Subchapter I – General Provisions

HFS 89.11 Authority and purpose. This chapter is promulgated under the authority of s. 50.034, Stats., to establish standards and procedures for the certification or registration of residential care apartment complexes in order to promote the health and safety of persons residing in and receiving services from those facilities. This chapter is intended to ensure that all residential care apartment complexes provide each tenant with an independent apartment in a setting that is home-like and residential in character; make available personal, supportive and nursing services that are appropriate to the needs, abilities and preferences of individual tenants; and operate in a manner that protects tenants’ rights, respects tenant privacy, enhances tenant self-reliance and supports tenant autonomy in decision-making including the right to accept risk.

Note: Before September 6, 1997, residential care apartment complexes were called “assisted living facilities.” The name change was made by 1997 Wisconsin Act 13.

History: Cr. Register, February, 1997, No. 494, eff. 3-1-97; am., Register, November, 1998, No. 515, eff. 12-1-98.

HFS 89.12 Applicability. (1) This chapter applies to the department and to all residential care apartment complexes operating in Wisconsin.

(2) This chapter does not apply to nursing homes, community-based residential facilities or hospitals or to congregate housing or housing for the elderly.

History: Cr. Register, February, 1997, No. 494, eff. 3-1-97; am., Register, November, 1998, No. 515, eff. 12-1-98.

HFS 89.13 Definitions. In this chapter:

(1) “Residential care apartment complex” or “facility” means a place where 5 or more adults reside that consists of independent apartments, each of which has an individual lockable entrance and exit, a kitchen, including a stove, and individual bathroom, sleeping and living areas, and that provides, to a person who resides in the place, not more than 28 hours per week of services that are supportive, personal and nursing services. “Residential care apartment complex” does not include a nursing home or a community-based residential facility, but may be physically part of a structure that is a nursing home or community-based residential facility.

(2) “Residential care apartment complex services” means services provided by a residential care apartment complex, either directly or under contract, to meet needs identified in a tenant’s service agreement, to meet unscheduled care needs or to provide emergency services 24 hours a day.

(3) “Bathroom” means a room with floor to ceiling walls and a door which contains a toilet, a sink and a bathtub or shower.

(4) “Community-based residential facility” has the meaning specified in s. 50.01 (1g), Stats.

(6) “Congregate housing” means multi-unit rental housing which offers limited social support for tenants, including meals in a common dining room and space for group social and recreational activities.

Note: Congregate housing may become a residential care apartment complex if it chooses to offer supportive, personal and nursing services.

Note: Housing for the elderly may become a residential care apartment complex if it chooses to offer supportive, personal and nursing services.

(15) "Incapable of making care decisions" means unable to understand one's own needs for supportive, personal or nursing services; to choose what, if any, services one wants to receive to meet those needs; and to understand the outcome likely to result from that choice. The term refers to the ability to make a decision and not to the content or result of the decision.

(16) "Independent apartment" means an individual living unit that has its own individual lockable entrance and exit, kitchen, bathroom, sleeping and living areas.

(17) "Individual lockable entrance and exit" means a door that provides access to an independent apartment and is equipped with an individually keyed lock which is operable from both inside and outside the unit and which the tenant can open, close and lock to ensure privacy.

HFS 89.15 Limitation on use of name "residential care apartment complex". As provided in s. 50.034 (5), Stats., an entity that does not meet the definition of residential care apartment complex under s. 50.01 (1d), Stats., may not designate itself as a residential care apartment complex or use the words "residential care apartment complex" to represent or tend to represent the entity as a residential care apartment complex or services provided by the entity as services provided by a residential care apartment complex.

History: Cr. Register, February, 1997, No. 494, eff. 3-1-97; am., Register, November, 1998, No. 515, eff. 12-1-98.

Subchapter II – General Requirements for Operation

HFS 89.21 Applicability. The provisions of this subchapter apply to all residential care apartment complexes.

History: Cr. Register, February, 1997, No. 494, eff. 3-1-97; am., Register, November, 1998, No. 515, eff. 12-1-98.

