2005 SENATE BILL 671

March 21, 2006 - Introduced by Senator Lassa. Referred to Committee on Veterans, Homeland Security, Military Affairs, Small Business and Government Reform.

AN ACT to create 16.705 (2m) and 16.705 (7m) of the statutes; relating to:

biennial reports concerning state contractual service procurements.

Analysis by the Legislative Reference Bureau

Currently, following the end of each fiscal year, the Department of Administration (DOA) must report to the governor, the Joint Committee on Finance, the Joint Legislative Audit Committee, and the appropriate standing committees of the legislature concerning contractual service procurements authorized for each state agency during the preceding fiscal year. If a state agency for whom contractual services were performed under a contractual services contract concludes that the performance of the contractor was unsatisfactory, the agency must file with DOA an evaluation of the contractor's performance within 60 days after fulfillment of the contractor's obligations under the contract. DOA must then review the evaluations and promulgate rules to assure that, to the extent feasible, future contracts are not awarded to contractors whose performance is found to be unsatisfactory.

This bill provides for each state agency that enters into a contract for contractual services to submit to the Joint Legislative Audit Committee a report concerning the contract no later than September 30 following the end of each fiscal biennium during which contractual services were provided to the agency under the contract. If work performed under the contract was formerly provided by state employees, the report must include a statement of the estimated savings accrued to the agency or the increased costs incurred by the agency as a result of contracting for the services. The report must also include an assessment of whether the contractor's performance met, exceeded, or failed to achieve performance standards required under the contract.
