Analysis by the Legislative Reference Bureau

Under current law, the operator of an authorized emergency vehicle is exempt from certain traffic regulations, including stopping, directional and speed restrictions, when responding to an emergency call, when in pursuit of an actual or suspected violator of the law or when responding to a fire alarm. This exemption applies only when the operator is driving with due regard under the circumstances for the safety of all persons and, in most circumstances, is giving visual and audible signals. Police vehicles, whether publicly or privately owned, are authorized emergency vehicles.

This bill specifies that bicycles being operated by law enforcement officers are authorized emergency vehicles. The exemption from certain traffic regulations applies only when the officer operating the bicycle is exercising due regard under the circumstances for the safety of all persons; however, the officer is not required to give visual and audible signals.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
