Analysis by the Legislative Reference Bureau

Under current law, the state imposes a sales tax on all retailers at the rate of 5% of the gross receipts from the sale, lease or rental of tangible personal property and the sale of services. Retailers generally pass on the sales tax to the consumer. Under current law, the state imposes a use tax on all consumers, at the rate of 5% of the sales price, for the consumption, use or storage of goods in this state that the consumer purchases from an out-of-state retailer and the consumption or use of services in this state that the consumer purchases from an out-of-state retailer.

Under this bill, the rate of the sales tax is 4.5% of the gross receipts from the sale, lease or rental of tangible personal property and the sale of services. Under the bill, the rate of the use tax is 4.5% of the sales price for the consumption, use or storage of goods in this state that the consumer purchases from an out-of-state retailer and 4.5% for the consumption or use of services in this state that the consumer purchases from an out-of-state retailer.

Under the bill, by July 31, 2001, the department of revenue must determine if there is a surplus of unappropriated general purpose revenues, for purposes of the state budget. If there is a surplus of at least \$153,000,000 but less than \$300,000,000, the sales tax and the use tax rates are 4.25% beginning on October 1, 2001. If there is a surplus of at least \$300,000,000, the sales tax and the use tax rates
