- 1 **AN ACT** *to create* 14.21 of the statutes; **relating to:** review of state agency
2 performance and operations.

Analysis by the Legislative Reference Bureau

This bill requires that the governor establish a program, to be known as "Renew Wisconsin." Under the program, the governor will appoint a committee for each state agency to conduct periodic performance evaluations of the operations of each state agency in the executive branch. In appointing members to the various committees, the governor must seek to appoint to each committee both state and local government public officials and employees and individuals who are not state and local government public officials and employees.

Under the program, the committees must review the performance of the state agencies and must identify ways in which the state agencies can improve their responsiveness to the residents of this state and ways in which the state agencies can reduce the costs of performing their duties. In addition, under the program, the committees must review the statutes and rules that affect the operation of the state agencies and must specifically identify the statutes and rules that are obsolete and the statutes and rules that provide benefits that exceed their costs and those that provide benefits that do not exceed their costs. Finally, the committees must make recommendations for modifications to the statutes and rules to more effectively and efficiently accomplish the public policy goals contained in the statutes and rules.

Under the program, the committees must conduct public hearings, the department of administration must provide staff support for the operations of the committees, and all state agencies must fully cooperate with the committees.
