The employee shall be considered a party to any request for certification and shall provide documentation required under sub. (4) pertaining to occupational, academic and teaching experience to the district director or designee for submission to the board. A request for certification of a person following initial employment by the district shall be submitted as soon as practicable, but no later than 6 months following commencement of employment with the district.

(2) CERTIFICATION REQUESTS BY INDIVIDUALS. Following initial certification pursuant to sub. (1), an individual may request provisional or 5-year certificates for additional areas of instruction or categories of certification. Requests under this subsection shall be submitted to the district director or designee with documentation required under sub. (4) pertaining to occupational, academic and teaching experience, and the district director or designee shall forward the certification request and documentation to the board. A person requesting certification under this subsection shall be responsible for payment of a fee equivalent to the fee charged to the district by the board for certification initiated by the district. Districts shall be annually notified as to the amount of the certification fee.

(3) ADDITIONAL CERTIFICATION REQUESTS BY DISTRICTS. Upon assignment of an employee to a position not included in the initial certification under sub.
