

CHAPTER 196

REGULATION OF PUBLIC UTILITIES

| | | | |
|---------|---|---------|--|
| 196.01 | Definitions. | 196.41 | Court review. |
| 196.015 | Total service long–run incremental cost. | 196.43 | Injunction procedure. |
| 196.02 | Commission’s powers. | 196.44 | Law enforcement. |
| 196.025 | Duties of the commission. | 196.48 | Incriminating evidence. |
| 196.03 | Utility charges and service; reasonable and adequate. | 196.49 | Authorization from commission before transacting business; extensions and improvements to be approved; enforcement of orders; natural gas. |
| 196.04 | Facilities granted other utilities; physical telecommunications connections; petition; investigation. | 196.491 | Advance planning of electric generating facilities and transmission lines. |
| 196.05 | Public utility property; valuation; revaluation. | 196.492 | Advance plan for the lower Wisconsin state riverway for high–voltage transmission lines. |
| 196.06 | Uniform accounting; forms; books; office. | 196.493 | Construction of nuclear power plants limited. |
| 196.07 | Balance sheet filed annually. | 196.495 | Avoidance of duplication in electric facilities. |
| 196.08 | Audit and inspection. | 196.497 | State policy regarding the long–term disposal of high–level radioactive waste and transuranic waste. |
| 196.09 | Depreciation rates and practices; findings by commission; dividends from reserves; retirements. | 196.499 | Regulation of telecommunications carriers. |
| 196.10 | Construction; accounting. | 196.50 | Competing public utilities; indeterminate permits, telecommunications. |
| 196.11 | Profit sharing and sliding scales. | 196.505 | Construction of chapter. |
| 196.12 | Report by public utilities; items. | 196.51 | Prior permits and franchises validated. |
| 196.13 | Commission’s report. | 196.52 | Relations with affiliated interests; definition; contracts with affiliates filed and subject to commission control. |
| 196.14 | Public record exception. | 196.525 | Loans to officers or directors and loans to and investments in securities of holding companies; penalty. |
| 196.15 | Units of product or service. | 196.53 | Franchise, foreign corporation not to have. |
| 196.16 | Standard measurements; accurate appliances. | 196.54 | Indeterminate permits. |
| 196.17 | Tests of meters; fees. | 196.58 | Municipality to regulate utilities; appeal. |
| 196.171 | Examination of meters, pipes, fittings, wires and works; entering buildings for. | 196.59 | Merchandising by utilities. |
| 196.175 | Construction and occupancy standards. | 196.595 | Utility advertising practices. |
| 196.18 | Entry upon premises. | 196.60 | Discrimination prohibited; penalty. |
| 196.19 | Publish schedules; regulations; files; joint rates. | 196.604 | Rebates, concessions and discriminations unlawful. |
| 196.193 | Water and sewer rate increases without hearings. | 196.605 | Telecommunications cooperatives with federal loans. |
| 196.194 | Public utility individual contracts. | 196.61 | Facilities in exchange for compensation prohibited. |
| 196.195 | Partial deregulation of competitive telecommunications services. | 196.625 | Discrimination by telecommunications utilities. |
| 196.196 | Telecommunications utility price regulation. | 196.63 | Telecommunications interruption in crisis situation. |
| 196.198 | Local measured telecommunications service. | 196.635 | Unbilled utility service. |
| 196.20 | Rules on service; changes in rates. | 196.64 | Public utilities, liability for treble damages. |
| 196.201 | Regulation of private shared telecommunications systems. | 196.642 | Customer liability for treble damages. |
| 196.202 | Exemption of cellular mobile radio telecommunications. | 196.643 | Owner responsibility for service to rental dwelling unit. |
| 196.203 | Exemption of alternative telecommunications utilities. | 196.645 | Rate changes. |
| 196.204 | Cross–subsidization limited. | 196.65 | Penalties relating to information and records. |
| 196.205 | Election of rate regulation of telecommunications cooperatives. | 196.66 | General forfeiture provisions. |
| 196.207 | Telephone caller identification services. | 196.665 | Unlawful combinations, trusts. |
| 196.208 | Telecommunications pay–per–call and toll–free services. | 196.67 | Warning signs. |
| 196.209 | Privacy considerations. | 196.675 | Unlawful for carriers and public utilities to employ assistant district attorneys or judicial officers. |
| 196.21 | Publicity of revised schedules. | 196.68 | Municipal officers, malfeasance. |
| 196.213 | Notice of rate increase by small telecommunications utility. | 196.69 | Interference with commission’s equipment. |
| 196.215 | Election of rate regulation and flexible regulation of small telecommunications utilities. | 196.70 | Temporary alteration or suspension of rates. |
| 196.216 | Small telecommunications utilities as small businesses. | 196.71 | Municipal public utility contracts. |
| 196.217 | Average toll rates. | 196.72 | Accidents; public utility report; investigation. |
| 196.218 | Universal service fund. | 196.74 | Electric lines; safety and interference. |
| 196.219 | Protection of telecommunications consumers. | 196.745 | Construction and operation; safety; commission orders. |
| 196.22 | Discrimination forbidden. | 196.76 | Other rights of action; penalties cumulative. |
| 196.24 | Agents of commission; powers. | 196.77 | Promotional rates. |
| 196.25 | Questionnaires. | 196.78 | Voluntary dissolution. |
| 196.26 | Complaint by consumers; hearing; notice; order; costs. | 196.79 | Reorganization subject to commission approval. |
| 196.28 | Summary investigations. | 196.795 | Public utility holding companies. |
| 196.30 | Utilities may complain. | 196.80 | Consolidation or merger of utilities. |
| 196.31 | Intervenor financing. | 196.805 | Consolidation or merger of telecommunications utilities. |
| 196.32 | Witness fees and mileage. | 196.81 | Abandonment; commission approval required. |
| 196.33 | Depositions. | 196.84 | Commission’s holding company and nonutility affiliate regulation costs. |
| 196.34 | Commission records. | 196.85 | Payment of commission’s expenditures by utilities. |
| 196.36 | Transcripts and tapes. | 196.855 | Assessment of costs against municipalities. |
| 196.37 | Lawful rates; reasonable service. | 196.856 | Assessment for acid deposition activities. |
| 196.372 | Railroad telecommunications service. | 196.857 | Stray voltage program. |
| 196.373 | Water heater thermostat settings. | 196.858 | Assessment for telephone relay service. |
| 196.374 | Energy conservation programs. | 196.91 | Acquisition of existing dams. |
| 196.375 | Adequate service; reasonable rates. | 196.92 | Procedure for acquiring dams. |
| 196.377 | Promotion of renewable energy systems. | 196.97 | Nonessential uses of natural gas. |
| 196.39 | Change, amendment and rescission of orders; reopening cases. | 196.975 | Local access and transport area boundaries. |
| 196.395 | Test, conditional, emergency and supplemental orders; waiver of conditions in orders. | 196.98 | Water reporting required. |
| 196.40 | Orders and determinations; time of taking effect. | | |

196.01 Definitions. As used in this chapter and ch. 197, unless the context requires otherwise:

(1b) “Access service” means the provision of switched or dedicated access to a local exchange network for the purpose of enabling a telecommunications provider to originate or terminate telecommunications service. “Access service” includes

unbundled local service provided to telecommunications providers.

(1d) “Alternative telecommunications utility” means any of the following:

(a) Cable television telecommunications service providers.

- (b) Pay telephone service providers.
- (c) Telecommunications resellers or resellers.
- (d) Radio common carriers.

(f) Any other telecommunications provider if the commission finds that the service offered by the telecommunications provider is available from other telecommunications providers within this state directly or indirectly to the public.

(1g) “Basic local exchange service” means the provision to residential customers of an access facility, whether by wire, cable, fiber optics or radio, and essential usage within a local calling area for the transmission of high-quality 2-way interactive switched voice or data communication. “Basic local exchange service” includes extended community calling and extended area service. “Basic local exchange service” does not include additional access facilities or any discretionary or optional services that may be provided to a residential customer. “Basic local exchange service” does not include cable television service or services provided by a cellular mobile radio telecommunications utility or any other mobile radio telecommunications utility.

(1j) “Basic message telecommunications service” means long distance toll service as provided on January 1, 1994, on a direct-dialed, single-message, dial-1 basis between local exchanges in this state at tariff rates. “Basic message telecommunications service” does not include any wide-area telecommunications service, 800-prefix service, volume, dedicated, discounted or other interoffice services or individually negotiated contracts for telecommunications service.

(1m) “Broadcast service” means the one-way transmission to the public of video or audio programming regulated under [47 USC 301 to 334](#) that is provided by a broadcast station, as defined in [47 USC 153 \(dd\)](#), including any interaction with a recipient of the programming as part of the video or audio programming offered to the public.

(1p) “Cable television service” means the one-way transmission to subscribers of video programming regulated under [47 USC 521 to 559](#) that is provided by, or generally considered comparable to programming provided by, a television broadcast station or other programming services that make information available to all subscribers generally and includes any subscriber interaction required for the selection of video programming or other program services.

(1r) “Cable television telecommunications service provider” means a person who provides one or more telecommunications services but who, during the previous taxable year, received at least 90% of his or her gross income in the particular television franchise area in which telecommunication services are provided from the operation of a cable television system subject in whole or in part to [47 USC 521 to 559](#).

(2m) “Commission” means the public service commission.

(3) “Indeterminate permit” means any grant, directly or indirectly, from the state to any public utility of power, right or privilege to own, operate, manage or control any plant or equipment or any part of a plant or equipment within this state for the production, transmission, delivery or furnishing of any public utility service.

(3e) “Interlata” means between local access and transport areas.

(3r) “Intralata” means within the boundaries of a local access and transport area.

(4) “Municipality” means any town, village or city wherein property of a public utility or any part thereof is located.

(4m) “Pay telephone service provider” means a person who owns or leases a pay telephone located on property owned or leased by that person and who otherwise does not offer any telecommunications service directly or indirectly to the public.

(5) “Public utility” means every corporation, company, individual, association, their lessees, trustees or receivers appointed by any court, and every sanitary district, town, village or city that

may own, operate, manage or control any toll bridge or all or any part of a plant or equipment, within the state, for the production, transmission, delivery or furnishing of heat, light, water or power either directly or indirectly to or for the public. “Public utility” does not include a cooperative association organized under [ch. 185](#) for the purpose of producing or furnishing heat, light, power or water to its members only. “Public utility” includes any person engaged in the transmission or delivery of natural gas for compensation within this state by means of pipes or mains and any person, except a governmental unit, who furnishes services by means of a sewerage system either directly or indirectly to or for the public. “Public utility” includes a telecommunications utility. “Public utility” does not include a holding company, as defined in [s. 196.795 \(1\) \(h\)](#), unless the holding company furnishes, directly to the public, telecommunications or sewer service, heat, light, water or power or, by means of pipes or mains, natural gas. “Public utility” does not include any company, as defined in [s. 196.795 \(1\) \(f\)](#), which owns, operates, manages or controls a telecommunications utility unless the company furnishes, directly to the public, telecommunications or sewer service, heat, light, water or power or, by means of pipes or mains, natural gas. “Public utility” does not include a cellular mobile radio telecommunications utility.

(5m) “Radio common carrier” means a common carrier in the domestic public land mobile radio service licensed by the federal communications commission under [47 CFR 21.0 to 21.909](#) or [22.900 to 22.921](#) to receive and transmit signals from transmitters within a specified geographic area.

(6) “Railroad” has the meaning given under [s. 195.02](#).

(7) “Service” is used in its broadest and most inclusive sense.

(8) “Small telecommunications utility” means any telecommunications utility or a successor in interest of a telecommunications utility that provided landline local and access telecommunications service as of January 1, 1984, and that has less than 50,000 access lines in use in this state.

(8m) “Telecommunications carrier” means any person that owns, operates, manages or controls any plant or equipment used to furnish telecommunications services within the state directly or indirectly to the public but does not provide basic local exchange service, except on a resale basis. “Telecommunications carrier” does not include an alternative telecommunications utility, a cellular mobile radio telecommunications utility or any other mobile radio telecommunications utility.

(8p) “Telecommunications provider” means any person who provides telecommunications services.

(9) “Telecommunications reseller” or “reseller” means a telecommunications utility that resells message telecommunications service, wide-area telecommunications services or other telecommunications services which have been approved for reselling by the commission.

(9m) “Telecommunications service” means the offering for sale of the conveyance of voice, data or other information at any frequency over any part of the electromagnetic spectrum, including the sale of service for collection, storage, forwarding, switching and delivery incidental to such communication and including the regulated sale of customer premises equipment. “Telecommunications service” does not include cable television service or broadcast service.

(10) “Telecommunications utility” means any person, corporation, company, cooperative, partnership, association and lessees, trustees or receivers appointed by any court that owns, operates, manages or controls any plant or equipment used to furnish telecommunications services within the state directly or indirectly to the public. “Telecommunications utility” does not include a telecommunications carrier.

(12) “Transmission facility” means any plant or equipment used to carry telecommunications services by wire, optics, radio signal or other means.

(13) “Wide-area telecommunications service” means the offering of message-based telecommunications service using a

single, dedicated access line at the originating end of the call at a significant volume–based discount.

History: 1977 c. 29, 418; 1981 c. 390; 1983 a. 27, 53, 76, 192, 425, 538; 1985 a. 79, 1985 a. 297 ss. 14 to 22, 39; 1987 a. 27; 1989 a. 344; 1993 a. 121, 496; 1995 a. 46, 409.

Commission may determine that holding company, formed by public utility corporation to engage in non–utility business ventures, is itself public utility, where holding company possesses power to control utility plant or equipment or where arrangement is device to evade regulatory jurisdiction. 71 *Atty. Gen.* 147.

196.015 Total service long–run incremental cost.

(1) In this section, “basic network function” means the smallest disaggregation of local exchange transport, switching and loop functions that is capable of being separately listed in a tariff and offered for sale.

(2) In this chapter, total service long–run incremental cost is calculated as the total forward–looking cost, using least cost technology that is reasonably implementable based on currently available technology, of a telecommunications service, relevant group of services, or basic network function that would be avoided if the telecommunications provider had never offered the service, group of services, or basic network function or, alternatively, the total cost that the telecommunications provider would incur if it were to initially offer the service, group of services, or basic network function for the entire current demand, given that the telecommunications provider already produces all of its other services.

