AN ACT to repeal 121.90 (1) (a) to (d); and to amend 121.90 (1) (intro.) of the statutes; relating to: counting summer school enrollment for revenue limit purposes.

Analysis by the Legislative Reference Bureau

Current law limits the annual increase in a school district's revenue derived from general school aid and property taxes. This revenue limit is calculated by comparing a school district's average pupil enrollment in the three previous school years. Current law also phases into this pupil enrollment average between 20% to 40% of summer school enrollment, depending upon the school year. This bill includes 100% of a school district's summer school enrollment in the pupil enrollment.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
