Analysis Prepared by the Department
of Agriculture, Trade and Consumer Protection

This rule makes minor and technical changes to a number of current rules administered by the department of agriculture, trade and consumer protection (“DATCP”).

Statutes Interpreted

Statutes Interpreted: s. 97.03, Ch. 98, ss. 100.20 and 100.45, Stats.

Statutory Authority

Statutory Authority: ss. 93.07(1), 97.09(1) and (4), 97.42 (4) (j), 98.03 (2), 98.07 (3) and (4), 98.16 (4), 98.18 (2), 98.224 (4), 98.245 (9), 100.20 (2), and 100.45 (5) (a) and (e), Stats.

Explanation of Statutory Authority

DATCP has broad general authority, under s. 93.07(1), Stats., to interpret laws under its jurisdiction.

DATCP has authority under s. 97.09 (1), Stats., to define or adopt standards of identity, composition, quality and fill of food containers. DATCP has general authority, under s. 97.09 (4), Stats., to adopt rules specifying standards to protect the public from the sale of adulterated or misbranded foods. DATCP has authority under s. 97.42 (4) (j), Stats., to administer inspections of animals, poultry and carcasses.

DATCP has authority under s. 98.03 (2), Stats., to issue rules governing the construction, installation and use of commercial weights and measures and prescribing tolerances. DATCP has authority under s. 98.07 (3) and (4), Stats., to issue rules specifying tolerances for variations from quantities stated on packages. DATCP has authority under s. 98.16 (4), Stats., to regulate the construction, operation, testing, and maintenance of vehicle scales. DATCP has authority under s. 98.18 (2), Stats., to regulate the installation, servicing, testing and certification of weights and measures. DATCP has authority under s. 98.224 (4), Stats., to promulgate rules that establish standards for the construction, operation, and maintenance of vehicle tank meters, and authority under s. 98.245 (9), Stats., to establish standards for liquefied petroleum gas meters.

DATCP has authority under s. 100.20 (2) (a), Stats., to forbid unfair methods of competition and unfair trade practices.

DATCP has authority under s. 100.45 (5) (a), Stats., to promulgate rules establishing standards for recycled refrigerant based on recognized national industry standards, and qualifications for individuals and businesses that service mobile air conditioners. However, s. 100.45 (5e) (b), Stats., prohibits DATCP from promulgating rules that prohibit the sale of refrigerant that is a substitute for ozone-depleting refrigerant in a container holding less than 15 pounds.

Related Statutes and Rules

This proposed rule updates a number of existing rule chapters and is related to several statutes and rules.

Chapter ATCP 90, Fair Packaging and Labeling, requires certain information be included on product labels. This rule is related to ch. 97 Food Regulation and ch. 98 Weights and Measures, Stats.

Chapter ATCP 91, Selling Commodities by Weight, Measure or Count, regulates how a seller communicates quantity of product to the buyer. This rule is related to ch. 98, Stats., Weights and Measures.

Chapter ATCP 92, Weights and Measures, regulates the accuracy of scales, tank meters, and other measuring devices. It contains license or certification programs for devices, technicians and service companies. This rule is related to Ch. 98, Stats., Weights and Measures.

Chapter ATCP 113, Gasoline Advertising, prohibits gasoline sellers from misrepresenting the octane rating of gasoline. This rule is promulgated under s. 100.20, Unfair Trade Practices, Stats. Gasoline octane is also regulated under Ch. 168, Stats., Oil Inspection, and ch. SPS 348, Petroleum and Other Liquid Fuel Products.

Chapter ATCP 136, Mobile Air Conditioners; Reclaiming or Recycling Refrigerant, regulates the repair or service of motor vehicle air conditioners and trailer refrigeration equipment. This rule relates to s. 100.45, Stats., Mobile Air Conditioners.

Plain Language Analysis

Rule Content

General

This rule modifies existing rules with a number of technical updates and minor changes. It does not represent any significant shift in the overall goals or policies of the existing rules.

Chapter ATCP 90 - Fair Packaging and Labeling

Under current rules, the definition of “unreasonable shortage” as it relates to Fair Packaging and Labeling, refers to the maximum allowable variation specified for a commodity in the National Institute of Standards and Technology (NIST) Handbook 133, “Checking the Net Contents of Packaged Goods.” However, the current rule does not specify which edition of NIST Handbook 133 it is referencing. This rule modifies the definition of “unreasonable shortage” to specifically reference NIST Handbook 133, “Checking the Net Contents of Packaged Goods,” (2013 edition).

Chapter ATCP 91 - Selling Commodities by Weight, Measure or Count

The current rule lists a number of commodities and incorporates references to NIST Handbook 130, “Uniform Laws and Regulations in the Area of Legal Metrology and Engine Fuel Quality,” (2011 edition). This rule updates these references to the 2013 Edition. It also corrects references to specific sections (in the case of liquid oxygen used for respiration and liquefied petroleum gases).

