle, import. Feeder cattle may be imported into the state under an annual permit secured from the department. Such permits shall expire on June 30 and shall designate the premises where the animals will be received. Each lot or load of such animals shall be accompanied by an interstate health certificate or other certificate conforming to federal brucellosis regulations (title 9, section 78.12 of the Code of Federal Regulations). Permittees shall receive the animals at the designated premises. Unless the animals originate from a herd in a modified certified brucellosis area or certified brucellosis-free area, they shall be tested for brucellosis within 10 days after receipt. Prior to their shipment for slaughter, no feeder cattle shall be removed from the designated premises except in accordance with the brucellosis test requirements of section 95.49, Wis. Stats.

History: 1-2-56; am. Register, June, 1959, No. 42, eff. 7-1-59; r. and rec. Register, February, 1960, No. 50, eff. 3-1-60; am. Register, February, 1962, No. 74, eff. 3-1-62.

Ag 10.04 Swine, import. (1) (a) HEALTH CERTIFICATE. No person shall import any swine into this state unless such swine are identified

by ear tag, or other means of permanent identification approved by the department, and are accompanied by an interstate health certificate including thereon a report of official vaccination for hog cholera showing the kind of treatment and date of vaccination. Swine not officially vaccinated as prescribed in subsection (2) shall be admitted only if consigned and moved directly to a livestock market, dealer's premises, or public stockyard approved under title 9, part 76, Code of Federal Regulations. Such swine shall be vaccinated by the simultaneous injection of modified live virus vaccine and at least 20 cc. of anti-hog cholera serum (or 10 cc. of antibody concentrate) or such larger amount as may be prescribed on the product label, prior to removal from the premises. Swine fed raw garbage or vaccinated with virulent virus (includes porcine origin modified live virus), or with anti-hog cholera serum or antibody concentrate only may not be imported into this state. This paragraph shall not apply to swine imported from a state that has been designated as a hog cholera eradication state or hog cholera-free state by the federal bureau, provided such swine are identified as required by this paragraph and are accompanied by an interstate health certificate including thereon a report that such swine have been examined and are free from evidence of disease.

(b) Swine not officially vaccinated originating from a state that has been designated a hog cholera-free state or a hog cholera eradication state shall not be removed from a livestock market, dealer's premises or public stockyard, whether or not approved by the federal bureau, to a farm within this state without being vaccinated prior to removal with at least 20 cc. of anti-hog cholera serum or 10 cc. of antibody concentrate except as otherwise provided herein.

(2) OFFICIAL VACCINATION. Swine may be admitted as official vaccines on an interstate health certificate only if:

(a) Vaccinated not less than 21 days nor more than 1 year prior to shipment by means of modified live virus vaccine with or without anti-hog cholera serum or antibody concentrate.

(b) Vaccinated not less than 21 days nor more than 6 months prior to shipment by means of killed or inactivated hog cholera vaccine.

(3) QUARANTINE. All swine imported into this state shall be segregated and quarantined separate and apart from all other swine on the premises for a period of 21 days after arrival or date of vaccination in this state with modified live virus, whichever occurs later, provided swine imported through federally approved dealers, markets or public stockyards may be removed under permit from the department directly to a farm for the required isolation and quarantine period. The department shall inspect all such swine upon the expiration of the quarantine period and the quarantine shall be removed if no evidence of hog cholera is disclosed. In the event evidence of hog cholera is disclosed all infected or exposed swine shall be condemned and slaughtered.

(4) EXCEPTIONS. Healthy swine not infected with or exposed to hog cholera, other than swine fed raw garbage, may be imported if shipped directly to a slaughtering establishment for immediate slaughter, or to a federally approved livestock market, dealer's premises, or a public stockyard for sale to a slaughtering establishment, provided that swine treated with virulent virus (including

porcine origin modified live virus) may not be admitted for slaughter until 30 days after such treatment.

(5) **HEALTH CERTIFICATE.** In addition to the requirements of subsection (1), all swine imported into the state for breeding or exhibition purposes shall be accompanied by a report of negative brucellosis test conducted within 30 days of entry, or originate from a brucellosis-free certified herd with certification requirements equivalent to those required in section Ag 10.55. For the purpose of this section, when the swine brucellosis test discloses no agglutination in a dilution of 1-50 the animal shall be classified negative.

History: 1-2-56; Ag 10.04 renum. to be Ag 10.04 (1) and Ag 10.05 renum. to be Ag 10.04 (2), and as renum. are am., Register, June, 1959, No. 42, eff. 7-1-59; am. (1), Register, February, 1962, No. 74, eff. 3-1-62; renum. (2) to be (5); cr. (2), (3) and (4), Register, April, 1963, No. 88, eff. 5-1-63; r. and recr. (1) to (4), and am. (5), Register, February, 1967, No. 134, eff. 3-1-67.

Ag 10.05 Sheep, import. (1) (a) Sheep imported into this state for any purpose except for immediate slaughter shall be accompanied by an interstate health certificate which discloses that such sheep and their flock of origin were inspected within 10 days of the date of shipment and were free of foot rot and all other contagious and infectious diseases; provided that in the case of feeder lambs no flock inspection shall be required.

