

EXECUTIVE ORDER

201

WHEREAS, the Industrial Commission of Wisconsin has, for many years, administered all federally aided apprenticeship and on-the-job training programs in Wisconsin under authority vested in them by the Governor through section 101.34 and 101.343 of the Wisconsin Statutes; and

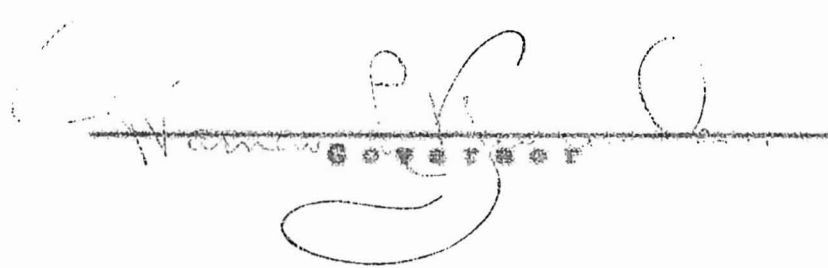

WHEREAS, such training programs are of extreme importance to the social and economic welfare of the State of Wisconsin and the Industrial Commission is the state agency most qualified by function and experience to administer such programs; and

WHEREAS, the importance of the State's apprenticeship and on-the-job training programs is such that a review should be undertaken by the Commission to ascertain the effectiveness of existing programs providing the opportunities and skills needed in our industries. Such a study should include a review of the length and content of training programs, qualifications to enter apprenticeship programs, and the availability of training opportunities;

THEREFORE, I, Warren P. Knowles, Governor of the State of Wisconsin, by Executive Order hereby vest in the Industrial Commission of Wisconsin sole authority to administer all local, state, and federally aided apprenticeship and on-the-job training programs in Wisconsin excepting high school cooperative education and work study programs and vocational agricultural on-the-job programs. The Commission is directed to undertake complete cooperation with all public vocational schools in Wisconsin where related technical instruction combined with on-the-job training is needed to produce the most highly skilled and technically qualified person.

IN TESTIMONY WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Wisconsin to be affixed. Done at the Capitol in the City of Madison this thirty-first day of January in the year of our Lord one thousand nine hundred and sixty-six.

By the Governor:

Governor

Secretary of State
