20 certification indicating that the installation complies with the rules promulgated  
21 under this section. The rules shall include an enforcement procedure and a  
22 procedure pursuant to which the department may grant a variance from the rules

25 AND ALTERATION. (a) *Permit required.* No person may construct, install, or alter a

1 conveyance in this state unless an elevator contractor licensed by the department

4 (b) *Application.* A person applying for a permit under par. (a) shall include,  
5 along with the application, copies of specifications and accurately scaled and fully  
6 dimensioned plans showing the location of the construction, installation, or  
7 alteration in relation to the plans and elevation of the building; the location of the  
8 applicable machinery room, if any, and the equipment to be constructed, installed,  
9 or altered; and all structural supporting members relevant to the construction,  
10 installation, or alteration, including foundations. The specifications and plans shall  
11 be sufficiently complete to illustrate all details of design and construction,  
12 installation, or alteration. The application shall specify all materials to be used and  
13 all loads to be supported or conveyed. The department may authorize a person to  
14 include the application and other information required under this paragraph with  
15 any submission required under s. 101.12 (1) to avoid duplicative filing of information.

16 (c) *Revocation.* The department may revoke a permit issued under this  
17 subsection if the department finds any of the following:

18 1. That information submitted under par. (b) by the person obtaining the  
19 permit contains false statements or misrepresentations of material fact.

20 2. That the permit was issued in error.

21 3. That the work performed under the permit is not consistent with information  
22 submitted under par. (b) by the person obtaining the permit or is in violation of this  
23 subchapter or rules promulgated under this subchapter.

24 (d) *Expiration.* A permit issued under this subsection expires under any of the  
25 following circumstances:

1           1. If the work authorized under the permit is not commenced within 6 months  
2 after the date on which the permit is issued, or within a shorter period of time as  
3 specified by the department at the time the permit is issued.

4           2. If the work authorized under the permit is suspended or abandoned for 60  
5 consecutive days at any time following the commencement of the work, or for a  
6 shorter period of time as specified by the department at the time the permit is issued.

7           **(2) OPERATION.** (a) *Permit required.* No person may allow a conveyance to be  
8 operated on property owned by the person unless the person has received a permit  
9 for the operation from the department. The department may not issue a permit  
10 required under this paragraph until all inspections required under par. (c) are  
11 completed.

12           (b) *Application.* For a newly installed conveyance, the elevator contractor that  
13 contracted to perform the installation shall apply for the initial permit required  
14 under par. (a) on behalf of the owner of the building in which the conveyance is  
15 located. Applications for renewal of the permit shall be made by the owner.

16           (c) *Inspections.* The department may not issue or renew a permit under this  
17 subsection unless the department has received an inspection report for the  
18 conveyance issued by an elevator inspector licensed under s. 101.985 (3) indicating  
19 that the conveyance complies with this subchapter and any applicable rules  
20 promulgated under this subchapter. Upon request of the owner of a private residence  
21 containing a newly installed platform lift, stairway chair lift, or residential lift or of  
22 the new owner of a private residence containing a previously installed platform lift,  
23 stairway chair lift, or residential lift, the department shall inspect the lift or  
24 equipment for compliance with this subchapter and any applicable rules  
25 promulgated under this subchapter. This inspection by the department does not

1 exempt the owner from the requirement to ensure that the department receives an  
2 inspection report from a licensed elevator inspector. Upon performing this  
3 inspection, the department shall give the owner notice of relevant conveyance safety  
4 requirements and shall instruct the owner as to the procedure for obtaining periodic  
5 inspections and renewing the permit under which the lift or equipment is operated.

6 (d) *Term and posting requirements.* A permit issued under this subsection has  
7 a term of one year, except that a permit applicable to a platform lift, stairway chair  
8 lift, or residential lift in a private residence is valid until ownership of the private  
9 residence is transferred, at which time the new owner shall apply for renewal of the  
10 permit under par. (b). The owner of the building or residence in which a conveyance  
11 is located shall display the permit under par. (a) applicable to the conveyance on or  
12 in the conveyance or, if applicable, in the machinery room.

5 a building or where the hoistway or wellway is demolished back to the basic support  
6 structure such that the hoistway or wellway is inaccessible.