History: 1993 a. 496.

196.02 Commission’s powers. (1) **JURISDICTION.** The commission has jurisdiction to supervise and regulate every public utility in this state and to do all things necessary and convenient to its jurisdiction.

(2) **DEFINITION; CLASSIFICATION.** In this subsection, “public utility” does not include a telecommunications cooperative or a small telecommunications utility except as provided under s. 196.205 or 196.215 (2) and does not include an alternative telecommunications utility. The commission shall provide for a comprehensive classification of service for each public utility. The classification may take into account the quantity used, the time when used, the purpose for which used, and any other reasonable consideration. Each public utility shall conform its schedules of rates, tolls and charges to such classification.

(3) **RULES.** The commission may adopt reasonable rules to govern its proceedings and to regulate the mode and manner of all inspections, tests, audits, investigations and hearings.

(4) **INFORMATION REQUIRED; STOCK HOLDERS.** (a) The commission may inquire into the management of the business of all public utilities. The commission shall keep itself informed as to the manner and method in which the same is conducted. The commission may obtain from any public utility any information necessary to enable the commission to perform its duties.

(b) Each public utility shall furnish to the commission, in such form and at such times as the commission requires, the following information respecting the identity of the holders of its voting capital stock in order to enable the commission to determine whether the holders constitute an affiliated interest within the meaning of this chapter:

1. The names of each holder of one percent or more of the voting capital stock of the public utility.
2. The nature of the property right or other legal or equitable interest which the holder has in the stock.
3. Any other similarly relevant information which the commission prescribes and directs.

(c) If any public utility fails to furnish the commission with information required of it by the commission, the commission may issue an order directing the delinquent public utility to furnish the information immediately or to show good cause why the information cannot be obtained. Failure of any public utility to comply with the order of the commission is a violation of this chapter within the meaning of s. 196.66.

(5) **INSPECT BOOKS.** The commission or any commissioner or any person employed by the commission for that purpose may, upon demand, inspect the books, accounts, papers, records and memoranda of any public utility, and examine under oath any officer, agent or employe of the public utility in relation to its business and affairs. Any person, other than one of the commissioners, who makes a demand shall produce his or her authority to make the inspection.

(6) **PRODUCTION OF RECORDS.** The commission may require, by order or subpoena served on any public utility as a summons is served in circuit court, the production within this state at the time and place the commission designates of any books, accounts, papers or records kept by the public utility outside the state, or verified copies in lieu thereof, if the commission orders. If a public utility fails or refuses to comply with the order or subpoena, for each day of the failure or refusal the public utility shall forfeit not less than \$50 nor more than \$500.

(7) **COMMISSION INITIATIVE.** In any matter within its jurisdiction, including, but not limited to, chs. 184, 197 and this chapter, the commission may initiate, investigate and order a hearing at its discretion upon such notice as it deems proper.

(8) **EMPLOY COUNSEL.** The commission may employ counsel in any proceeding, investigation, hearing or trial had by it or in which it is a party, and the expenses thereby incurred shall be charged to the commission’s appropriation.

(9) **TECHNICALITIES DISREGARDED.** Substantial compliance with the requirements of the statutes shall be sufficient to make effective any rule, regulation, order or action of the commission. No rule, regulation, order or action of the commission is invalid for any omission of a technical nature.

(10) **COMMISSION NOTICES; CERTIFICATIONS.** Any notice of investigation or hearing or certification to a copy of a record of the commission may be issued or certified by any member of the commission or by its secretary or assistant secretary.

(12) **SUE; BE SUED.** The commission may sue and be sued in its own name, and may confer with or participate in any proceedings before any regulatory agency of any other state or of the federal government.

History: 1977 c. 29 ss. 1329, 1331, 1333, 1352; 1977 c. 418; 1981 c. 148; 1983 a. 27, 53; 1985 a. 297; 1987 a. 403; 1989 a. 344; 1993 a. 496.

The PSC has authority to order a utility to refund compensation collected in violation of its filed tariffs. *GTE North Inc. v. Public Service Comm.* 176 W (2d) 559, 500 NW (2d) 284 (1993).

Public service commission ordered rebates for inadequate service. 1976 WLR 584.

196.025 Duties of the commission. To the extent cost–effective, technically feasible and environmentally sound, the commission shall implement the priorities under s. 1.12 (4) in making all energy–related decisions and orders, including advance plan, rate setting and rule–making orders.

History: 1993 a. 414.

NOTE: 1993 Wis. Act 414, which creates this section, contains extensive explanatory notes.

196.03 Utility charges and service; reasonable and adequate.

(1) Subject to s. 196.63, a public utility shall furnish reasonably adequate service and facilities. The charge made by any public utility for any heat, light, water, telecommunications service or power produced, transmitted, delivered or furnished or for any service rendered or to be rendered in connection therewith shall be reasonable and just and every unjust or unreasonable charge for such service is prohibited and declared unlawful.

(2) For rate–making purposes the commission may consider 2 or more municipalities as a regional unit if the same public utility serves the municipalities and if the commission determines that the public interest so requires.

(3) (a) In the case of a public utility furnishing water, the commission shall include, in the determination of water rates, the cost of fluoridating the water in the area served by the public utility furnishing water if the governing body of the city, village or town which owns or is served by the public utility furnishing water

authorizes the fluoridation of water by the public utility furnishing water.

(b) Unless the governing body of a city, village or town adopts a resolution providing that the city, village or town will pay the retail charges for the production, storage, transmission, sale and delivery or furnishing of water for public fire protection purposes that are not included in general service charges:

1. A public utility shall include the charges in the water utility bill of each customer of the public utility in the city, village or town.

2. A municipal utility may, in addition to including the charges in water utility bills under subd. 1., bill the charges to any person who meets all of the following conditions:

a. The person is not a customer of the municipal utility.

b. The person owns land that is located in the city, village or town and in an area in which the municipal utility has an obligation to provide water for public fire protection.

(4) Any public utility which is not a city, town or village and which supplies gas or electricity to its customers may not recover in rates set by the commission from any customer for any expenditure for costs in a proceeding before the commission which exceed 4 times the total amount assessed to the utility under s. 196.85 (1) and (2) unless the object of the expenditure has been ordered by the commission. The commission, by rule, shall establish procedures whereby a public utility may recover its expenditures under this subsection.

(5) (a) In this subsection “facility” means nuclear-fired electric generating equipment and associated facilities subject to a loss of coolant accident in March 1979.

(b) The commission may not authorize a utility furnishing electricity to recover in rates charged to consumers for the costs of repairing, maintaining or operating any facility owned by another public utility located outside of this state.

(c) The commission may not authorize a utility furnishing electricity to recover in rates charged to consumers for insurance premiums that provide coverage for an accident at a facility in March 1979, if the coverage is first obtained on or after May 7, 1982.

(d) No utility may otherwise pay directly or indirectly for the costs in pars. (b) and (c).

(6) In determining a reasonably adequate telecommunications service or a reasonable and just charge for that telecommunications service, the commission shall consider at least the following factors in determining what is reasonable and just, reasonably adequate, convenient and necessary or in the public interest:

(a) Promotion and preservation of competition consistent with ch. 133 and s. 196.219.

(b) Promotion of consumer choice.

(c) Impact on the quality of life for the public, including privacy considerations.

(d) Promotion of universal service.

(e) Promotion of economic development, including telecommunications infrastructure deployment.

(f) Promotion of efficiency and productivity.

(g) Promotion of telecommunications services in geographical areas with diverse income or racial populations.

History: 1981 c. 20, 342; 1983 a. 53; 1985 a. 297; 1987 a. 399; 1991 a. 294; 1993 a. 496; 1995 a. 27.

A charge for fire protection services under sub. (3) is a fee not a tax; imposition against a church is constitutional. *River Falls v. St. Bridget’s Catholic Church*, 182 W (2d) 436, 513 NW (2d) 673 (Ct. App. 1994).

196.04 Facilities granted other utilities; physical telecommunications connections; petition; investigation.

(1) (a) *Definitions.* In this section:

1. “Transmission equipment and property” means any conduit, subway, pole, tower, transmission wire or other equipment on, over or under any street or highway.

2. “Physical connection” means the number of trunk lines or complete circuits and connections, including connections by wire, optics, radio signal or other means, required to furnish reasonably adequate telecommunications service between telecommunications providers.

(b) *Transmission equipment and property access.* 1. Any person who owns transmission equipment and property shall permit, for reasonable compensation, the use of the transmission equipment and property by any public utility or telecommunications provider if public convenience and necessity require such use and if the use will not result in irreparable injury to any owner or user of the transmission equipment and property or in any substantial detriment to the service to be rendered by the owner or user.

2. Every telecommunications utility shall permit physical connections to be made, and telecommunications service to be furnished, between any telecommunications system operated by it and the telecommunications toll line operated by another telecommunications provider, or between its toll line and the telecommunications system of another telecommunications provider, or between its toll line and the toll line of another telecommunications provider, or between its telecommunications system and the telecommunications system of another telecommunications provider if all of the following apply:

a. Public convenience and necessity require the connection.

b. The connection will not result in irreparable injury to the owners or other users of the facilities of the public utility making the connection.

c. The connection will not result in any substantial detriment to the service to be rendered by a public utility making the connection.

(2) If there is a failure to agree upon use of transmission equipment and property under sub. (1) or the conditions or compensation for the use, or if there is a failure to agree upon the physical connections or the terms and conditions upon which the physical connections shall be made, any public utility, any telecommunications provider or any other person interested may apply to the commission. If, after investigation, the commission determines that public convenience and necessity require the use or physical connections and that the use or physical connections will not result in irreparable injury to the owner or other users of the transmission equipment and property or of the facilities of the public utility or in any substantial detriment to the service to be rendered by the owner or the public utility or other users of the transmission equipment and property or facilities, the commission, by order, shall direct that the use be permitted and that the physical connections be made. The commission shall prescribe reasonable conditions and compensation for the use and shall determine how and within what time the connections shall be made and by whom the expense of making and maintaining the connections shall be paid. An order under this subsection may be revised by the commission.

(4) If the parties cannot agree and the commission finds that public convenience and necessity or the rendition of reasonably adequate service to the public requires that a public utility or telecommunications provider be permitted to extend its lines on, over or under the right-of-way of any railroad, or requires that the tracks of any railroad be extended on, over or under the right-of-way of any public utility or telecommunications provider, the commission may order the extension by the public utility, telecommunications provider or railroad on, over or under the right-of-way of the other if it will not materially impair the ability of the railroad, telecommunications provider or public utility, on, over or under whose right-of-way the extension would be made, to serve the public. The commission shall prescribe lawful conditions and compensation which the commission deems equitable and reasonable in light of all the circumstances.

History: 1983 a. 53; 1985 a. 297 ss. 25, 76; 1993 a. 496; 1995 a. 27.

Standard applicable to determination of compensation under sub. (4) discussed. *Wis. Central LTD. v. PSC*, 170 W (2d) 558, 490 NW (2d) 27 (Ct. App. 1992).

196.05 Public utility property; valuation; revaluation.

If the commission deems it proper or necessary for effective regulation, the commission shall value or revalue all the property of every public utility actually used and useful for the convenience of the public.

History: 1983 a. 53.

196.06 Uniform accounting; forms; books; office.

(1) Every public utility shall keep and render to the commission in the manner and form prescribed by the commission uniform accounts of all business transacted.

(2) The commission may require any public utility engaged directly or indirectly in any business other than that of the production, transmission or furnishing of heat, light, water, telecommunications service or power to keep and render separately to the commission in like manner and form the accounts of all such other business. This chapter applies to the books, accounts, papers and records of such other business if the commission requires the keeping and rendering separately of the accounts under this subsection.

(3) Each public utility shall keep and render its books, accounts, papers and records accurately and faithfully in the manner and form prescribed by the commission and shall comply with all directions of the commission relating to such books, accounts, papers and records.

(6) Each public utility shall have an office in one of the towns, villages or cities in this state in which its property or some part thereof is located, in which it shall keep all books, accounts, papers and records required by the commission to be kept within the state. No books, accounts, papers or records required by the commission to be kept within the state shall be removed from the state, except upon conditions prescribed by the commission.

History: 1977 c. 418; 1983 a. 53; 1985 a. 297.

196.07 Balance sheet filed annually. (1) Each public utility shall close its accounts annually on December 31 and promptly prepare a balance sheet of that date. On or before the following April 1 every public utility shall file with the commission the balance sheet together with any other information the commission prescribes, verified by an officer of the public utility. The commission, for good cause shown, may extend the time for filing the balance sheet and prescribed information.

(2) If a public utility fails to file a report with the commission containing its balance sheet and other information prescribed by the commission by the date the report is due under sub. (1), the commission may prepare the report from the records of the public utility. All expenses of the commission in preparing the report, plus a penalty equal to 50% of the amount of the expenses, shall be assessed against and collected from the public utility under s. 196.85. The amount of the charge to a public utility shall not be limited by s. 196.85 (1) and shall be in addition to any other charges assessable under s. 196.85. The penalty provision of the charge shall be credited to the general fund under s. 20.906.

History: 1983 a. 53.

196.08 Audit and inspection. The commission shall provide for the examination and audit of all accounts, and all items shall be allocated to the accounts in the manner prescribed by the commission.

History: 1975 c. 142; 1983 a. 53; 1985 a. 297.

196.09 Depreciation rates and practices; findings by commission; dividends from reserves; retirements.

(1) In this section, “public utility” does not include a telecommunications cooperative except as provided under s. 196.205. In subs. (2) to (7), “public utility” does not include a telecommunications utility. Subsection (9) only applies to a telecommunications utility. Every public utility shall file with the commission, within such time as may be required by the commission, its estimate of the annual rate of depreciation required for each of its classes of fixed capital used for public utility purposes, and of the composite

annual rate of depreciation required for such fixed capital as an aggregate, which shall constitute the public utility’s estimates of the amount which should be returned to it out of its rates for service, to meet the depreciation of its property.

(2) After the submission of the estimates under sub. (1), the commission shall review the estimates. If the commission determines that the estimates submitted are reasonable and proper, it shall certify its determination to the public utility. If the commission determines that the estimates submitted are not reasonable and proper, it shall certify to the public utility the percentages which it considers reasonable and proper. If the fixed capital accounts of the public utility are not subdivided to permit the rates for the various classes of fixed capital used for public utility purposes to be applied, the estimates submitted by the public utility and the percentages determined by the commission may be based upon the aggregate of such fixed capital.