HFS 89.22 Building requirements. (1) COMPLIANCE WITH APPLICABLE CODES. A residential care apartment complex shall comply with all applicable statutes, rules and regulations.

Note: The Wisconsin department of commerce considers residential care apartment complexes to be multifamily dwellings subject to the code in effect at the time of construction.

(2) APARTMENTS. (a) *Independent apartments.* All living units in a residential care apartment complex shall be independent apartments.

(b) *Physical features.* Each independent apartment shall have at least the following:

1. An individual lockable entrance and exit. A single door may serve as both entrance and exit. Keys to the door to the independent apartment and to the residential care apartment complex shall be supplied to the tenant.

2. A kitchen. The kitchen shall be a visually and functionally distinct area within the apartment. The refrigerator shall have a freezer compartment. The sink shall have hot and cold running

water. The stove shall be designed so that it can be disconnected, if necessary, for tenant safety.

3. An individual bathroom. The bathroom shall not be shared with or accessed from any other living unit.

4. Sleeping and living areas. The sleeping and living areas shall each be visually and functionally distinct areas within the apartment but need not be separate rooms. These areas shall contain sufficient space so that the tenant does not have to either sleep in the living area or use the sleeping area for eating, socializing or other general living uses and so that the tenant has the ability, if he or she so wishes, to arrange furniture in a way that provides some visual privacy for the sleeping area.

(c) *Size and configuration.* 1. Each apartment shall contain a minimum of 250 square feet of interior floor space, excluding closets.

2. Each independent apartment shall be of adequate size and configuration to permit tenants to carry out, with or without assistance, all the functions necessary for independent living, including sleeping; sitting; dressing; personal hygiene; storing, preparing, serving and eating food; storing clothing and other personal possessions; doing personal correspondence and paperwork; and entertaining visitors.

(d) *Multiple occupancy.* Multiple occupancy of an independent apartment shall be limited to a spouse or a roommate chosen at the initiative of the tenant.

(e) *Variations.* 1. In this paragraph, "variance" means permission to meet a requirement by an alternative means. A variance granted under this paragraph shall not exempt a facility from any other applicable rule, regulation or ordinance.

2. The department may grant a variance to the minimum floor space requirement under par. (c) 1. provided that the variance does not reduce the minimum floor space requirement under par. (c) 1. by more than 10%.

3. A variance may be granted only when a building or portion of a building constructed or under construction prior to the effective date of this rule is converted to a residential care apartment complex and the variance does not adversely affect the ability of the residential care apartment complex to meet the tenants' needs and does not jeopardize the health, safety or independence of the tenants.

4. A request for a variance shall be submitted to the department in writing and shall identify the requirement from which the variance is requested, the justification for the variance, and the alternative means by which the facility will meet the intent of the requirement. The department shall respond in writing to a request for a variance.

Note: A request for a variance should be sent to: Bureau of Quality Assurance, Division of Supportive Living, P.O. Box 7851, Madison, WI 53707.

(3) **ACCESSIBILITY OF PUBLIC AND COMMON USE AREAS.** All public and common use areas of a residential care apartment complex shall be accessible to and useable by tenants who use a wheelchair or other mobility aid consistent with the accessibility standards contained in ch. Comm 62. All areas for tenant use within the facility shall be accessible from indoors.

(4) **DISTINCT PART FACILITIES.** (a) *Physical and programmatic separation.* A residential care apartment complex shall be both physically and programmatically distinct from any nursing home, community-based residential facility or hospital to which it is attached or of which it is a part.

Note: This does not require separation between a residential care apartment complex and congregate housing, housing for the elderly or other purely residential use. For example, residential care apartment complex apartments may be interspersed with non-assisted living apartment units in the same building and a residential care apartment complex may share dining room and other common space with an attached apartment building.