7 2. Paragraphs (a) and (b) do not apply to any of the following:

22 issue an elevator contractor's license to each person who demonstrates to the  
23 satisfaction of the department that the person is adequately qualified and able to  
24 engage in business as an elevator contractor. The department may summarily issue  
25 an elevator contractor's license to a person who is licensed as an elevator contractor

1 under the laws of another state, if, in the opinion of the department, that state's  
2 regulation of elevator contractors is substantially the same as this state's. Every  
3 person who applies for a license under this subsection shall provide the department  
4 with a certificate of insurance issued by one or more insurers authorized to do  
5 business in this state, indicating that the person is insured in the amount of at least  
6 \$1,000,000 per occurrence because of bodily injury to or death of others, is insured

7 licenses to individuals who have performed work described under s. 101.984 (2) (a)

13 do not apply to an individual who is licensed as an elevator mechanic under the laws  
14 of another state, if, in the opinion of the department, that state's regulation of  
15 elevator mechanics is substantially the same as this state's. The department may  
16 summarily issue an elevator mechanic's license to such an individual.

17 (c) *Emergency licensing.* If the governor declares that a state of emergency  
18 exists in this state under s. 166.03 (1) (b) 1. and the department determines that the  
19 number of individuals in the state who hold elevator mechanic's licenses issued by  
20 the department under this section on the date of the declaration is insufficient to cope  
21 with the emergency, the department shall summarily issue an emergency elevator

7 which the licensee may provide services under the license. The requirements under  
8 par. (a) 1. to 4. do not apply to an individual who applies for an emergency elevator  
9 mechanic's license.

10 (d) *Temporary licensing.* If there are no elevator mechanics licensed under this  
11 subchapter available to provide services contracted for by an elevator contractor  
12 licensed under this subchapter, the elevator contractor may notify the department  
13 and request the issuance of a temporary elevator mechanic's license to any individual  
14 who is certified by the elevator contractor as adequately qualified and able to perform  
15 the work of an elevator mechanic without direct and immediate supervision and who  
16 applies for a temporary elevator mechanic's license on a form prescribed by the  
17 department. A temporary elevator mechanic's license has a term of 30 days and may  
18 be renewed by the department in the case of a continuing shortage of licensed  
19 elevator mechanics. The department shall specify on a temporary elevator  
20 mechanic's license the elevator contractor in whose employ the licensee must remain  
21 to provide services under the temporary elevator mechanic's license. The  
22 requirements under par. (a) 1. to 4. do not apply to an individual who applies for a  
23 temporary elevator mechanic's license.

3 required for issuance of an elevator inspector license.

5 under sub. (1), (2) (a), or (3), the department, with the assistance of the department  
6 of justice, shall conduct a background investigation of the applicant to determine if  
7 the information provided by the applicant under sub. (7) (a) 10. is true and if  
8 applicant has any arrests or convictions tending to indicate that the applicant is not  
9 adequately qualified and able to provide services authorized under the license  
10 applied for.

13 a license to any applicant who satisfies the applicable requirements of subs. (1) to (3)  
14 and any rules promulgated under subs. (1) to (3) and who pays any applicable fee  
15 required by rule of the department under s. 101.19 (1) (k). Except as provided under  
16 sub. (2) (c) and (d), the term of each license is 2 years.

17 (b) *Renewal and continuing education.* 1. Except as otherwise provided in this  
18 subdivision, an applicant for renewal of a license under sub. (1), (2) (a) or (b), or (3)  
19 shall provide to the department a certificate indicating that, during the one-year  
20 period before the date on which the applicant's license expires, the applicant has  
21 satisfactorily met with the education requirements established by rule under subd.  
22 2. If the applicant is not an individual, the certificate shall indicate that the  
23 education requirements were satisfactorily met by an individual who, as of the date  
24 of the application, is an agent of the applicant.

1           2. The department shall promulgate rules that establish the education  
2 requirements for purposes of subd. 1. The rules shall include all of the following:

3           a. Standards for certification of specific programs.

8 license issued under subs. (1) to (3) if the department finds any of the following:

10 submitted to the department.

11           (b) That the license was obtained by fraud, misrepresentation, or bribery.

12           (c) That the licensee failed to notify the department and the owner or lessee of

14 subchapter or of the rules promulgated under this subchapter.

15           (d) That the licensee violated this subchapter or any rule promulgated under  
16 this subchapter.

17           **(7) APPLICATION.** (a) Each application for a license under subs. (1), (2) (a), or