(3) After the commission certifies to the public utility its findings as to the percentages required for depreciation under sub. (2), the public utility shall have 30 days within which to make application to the commission for a hearing and order. If the public utility does not make application to the commission for a hearing and order within the time set, the commission’s certification of findings shall have the effect of an order and the public utility shall have the right of appeal from the certification as provided in this chapter.

(4) The commission may provide, in order to meet changing conditions, that a public utility submit from time to time the estimate required under sub. (1). If it requires such resubmission of estimates, the commission shall follow the procedure for certifying its findings under sub. (2). In revising the reasonable and proper percentages of depreciation, the commission shall give consideration to the experience of the public utility in accumulating a depreciation reserve under previous rates, any retirements actually made and any other relevant factor.

(5) If the commission establishes, by certification or order, the reasonable and proper percentages of depreciation, the percentages shall constitute the percentages to be used in any proceeding involving the rates or practices of the public utility, except that if at the time of such proceeding the commission finds that the percentages of depreciation previously established are no longer reasonable and proper, the commission shall establish reasonable and proper percentages for the purpose of such proceeding and certify the new percentages under this section.

(6) (a) If the commission establishes for any public utility, by certification or order, the percentages necessary for depreciation on fixed capital used for public utility purposes, the public utility shall credit to its depreciation reserve in each accounting period the amount required to provide for depreciation at the percentage established. If the public utility is a corporation, the corporation may not pay any dividend out of earnings for any fiscal period subsequent to the commission’s certification or order, or carry any portion of its earnings to its surplus account, except out of earnings remaining after crediting its depreciation reserve in accordance with the rates established by the commission, except as provided under par. (b).

(b) After application and hearing the commission, upon a finding that it is necessary in the public interest, may exempt a public utility from the duty of crediting to the depreciation reserve in any accounting period a greater amount than is possible without impairing its ability to pay dividends for the current calendar year. Nothing in this section shall be construed to modify the requirements of ss. 180.0623 and 180.0640.

(7) If a public utility desires to account for depreciation on a sinking fund basis and the commission determines that such basis of accounting for depreciation reasonably may be employed, the commission shall establish, under sub. (2), the composite rate to be applied to the aggregate fixed capital used for public utility purposes to determine the amount which shall be charged to operating expenses, and the interest rate applicable to the reserve balance at which additional credits to the reserve shall be computed. If a pub-

lic utility accounts for depreciation on a sinking fund basis, the public utility shall:

(a) Credit to the reserve the amount charged to operating expenses plus the amount obtained by applying the interest rate to the reserve balance.

(b) Be subject to the same restrictions and regulations in its accounting for the entire amount to be credited to the depreciation reserve as are applicable to other public utilities which account for depreciation by other methods under this section.

(8) No public utility may charge to its depreciation reserve anything except losses on property actually retired from service.

(9) (a) 1. The commission shall create by order guidelines establishing classes of fixed capital that telecommunications utilities use for public utility purposes, a range of annual depreciation rates for each of those classes and a composite range of annual depreciation rates for all classes of fixed capital.

2. The commission shall review biennially the guidelines established under subd. 1., except that if the commission receives, more than 365 days before the deadline for a biennial review, a written request from a telecommunications utility for a review, the commission shall review the guidelines no later than 365 days after receiving the request.

(b) The commission shall determine that an annual depreciation rate is just and reasonable if the rate falls within the range established for that class under par. (a) 1., if the composite annual depreciation rate falls within the composite range established under par. (a) 1. for all classes of fixed capital or if the commission previously determined that the rate is just and reasonable.

(c) A telecommunications utility may implement an annual composite depreciation rate, for all classes of fixed capital that is outside the range established under par. (a) 1. by filing the rate with the commission. The proposed annual composite depreciation rate shall be effective on the date specified in the filing but not sooner than 90 days from the date of filing with the commission, unless any of the following occurs:

1. During the 90–day period the commission determines that the rate is not just and reasonable or in the public interest.

2. The commission directs that the depreciation rate be made effective at an earlier date.

History: 1981 c. 148; 1983 a. 53; 1985 a. 297; 1989 a. 303, 344; 1993 a. 496.

Order establishing depreciation rates for utility's nuclear plant did not require environmental impact statement. *Wis. Environmental Decade v. Public Serv. Comm.* 105 W (2d) 457, 313 NW (2d) 863 (Ct. App. 1981).

196.10 Construction; accounting. The commission shall keep itself informed of all new construction, extensions and additions to the property of public utilities, and shall prescribe the necessary forms, regulations and instructions for the keeping of construction accounts, which shall clearly distinguish all operating expenses from new construction.

196.11 Profit sharing and sliding scales. (1) A public utility may enter into any reasonable arrangement with its consumers or employes, for the division or distribution of its surplus profits, or providing for a sliding scale of charges, or other financial device if the arrangement is:

(a) Practicable and advantageous to the parties interested; and

(b) Entered into by a public utility other than a telecommunications utility and found by the commission to be reasonable and just and consistent with the purposes of this chapter.

(2) Any arrangement under this section shall be under the supervision and regulation of the commission. The commission may order any rate, charge or regulation which the commission deems necessary to give effect to the arrangement. The commission may make any change in a rate, charge or regulation as the commission determines is necessary and reasonable and may revoke its approval and amend or rescind all orders relative to any arrangement. This subsection does not apply to telecommunications cooperatives or telecommunications utilities.

(3) A telecommunications utility may enter into any reasonable arrangement with its consumers or employes, for the division or distribution of its surplus profits, or providing for a sliding scale of charges or other financial device, if the arrangement is practical and advantageous to the parties interested.

History: 1981 c. 148; 1983 a. 53; 1985 a. 297; 1989 a. 344; 1993 a. 496.

196.12 Report by public utilities; items. (1) Each public utility shall furnish to the commission, in the form and at the time the commission requires, accounts, reports or other information which shows in itemized detail:

(a) Depreciation.
 (b) Salaries and wages.
 (c) Legal expenses.
 (d) Taxes and rentals.
 (e) The quantity and value of material used.
 (f) Receipts from residuals, by-products, services or other sales.

(g) Total and net cost.
 (h) Gross and net profit.
 (i) Dividends and interest.
 (j) Surplus or reserve.
 (k) Prices paid by consumers.

(L) Any other information whether or not similar to the information under pars. (a) to (k).

(2) No public utility operated by a city, village or town having a population of less than 5,000 shall be required to report under this section except as to earnings, operating expenses, including depreciation and maintenance, cost of renewals, extensions and improvements to the property and the nature and amount of service furnished in such detail as the commission deems necessary, except that if the commission conducts any investigation of the public utility upon formal complaint, the commission may require the detailed reports required under sub. (1).

History: 1983 a. 53; 1993 a. 246.

196.13 Commission's report. (1) The commission shall publish biennial reports showing its proceedings together with any financial or other data which concerns and is appropriate for all public utilities and may publish any other report related to public utilities.

(2) The commission shall publish in its reports the value of all the property actually used and useful for the convenience of the public of a public utility, other than a telecommunications utility, if the commission has held a hearing on the public utility's rates, charges, service or regulations or if the commission has otherwise determined the value of the public utility's property.

History: 1983 a. 53; 1993 a. 496.

196.14 Public record exception. The commission may withhold from public inspection any information which would aid a competitor of a public utility in competition with the public utility.

History: 1983 a. 53; 1985 a. 236, 297.

Cross-reference: See s. 19.36 for other public record exceptions.

196.15 Units of product or service. The commission shall prescribe for each kind of public utility, other than a telecommunications utility, suitable and convenient standard commercial units of product or service.

History: 1993 a. 496.

196.16 Standard measurements; accurate appliances. (1) The commission shall fix adequate and serviceable standards for the measurement of quality, pressure, initial voltage or other condition pertaining to the supply of the product or service rendered by a public utility. The commission shall prescribe reasonable regulations for measurement, examination and testing of the product or service.

(2) The commission shall establish reasonable rules, regulations, specifications and standards to secure the accuracy of all meters and appliances for measurement of public utility service.

(3) This section does not limit any power of a municipal council under s. 196.58.

History: 1983 a. 53.

196.17 Tests of meters; fees. (1) The commission shall provide for the examination and testing of every appliance used for measuring any product or service of a public utility.

(2) Any consumer may have an appliance tested under this section upon payment of a fee fixed by the commission.

(3) The commission shall establish a reasonable fee to be paid for testing appliances under this section if a consumer requests the test. The fee shall be paid by the consumer at the time of his or her request, but shall be repaid to the consumer if the appliance is found to be defective or incorrect to the disadvantage of the consumer.

(4) The commission may purchase materials, apparatus and standard measuring instruments for examinations and tests under this section.

History: 1983 a. 53.

196.171 Examination of meters, pipes, fittings, wires and works; entering buildings for. (1) Any officer or agent of any public utility furnishing or transmitting water, gas or electric current to the public or for public purposes may enter, at any reasonable time, any place supplied with gas, electricity or water by the public utility, for the purpose of inspecting, examining, repairing, installing or removing the meters, pipes, fittings, wires and works for supplying or regulating the supply of gas, electricity or water and for the purpose of ascertaining the quantity of gas, electricity or water supplied.

(2) No officer or agent of a public utility may enter any premises under this section unless the officer or agent:

(a) Was duly appointed by the public utility for the purpose of acting under this section.

(b) Exhibits written authority signed by the president, by a vice president and secretary, or by a vice president and assistant secretary of the public utility. The authority of any officer or agent of a municipally owned public utility shall be signed by the commissioner of public works or by any other official in charge of the public utility.

(3) Any person who directly or indirectly prevents or hinders any officer or agent from entering a premises, or from making an inspection, examination, removal or installation under this section shall be fined not more than \$25 for each offense.

History: 1983 a. 53.

196.175 Construction and occupancy standards. The commission may not establish or enforce construction or occupancy standards applicable to any public building, as defined in s. 101.01 (12), dwelling, as defined in s. 101.71 (2) or any occupancy standard applicable to any place of employment as defined in s. 101.01 (11).

History: 1979 c. 34; 1983 a. 189 s. 329 (4); 1995 a. 27.

196.18 Entry upon premises. The commission, its agents, experts or examiners may enter any premises occupied by a public utility to make any examination or test under this chapter and may set up and use on the premises any apparatus or appliance and occupy reasonable space for the examination or test.

History: 1983 a. 53.

196.19 Publish schedules; regulations; files; joint rates. (1) Each public utility shall file with the commission schedules showing all rates, tolls and charges which it has established and which are in force at the time for any service performed by it within the state, or for any service in connection therewith or performed by any public utility controlled or operated by it. The

rates, tolls and charges shown on such schedules may not be changed except as provided under this chapter.

(1m) (a) In this subsection, “new telecommunications service” means services that are not offered by the telecommunications utility before January 1, 1994, and alternative rate structures offered after December 31, 1993, for any telecommunications service that is offered before January 1, 1994, if the rate structure effective before January 1, 1994, continues to be available to new and existing customers. “New telecommunications service” includes additional functions and features on, and technological alternatives to, any telecommunications service offered before January 1, 1994.

(b) A telecommunications utility may not offer a new telecommunications service to the public without first filing a tariff for that offering with the commission. A proposed tariff offering a new telecommunications service shall be effective on the date specified in the tariff but not earlier than 10 days after the date on which the tariff is filed with the commission, unless the commission, either upon complaint or upon its own motion, suspends the operation of the new tariff by serving written notice of the suspension on the telecommunications utility within 10 days after the date of filing. The notice shall include a statement of the reason under par. (c) upon which the commission believes the tariff may be modified.

(c) The commission may modify a tariff under par. (b) if the commission finds, after an opportunity for a hearing, that the new telecommunications service violates s. 196.204, 196.209 or 196.219 or is otherwise adverse to the quality of basic local exchange service, business access line and usage service within a local calling area or access service.

(d) If the commission does not conduct a hearing under this subsection, the commission shall issue its final order within 60 days after issuing the notice of suspension. If the commission conducts a hearing, the commission shall issue its final order within 120 days after issuing the notice of suspension. If a final order is not issued within the time limits specified in this paragraph, the tariff becomes effective as filed.

(e) The commission, upon application of the telecommunications utility, may direct that the tariff for a new telecommunications service be made effective after a shorter time period than the period in par. (b).

(2) Every public utility shall file with and as a part of such schedule all rules and regulations that, in the judgment of the commission, in any manner affect the service or product, or the rates charged or to be charged for any service or product, as well as any contracts, agreements or arrangements relating to the service or product or the rates to be charged for any service or product to which the schedule is applicable as the commission may by general or special order direct.

(3) A copy of as much of the schedules filed under sub. (1) as the commission determines necessary for the use of the public shall be printed in plain type, and kept on file in every public utility station or office where payments are made by consumers in a form and place readily accessible to the public.

(4) If a schedule of joint rates or charges is in force between public utilities, the schedule shall be printed and filed with the commission under sub. (1). The commission shall determine the portion of the schedule necessary for the use of the public. The public utilities shall file the portion of the schedule under sub. (3).

(5) If telecommunications utilities are furnishing joint telecommunications service to the public, or are required to furnish the service, and refuse or neglect to establish joint tolls, the commission, after notice and a public hearing, may establish by order the joint tolls. If the utilities fail to agree upon the apportionment of the joint tolls within 20 days after service of the order, the commission, upon a like hearing, may issue a supplemental order determining the apportionment of such joint tolls. The supplemental order shall take effect as part of the original order.

(6) The commission may prescribe the form in which any schedule is issued under this section by any public utility.

History: 1983 a. 53 ss. 28, 35; 1985 a. 297; 1993 a. 496.

196.193 Water and sewer rate increases without hearings. (1) WHEN PERMITTED. The commission may grant a rate increase to a municipally owned water or a municipally owned combined water and sewer public utility without a hearing if all of the following conditions are met:

(a) The revenue increase is calculated by multiplying the utility's prior year's revenues from sales of utility service by the rate increase factor under sub. (2).

(b) The revenue increase under par. (a), combined with the prior year's net operating income, either results in an overall rate of return that does not exceed the rate of return determined by the commission under sub. (3) or results in an amount that does not exceed 6% of the utility's prior year's total operation and maintenance expenses.