(b) *Physical separation.* Tenants shall not be required to first enter or pass through a portion of the health care facility or community-based residential facility in order to enter a residential care apartment complex. Similarly, people shall not be required

to pass through the residential care apartment complex in order to enter a health care facility or community-based residential facility. A residential care apartment complex may share a common lobby and access area of a multipurpose building and may be entered via elevator from the lobby or access area. A dining room or activity area may be shared, provided it is not scheduled for concurrent use by residents of the health care facility or community-based residential facility and tenants of the residential care apartment complex.

(c) *Program separation.* Residential care apartment complex services shall be made available in the residential care apartment complex. Tenants of the residential care apartment complex shall not be required to go to a community-based residential facility or health care facility to receive supportive, personal or nursing services included in the service agreement. Nor shall tenants of a health care facility or community-based residential facility be required to receive services in a residential care apartment complex.

Note: This requirement does not prohibit voluntary sharing of activities; sharing of other services, such as physical therapy; sharing of administrative functions; or sharing of the space devoted to such activities, services or functions with the attached facility. Neither does it restrict sharing of space or activities with congregate housing, housing for the elderly or other purely residential uses.

History: Cr. Register, February, 1997, No. 494, eff. 3-1-97; am., Register, November, 1998, No. 515, eff. 12-1-98; **correction in (3) made under s. 13.93 (2m) (b) 7., Stats.**

(2) **SUFFICIENT SERVICES.** (a) *Minimum required services.* 1. In this paragraph, "capacity to provide" means that the facility is able to provide the minimum required services to any tenant who needs or develops a need for those services.

Note: A residential care apartment complex should be able to respond to changes in its tenants' need for the minimum required services by revising the service agreements and, if necessary, by either adjusting its staffing plan or contracting for services from other providers.

2. A residential care apartment complex shall have the capacity to provide all of the following services to all tenants, either directly or under contract:

a. Supportive services: meals, housekeeping in tenants' apartments, laundry service and arranging access to medical services. In this subparagraph, "access" means arranging for medical services and transportation to medical services.

b. Personal services: daily assistance with all activities of daily living which include dressing, eating, bathing, grooming, toileting, transferring and ambulation or mobility.

c. Nursing services: health monitoring, medication administration and medication management.

3. A residential care apartment complex shall ensure that sufficient services are available to meet care needs identified in each tenant's service agreement.

5. A facility is not required to provide or be staffed to provide services which are not needed, are not included in the service agreements or are above the minimum required levels.

(b) *Staff to meet tenant needs.* 1. The number, assignment and responsibilities of staff shall be adequate to provide all services identified in the tenants' service agreements.

2. Staff assignments shall include sufficient time necessary to permit staff to assist tenants with unscheduled care needs.

(c) *Emergency assistance.* A residential care apartment complex shall ensure that tenant health and safety are protected in the event of an emergency and shall have the capacity to provide emergency assistance 24 hours a day. A residential care apartment complex shall have a written emergency plan which describes

staff responsibilities and procedures to be followed in the event of fire, sudden serious illness, accident, severe weather or other emergency and is developed in cooperation with local fire and emergency services.

(3) **SERVICE QUALITY.** (a) Residential care apartment complex services shall be provided by qualified staff, consistent with the requirements under sub. (4).

(b) Services shall be provided in the type, amount and frequency identified in the service agreements.

(4) **PROVIDER QUALIFICATIONS.** (a) *Service providers.* 1. Residential care apartment complex services shall be provided by staff who are trained in the services that they provide and are capable of doing their assigned work. Any service provider employed by or under contract to a residential care apartment complex shall meet applicable federal or state standards for that service or profession.

2. Nursing services and supervision of delegated nursing services shall be provided consistent with the standards contained in the Wisconsin nurse practice act. Medication administration and medication management shall be performed by or, as a delegated task, under the supervision of a nurse or pharmacist.

Note: The nurse practice act is published as "Wisconsin Statutes and Administrative Code Relating to the Practice of Nursing" and is available from the Department of Regulation and Licensing, Board of Nursing, P.O. Box 8935, Madison, WI 53708.

