3             and use of fetal body parts and providing a penalty.

---

### *Analysis by the Legislative Reference Bureau*

Current law prohibits a person from knowingly, and for valuable consideration, acquiring, receiving, or otherwise transferring a human organ. Current federal law prohibits a person from knowingly acquiring, receiving, or otherwise transferring, in interstate commerce, any fetal tissue for valuable consideration. This bill prohibits a person from knowingly and for valuable consideration acquiring, receiving, or otherwise transferring a fetal body part in this state. A fetal body part is a cell, tissue, organ, or other part of, or any material derived from any cell or tissue of, an unborn child who is aborted by an induced abortion. The bill also prohibits a person from knowingly providing, receiving, or using, for experimentation a fetal body part in this state, regardless of whether the provision, receipt, or use is for valuable consideration.

Because this bill creates a new crime or revises a penalty for an existing crime, the Joint Review Committee on Criminal Penalties may be requested to prepare a report concerning the proposed penalty and the costs or savings that are likely to result if the bill is enacted.