(c) The utility will increase its rates for general service, wholesale service and public fire protection uniformly for all utility customers by the rate increase factor determined by the commission under sub. (2), unless the commission determines that the utility has good cause for not meeting the condition under this paragraph.

(d) The effective date of the rate increase is not less than 12 months from the effective date of an increase previously filed under this section nor less than 45 days from the date on which the application was filed.

(e) If the utility's rates in effect prior to the rate increase under this section were authorized pursuant to a hearing under s. 196.20, the rates have been in effect for a calendar year.

(f) The commission has not rejected the application for good cause.

(g) If the utility has 4,000 or more customers, the effective date of the rate increase is not more than 5 years from the effective date of an increase authorized pursuant to a hearing under s. 196.20.

(h) If the utility has less than 4,000 customers, the total of all prior rate increases granted since the last hearing under s. 196.20 does not result in rates that are more than 40% higher than the base rates previously authorized by a hearing under s. 196.20.

(2) DETERMINATION OF THE RATE INCREASE FACTOR. Not later than March 1 annually, the commission shall set an increase factor to apply to rates of municipally owned water public utilities or municipally owned combined water and sewer public utilities. The factor shall be equal to the U.S. consumer price index for all urban consumers, U.S. city average, for the previous year; however, the factor may not be less than 3% nor more than 10%. The rate increase factor need not be defined by rule.

(3) DETERMINATION OF AN OVERALL RATE OF RETURN. Not later than March 1 annually, the commission shall set the overall rate of return to be applicable to municipally owned water public utilities or municipally owned combined water and sewer public utilities for rate increases under this section. The overall rate of return shall be equal to the simple average, rounded to the nearest tenth of 1%, of the interest rates listed for state and local bonds in the Federal Reserve Statistical Release H.15 (519) published by the federal reserve board, for the last quarter of the prior year, plus 2%. The overall rate of return need not be defined by rule.

(4) NOTICE REQUIREMENTS. A utility seeking an increase in rates under this section shall notify all customers, upon a form approved by the commission, by newspaper publication or by mail. The utility shall include a copy of the issued notice in its filing of an application under this section. The notice shall include all of the following:

(a) The anticipated date of filing of the rate increase application and the anticipated effective date of the rate increase.

(b) The impact on customer bills resulting from the rate increase calculated for at least 5 different usage levels, including an average residential usage level.

(c) A statement that the increase is being proposed under this section and that no hearing is required.

(d) Other information required by the commission to be included in a notice under this subsection.

History: 1995 a. 363.

196.194 Public utility individual contracts. (1) TELECOMMUNICATIONS UTILITIES. Except as provided in this subsection, nothing in this chapter prohibits the commission from approving the filing of a tariff which permits a telecommunications utility to enter into an individual contract with an individual customer if substitute telecommunications services are available to customers or potential customers of the telecommunications utility and the absence of such a tariff will cause the telecommunications utility to be disadvantaged in competing for business. A tariff filed under this subsection shall include the condition that any such contract shall be compensatory as determined under s. 196.204 (5) and (6). The tariff shall include any other condition and procedure required by the commission in the public interest. Within 20 days after a contract authorized under this subsection or an amendment to such a contract has been executed, the telecommunications utility shall submit to the commission written notice of the general nature of the contract and the parties to the contract. Upon request, the commission shall inform a person, or direct that the person be informed, that notice has been received by the commission of execution of a contract under this subsection. Within 6 months after receiving substantial evidence that a contract may be noncompensatory, or upon its own motion, the commission shall investigate and determine whether the contract is compensatory. If the commission determines that the contract is noncompensatory, the commission may make appropriate adjustments in the rates or tariffs of the telecommunications utility that has entered into the contract, in addition to other remedies under this chapter. The dollar amount of the adjustment may not be less than the amount by which the contract was found to be noncompensatory.

(2) GAS UTILITIES. (a) Nothing in ss. 196.03, 196.19, 196.20, 196.21, 196.22, 196.37, 196.60, 196.604 and 196.625 prohibits the commission from approving the filing of a tariff which permits a gas utility to enter into an individual contract with an individual customer if the commission determines that substitute gas services are available to customers or potential customers of the gas utility and the absence of such a tariff will cause the gas utility to be disadvantaged in competing for business. A tariff filed under this paragraph shall include the condition that any such contract shall be compensatory. The tariff shall include any other condition and procedure required by the commission in the public interest. Within 20 days after a contract authorized under this paragraph or an amendment to such a contract has been executed, the gas utility shall submit the contract to the commission. The commission shall give notice to any person, upon request, that a contract authorized under this paragraph has been received by the commission. The notice shall identify the gas utility that has entered into the contract. Within 6 months after receiving substantial evidence that a contract may be noncompensatory, or upon its own motion, the commission shall investigate and determine whether the contract is compensatory. If the commission determines that the contract is noncompensatory, the commission may make appropriate adjustments in the rates or tariffs of the gas utility that has entered into the contract, in addition to other remedies under this chapter. The dollar amount of the adjustment may not be less than the amount by which the contract was found to be noncompensatory.

(b) Paragraph (a) does not apply to a contract that is entered into, renewed, extended or modified after June 30, 1998.

History: 1985 a. 297; 1993 a. 211, 496; 1995 a. 317.

Section protects ratepayers not competitors. MCI Telecommunications v. Pub. Serv. Corp., 164 W (2d) 489, 476 NW (2d) 575 (Ct. App. 1991).

196.195 Partial deregulation of competitive telecommunications services. (1) REGULATION IMPOSED. Except as provided in this section and ss. 196.202, 196.203, 196.215 and

196.219, a telecommunications utility is subject to every applicable provision of this chapter and ch. 184.

(2) HEARING ON PARTIAL DEREGULATION. (a) Except as provided under par. (b), in response to a petition from any interested person or upon its own motion, the commission may hold a hearing to determine whether effective competition exists in a market for a telecommunications service which competition justifies a lesser degree of regulation by suspending the application of one or more provisions of law under sub. (5) and whether competition under a lesser degree of regulation in that market will serve the public interest. In making this determination, the commission shall consider factors including:

1. The number and size of telecommunications utilities or other persons providing the same, equivalent or substitutable service in the relevant market.

2. The extent to which the same, equivalent or substitutable service is available in the relevant market.

3. The ability of customers in the relevant market to obtain the same, equivalent or substitutable services at comparable rates, terms and conditions.

4. The ability of telecommunications utilities or other persons to make the same, equivalent or substitutable service readily available in the relevant market at comparable rates, terms and conditions.

5. The relevant market power of each telecommunications utility or other person providing the same, equivalent or substitutable service in the relevant market and any apparent trends in how the market power of each telecommunications utility may change in the future.

6. Any affiliation of any telecommunications utility providing the service in the relevant market which may affect competition.

7. The existence of any significant barrier to the entry or exit of a provider of the service in the relevant market.

(b) If the commission suspends the application of any provision of law for any telecommunications utility, the commission, upon its own motion or in response to a petition from any interested person, may waive the hearing required under par. (a), with notice to all known interested parties, for any similarly situated telecommunications utility which is providing the same, equivalent or substitutable service in the same market and which requests a waiver of the same provision of law for the service, if the waiver is in the public interest.

(3) LEVELS OF REGULATION. If after the proceeding under sub. (2) the commission has determined that effective competition exists in a market for a telecommunications service that justifies lesser regulation, the commission shall establish the level of regulation for telecommunications utilities providing the service in that market as follows:

(a) The level of regulation imposed upon all telecommunications utilities providing the service in that market shall be equal unless the commission finds that the public interest requires that different regulatory requirements be imposed.

(b) The level of regulation imposed upon all telecommunications utilities providing the service in that market shall be the amount of regulation which does not hinder competition and is consistent with protecting the public interest.

(4) FINDINGS OF FACT. (a) Except as provided in par. (b), the commission shall issue written findings of fact on each of the factors specified in sub. (2) (a) 1. to 7. and on any other factors considered by the commission in making the following determinations:

1. Whether effective competition exists in the market for the telecommunications service that justifies lesser regulation.

2. The level of regulation to be imposed upon each telecommunications utility providing the service in that market.

3. The different regulatory requirements, if any, determined for each telecommunications utility providing the service in the market.

4. The provisions of law to be suspended, if any, under sub. (5).

(b) If the commission conducts more than one hearing under sub. (2) on the same telecommunications service or the same market, the commission may, if appropriate and if no new finding of fact is required, rely on a finding of fact made under par. (a) in a prior hearing.

(5) COMMISSION ACTION. If after the proceedings under subs. (2), (3) and (4) the commission has determined that effective competition exists in the market for the telecommunications service which justifies a lesser degree of regulation and that lesser regulation in that market will serve the public interest, the commission may, by order, suspend any of the following provisions of law, except as provided under subs. (7) and (8): ch. 184 and s. 196.02 (2); s. 196.05; s. 196.06; s. 196.07; s. 196.09; s. 196.10; s. 196.12; s. 196.13 (2); s. 196.19; tariffing requirements under s. 196.194; s. 196.196 (1) or (5); s. 196.20; s. 196.204 (7); s. 196.21; s. 196.22; s. 196.26; s. 196.28; s. 196.37; s. 196.49; s. 196.52; s. 196.58; s. 196.60; s. 196.604; s. 196.77; s. 196.78; s. 196.79; and s. 196.805.

(7) CONDITIONS ON DEREGULATION. If the commission suspends the application of any provision of law to a telecommunications utility under sub. (5), it may require the telecommunications utility to comply with any condition reasonably necessary to protect the public interest because of the suspended application.

(8) RECORDS FOR COMMISSION REVIEW. The commission may suspend the application of a provision of law relating to an accounting or reporting requirement under sub. (5) only if, with consideration given to any conditions imposed under sub. (7), the commission determines that it will have enough information to determine whether the suspension of the application of any provision of law under sub. (5) is justified at any time after the suspension is ordered.

(10) REVOCATION OF DEREGULATION. If necessary to protect the public interest, the commission, at any time by order, may revoke its order to suspend the applicability of any provision of law suspended under sub. (5).

(12) INCENTIVE REGULATION FOR TELECOMMUNICATIONS UTILITIES. (a) To provide incentives for telecommunications utilities to achieve any of the goals listed in par. (b) 1. a., the commission may suspend any of the provisions listed in sub. (5) except ss. 196.19, 196.20 (1m), 196.22, 196.26, 196.37, 196.60 and 196.604 or may approve a regulatory method alternative to traditional rate-of-return regulation that does not require suspension of any provisions listed in sub. (5).

(b) 1. Except as provided in subd. 2., after opportunity for hearing, the commission shall determine whether it is in the public interest to suspend any of the provisions identified in par. (a) or to approve an alternative regulatory method. In making this determination, the commission shall identify all of the following:

a. The goals to be achieved, which may include promoting competition, infrastructure deployment, economic development, consumer choice, productivity, efficiency, quality of life, societal goals or universal service.

b. The authorized incentive and how the incentive is expected to help achieve the identified goals.

c. The measurement to be used to evaluate successful attainment of the identified goals.

d. The extent to which a telecommunications utility has contributed to the Wisconsin advanced telecommunications foundation established under s. 14.28.

2. If the commission suspends the application of any provision identified in par. (a) or approves an alternative regulatory method for any telecommunications utility, the commission may waive the hearing opportunity required under subd. 1., with notice to all known interested parties, for any similarly situated telecommunications utility, if the waiver is in the public interest.

3. The commission shall regulate telecommunications utilities with the goal of developing alternative forms of regulation. The commission shall, by order, develop and approve an incentive

regulatory plan for each telecommunications utility to implement this subdivision. The commission may not increase regulation of a small telecommunications utility in implementing this subdivision. For telecommunications utilities with more than 150,000 access lines in use in this state, s. 196.196 (2) applies to access service rates in any regulatory plan approved under this subdivision.

(c) Subsections (7), (8) and (10) apply to a proceeding under this subsection.

(d) 1. If after 10 days' written notice and opportunity for interested persons to comment the commission finds that a telecommunications utility has adequately demonstrated that a telecommunications service which it offers and which is subject to the jurisdiction of the commission is subject to competition that may justify a lesser degree of regulation under sub. (5) and that it may be materially disadvantaged in such competition without commission authorization under this paragraph, the commission, prior to a determination under sub. (5), may authorize the telecommunications utility to provide the telecommunications service under a tariff which specifies a range of rates which may be charged for the service or may authorize the telecommunications utility to file a price list for the service which is effective upon at least 10 days' written notice to affected consumers.

2. If the commission authorizes a telecommunications utility to provide a service under subd. 1., the telecommunications utility may not provide the service at a price which does not recover total service long-run incremental cost.

3. The commission may investigate the price of any service authorized under subd. 1. to assure that the price complies with subd. 2. and may suspend any price which does not comply with subd. 2.

4. A request for authorization under subd. 1. constitutes a request for a hearing on partial deregulation under sub. (2). An order granting such authorization expires on the first day of the 9th month following its issuance or upon the date of the commission order granting or denying suspension of any provision of law under sub. (5), whichever is earlier, unless extended by the commission for good cause pending issuance of a final order.

(e) If under this subsection the commission authorizes a telecommunications utility to provide a telecommunications service under a tariff that specifies a range of rates which may be charged for the service or authorizes the telecommunications utility to file a price list for the service which is effective after a minimum period of notice to affected customers, the telecommunications utility may not provide the service at a price which does not recover total service long-run incremental cost.

History: 1985 a. 297; 1987 a. 403 s. 256; 1993 a. 496.

196.196 Telecommunications utility price regulation.

(1) PRICE REGULATION OF BASIC LOCAL EXCHANGE SERVICES. (a) 1. This subsection governs rates for basic local exchange service, standard business access lines and usage by small businesses with no more than 3 access lines and basic message telecommunications service and any changes in those rates for telecommunications utilities electing to be price regulated. A telecommunications utility shall elect to become a price-regulated utility by filing a written election with the commission.

2. The commission may include, following notice and opportunity for hearing, as part of the services subject to price regulation under this subsection all of the following:

a. Those services and technological features found by the commission to be a necessary component of universal service under s. 196.218.

b. Advanced telecommunications services, if the commission finds that the advanced telecommunications service is essential to the public interest; that the advanced telecommunications service, or reasonably equivalent service, is not available at reasonable prices and terms and conditions from alternative providers; and that price regulation of the advanced telecommunications service is essential to the public interest.

