1 **AN ACT to amend** 49.45 (2) (a) 3.; and **to create** 49.32 (13) of the statutes;
2 **relating to:** providing a person who determines medical assistance eligibility
3 with access to the records of an applicant for medical assistance and requiring
4 the departments of health and family services and work force development to
5 develop a plan to modify the client assistance for reemployment and economic
6 data support system.

Analysis by the Legislative Reference Bureau

Under current law, the department of health and family services (DHFS) administers the medical assistance (MA) program, which finances necessary health care services for qualified persons whose financial resources are inadequate to provide for their health care needs. DHFS is required to determine the eligibility of persons for the MA program and may assign this duty to county departments of human services or social services.

Currently, the department of workforce development (DWD) administers the client assistance for reemployment and economic support (CARES) computer system. The CARES system uses data supplied by an applicant for public assistance benefits to determine an applicant's eligibility for MA, Wisconsin works, food stamps and child care programs, to issue public assistance benefits and to track program participation.

This bill authorizes a person who determines eligibility for MA, other than a person located in a DHFS office or county department of human services or of social

services, to review and update the existing records of any MA applicant who is seeking an MA eligibility determination from the person, regardless of whether the individual's case is assigned to the person. This bill also requires DWD to provide a person who determines MA eligibility with access to the CARES system so that the person may review and update an applicant's records on the CARES system.

Finally, this bill requires DHFS and DWD to jointly develop a plan to modify the CARES system so that the system may be used to determine an applicant's eligibility for a particular public assistance benefit independently of the applicant's eligibility for other public assistance benefits. DHFS and DWD must submit the plan to the joint committee on finance no later than September 1, 2000.
