Note: Chapter H 27 as it existed on July 31, 1979 was repealed and a new Chapter H 27 was created effective August 1, 1979.

H 27.01 Statutory applicability. (1) The following rules are adopted by the department of health and social services to create, implement, and administer the "Wisconsin Drug Formulary" in compliance with ss. 140.90 and 450.075 Stats.

(2) The effective date of the statute is March 20, 1976.

History: Cr. Register, June, 1979, No. 282, eff. 8-1-79.

H 27.02 Definitions. (1) Department means the department of health and social services.

(2) The formulary is the "Wisconsin Drug Formulary" as compiled and published by the department with the advice of the drug quality council.

(3) Cost means a cost determined by the department as representative of the common acquisition cost of a drug product.

(4) A drug product equivalent is a drug product listed in the formulary as being chemically identical and therapeutically equivalent to a brand name or reference drug product. For the purposes of s. 450.075 Stats., only those drug products listed in the drug formulary are considered to be drug product equivalents.

(5) Drug product substitution is the process by which a pharmacist dispenses a drug product other than the product prescribed by a practitioner.

History: Cr. Register, June, 1979, No. 282, eff. 8-1-79.

H 27.03 Posting. An unaltered copy of the most recent volume of the formulary, as published by the department, shall be conspicuously posted and available for consumer review wherever prescription drugs are sold. A sign printed and distributed by the department informing the consumer of the formulary and of the prescription filling options available for drugs listed in the formulary shall be posted in such a manner that it would be easily noticed and read by a reasonable person presenting a prescription order to the pharmacist or pharmacist's agent for filling.

History: Cr. Register, June, 1979, No. 282, eff. 8-1-79.

H 27.04 Notification. If the prescription order is written for a specific drug product listed in the "Wisconsin Drug Formulary," the pharmacist or an agent of the pharmacist shall inform the consumer that the prescribed drug product is listed in the "Wisconsin Drug Formulary" and that a drug product equivalent may be dispensed. This notification shall be made by means of an oral or written statement to the consumer at the time the prescription order is presented for filling; or at the time of delivery of the completed medication if the delivery occurs off the pharmacy premises.

History: Cr. Register, June, 1979, No. 282, eff. 8-1-79.