(b) If a telecommunications utility elects to become a price-regulated telecommunications utility within 30 days after September 1, 1994, the telecommunications utility shall set the initial rates to be charged under this section for services under par. (a) and file the rates with the commission. The rates shall be effective at the time specified in the filing with the commission. The rates shall not be greater than the rates allowed for the telecommunications utility for those services as of December 31, 1993, unless the telecommunications utility has more than 500,000 access lines in use in this state, in which case the telecommunications utility shall reduce its rate for residential access line service and for single line business access line service by at least 10%. If a telecommunications utility elects to become a price-regulated telecommunications utility more than 30 days after September 1, 1994, the telecommunications utility shall set the initial rates and file those rates with the commission on at least 45 days' notice. The rates shall be no higher than those in effect on the December 31 immediately preceding the election unless the telecommunications utility has more than 500,000 access lines in use in this state, in which case the telecommunications utility shall reduce its rate for residential access line service and for single line business access line service by at least 10%.

(c) A price-regulated telecommunications utility may not increase its rates for services under par. (a), except for basic message telecommunications service, for a period of 3 years after electing to become price regulated. Following the initial 3-year period for services under par. (a), except for basic message telecommunications service, and at any time for basic message telecommunications service, a price-regulated telecommunications utility may increase its rates for those services to the extent that the change in the revenue weighted price indices does not exceed 2 percentage points less than the most recent annual change in the gross domestic product price index, as published by the federal government. The commission shall, by rule, create a penalty mechanism for up to a one percentage point increase in the percentage offset for inadequate service provided by or insufficient investment made by a price-regulated telecommunications utility. The commission shall, by rule, create an incentive mechanism for up to a one percentage point decrease in the percentage offset to encourage infrastructure investment by the price-regulated telecommunications utility. For a telecommunications utility with more than 500,000 access lines in use in this state at the time of electing to become price regulated, the percentage offset to the change in the gross domestic product price index shall be 3 percentage points and the penalty mechanism and incentive mechanism shall be up to 2 percentage points. No earlier than 6 years after September 1, 1994, and no more frequently than every 3 years thereafter, the commission may, following notice and an opportunity for hearing, by rule increase or decrease the gross domestic product price index percentage offset by a maximum of one percentage point in any 12-month period to reflect any state-wide changes in the productivity experience of the telecommunications industry. The commission shall promulgate rules to identify the factors that the commission may consider in determining changes in the productivity experience of the telecommunications industry. If application of the price regulation index formula achieves a negative result, prices shall be reduced so that the cumulative price change for services under par. (a), including prior price reductions in these services, achieves the negative result. Annual permitted price increases may be deferred and accumulated for a maximum of 3 years into a single increase. The first permitted increase after the telecommunications utility elects to become price regulated shall be limited by the most recent annual change in the gross domestic product price index, less 2 percentage points, plus or minus any penalty or incentive adjustment. For a telecommunications utility with more than 500,000 access lines in use in this state, the first permitted increase shall be limited by the most recent annual change in the gross domestic product price index, less 3 percentage points, plus or minus any penalty or incentive adjustment. The increase in any rate element

may not at any time exceed 10% or the increase in the gross domestic product price index, whichever is greater. A rate change under this paragraph shall take effect 45 days after the date on which notice is received by the commission. A telecommunications utility shall notify customers of a rate change under this paragraph by a bill insert that is included in a bill no later than the first billing provided after notice of a rate change is submitted to the commission. A telecommunications utility may file only one rate increase under this paragraph during any 12-month period.

(cm) The commission shall consider the extent to which a telecommunications utility has contributed to the Wisconsin advanced telecommunications foundation established under s. 14.28 when making penalty or incentive adjustments under par. (c).

(d) A price-regulated telecommunications utility may reduce the price for any service under par. (a) on one day's notice filed with the commission. A price-regulated telecommunications utility may alter the rate structure for any service under par. (a) on 10 days' prior notice to the commission, provided that the preexisting rate structure continues to be offered to customers.

(e) 1. Notwithstanding pars. (c) and (d) but not earlier than 3 years after electing to become a price-regulated telecommunications utility, a price-regulated telecommunications utility may alter its rate structure or increase rates for services under par. (a) on 120 days' prior notice to the commission. The notice to the commission under this subdivision shall be accompanied with documentary support that the change is just and reasonable. The commission shall establish by rule documentation requirements under this subdivision.

2. Upon complaint filed by an affected party or on the commission's own motion, the commission may initiate an investigation of a proposed rate change within 60 days after receiving the notice. Within 120 days after initiating an investigation and following a hearing, the commission shall issue an order approving, modifying or rejecting the rate change. The commission may suspend a proposed rate structure alteration or rate increase pending the issuance of the order.

3. The commission's review of a proposed rate change may consider only the following:

- a. Cost allocations of costs outside of the control of the telecommunications utility to services under par. (a).
- b. Competition.
- c. Network and service quality, improvement and maintenance.
- d. Changes in the costs of providing the service that are outside of the control of the telecommunications utility.
- e. Impact of the proposed change on the public interest.

(f) A telecommunications utility shall give notice of any proposed rate change under par. (c), (d) or (e) to its customers. Notice shall be published in a newspaper of general circulation in the service area to be affected within a reasonable time period after the notice of the rate change is given to the commission, and shall be included in or on the bill of each affected customer in the billing first following notice to the commission. The notice to customers shall contain all of the following:

1. An estimate of the dollar amount of the monthly change for the typical residential customer that would result if the rate change becomes effective.
2. A statement that a customer who desires to comment on the rate change may call or write the commission or who desires the complete details of the rate change may call or write the telecommunications utility.
3. A statement that describes the nature and extent of the commission's review of the proposed rate change.

(g) 1. Five years after a telecommunications utility elects to become a price-regulated telecommunications utility or, if subd. 4. applies, within the dates specified in that subdivision, the commission shall hold a hearing, and at any time thereafter, upon com-

plaint or on the commission's own motion, the commission may hold a hearing, to determine whether it is in the public interest to suspend one or more of the provisions of this subsection as it applies to a price-regulated telecommunications utility or to approve an alternative regulatory method for that utility. In making a determination under this subdivision, the commission shall identify all of the following:

a. The goal to be achieved, which may include promoting competition, infrastructure deployment, economic development, consumer choice, productivity, efficiency, quality of life, societal goals or universal service.

b. The suspension or method to be approved and how the decision is expected to help achieve the identified goals.

c. The criteria to be used to evaluate success of the change.

1m. In making a determination under subd. 1., the commission shall consider if the telecommunications utility is adequately serving geographical areas with diverse income or racial populations.

2. If the commission suspends the application of any provision of this subsection or approves an alternative regulatory method under subd. 1., the commission, upon its own motion or a petition from an interested person, may waive the hearing required under subd. 1., with notice to all known interested parties, for any similarly situated telecommunications utility, if waiver is in the public interest.

3. Section 196.195 (7), (8) and (10), as it applies to that section, applies to a proceeding under this paragraph.

4. If a telecommunications utility that has more than 150,000 access lines in use in this state elects to become a price-regulated telecommunications utility before December 31, 1997, the commission shall commence the hearing required under subd. 1. no earlier than February 1, 1999, and no later than February 15, 1999, and shall complete the proceeding that includes that hearing no later than June 30, 1999.

(2) PRICE REGULATION OF INTRASTATE ACCESS SERVICES. (a) Except as required to enforce this subsection, the commission may not review or set the rates for intrastate access services offered by price-regulated telecommunications utilities. This paragraph does not waive the tariff requirements of s. 196.219 (2m).

(b) 1. Intrastate access service rates of a price-regulated telecommunications utility with more than 150,000 access lines in use in this state may not exceed the utility's interstate rates for similar access services. The telecommunications utility shall eliminate 50% of its intrastate carrier common line charge within one year after its election to become price regulated and shall eliminate the balance of its intrastate carrier common line charge within one year thereafter.

2. A price-regulated telecommunications utility with more than 150,000 access lines in use in this state shall eliminate intrastate carrier common line charges upon full authorization to provide interlata service.

3. After eliminating intrastate carrier common line charges, the telecommunications utility may not reinstate an intrastate carrier common line charge or a substitute charge.

(c) A price-regulated telecommunications utility with 150,000 or less access lines in use in this state shall adjust its intrastate access service rates in equal annual increments so that, within 2 years after its election to become price regulated, its intrastate access service rates and rate elements do not exceed the lower of its intrastate access service rates and rate elements in effect as of the date of its election to become price regulated or its interstate rates for similar access services, including carrier common line. After the 2-year period, intrastate access service rates may not exceed the utility's interstate access service rates. Beginning on the 3rd anniversary of the utility's election to become price regulated, the utility's intrastate carrier common line charge may not exceed 83.33% of its existing interstate carrier common line charge. Beginning on the 4th anniversary of the utility's elec-

tion, the utility's intrastate carrier common line charge may not exceed 66.67% of its existing interstate carrier common line charge. Beginning on the 5th anniversary of the utility's election, the utility's intrastate carrier common line charge may not exceed 50% of its existing interstate carrier common line charge.

(d) This subsection does not limit any surcharges to access service rates, including to the carrier common line charge or to substitute rate elements, as a means of collecting access customers' share of charges that may be ordered by the commission under s. 196.218.

(e) A telecommunications utility shall give a customer written notice of any rate increase under this subsection before the customer is billed at the increased rate.

(3) PRICE REGULATION OF OTHER SERVICES. (a) Except to the extent expressly permitted by this section and ss. 196.19 (1m), 196.194, 196.195, 196.20 (1m), 196.204, 196.209 and 196.219, the commission may not have jurisdiction over the prices or terms and conditions for the offering of any other services, including new telecommunications services, offered by a price-regulated telecommunications utility.

(b) A price-regulated telecommunications utility shall file tariffs with the commission for the provision of any telecommunications service, whether or not the service is otherwise subject to this chapter. Except as provided in s. 196.20 (2) (am), changes in the terms and conditions of tariffed services under par. (a) shall be effective one day after filing with the commission, unless the tariff specifies a later effective date.

(c) A telecommunications utility shall give a customer written notice of any rate increase under this subsection before the customer is billed at the increased rate.

(4) PRICE REGULATION FOR SMALL TELECOMMUNICATIONS UTILITIES. (a) A telecommunications utility with 150,000 or less access lines in use in this state may elect to become a price-regulated telecommunications utility and may elect to have its earnings considered in any review under sub. (1) (e).

(b) A telecommunications utility with 150,000 or less access lines in use in this state may file a company-specific price regulation and investment plan subject to commission approval.

(c) A telecommunications utility with 150,000 or less access lines in use in this state that has elected price regulation may rescind election of price regulation and return to rate-of-return regulation, subject to the approval of the commission, if rescission is in the public interest considering the factors under s. 196.03 (6).

(d) All of the following apply to a telecommunications utility that elects to return to rate-of-return regulation under par. (c):

1. It may not elect to be subject to price regulation for a period of 3 years after returning to rate-of-return regulation.

2. It may be subject to a full rate case proceeding before the commission.

(5) INVESTMENT COMMITMENTS. (a) Within 60 days after a telecommunications utility elects to become price regulated under sub. (1), the telecommunications utility shall file with the commission a plan outlining the telecommunications utility's commitment to invest in telecommunications infrastructure improvements in this state over a period of not less than 6 years.

(b) An investment plan filed with the commission shall include all of the following:

1. A description of the level of planned investment in technological or infrastructure enhancement.

2. A description of the extent to which planned investment will make new telecommunications technology available to customers or expand the availability of current technology.

3. A description of the planned deployment of fiber-optic facilities or broad-band capabilities to schools, libraries, technical colleges, hospitals and colleges and universities in this state.

4. Target dates for the deployment of the planned technology and infrastructure improvements.

5. For a telecommunications utility with more than 500,000 access lines in use in this state at the time of electing to become price regulated, a level of planned investment in an amount of not less than \$700,000,000 within the first 5 years of the plan.

6. The level of planned contributions to the Wisconsin advanced telecommunications foundation established under s. 14.28.

(c) 1. A telecommunications utility shall provide the commission, within one year after its election to become price regulated under sub. (1) and annually thereafter, a progress report relating to the telecommunications utility's investment in and deployment of infrastructure enhancements. A progress report shall include data relative to the telecommunications utility's operating and financial performance during the relevant period.

2. The commission shall consider the telecommunications utility's progress in meeting its investment plan infrastructure commitments when making penalty or incentive adjustments under sub. (1) (c).

(d) 1. Within 120 days after a telecommunications utility elects to become price regulated under sub. (1), the commission, after notice and opportunity for hearing, may rescind the election if the telecommunications utility fails to file an investment plan within the time specified in par. (a) or if the investment plan does not comply with par. (b). If a hearing is held, the time within which the commission may act may be extended an additional 30 days.

2. If the commission orders a rescission, the commission shall reinstate the level of regulation in effect at the time that the election was made and the telecommunications utility shall rescind any rate increases put into effect when the telecommunications utility operated as a price-regulated utility.

(e) Within 120 days after the completion of the first year and of the 2nd year that a telecommunications utility is price-regulated, the commission may reduce rates charged by the price-regulated telecommunications utility for services subject to price regulation by up to 2%. If a hearing is held, the time within which the commission may act may be extended an additional 30 days. The commission may reduce rates under this paragraph if, after notice and opportunity for hearing, the commission finds any of the following:

1. That the telecommunications utility did not file a progress report within the time specified in par. (c) 1.

2. That the progress report filed by the telecommunications utility does not contain sufficient information to permit the commission to adequately monitor the telecommunications utility's investment and deployment of infrastructure described in its investment plan.

3. That the actual or planned investment described in the progress report does not adequately provide for deployment of advanced infrastructure technologies, fails to exceed routine facility upgrades necessary to maintain service quality or fails to meet goals identified in the investment plan.

(f) 1. Before January 1, 1996, and biennially thereafter, the commission shall submit a report to the joint committee on information policy describing the status of investments in advanced telecommunications infrastructure in this state. The report shall include information on the progress made in all of the following areas:

a. Distance learning, including the number of schools and other educational institutions connected to distance learning networks.

b. Interconnection of libraries, including the number of libraries with video conferencing and network access capabilities.

c. Access to health care.

d. Education, health care and employment opportunities for the disabled and other persons in the home.

e. Integrated services digital network deployment.

f. Other infrastructure investments identified by the commission.