Chapter ATCP 92 - Weights and Measures

The current rule regulates weighing and measuring devices, state and municipal inspection programs, and licensing requirements for service companies. The current rule incorporates references to NIST Handbook 44, “Specifications, Tolerances and Other Technical Requirements for Weighing and Measuring Devices,” (2011 edition). This rule updates these references to the 2013 Edition.

The current rule contains several “notes” informing the reader how to obtain license applications and similar documents from DATCP. This rule updates these notes to conform to changes in DATCP web pages and other changes.

Chapter ATCP 92, Subchapter IV regulates vehicle scales and livestock scales. However, there are some significant differences between the two. Installing or relocating a vehicle scale requires a permit from DATCP. DATCP also collects installation reports for vehicle scales, and reviews request for variances on the construction standards contained in the rule. This rule clarifies that there is no need for operators to request variances for livestock scales (because there is no permit requirement and they are not required to submit their construction plans).

This rule also modifies the definition of “vehicle scale” to make it clear that ch. ATCP 92 does not apply to scales that are not in commercial service.

Chapter ATCP 113 - Gasoline Advertising

The current rule affirms that it is an unfair trade practice for sellers of gasoline to mislead buyers regarding the octane rating of gasoline, claim that the gasoline is suitable for aviation if it is not, or claim the gasoline is of greater value because it contains high octane components without clearly stating the octane value of the total product. The current rule references octane standards contained in “ASTM Manual for Rating Motor Fuels by Motor and Research Methods”, published 1956.

This rule replaces the references to ASTM standards with references to ch. SPS 348 – Petroleum and Other Liquid Fuel Products. Pursuant to the 2013-15 Budget Bill; DATCP now administers this chapter of the administrative code; as part of the petroleum inspection program that was transferred from the Department of Safety and Professional Services to DATCP.

Chapter ATCP 136 - Mobile Air Conditioners; Reclaiming or Recycling Refrigerant

Pursuant to s. 100.45, Stats., DATCP regulates the use of refrigerants in mobile air conditioners. Under the current rule, among other things, no person may buy, sell or consign refrigerant in a container holding less than 15 pounds (this is sometimes informally referred to as the “small can ban”). However, 2011 Wisconsin Act 187 restricts DATCP’s authority to prohibit sales of non-ozone-depleting refrigerants. Therefore, under the proposed rule, only ozone depleting refrigerants are prohibited from being sold in containers less than 15 pounds.

The current rule regulates the types of equipment that can be used to reclaim or recycle

refrigerants from mobile air conditioners. Recently, the Environmental Protection Agency (“EPA”) has approved a new type of refrigerant (“HFO-1234fy”). This rule updates the current rule to recognize the new product and associated specifications and equipment standards.

Summary of, and comparison with, existing or proposed federal statutes and regulations.

This rule updates references to weights and measures technical standards published by the National Institute of Standards and Technology (“NIST”). By incorporating the latest NIST standards, this rule keeps Wisconsin standards consistent with applicable national standards.

The fuel octane standards incorporated by reference by this rule into ch. ATCP 113 are identical to standards used by the EPA to regulate fuel quality.

This rule update’s Wisconsin’s mobile air conditioner rules to conform to the most recent EPA standards.

Comparison with rules in adjacent states

Generally, this rule updates standards incorporated by reference contained in several chapters of the Wisconsin Administrative Code. Most states, including all of Wisconsin’s neighbors, recognize the same accepted standards in their statutes and rules.

This rule brings Wisconsin’s rules relating to mobile air conditioning refrigerants into conformity with neighboring states’ rules.

Summary of Factual Data and Analytical Methodologies

This rule does not depend on any complex analysis of data. This rule makes minor or technical changes to current rules.

Analysis and Supporting Documents Used to Determine Effect on Small Business or in Preparation of an Economic Impact Analysis

This rule simply updates references and makes other technical changes to existing rules and does not make significant changes to existing policies. Therefore, this rule is not anticipated to have an economic impact.

Effect on Small Business

This rule updates references to technical standards to the most recent editions of those standards without significant changes. This rule simply continues policies already in place in current rules or updates rules to conform to recent changes in the statutes. Except as noted below, this rule does not have an effect on small businesses.

Chapter ATCP 113 – Gasoline Advertising, updating references to most recent standards may increase the enforceability of the rule. Chapter ATCP 113 relies on nationally recognized

standards for octane rating published by ASTM. However, the current rule relies on standards that are outdated and is, therefore, difficult to enforce. Updating the standards, as proposed in this rule, will improve the enforceability. By making it easier to punish any business that might mislead consumers about the octane rating or value, this rule should benefit honest sellers of gasoline.

This rule will benefit businesses that service mobile air conditioners. Under this rule, these businesses can service units that require the new refrigerant HFO-1234yf. This product was only recently approved by EPA.

Environmental Impact

This rule does not have an environmental impact.
