1 **AN ACT to create** 253.155 and 948.215 of the statutes; **relating to:** causing harm
2 to a child by cosleeping while intoxicated, providing information about
3 cosleeping while intoxicated, and providing a penalty.

Analysis by the Legislative Reference Bureau

Under this bill, no person may injure or kill a child under 12 months of age by cosleeping, while the person is intoxicated, with the child. Under the bill, if the child suffers bodily harm as a consequence, the person is guilty of a Class H felony, if the child suffers great bodily harm as a consequence, the person is guilty of a Class F felony, and if the child dies as a consequence, the person is guilty of a Class D felony.

The bill requires the Child Abuse and Neglect Prevention Board (board) to purchase, prepare, or arrange with a nonprofit organization to prepare printed and audiovisual materials relating to cosleeping while intoxicated. The materials must include information regarding the risks of cosleeping while intoxicated and a discussion of ways to reduce the risks of cosleeping while intoxicated. The board must make the materials available to certain entities and may satisfy that requirement by making the materials available, at no charge, on its Internet site. Under the bill, the board or nonprofit organization is immune from any damages resulting from any good faith act or omission in preparing or distributing the materials.

board’s printed materials and inform the parents about, and make available to the parents to view, the board’s audiovisual materials. For an infant born elsewhere, the attending physician, attending nurse–midwife, or other trained, designated staff member of a hospital or maternity home must provide to the parents the board’s printed materials and inform the parents of the availability of the board’s audiovisual materials within seven days of the infant’s birth. Regardless of where the infant was born, at the same time the materials are provided to the parents the person who provided the materials must provide the parent with a form, prepared by the board, that includes a statement that the parent has been advised of the risks of cosleeping with an infant while that parent is intoxicated and a statement that the parent will share that information with all persons who provide care for the infant. Under the bill, a hospital, maternity home, physician, nurse–midwife, other staff member of the hospital or maternity home, or birth attendant is immune from liability for any damages resulting from any good faith act or omission in providing the board’s materials and form.

The bill also requires certain individuals and entities to provide the board’s materials to specified individuals. The bill requires each school board to provide or arrange with a nonprofit organization or health care provider to provide age–appropriate instruction relating to cosleeping while intoxicated for pupils in one of grades 10 to 12. A county department or Indian tribe that provides home visitation services and providers of prenatal, postpartum, and young child care coordination services must provide to recipients of those services a copy of the board’s printed materials and give an oral explanation of those materials. Under the bill, a county department, a nonprofit organization, a school board, a health care provider, an Indian tribe, or a provider of prenatal, postpartum, and young child care coordination is immune from liability for any damages resulting from any good faith act or omission in connection with providing training on cosleeping while intoxicated or providing materials relating to cosleeping while intoxicated.

Because this bill creates a new crime or revises a penalty for an existing crime, the Joint Review Committee on Criminal Penalties may be requested to prepare a report concerning the proposed penalty and the costs or savings that are likely to result if the bill is enacted.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