2. The commission shall include in the report under subd. 1. recommendations for improving the progress of investments in advanced telecommunications infrastructure.

3. The commission may combine its report under this paragraph with its report under s. 196.218 (5r).

History: 1993 a. 496.

196.198 Local measured telecommunications service.

(1) In this section, “extended community telephone service” means a telecommunications service by which a customer in one exchange may call a customer in another exchange or combination of exchanges under a discounted toll charge plan.

(2) (a) Except as provided in sub. (3), a telecommunications utility that has more than 150,000 access lines in use in this state or a telecommunications provider that has more than 150,000 access lines in use in this state may not charge a residential customer for basic local exchange service based on the duration of a call or on the time of day that a call is made. This paragraph does not apply to an extended community telephone service.

(b) Paragraph (a) does not prohibit a price-regulated telecommunications utility from offering discounts based on the time of day that a call is made if the price-regulated telecommunications utility also offers basic local exchange service at a rate permitted under s. 196.196 (1).

(3) The commission may suspend the application of sub. (2) (a) in a particular geographical area for a telecommunications utility or a telecommunications provider if, after a contested case hearing, the commission determines that all of the following apply:

(a) Failure to suspend the application of sub. (2) (a) makes competition in that geographical area impractical.

(b) Suspending the application of sub. (2) (a) is beneficial to all of the following groups:

1. Residential customers in general.
2. Disabled customers.
3. Elderly customers.

History: 1993 a. 496.

196.20 Rules on service; changes in rates. (1) The rate schedules of any public utility shall include all rules applicable to the rendition or discontinuance of the service to which the rates specified in the schedules are applicable. No change may be made by any public utility in its schedules except by filing the change as proposed with the commission. Except for a telecommunications utility, no change in any public utility rule which purports to curtail the obligation or undertaking of service of the public utility shall be effective without the written approval of the commission after hearing, except that the commission, by emergency order, may make the rule, as filed, effective from the date of the order, pending final approval of the rule after hearing.

(1m) (a) A telecommunications utility may discontinue a service to an exchange if the service is optional and not essential to the provision of basic local exchange service, business access line and usage service within a local calling area or access services, or if one or more other telecommunications providers, whether or not the telecommunications providers are telecommunications utilities or otherwise subject to this chapter, are furnishing substantially the same telecommunications service to customers in the exchange, or if reasonable alternative services are available from the utility or other telecommunications providers.

(b) A telecommunications utility proposing to discontinue a service to an exchange shall file a notice of discontinuance of service with the commission, publish the notice in a newspaper of general circulation within the exchange, and provide other notice as reasonably required by the commission. Written notice of the discontinuation of a service under this subsection shall be given to affected customers.

(c) Within 30 days after the date of publication of the notice, the commission, on its own motion or on the application of a person or other telecommunications utility, may initiate an investigation to determine if the discontinuance of service is authorized under this subsection. Following an opportunity for hearing, the commission may order the continued provision of any service not authorized to be discontinued.

(d) The commission shall determine when and under what conditions a telecommunications utility may discontinue basic local exchange service, basic message telecommunications service or any element of universal service to an exchange or part of an exchange.

(2) (a) Except for a telecommunications utility, a proposed change which constitutes a decrease in rates shall be effective at the time specified in the change as filed but not earlier than 10 days after the date of filing the change with the commission, unless any of the following occurs:

1. During the 10-day period the commission, either upon complaint or upon its own motion, by order, suspends the operation of the proposed change.

2. The commission, upon application of any public utility, directs that a proposed reduction in rates be made effective less than 10 days after filing the proposed reduction.

(am) For telecommunications utilities, a proposed change which constitutes a decrease in rates shall be effective at the time specified in the tariff as filed unless the commission, either upon complaint or upon its own motion, finds after investigation and hearing that the rate reduction violates s. 196.204 or 196.219. Upon such a finding, the commission may order changes in the rates, terms and conditions.

(b) 1. A suspension under par. (a) 1. shall be effective for a period not exceeding 4 months, during which period the commission shall investigate any matter relative to the reasonableness or lawfulness of any change in schedule as filed. After the investigation the commission, by order, shall approve or disapprove the change, except as provided under subd. 2. The commission shall give the public utility proposing the change an opportunity for hearing prior to issuing any order disapproving a change. If the commission disapproves the change, the change shall be ineffective.

2. If the commission orders a suspension under par. (a) 1., the commission, after notice to the public utility of its objections to the change and after giving the public utility an opportunity to be heard on the objections, may prescribe a schedule which, revised on the basis of the objections, the commission finds to be lawful and reasonable instead of disapproving the schedule under subd. 1.

(2m) Except as provided under sub. (5) and ss. 196.193, 196.195 (12) and 196.196, no change in schedules which constitutes an increase in rates to consumers may be made except by order of the commission, after an investigation and opportunity for hearing. The commission may waive a hearing under this subsection for a proposed change in a telecommunications utility schedule. By rule or order, the commission shall specify the notice and procedural requirements applicable to a telecommunications utility proposal for which a hearing is waived.

(2r) In setting the rates charged for basic residential local exchange telecommunications service under this section in local exchange areas served by the same telecommunications utility, the commission may investigate those areas where changes in these rates may be warranted because of the number of access lines accessible from the local exchange area.

(3) Except as provided in subs. (1m) and (5) (a), this section does not apply to telecommunications cooperatives or small telecommunications utilities unless made subject to this section under s. 196.205 or 196.215 (2).

(4) (a) In this subsection:

1. “Automatic adjustment clause” means a provision included in the rate schedule of an electric public utility after

investigation, notice and hearing which permits the electric public utility to recover in rates, without prior hearing and order of the commission, an increase in costs incurred by the electric public utility.

2. “Electric public utility” means a public utility whose purpose is the generation, transmission, delivery or furnishing of electric power but does not include a public utility owned and operated wholly by a municipality or cooperative and does not include any public utility which purchases, under federal or state approved wholesale rates, more than 50% of its electric power requirements from other than an affiliated interest as defined under s. 196.52. “Electric public utility” does not include any Class A utility, as defined under s. 199.03 (4), whose electric generation equipment has a total capacity of less than 30 megawatts.

(b) An electric public utility may not recover in rates any increase in cost, including fuel, by means of the operation of an automatic adjustment clause.

(c) If an increase in fuel costs is of an extraordinary or emergency nature, the commission, after a hearing limited in scope to the question of the increase in fuel costs, may grant a rate increase to an electric public utility.

(d) The commission shall promulgate a rule.

(5) (a) This subsection applies to any of the following:

1. A small telecommunications utility subject to this section under s. 196.215 (2) that files with the commission a proposed change in its rate schedules that constitutes an increase in rates, tolls or charges to consumers.

2. A small telecommunications utility subject to this subsection under s. 196.215 (5) to (7).

(b) 1. If a small telecommunications utility files a proposed change in rate schedule with the commission, it shall file with the proposed change, on a form prescribed by the commission by rule, information sufficient for the commission to consider the proposed change.

1g. If the commission orders a review of a proposed rate increase under s. 196.215 (5), the small telecommunications utility shall file information sufficient for the commission to consider rates, tolls and charges within 120 days after the date on which the small telecommunications utility receives notice from the commission that it is subject to this subsection.

1r. If the commission orders a review of rates, tolls or charges under s. 196.215 (6) or (7), the small telecommunications utility shall file information sufficient for the commission to consider rates, tolls and charges within 120 days after the small telecommunications utility receives notice from the commission that it is subject to this subsection.

2. Within 30 days after a small telecommunications utility files information under subs. 1. to 1r., the commission shall inform the small telecommunications utility if any additional information is necessary. The commission may dismiss a proposed rate increase if the small telecommunications utility fails to submit information requested by the commission. A proposed rate increase dismissed under this subdivision may be refiled at any time.

(c) 1. No later than 14 days after a small telecommunications utility files information under par. (b) 1. to 1r., unless the commission grants an extension, the small telecommunications utility shall send a written notice to all of its consumers and to any other person requesting notice. The notice shall designate a period of time during which the commission will receive written comments in favor of or against the small telecommunications utility’s proposed rate increase or the small telecommunications utility’s rates, tolls or charges and during which a request for a hearing may be submitted under subd. 2.

2. After a small telecommunications utility sends the notice under subd. 1., any person may submit to the commission a written objection to the proposed rate increase or to rates, tolls or charges or may request a hearing.

3. The commission shall give the small telecommunications utility, commission staff and all parties an opportunity to propose stipulations of facts, identify any issue between the parties and submit arguments in writing on such issues. Unless the commission and the small telecommunications utility agree to a later date, the commission shall serve any proposed stipulation on all parties and shall give any notice required under subd. 4. within 120 days after the commission receives the application for the proposed rate increase or receives the information under par. (b) 1r.

4. The commission shall give any person submitting a written objection or requesting a hearing under subd. 2. notice of a proposed stipulation by regular mail. Within 10 days after the commission mails the notice, a person may submit to the commission a written request for a hearing, specifying his or her interest in the proceeding. If the commission determines that the person is entitled to have all rights of a party under s. 227.44, the commission shall conduct a hearing under s. 227.44. If the notice is returned undelivered or if a person does not request a hearing under this subdivision within 10 days after the commission mails the notice, the person waives the right to request a hearing.

5. The commission shall conduct a hearing under this subsection if a stipulation is not reached on all issues, if the commission determines that a hearing is required under subd. 4. or if the small telecommunications utility or the commission staff requests a hearing. The small telecommunications utility and the commission staff shall serve proposed testimony on all parties at least 10 days before a hearing.

(d) If the commission does not conduct a hearing under this subsection, a proposed rate increase or change in a rate schedule becomes effective as proposed and any rates, tolls or charges under review under s. 196.215 (6) or (7) may not be altered unless the commission issues a final order no later than 150 days after the commission receives the application or receives the information under par. (b) 1g. and 1r. If the commission conducts a hearing, a proposed rate increase or change in a rate schedule becomes effective as proposed and any rates, tolls or charges under review under s. 196.215 (6) or (7) may not be altered unless the commission issues the final order no later than 180 days after the commission receives the application or receives the information under par. (b) 1g. and 1r. If the commission conducts a hearing, the hearing examiner may extend the time for issuing a final order up to 30 additional days. The commission and the small telecommunications utility may agree in writing to extend the time for issuing a final order. Notwithstanding ss. 196.34 and 196.36 (2), the commission may require the small telecommunications utility to bear the expense of producing a transcript of a hearing conducted under this section.

(6) If a telecommunications utility that is not a small telecommunications utility and that has 150,000 or less access lines in use in this state files with the commission an application for a rate change that constitutes an increase in rates, the rate change becomes effective as proposed unless the commission issues the final order on the application no later than 180 days after the commission receives the application. The hearing examiner may extend the time for issuing a final order up to 30 additional days. The commission and the telecommunications utility may agree in writing to extend the time for issuing a final order. Notwithstanding ss. 196.34 and 196.36 (2), the commission may require the telecommunications utility to bear the expense of producing a transcript of a hearing conducted under this subsection.

History: 1981 c. 148; 1983 a. 27, 53, 461, 502; 1985 a. 182 s. 57; 1985 a. 297; 1989 a. 344; 1993 a. 496; 1995 a. 27, 363.

Utility’s expanded adjustment clause violated requirement of public hearings prior to rate increases under (2). *Wis. Environmental Decade v. Public Service Comm.* 81 W (2d) 344, 260 NW (2d) 712.

Inclusion of nuclear fuel in adjustment clause does not violate (2). *Wis. Environmental Decade v. Public Serv. Comm.* 105 W (2d) 457, 313 NW (2d) 863 (Ct. App. 1981).

Utility rate increases granted under automatic fuel adjustment clause without hearing probably would not be illegal if clause were limited to purchased fuel or power. 70 Atty. Gen. 108.

196.201 Regulation of private shared telecommunications systems. (1) DEFINITION. In this section, “private shared telecommunications system” means plant or equipment used to provide telecommunications service through privately owned customer premises equipment to a user group located in a discrete premises, such as in a building complex or a large multitenant building, or used to provide telecommunications service where the cost of service is shared among 2 or more persons who are not affiliated interests under s. 196.52, and where the plant or equipment is not used to offer telecommunications service for sale directly or indirectly to the general public.

(2) REQUEST FOR ACCESS. At the request of any person who receives telecommunications service from a private shared telecommunications system, or at the request of a telecommunications utility or telecommunications carrier seeking to provide telecommunications service requested by any such person, the owner or manager of the private shared telecommunications system shall make facilities or conduit space available to any telecommunications utility or telecommunications carrier for the purpose of providing telecommunications service.

(3) COMMISSION MAY ORDER. If the commission finds that the owner or manager of a private shared telecommunications system has failed to comply with a request under sub. (2), it may order the owner or manager to make facilities or conduit space available to any telecommunications utility or telecommunications carrier making a request under sub. (2) at reasonable prices and on reasonable terms and conditions, under the procedures of s. 196.04.

History: 1985 a. 297; 1993 a. 491, 496.

196.202 Exemption of cellular mobile radio telecommunications. (1) DEFINITION. In this section, “cellular mobile radio telecommunications utility” means a person authorized by the federal communications commission to provide domestic public cellular radio telecommunications service under 47 USC 154 (i).

(2) SCOPE OF REGULATION. A cellular mobile radio telecommunications utility is not subject to ch. 184 or this chapter, except a cellular mobile radio telecommunications utility is subject to s. 196.218 (3) to the extent not preempted by federal law. If the application of s. 196.218 (3) to a cellular mobile radio telecommunications utility is not preempted, a cellular mobile radio telecommunications utility shall respond, subject to the protection of the cellular mobile radio telecommunications utility’s competitive information, to all reasonable requests for information about its operations in this state from the commission necessary to establish and administer the universal service fund.

(5) BILLING. A cellular mobile radio telecommunications utility may not charge a customer for an incomplete call.

History: 1985 a. 297; 1987 a. 27; 1991 a. 39; 1993 a. 36, 496.

196.203 Exemption of alternative telecommunications utilities. (1) Except as provided in this section, alternative telecommunications utilities are exempt from all provisions of ch. 184 and this chapter.

(1m) Any person claiming to be a cable telecommunications service provider under this section shall annually file with the commission any information required by the commission to determine the gross income of the person which is derived from the operation of a cable television system.

