Analysis by the Legislative Reference Bureau

This bill allows an applicant for a motor vehicle operator's license or identification card issued by the Department of Transportation to indicate whether he or she has a disability that may not be immediately apparent to another (invisible disability). If a law enforcement officer or other designated person requests information on a person's operator's license or identification card application, DOT must examine its record of persons who have indicated an invisible disability and advise the law enforcement officer or other person as to whether the person is recorded as a person who has indicated an invisible disability.

For further information see the **state** fiscal estimate, which will be printed as an appendix to this bill.
