**ASSEMBLY SUBSTITUTE AMENDMENT 1,
TO ASSEMBLY BILL 111**

June 1, 2021 - Offered by Representative SPIROS.

1 **AN ACT** *to amend* 79.035 (5); *to repeal and recreate* 79.035 (5); and *to create*
2 79.035 (9) of the statutes; **relating to:** decreasing shared revenue payments to
3 municipalities based on decreased funding for law enforcement officers,
4 members of the paid fire department, and emergency medical responders.

Analysis by the Legislative Reference Bureau

Under this bill, if in any year a municipality decreases the amount of its municipal budget dedicated to hiring, training, and retaining law enforcement officers, members of the paid fire department, or emergency medical responders so that it is less than the amount dedicated to that purpose in the previous year, the municipality will receive a county and municipal aid payment that is reduced by the amount of that decrease. Also, under the bill, if in any year a municipality maintains the amount of its budget dedicated to hiring, training, and retaining law enforcement officers, members of the paid fire department, or emergency medical responders but retains fewer officers, fire fighters, or responders than in the previous year, the municipality will receive a county and municipal aid payment that is reduced by the amount of the compensation that the municipality paid to the officers, fire fighters, and responders that it did not retain, not including officers funded by federal grants. The bill provides that the amount of all such reductions will be distributed to the municipalities that did not reduce their budgets for providing law enforcement, fire

fighting, or emergency medical response services in proportion to each municipality's share of the total amount of county and municipal aid payments. Furthermore, the amount of the reduced payment that the municipality receives becomes the amount of county and municipal aid that the municipality will receive in subsequent years.

The reductions under the bill do not apply to a municipality that transfers responsibility for providing law enforcement, fire fighting, or emergency medical response services to another local unit of government or that enters into a cooperative agreement to share law enforcement, fire fighting, or emergency medical response services with another local unit of government. The reductions under the bill also do not apply to a municipality that decreases its budget related to law enforcement, fire fighting services, or emergency medical response services while retaining the same number of members of the paid fire department, emergency medical responders, and law enforcement officers, not including officers funded by federal grants. Finally, the reductions under the bill do not apply to any municipality that regularly employs and retains fewer than 30 law enforcement officers, members of the paid fire department, or emergency medical responders.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