(2) No person may commence providing service as an alternative telecommunications utility unless the person petitions for and the commission issues a determination that the person is an alternative telecommunications utility. The commission shall maintain information on authorized alternative telecommunications utilities and on applicants for alternative telecommunications utility status and make that information available to any person, upon request.

(3) (a) In response to a petition from any interested person, or upon its own motion, the commission shall determine whether the public interest requires that any provision of ch. 184 or this chap-

ter be imposed on a person providing or proposing to provide service as an alternative telecommunications utility in a relevant market. In making this determination, the commission may consider factors including the quality of service, customer complaints, concerns about the effect on customers of local exchange telecommunications utilities and the extent to which similar services are available from alternative sources.

(b) The commission may not deny a petition filed under par. (a) by a provider of cable television service for alternative telecommunications utility status in a particular geographical area as not being in the public interest if basic local exchange service is provided in the same geographical area by any of the following:

1. A telecommunications utility with more than 50,000 access lines in use in this state.

2. Subject to par. (c), a telecommunications utility with 50,000 or less access lines in use in this state which also provides cable television service in that geographical area, if provision of cable television service began after September 1, 1994.

(c) Paragraph (b) 2. shall not apply if the telecommunications utility’s provision of cable television service is limited to the provision of satellite cable programming, as defined in s. 943.47 (1) (b).

(d) Section 196.50 (1) (b) applies to an alternative telecommunications utility except for a provider of cable television service.

(e) 1. If a provider of cable television service files a petition under par. (a) for alternative telecommunications status to offer local exchange service, as defined in s. 196.50 (1) (b) 1., in a geographical area served by a telecommunications utility with less than 50,000 access lines in use in this state on September 1, 1994, or at any time thereafter, the commission may not deny the petition as not being in the public interest and shall do any of the following:

a. Eliminate the telecommunications utility’s obligation to be the provider of last resort.

b. Allocate universal service fund moneys available under s. 196.218 (5) (a) 1. to the telecommunications utility to offset the obligation to be the provider of last resort under a formula that reimburses the telecommunications utility for 90% of the difference calculated by subtracting 110% of the weighted average basic single-party residential monthly rate for all telecommunications utilities in this state from the eligible telecommunications utility’s average basic single-party residential rate and for 90% of the difference calculated by subtracting 110% of the weighted average single line business access line monthly rate for all telecommunications utilities in this state from the eligible telecommunications utility’s single line business access line monthly rate.

2. The commission may not increase regulation of a telecommunications utility eligible for funds under subd. 1. b. in implementing this paragraph.

2m. Subdivision 1. does not apply if the petitioner meets the conditions under par. (b) 2.

3. Subdivision 1. does not apply after September 1, 1998, but a telecommunications utility eligible for funds under subd. 1. b. remains eligible for universal service fund funding after that date to offset its obligation to be the provider of last resort.

(4) The commission may impose any provision of ch. 184 or this chapter on one or more, but not necessarily all, alternative telecommunications utilities providing service in a relevant market.

(5) The commission may establish a reasonable fee schedule and may assess an alternative telecommunications utility to cover the cost of making a determination under this section.

History: 1985 a. 297; 1993 a. 496.

196.204 Cross-subsidization limited. (1) Except for retained earnings, a telecommunications utility may not subsidize, directly or indirectly, any activity, including any activity of an affiliate, which is not subject to this chapter or is subject to this chapter under s. 196.194, 196.195, 196.202 or 196.203. No telecommunications utility may allocate any costs or expenses in a

manner which would subsidize any activity which is not subject to this chapter or is subject to this chapter under s. 196.194, 196.195, 196.202 or 196.203. Except as provided in subs. (2) and (4) the commission may not allocate any revenue or expense so that a portion of a telecommunications utility's business which is fully regulated under this chapter is subsidized by any activity which is not regulated under this chapter or is partially deregulated under s. 196.194, 196.195, 196.202 or 196.203.

(2) The commission may attribute revenues derived from the sale of directory advertising or directory publishing rights to the regulated activities of a telecommunications utility for rate making and other utility purposes.

(3) The commission shall establish the necessary minimum accounting and reporting requirements, and structural separation requirements if necessary, for telecommunications utilities to enable it to enforce this section. For a telecommunications utility regulated under s. 196.195 or 196.196, these requirements shall at a minimum include the filing of cost support documentation demonstrating compliance with subs. (5) and (6) before the effective date of each new service, including any unbundled service element or basic network function; before any reduction in the price of a service offered to end-users; and before any increase in the price of a service offered to other telecommunications providers. The commission, on its own motion or upon complaint, may order any telecommunications utility to file cost support documentation showing that a service that the utility offers or a contract that the utility has entered into under s. 196.194 complies with subs. (5) and (6).

(4) In order to protect the public interest, the commission may allocate the earnings derived from sale of services partially deregulated under s. 196.195, 196.202 or 196.203 to the fully regulated activities of a telecommunications utility for rate-making purposes.

(5) (a) In addition to the other requirements of this section, each telecommunications service, relevant group of services and basic network function offered or used by a telecommunications utility shall be priced to exceed its total service long-run incremental cost. The commission may waive the applicability of this paragraph to a telecommunications utility's basic local exchange service if the commission determines that a waiver is consistent with the factors under s. 196.03 (6).

(b) Unless ordered by the commission, par. (a) does not apply to basic local exchange service or to business access line and usage service within a local calling area offered by a telecommunications utility with 150,000 or less access lines in use in this state. If par. (a) does not apply, the telecommunications utility may not reduce its rates for basic local exchange service below the monthly rate under s. 196.215 (7) or total service long-run incremental cost, whichever is lower, and may not reduce its rates for business access line and usage service within a local calling area below total service long-run incremental cost.

(6) (a) In addition to the other requirements of this section, a telecommunications utility shall meet the imputation test in this subsection if all of the following apply:

1. The telecommunications utility has a service offering that competes with an offering of another telecommunications provider.

2. The other telecommunications provider's offering utilizes a service, including any unbundled service element or basic network function, from the telecommunications utility that is not available within the relevant market or geographic area on reasonably comparable terms and conditions from any other telecommunications provider.

3. The telecommunications utility's own offering uses that same noncompetitive service, or its functional equivalent.

(b) The price of a telecommunications service subject to an imputation test shall exceed the sum of all of the following:

1. The tariffed rates, including access, carrier common line, residual interconnection and similar charges, for the noncompeti-

tive service or its functional equivalent that is actually used by the telecommunications utility in its service offering, as those rates would be charged any customer for the use of that service.

2. The total service long-run incremental costs of all other components of the telecommunications utility's service offering, including access charges actually paid.

(c) Upon complaint of a telecommunications utility and after notice and opportunity for hearing, the commission may make reasonable adjustments to the methodology specified in this subsection if the commission finds that adjustments are appropriate in order to recognize network efficiencies in the provision of services by the utility and will not give the utility a competitive advantage. The commission may not make an adjustment under this paragraph before January 1, 1998, for a telecommunications utility with more than 500,000 access lines in use in this state.

(d) 1. The commission may suspend the application of the imputation test for basic local exchange service if that action is consistent with the factors under s. 196.03 (6).

2. Unless ordered by the commission, par. (b) does not apply to basic local exchange service or to business access line and usage service within a local calling area offered by a telecommunications utility with 150,000 or less access lines in use in this state. If par. (b) does not apply, the telecommunications utility may not reduce its rates for basic local exchange service below the monthly rate under s. 196.215 (7) and may not reduce its rates for business access line and usage service within a local calling area.

(7) (a) Except for public service information such as time and temperature or directory information, a telecommunications utility may not provide electronically published news, feature or entertainment material of the type generally published in newspapers or offered in a broadcast service, or electronic advertising services, except through an electronic publishing subsidiary or affiliate. A telecommunications utility may, without editing content, resell news, feature or entertainment material of the type generally published in newspapers or offered in a broadcast service, if the material is purchased from an unaffiliated entity or from an electronic publishing subsidiary or affiliate that makes the material available to all other persons under the same rates, terms and conditions.

(b) This subsection does not prohibit a telecommunications utility from electronically advertising its own services or from providing tariffed telecommunications services to a subsidiary, affiliate or unaffiliated entity that provides electronically published news, features or entertainment material or electronic advertising services.

(c) Services subject to this subsection are not subject to any other provisions in this section.

(d) This subsection does not apply to any of the following:

1. A small telecommunications utility.

2. A telecommunications utility that meets all of the following conditions:

a. Is not a small telecommunications utility.

b. Has 150,000 or less access lines in use in this state.

c. Provides cable television service on September 1, 1994.

d. Does not begin providing cable television service in a city, village or town other than a city, village or town in which it provides cable television service on September 1, 1994.

(e) The commission shall promulgate rules that describe the elements necessary to demonstrate that an electronic publishing subsidiary or affiliate is sufficiently unaffiliated with a telecommunications utility. Elements may include the makeup of the board of directors of the subsidiary or affiliate and the amount of information, facilities or other resources that are shared by the telecommunications utility and the subsidiary or affiliate.

History: 1985 a. 297; 1993 a. 496.

196.205 Election of rate regulation of telecommunications cooperatives. A telecommunications cooperative may elect to be subject to ss. 196.28 and 196.37 as they apply to any

rate, toll or charge and to ss. 196.02 (2), 196.09 (1), 196.11 (2), 196.20 and 196.26 in any of the following ways:

(1) By amendment of the articles of incorporation of the cooperative under s. 185.51.

(3) By a majority of the voting members of the board of directors of the cooperative.

History: 1981 c. 148; 1985 a. 297 s. 76; 1989 a. 344; 1993 a. 496.

196.207 Telephone caller identification services.

(1) DEFINITIONS. In this section:

(a) “Inbound wide–area telecommunications service” means a telecommunications service that allows a subscriber to the service to receive telephone calls from selected service areas at no charge to the person originating the telephone call.

(b) “Pay–per–call service” means a telecommunications service that permits simultaneous calling by a large number of callers to a single telephone number and for which the customer is assessed, on a per–call or a per–time–interval basis, a charge that is greater than or in addition to the charge for the transmission of the call. “Pay–per–call service” does not include a directory assistance or conference call service that is offered by a telecommunications utility and does not include a telecommunications service for which the customer charge is dependent on the existence of a presubscription relationship.

(c) “Telephone caller identification service” means a telecommunications service offered by a telecommunications utility that identifies a telephone line identification for an access line that is used by a person to originate a telephone call to a subscriber to the service.

(d) “Telephone line identification” means the number of or other information associated with an access line that can be used to identify the access line or the subscriber to the line.

(2) CONDITIONS FOR SERVICE. The commission may not approve a schedule or tariff that permits a telephone caller identification service to be offered in this state unless the schedule or tariff provides all of the following:

(a) For the 60–day period immediately preceding the first day on which a telephone caller identification service is operational in a geographical area, the telecommunications utility offering the service shall conduct an informational campaign to describe the telephone caller identification service to its access line customers within that area. The telecommunications utility informational campaign shall include all of the following information:

1. That the utility is offering telephone caller identification service and the date on which the service becomes operational.

2. That an access line customer may choose not to have the customer’s telephone line identification identified to telephone caller identification service subscribers on an individual call basis without charge.

3. Other information on the telephone caller identification service that is specified by the commission.

(b) A calling telephone line identification shall be identified to a telephone caller identification service subscriber unless the calling access line customer chooses to have the customer’s telephone line identification withheld from identification on an individual call basis or unless the customer installs customer premises equipment that withholds the customer’s telephone line identification for all calls originating from the customer’s access line.

(c) The telecommunications utility may not charge an access line customer for withholding the customer’s telephone line identification from identification on an individual call basis.

(d) An access line customer subscribing to the telephone caller identification service is not prohibited from using customer premises equipment that prevents the subscriber from receiving a call for which the calling telephone line identification is not identified.

(e) An access line customer who is any of the following may choose to have the customer’s telephone line identification withheld from identification without charge for all calls originating from the customer’s access line:

1. A victim of domestic violence protected by a court order.
2. A domestic violence victim’s service program.
3. A battered women’s shelter or other organization that provides a safe haven for victims of domestic violence.

(f) If the equipment is available, a telecommunications utility shall offer to access line customers in the geographical area in which telephone caller identification service is offered customer premises equipment produced by an authorized equipment manufacturer that permits a customer to withhold telephone line identification for all calls originating from the customer’s access line and customer premises equipment produced by an authorized equipment manufacturer that prevents a telephone caller identification service subscriber from receiving a call for which the calling telephone line identification is not identified.

(2g) BLOCKING BY BUSINESS. The commission may prohibit business or commercial access line customers from withholding customer telephone line identifications from identification under any schedule or tariff that the commission approves.

(2m) PER LINE BLOCKING. Under any schedule or tariff that the commission approves, the commission may require that a telecommunications utility that offers a telephone caller identification service to permit an access line customer to choose to withhold the customer’s access line identification from identification for all calls originating from the customer’s access line.

(3) EXCEPTIONS. The commission may not approve a schedule or tariff under sub. (2) if the schedule or tariff allows a customer to withhold the identity of a telephone line identification from any of the following:

(a) A public agency emergency system under s. 146.70.

(b) An identification service provided in connection with an inbound wide–area telecommunications service or a pay–per–call service, unless the commission determines that the telecommunications utility providing the inbound wide–area telecommunications service or the pay–per–call service has the capability to comply with sub. (2) (b) or (e) with regard to that service.

(c) A telephone caller identification service used for calls that are completed within a system that includes both the caller’s telephone or other customer premises equipment and the call recipient’s telephone or other customer premises equipment and are completed without being transmitted through a publicly switched network.

(e) A trap and trace device as authorized under ss. 968.34 and 968.37.

(f) A telecommunications utility, to identify the access line used to originate a call, for purposes of billing for that call.

(4) COSTS. Except for customer premises equipment offered under sub. (2) (f), a telecommunications utility shall charge all costs for caller identification services provided under this section, including all costs related to the options and services provided to access line customers under subs. (2) and (2m), to telephone caller identification service subscribers.

(6) REDISCLOSURE. (a) A person who obtains an unpublished telephone line identification using a telephone caller identification service may not do any of the following without the written consent of the customer of the unpublished telephone line identification:

1. Disclose the unpublished telephone line identification to another person for purposes of resale or commercial gain.

2. Use the unpublished telephone line identification to solicit business.

3. Intentionally disclose the unpublished telephone line identification through a computer database, on–line bulletin board or other similar mechanism.