(b) The interstate health certificate accompanying such sheep which originate in a state or area which has been designated by the federal bureau as a scabies-free state or area shall also disclose that the area of origin is on the federal list of scabies-free areas published in the Code of Federal Regulations.

(c) The interstate health certificate accompanying any such sheep originating in states or areas not designated as scabies-free by the federal bureau shall also disclose that such sheep have been dipped, not more than 10 days prior to shipment, under the supervision of a veterinarian or inspector employed by the state or federal government, in a dip approved by the federal bureau.

(2) Sheep not known to be infected or exposed to scabies may be imported into this state for immediate slaughter if shipped directly to a slaughtering establishment or to a stockyards which is inspected by the federal bureau. Sheep originating in states or areas not designated as scabies-free by the federal bureau shall be accompanied by an interstate health certificate which discloses that such sheep were inspected within 10 days of the date of shipment and found free of contagious or infectious disease. Sheep imported pursuant to this subsection shall not be removed from a stockyards except to a slaughtering establishment for immediate slaughter, unless they have been inspected and dipped in a dip approved by the federal bureau.

History: 1-2-56; renum. from Ag 10.06 to be Ag 10.05 and as renum. is am., Register, June, 1959, No. 42, eff. 7-1-59; am. Register, February, 1962, No. 74, eff. 3-1-62; am. (1) (a), Register, January, 1965, No. 109, eff. 2-1-65.

Ag 10.06 Goats, import. No person shall import goats into this state unless such goats are accompanied by an interstate health certificate including thereon a report of negative brucellosis and tuberculosis tests conducted within 30 days of entry, except that (1) no report of negative tuberculosis test shall be required for goats from a herd certified as free from tuberculosis, and (2) no report of negative brucellosis test shall be required for goats from a herd certified

free from brucellosis. Such certifications shall be by an authorized agency of the state of origin of the shipment.

History: 1-2-56; renum. from Ag 10.07 to be Ag 10.06, and as renum. is am., Register, June, 1959, No. 42, eff. 7-1-59.

Ag 10.07 Dogs, import. No person shall import any dog over 6 months of age into this state unless it is accompanied by an interstate health certificate including thereon a report of vaccination for rabies. Vaccination shall be conducted not more than 12 months prior to entry; provided, that when chick embryo vaccine is used vaccination shall be conducted not more than 36 months prior to entry.

History: 1-2-56; renum. from Ag 10.08 to be Ag 10.07, and as renum. is am., Register, June, 1959, No. 42, eff. 7-1-59.

Ag 10.08 Circus, rodeo and menagerie animals, import. No interstate health certificate shall be required to import circus, rodeo and menagerie animals into this state, provided a permit is secured from the department. Cattle requiring a brucellosis test for importation into this state shall have been negative to a brucellosis test conducted within 12 months of the date of entry. Animals shall be isolated from other cattle in this state and facilities and vehicles used shall be cleaned and disinfected prior to use for other cattle. Persons importing such animals shall furnish the department a list of places and dates of exhibition. Permits shall be issued for a calendar year.

History: 1-2-56; renum. from Ag 10.09 to be Ag 10.08, and as renum. is am., Register, June, 1959, No. 42, eff. 7-1-59.

Ag 10.09 1-2-56; renum. to be Ag 10.08, Register, June, 1959, No. 42, eff. 7-1-59.

Ag 10.09 Bovine animals; exhibition. Bovine animals infected with mange, scab or ringworm may not be exhibited at any fair or other livestock exhibition. Animals found to be infected, or showing evidence of infection with mange, scab or ringworm after arrival at a fair or other livestock exhibition shall be isolated from other animals susceptible to the disease and removed from the premises. This section shall not apply to animals showing evidence of ringworm infection if in the opinion of the veterinarian in charge of such fair or exhibition the lesion is inactive and not capable of transmitting the disease.

History: Cr. Register, June, 1967, No. 138, eff. 7-1-67.

Ag 10.10 Quarantines, notice. (1) Quarantines to control communicable diseases among domestic animals shall be imposed by summary order of the department under the authority of section 93.07 (10), Wis. Stats. Any person affected by an order of quarantine may petition the department for hearing under section 93.18, Wis. Stats. Hearing shall be granted within 10 days following the filing of such petition. Determination thereon shall be made by the director of the department and notice thereof shall be served on the petitioner or his attorney, either personally or by registered mail, within 10 days following such hearing.

(2) No order of quarantine shall be effective until notice thereof has been given to each person directly affected thereby. Notice shall be in writing and shall prescribe all terms and conditions of the quarantine. It may be given personally, by mailing, or by posting a copy at 2 conspicuous places on the premises affected. Any quarantine of general application shall be adopted as a rule in accordance with chapter 227, Wis. Stats.

History: 1-2-56; am. (2), Register, June, 1959, No. 42, eff. 7-1-59.

Ag 10.11 Transportation, disinfection of vehicles. (1) No person shall cause any bovine animals to be commingled with sheep or swine while in transit except when the entire load of such animals is shipped to a slaughtering establishment or to a public stockyards inspected by the federal bureau.

(2) Each operator of a vehicle or car used to transport diseased animals shall thoroughly clean and disinfect the platform and side-