3. Personal and supportive services shall be provided by staff who have documented training or experience in needs and techniques for assistance with tenant care and activities of daily living, such as bathing, grooming, skin care, transfer, ambulation, exercise, meal preparation and eating assistance, dressing, and use of adaptive aids and equipment.

(b) *Service manager.* 1. Each residential care apartment complex shall have a designated service manager who shall be responsible for day-to-day operation of, including ensuring that the services provided are sufficient to meet tenant needs and are provided by qualified persons; that staff are appropriately trained and supervised; that facility policies and procedures are followed; and that the health, safety and autonomy of the tenants are protected. The service manager shall be capable of managing a multi-disciplinary staff to provide services specified in the service agreements.

2. A person shall be designated to be in charge of the facility whenever there is not a service manager present. The person in charge shall be competent to supervise staff of the residential care apartment complex. The person in charge shall be available to the residential care apartment complex and shall be identified to and easily reachable by all tenants and staff. In this subdivision "available" means accessible and able to ensure that services are provided to tenants as required under sub. (1). The person in charge is available if he or she is either present in the facility or present, awake and on duty in an attached or adjacent residential, health care or other similar facility and able to be physically present in the facility on short notice.

(c) *Freedom from abuse, neglect and exploitation.* A residential care apartment complex shall ensure that tenants are free from abuse, neglect or financial exploitation by the facility or its staff. A residential care apartment complex shall not employ an individual who has been convicted of a crime that is substantially related to the circumstances of the job or for whom there is a substantiated

finding of abuse or neglect or misappropriation of property in the department's registry for nurse aides, home health aides and hospice aides. The facility shall conduct a criminal records check with the Wisconsin department of justice and shall check with the department's registry for nurse aides, home health aides and hospice aides when hiring a service manager, service providers and other persons to work in the facility or have contact with tenants.

Note: Substantiated findings of client abuse or neglect or misappropriation of client property are recorded in the department's registry which can be accessed 24 hours a day by calling (608) 266-5545. See ch. HFS 12 for required background checks including a criminal record check.

(d) *Staff training.* 1. All facility staff shall have training in safety procedures, including fire safety, first aid, universal precautions and the facility's emergency plan, and in the facility's policies and procedures relating to tenant rights.

2. Staff providing residential care apartment complex services to tenants shall have documented training or experience in the following areas:

a. Physical, functional and psychological characteristics associated with aging or likely to be present in the tenant population and their implications for service needs.

b. The purpose and philosophy of assisted living, including respect for tenant privacy, autonomy and independence.

c. Assigned duties and responsibilities, including the needs and abilities of individual tenants for whom staff will be providing care.

(5) **DOCUMENTATION.** A residential care apartment complex shall document that the requirements for provider qualifications have been met.

(6) **WRITTEN STAFFING PLAN.** A residential care apartment complex shall maintain an up-to-date, written staffing plan which describes how the facility is staffed to provide services that are sufficient to meet tenant needs and that are provided by qualified staff. The facility shall inform current and prospective tenants and their representatives about the existence and availability of the staffing plan and shall provide copies of the plan upon request.

History: Cr. Register, February, 1997, No. 494, eff. 3-1-97; am., Register, November, 1998, No. 515, eff. 12-1-98.

HFS 89.24 Hours of service. (1) **LIMIT ON HOURS OF SERVICE PROVIDED.** A residential care apartment complex shall provide not more than 28 hours per week of supportive, personal and nursing services to each tenant. There is no limit on the type or amount of other services, activities or amenities which the facility provides.

Note: Some individuals may initially need little or no service but, over time, may need more services up to the full 28 hours per week.

(2) **AMOUNT OF SERVICE PROVIDED TO INDIVIDUAL TENANTS.** (a) *Services provided by the residential care apartment complex.* The amount of supportive, personal and nursing service which a facility provides to a tenant, either directly or under contract, shall be determined by the tenant's needs and preferences, as documented in the service agreement. A residential care apartment complex shall not limit the hours of service it makes available for an individual tenant to less than 28 hours per week if needed by the tenant.

