### *Analysis by the Legislative Reference Bureau*

Under current law, a law enforcement officer may request a person to provide a sample of his or her breath for a preliminary breath screening test if the officer has probable cause to believe that the person has driven or operated a motor vehicle while he or she has a prohibited alcohol concentration or while under the influence of an intoxicant, controlled substance, or other drug or the combination of an intoxicant, controlled substance or other drug to a degree that renders him or her incapable of safely driving (OWI).

Also under current law, a law enforcement officer may request a person to provide a sample of his or her breath for a preliminary breath screening test if the person is driving or operating or on duty time with respect to a commercial motor vehicle and the law enforcement officer detects any presence of alcohol, a controlled substance, controlled substance analog, or other drug, or a combination thereof, or the officer has reason to believe that the person is driving or operating or on duty time with respect to a commercial vehicle while having an alcohol concentration above 0.0, or within four hours of consuming or being under the influence of an intoxicating beverage, or while possessing an intoxicating beverage.

**ASSEMBLY BILL 846**

This bill allows a law enforcement officer to request a person to provide a sample of his or her breath for a preliminary breath screening test if the person is driving or operating a motor vehicle and the law enforcement officer detects any presence of alcohol, a controlled substance, controlled substance analog, or other drug, or a combination thereof and the person has three or more OWI-related convictions, or suspensions or revocations of his or her operating privilege.
