

cured landfill sites which are specifically approved by the various state environmental agencies or which may be suitable for disposing of PCBs or products containing PCBs. This list shall provide the names of organizations offering suitable disposal services, including locations and facilities available to any person upon request. However, specific shipping directions, disposal procedures and costs shall be obtained from the organization.

(b) The department will consider applications for alternate disposal procedures and alternate disposal sites provided the applicant can demonstrate that the alternatives will not result in environmental pollution. Within 90 days of the receipt of an application for an alternate disposal method or disposal site, the department shall notify the applicant of approval or rejection or shall specify the additional information which is required to determine whether to approve the proposed procedures or sites.

History: Cr. Register, August, 1977, No. 260, eff. 9-1-77; am. (2) (a) and (3) Register, July, 1981, No. 307, eff. 8-1-81; am. (2) (a) and (3), Register, January, 1991, No. 421, eff. 2-1-91.

NR 157.20 Testing methods for PCBs and products containing PCBs. (1) For transformer fluids, waste oils, insulating liquids, and other non-polar liquids containing PCBs the procedures and gas chromatographic analysis used shall be as defined in "Standard Method for Analysis of Polychlorinated Biphenyls in Insulating Liquids by Gas Chromatography", ASTM standard D 4059-86, American Society for Testing and Materials, 1916 Race Street, Philadelphia, PA 19103; or "The Determination of Polychlorinated Biphenyls in Transformer Fluid and Waste Oils", EPA-600/4-81-045, U.S. EPA Monitoring and Support Laboratory, Cincinnati, OH.

(2) For paper and paperboard containing PCBs extraction procedures and gas chromatographic analysis shall be used as defined in the "Official Methods of Analysis of the AOAC", page 285, 15th edition.

Note: This publication may be obtained from the Association of Official Analytical Chemists, 2200 Wilson Blvd., Suite 400-CV, Arlington, VA 22201-3301.

(3) For leachate, non-drinking groundwaters, soils, sediments, and sludges containing PCBs not regulated by a Wisconsin pollution discharge elimination system permit, the extraction procedures and gas chromatographic analysis used shall be as defined in the method 8080A found in "Test Methods for Evaluating Solid Waste", SW-846, U.S. EPA, Update I, November 1990, 3rd edition, November 1986.

Note: Available from the Superintendent of Documents, U.S. Government Printing Office, Washington D.C. 20402.

(4) For wastewater and wastewater treatment sludges containing PCBs, testing methods are defined in ch. NR 219.

(5) For public drinking waters containing PCBs, testing methods are defined in ch. NR 109.

Note: Copies of the above publications are available for inspection at the offices of the Department of Natural Resources, the Secretary of State, and Revisor of Statutes.

Register, November, 1992, No. 443

(6) Laboratory test results submitted to the department under this chapter shall be performed by a laboratory certified or registered under ch. NR 149.

History: Cr. Register, August, 1977, No. 260, eff. 9-1-77; cr. (6), Register, April, 1986, No. 364, eff. 8-28-86; r. and recr. Register, November, 1992, No. 443, eff. 12-1-92.

NR 157.21 Approval of alternate test procedures. (1) Applications for approval of alternate test procedures for wastewater analysis must be made as directed in s. NR 219.05.

History: Cr. Register, August, 1977, No. 260, eff. 9-1-77; r. and recr. Register, November, 1992, No. 443, eff. 12-1-92.