(b) *Services from providers other than the residential care apartment complex.* 1. A tenant may contract for additional services not included in the service agreement from providers of the tenant's choice, so long as the tenant informs the facility, complies with applicable facility policies and procedures and agrees to have the arrangements reflected in the risk agreement. Except as limited by a facility under subd. 3., there is no restriction on the amount or type of service which a tenant may receive from providers other than the facility.

2. A residential care apartment complex may approve the provider of supportive, personal or nursing services for any particular tenant and require that providers of these services comply with established facility standards and policies.

3. A residential care apartment complex may only limit the amount of supportive, personal and nursing service a tenant purchases from outside providers when the total amount of supportive, personal and nursing services that the tenant receives from all paid providers exceeds 28 hours per week. A facility may not limit the amount of hospice care a tenant receives or the amount of unpaid services provided by the tenants family or friends. A facility may not limit the amount of recuperative care which a tenant receives, provided the recuperative care will not raise the total service level above 28 hours per week for more than 90 days.

(3) COMPUTING HOURS OF SERVICE. (a) *Purpose.* A residential care apartment complex shall compute hours of service provided to an individual tenant when necessary for the purpose of determining whether the 28 hour per week limit on services under sub. (1) has been reached and making related decisions about the appropriateness of continued residency in the facility. The computation may be initiated by the facility or at the request of the tenant, the tenant's family or other representative, or the department. Facilities are not required to continually document the amount of time spent in providing services to each tenant.

Note: This requirement is intended solely for the purpose of determining whether a person can appropriately reside in a residential care apartment complex. It is not intended for the purposes of documenting or billing for services provided or for determining facility staffing levels.

(b) *Method for computing hours of service.* 1. Only staff time that is directly attributable to providing or arranging supportive, personal and nursing services to a tenant shall count toward the 28-hour per week limit on services. Hours of service include time devoted to nursing assessment, documentation and consultation, stand-by assistance for activities of daily living and any other services directly attributable to an individual tenant.

2. Congregate services such as meals served in a common dining room, housekeeping in common areas of the facility, laundry and social and recreational activities which would be typically available in a hotel or in unlicensed housing for the elderly shall not be counted toward the 28-hour per week limit on services.

3. Time spent in meeting a tenant's unscheduled care needs shall be included in the 28 hours.

4. Services arranged directly by an individual tenant from a provider other than the residential care apartment complex shall not count toward the limit on the amount of services provided by a facility under sub. (1).

History: Cr. Register, February, 1997, No. 494, eff. 3-1-97; am., Register, November, 1998, No. 515, eff. 12-1-98.

HFS 89.25 Schedule of fees for services. (1) Residential care apartment complexes shall have a written schedule of fees for services which includes all of the following:

(a) Separately identified charges for rent, meals and services. The schedule of fees for services shall clearly identify those services which are included in any base service rate or rates and those for which there will be separate charges.

(b) The amount of any application fee, entrance fee or security deposit.

(c) The facility's refund policy regarding application and entrance fees, security deposits and monthly rent, meal and service charges in the event of death or termination of the contract between the tenant and the facility.

(2) The schedule of fees for services shall be presented in language and a format that make it possible for tenants to readily identify the cost of the components of the service agreement and to be able to make informed choices about the services they receive.

(3) A copy of the schedule of fees for services shall be given to each prospective tenant and to the prospective tenant's family or designated representative, where appropriate, along with public information materials on assisted living if provided by the department. Copies of revised fee schedules shall be provided to

current tenants and their families or representatives, where appropriate, at least 30 days in advance of an increase in fees.

(3) PARTICIPATION IN THE ASSESSMENT. (a) A comprehensive assessment shall be performed with the active participation of the prospective tenant. That person's family or designated representative shall also participate in the assessment, if desired by the person.

(b) Persons performing the comprehensive assessment shall have expertise in areas related to the tenant's health and service needs. Portions of the comprehensive assessment relating to physical health, medications and ability to self-administer medications shall be performed by a physician or a registered nurse.

(c) A comprehensive assessment shall be performed or arranged for by:

2. 'Termination or transfer'. Grounds for termination of the contract between the tenant and the facility or relocation of the tenant to another residence and the procedure for tenant participation in decisions regarding termination and relocation. (2) CONTENT. A risk agreement shall identify and state all of the following:

(a) *Risk to tenants*. 1. Any situation or condition which is or should be known to the facility which involves a course of action

2. The tenant's preference concerning how the situation is to be handled and the possible consequences of acting on that preference.

3. What the facility will and will not do to meet the tenant's needs and comply with the tenant's preference relative to the identified course of action.

4. Alternatives offered to reduce the risk or mitigate the consequences relating to the situation or condition.

5. The agreed-upon course of action, including responsibilities of both the tenant and the facility.

6. The tenant's understanding and acceptance of responsibility for the outcome from the agreed-upon course of action.

(b) *Unmet needs*. Any needs identified in the comprehensive assessment which will not be provided for by the facility, either directly or under contract.

(c) *Notice regarding enforcement in registered facilities*. For registered facilities only, notice that the department does not routinely inspect registered facilities or verify their compliance with this chapter and does not enforce contractual obligations under the service or risk agreements.

(3) NO WAIVER OF RULES OR RIGHTS. A risk agreement may not waive any provision of this chapter or any other right of the tenant.

(4) OBLIGATION TO NEGOTIATE IN GOOD FAITH. Neither the tenant nor the facility shall refuse to accept reasonable risk or insist that the other party accept unreasonable risk.

(5) SIGNED AND DATED. The risk agreement shall be signed and dated by both an authorized representative of the residential care apartment complex and by the tenant or the tenant's guardian and agents designated under an activated power of attorney for health care under ch. 155, Stats., and durable power of attorney under s. 243.10, Stats., if any.

HFS 89.29 Admission and retention of tenants.

(1) ADMISSION. No residential care apartment complex may admit any of the following persons, unless the person being admitted shares an apartment with a competent spouse or other person who has legal responsibility for the individual:

(a) A person who has a court determination of incompetence and is subject to guardianship under ch. 880, Stats.

(b) A person who has an activated power of attorney for health care under ch. 155, Stats.

(c) A person who has been found by a physician or psychologist to be incapable of recognizing danger, summoning assistance, expressing need or making care decisions

Note: This requirement is included because tenants need to be competent to understand and express their needs and preferences, enter into a service agreement and understand and accept risk.

(1m) FAMILY CARE INFORMATION AND REFERRAL. If the secretary of the department has certified that a resource center, as defined in s. HFS 10.13 (42), is available for the residential care apartment complex under s. HFS 10.71, the residential care apartment complex shall provide information to prospective residents and refer residents and prospective residents to the aging and disability resource center as required under s. 50.034 (5m) to (5p), Stats., and s. HFS 10.73.

(2) RETENTION. (a) A residential care apartment complex may retain a tenant whose service needs can be met by the facility or can be met with services made available by another provider.

(b) A residential care apartment complex may retain a tenant who becomes incompetent or incapable of recognizing danger, summoning assistance, expressing need or making care decisions, provided that the facility ensures all of the following:

1. That adequate oversight, protection and services are provided for the individual.
2. That the tenant has a guardian appointed under ch. 880, Stats., or has an activated power of attorney for health care under ch. 155, Stats., or a durable power of attorney under s. 243.10, Stats., or both. The activated power of attorney for health care or durable power of attorney shall, either singly or together, substantially cover the person's areas of incapacity.
3. That both the service agreement and risk agreement are signed by the guardian and by the health care agent or the agent with power of attorney, if any.

Note: Facilities are permitted the option of retaining tenants who become incompetent or incapable of recognizing danger, summoning assistance, expressing need or making care decisions because familiar surroundings and routines are an important component of dementia care and in order to accommodate aging in place.

(c) No owner, operator, staff member or family member of a person connected with a residential care apartment complex may serve as a guardian, representative payee or other financial conservator for a tenant of the facility.

(3) TERMINATION OF CONTRACT. (a) *Reasons.* A residential care apartment complex may terminate its contract with a tenant when any of the following conditions apply:

1. Except as provided under par. (b), the tenant's needs cannot be met at the level of service which facilities are required to make available to tenants under s. HFS 89.23 (2).
2. Except as provided under par. (b), the time required to provide supportive, personal and nursing services to the tenant exceeds 28 hours per week.
3. Except as provided under par. (b), the tenant's condition requires the immediate availability of a nurse 24 hours a day.
4. The tenant is adjudicated incompetent under ch. 880, Stats., has an activated power of attorney for health care under ch. 155, Stats., or has been found to be incapable of recognizing danger, summoning assistance, expressing need or making care decisions by 2 physicians or by one physician and one licensed psychologist who have personally examined the tenant and signed a statement specifying that the person is incapable.
5. The tenant's behavior or condition poses an immediate threat to the health or safety of self or others. Mere old age, eccentricity or physical disability, either singly or together, are insufficient to constitute a threat to self or others.
6. The tenant refuses to cooperate in an examination by a physician or licensed psychologist of his or her own choosing to determine his or her health or mental status for the purpose of establishing appropriateness for retention or termination.
7. The tenant's fees have not been paid, provided the tenant and the tenant's designated representative, where appropriate, were notified and given reasonable opportunity to pay any deficiency.
8. The tenant refuses to enter into a negotiated risk agreement or refuses to revise the risk agreement when there is a documented and significant medical reason for doing so.
9. The presence of any condition identified as grounds for termination in the service agreement, provided that these grounds are not inconsistent with requirements contained in subds. 1. to 8.

(b) *Supplemental services as an alternative to termination.* A residential care apartment complex shall not terminate its contract with a tenant for a reason under par. (a) 1. to 3. if the tenant arranges for the needed services from another provider consistent with s. HFS 89.24 (2) (b) and any unmet needs or disputes regarding potentially unsafe situations are documented in a risk agreement.

(c) *Procedures for termination.* 1. a. Except as provided under subd. 2., a residential care apartment complex shall provide 30 days advance notice of termination to the tenant and the tenant's designated representative, if any. If there is no designated representative, the facility shall notify the county department of social or human services under s. 46.21, 46.22 or 46.23, Stats.

b. Notice of termination shall include the grounds for termination and information about how to file a grievance consistent with the termination and grievance policies and procedures contained in the service agreement.

c. The 30-day notice period required for termination may include the period covered by a notice of nonpayment of fees and opportunity to pay any deficiency as required under par. (a) 7., provided that notice of termination is included with the notice of non-payment of fees.

2. No 30-day notice is required in an emergency. In this subdivision, "emergency" means an immediate and documented threat to the health or safety of the tenant or of others in the facility.

(d) *Failure to meet requirements of this chapter.* If the requirements of this chapter are violated by either the facility or the tenant, the party which is not in violation may terminate the contract on 30 days written notice without financial penalty.

(3) The department may grant a variance to a requirement of this subchapter when it is demonstrated to the satisfaction of the department that granting the variance is consistent with the purpose of the demonstration and will not jeopardize the health, safety, welfare or rights of any resident in the residential care apartment complex. The department may place a time limit and conditions on the variance.

(4) A request for variance shall be submitted to the department in writing and shall include all of the following:

- (a) The efficiencies and quality assurance approaches to be demonstrated through the variance.

- (d) A plan for meeting the care needs and ensuring the health, safety and welfare of tenants.
- (e) An agreement to provide information to and to cooperate with the department in monitoring and evaluating the quality and cost effectiveness of the demonstration.
- (f) A letter of support for the variance from the care management organization as defined in s. 46.2805 (1), Stats. serving the area where the facility is located.
- (g) Documentation that the facility has a contract with a care management organization, as defined in s. 46.2805 (1), Stats., for services to its enrollees.