(b) 1. A person, other than a corporation, who violates par. (a) may be required to forfeit not more than \$5,000. Each disclosure or use of an unpublished telephone line identification is a separate violation.

2. A corporation that violates par. (a) may be required to forfeit not more than \$50,000. Each disclosure or use of an unpublished telephone line identification is a separate violation.

History: 1991 a. 268, 269, 315; 1993 a. 496.

196.208 Telecommunications pay-per-call and toll-free services. (1) DEFINITIONS. In this section:

(a) “Pay-per-call service” means a telecommunications service that permits simultaneous calling by a large number of callers to a single telephone number and for which the customer is assessed, on a per-call or a per-time-interval basis, a charge that is greater than or in addition to the charge for the transmission of the call. “Pay-per-call service” does not include a directory assistance or conference call service that is offered by a telecommunications utility and does not include a telecommunications service for which the customer charge is dependent on the existence of a presubscription relationship.

(b) “Provider” means a person who furnishes, conducts or offers a pay-per-call service or who holds himself or herself out as engaged in the business of furnishing, conducting or offering a pay-per-call service.

(c) “Toll-free service vendor” means a person who sells goods or services using a telecommunications service that allows calls to be made to a specific location at no charge to the calling party.

(2) PREAMBLE. (a) 1. Except as provided in subd. 2., a provider shall begin a pay-per-call service with a clear and express preamble that states the cost of the call. The preamble shall disclose all per-call charges. If the call is billed on a usage-sensitive basis, the preamble shall state all rates, by minute or other unit of time, any minimum charges and the total cost for a call to that service if the duration of the call may be determined.

2. A provider is not required to begin a pay-per-call service with a preamble if the service is charged at a flat rate that does not exceed \$2.

(b) A preamble shall include the name of the provider and an accurate description of the information, product or service that the caller will receive.

(c) A preamble shall inform the caller that billing will commence only after a specific identified event following the preamble, such as an audible signal tone.

(d) If the pay-per-call service is associated with, aimed at or likely to be of interest to an individual under the age of 18, the preamble shall include a statement that the caller should hang up unless the caller has parental permission.

(e) A provider may offer a caller a means to bypass the preamble on subsequent calls to the pay-per-call service, if the caller is in sole control of that bypass capability. If a provider includes preamble bypass instructions, the instructions shall be given at the end of the preamble or at the end of the pay-per-call service. A provider shall disable preamble bypass capability for 30 days following the date of an increase in any charge for the pay-per-call service.

(f) If a provider complies with federal requirements that specifically apply to a preamble on a pay-per-call service, that compliance shall be considered to be compliance with this subsection.

(3) BILLING COMMENCEMENT. If a preamble is required, a provider shall give a caller a reasonable opportunity to disconnect the call before the specific event identified under sub. (2) (c) that signals the commencement of billing.

(4) SOLICITATION REQUIREMENTS. If a provider includes an offer of goods or services within the pay-per-call service, all of the following apply:

(a) The provider shall disclose all conditions, restrictions and charges associated with the offer of goods and services during the initial communication with the caller.

(b) The provider may not make any assertion, representation or statement of fact that is false, deceptive or misleading.

(5) PROVIDER CHARGE LIMITS. (a) If a delayed billing period is required under sub. (3), a provider may not charge for usage of

the pay-per-call service if the caller ends the usage before the specific event identified under sub. (2) (c) and, if the call is billed on a usage-sensitive basis, may not charge for the time that elapses before the specific event identified under sub. (2) (c) occurs.

(b) A provider may not charge for time that a caller is placed on hold.

(5t) TOLL-FREE SERVICE. A toll-free service vendor may not do any of the following:

(a) Impose a charge on the calling party or the customer responsible for the access line from which the call is placed for calling the toll-free service vendor.

(b) Transfer the calling party to a pay-per-call service.

(c) Charge the calling party for information provided during the call, unless the calling party has a presubscription relationship with the toll-free service vendor or unless the caller discloses a credit card account number during the call.

(d) Call back the calling party collect.

(6) ADVERTISING AND SALES PRACTICES. A person shall do all of the following:

(a) In any advertisement for a pay-per-call service, clearly and conspicuously disclose the name of the provider and the identity and cost of any goods or services offered for sale.

(b) In any advertisement for a pay-per-call service, clearly and conspicuously disclose all conditions, restrictions and charges associated with the receipt of goods or services that are represented to be a gift, prize or incentive for using a pay-per-call service.

(c) Not make any assertion, representation or statement that is false, deceptive or misleading in an offer or sale of a pay-per-call service.

(d) If a caller to a pay-per-call service may be solicited to purchase additional pay-per-call services, clearly and conspicuously disclose that information in any advertisement for the pay-per-call service.

(e) Refrain from advertising a number as toll-free if the toll-free service vendor has violated sub. (5t).

(7) BILLING INFORMATION. (a) A telecommunications utility shall do all of the following:

1. Include on each billing statement that includes charges for pay-per-call services a clear and conspicuous notice that states: “You may not have your telephone service disconnected for failure to pay for ‘900’ number services. You may dispute charges for ‘900’ number services if you believe the charges are unauthorized, fraudulent or illegal.”

2. If a customer’s local exchange telecommunications utility is technically able to provide blocking, semiannually include with a billing statement a clear and conspicuous notice stating that the customer may request that the local exchange telecommunications utility block the customer’s access to pay-per-call services.

(b) If a telecommunications utility provides billing services to a provider, the telecommunications utility shall do all of the following:

1. In a clear and conspicuous manner, list charges for pay-per-call services separately from charges for telecommunications service or identify charges for pay-per-call services with an identifying symbol.

2. If a customer contacts the telecommunications utility regarding a charge for pay-per-call services, inform the customer that the customer may request the telecommunications utility to remove charges for pay-per-call services from subsequent billing statements.

3. If a customer reasonably disputes a charge for pay-per-call services and requests removal, remove that charge for pay-per-call services from subsequent billing statements.

(c) A local telecommunications utility shall disseminate information that explains that a customer may request blocking, if available, and may request that charges for pay-per-call services

be removed from its billing statements, although nonpayment of charges may result in a civil collection action.

(8) COLLECTION PRACTICES. (a) A telecommunications utility may not do any of the following:

1. Disconnect a customer's basic local exchange and basic interexchange services for failure to pay for pay-per-call services billed by the telecommunications utility.

2. Misrepresent that telecommunication service may be disconnected for nonpayment of pay-per-call service charges.

3. Condition the extension of local exchange service to a customer upon the customer's agreement to block access to pay-per-call services.

4. Regarding a delinquent account, condition the acceptance of deposits or guarantees upon customer payment of outstanding pay-per-call service charges.

5. Regarding a delinquent account, condition the acceptance of a deferred payment plan upon inclusion of outstanding pay-per-call service charges in the plan unless the telecommunications utility discloses the amount of pay-per-call service charges, informs the customer that payment of pay-per-call service charges are not required as part of the plan and sends the customer a written confirmation that outlines the deferred payment plan with and without the inclusion of pay-per-call service charges.

(b) Except as provided in par. (c), a telecommunications utility shall verify that a notice of disconnection does not include charges relating to pay-per-call services before the telecommunications utility sends the notice to a customer.

(c) A telecommunications utility may request the commission to waive the verification requirement of par. (b). The commission may grant a waiver if it determines that the costs that would be incurred by the telecommunications utility to meet the verification requirement are such that meeting the verification requirement is not in the best interest of the utility's customers.

(9) BLOCKING. (a) If technically feasible, a local exchange telecommunications utility shall provide a customer the option of blocking access to pay-per-call services that use "900" exchanges.

(b) A local exchange telecommunications utility may not charge a customer for the cost of blocking the first time a customer requests blocking.

(c) A local exchange telecommunications utility may not reinstate a customer's access to pay-per-call services that use "900" exchanges unless the customer makes the request for reinstatement in writing and the request is confirmed by the utility.

(10) TERRITORIAL APPLICATION. (a) Subsections (2) to (5) apply to any pay-per-call service that a caller may access by a call originating in this state and sub. (5t) applies to any toll-free service vendor that a caller may access by a call originating in this state.

(b) Subsection (6) applies to any advertising or sales practice directed to a resident of this state.

(11) REMEDIES AND PENALTIES. (a) 1. If a provider or a toll-free service vendor fails to comply with this section, any person or class of persons adversely affected by the failure to comply has a claim for appropriate relief, including but not limited to damages, injunctive or declaratory relief, specific performance and rescission.

2. A person or class of persons entitled to relief under subd. 1. is also entitled to recover costs, disbursements and reasonable attorney fees, notwithstanding s. 814.04 (1).

(b) The commission shall inquire into any violation of subs. (7) to (9) by a telecommunications utility or by an officer, employee or agent of a telecommunications utility and shall report all violations to the department of justice.

(c) 1. The department of justice, or any district attorney upon informing the department of justice, may commence an action in circuit court in the name of the state to restrain by temporary or permanent injunction any violation of subs. (2) to (9). The depart-

ment of justice or a district attorney may not commence an action to enforce subs. (7) to (9) unless the commission requests an enforcement action. Before entry of final judgment, the court may make such orders or judgments as may be necessary to restore to any person any pecuniary loss suffered because of the acts or practices involved in the action if proof of these acts or practices is submitted to the satisfaction of the court.

2. The department of justice may conduct hearings, administer oaths, issue subpoenas and take testimony to aid in its investigation of violations of subs. (2) to (6).

(d) Any person who violates subs. (2) to (9) shall be required to forfeit not less than \$25 nor more than \$5,000 for each offense. Forfeitures under this paragraph shall be enforced by action on behalf of the state by the department of justice or, upon informing the department of justice, by the district attorney of the county where the violation occurs.

History: 1991 a. 127; 1993 a. 361.

196.209 Privacy considerations. (1) **RULES.** The commission shall promulgate rules that establish privacy guidelines applicable to telecommunications services. Notwithstanding any exemptions identified in this chapter, a telecommunications provider is subject to rules promulgated under this subsection and s. 196.66 applies to a violation of this subsection.

(2) **RULE REVIEW.** At least biennially, the commission shall review and revise as appropriate rules promulgated under sub. (1).

(3) **NEW SERVICES.** A telecommunications provider introducing a new telecommunications service shall explicitly address privacy considerations before introducing that telecommunications service.

(4) **SCOPE.** Rules promulgated by the commission under this section and privacy considerations addressed by a telecommunications provider shall include all of the following:

(a) Protections against the outflow of information about users of telecommunications services.

(b) Protection to the users of telecommunications services from receiving privacy intrusions.

(5) **TELECOMMUNICATIONS PRIVACY COUNCIL.** (a) The commission shall appoint a telecommunications privacy council under s. 15.04 (1) (c) consisting of representatives of telecommunications providers and of consumers of telecommunications services, including this state.

(b) The telecommunications privacy council shall advise the commission concerning the administration of this section and the content of rules promulgated under this section.

History: 1993 a. 496 ss. 107, 108, 110; 1995 a. 27.

196.21 Publicity of revised schedules. A public utility shall file new schedules under s. 196.19 in every station and office of the public utility where consumers make payments. A public utility shall file new schedules under this section at least 10 days prior to the time the new schedules take effect unless the commission prescribes a shorter time period.

History: 1983 a. 53.

196.213 Notice of rate increase by small telecommunications utility. (1) In this section:

(a) "Consumer" means any of the following:

1. A person billed for one or more local telecommunications service access lines not to exceed one person per access line. A person billed for more than one access line may not be considered a consumer for each access line for which he or she is billed.

2. A telecommunications utility or telecommunications carrier purchasing intrastate access to a local exchange operated by another telecommunications utility or telecommunications carrier.

(b) "Rate increase" means an increase in any rate, toll or charge for any class of consumer on the schedules filed under s. 196.19.

(2) Unless subject to ss. 196.28 and 196.37 as they apply to any rate, toll or charge and to ss. 196.02 (2), 196.09 (2) to (7),

196.11 (2), 196.20 and 196.26, at least 60 days and not more than 100 days before the effective date of a rate increase proposed by a small telecommunications utility, the small telecommunications utility shall notify each of its consumers and the commission of the proposed rate increase. Notice to the commission shall include a summary of the justification for the proposed rate increase. Notice by the small telecommunications utility to all consumers shall be by mail and shall include a schedule of the proposed rates, tolls and charges, the effective date of the rates, tolls and charges and the procedure necessary for consumers to petition the commission to determine rates, tolls or charges in lieu of the proposed rates, tolls or charges, including but not limited to a notice that the deadline for commission receipt of petitions is 60 days after a small telecommunications utility mails notice of a proposed rate increase to consumers. The proposed notice to consumers shall be submitted to the commission for approval. The commission may reject the proposed notice if the notice is misleading. If the commission does not act on the proposed notice within 10 days after receiving it, the notice is considered approved. If a small telecommunications utility inserts the procedures to petition the commission in the telephone directory published by the utility, the directory shall describe the petitioning procedures under s. 196.215 (3) (a) and (cm). A reference in an approved notice to the location of the procedure described in the directory shall be adequate notice of the procedure to consumers billed for local telecommunications service access lines.

History: 1985 a. 297; 1989 a. 344; 1991 a. 32; 1993 a. 496; 1995 a. 409.

196.215 Election of rate regulation and flexible regulation of small telecommunications utilities. (1) In this section:

(a) “Consumer” has the meaning given under s. 196.213 (1) (a).

(am) “Equity–thin utility” means a small telecommunications utility with less than 25% common stock equity in its total capital structure.

(b) “Rate increase” has the meaning given under s. 196.213 (1) (b).

(2) A small telecommunications utility may be made subject to ss. 196.28 and 196.37 as they apply to any rate, toll or charge and to ss. 196.02 (2), 196.09 (2) to (7), 196.11 (2), 196.20 and 196.26, in any of the following ways:

(a) By amendment of its articles of incorporation.

(b) By a majority vote of all the voting members of its board of directors.

(c) Except as provided in sub. (2g), by a determination of the commission that:

1. The small telecommunications utility’s proposed rate increase for any service except the provision of residential basic local exchange service including nonoptional extended area service exceeds, in any one year, 30% or the small telecommunications utility’s proposed rate increase for residential basic local exchange service including nonoptional extended area service exceeds, in any one year, 30% or \$2, whichever is higher.

1m. The small telecommunications utility’s proposed rate increases for any service except the provision of residential basic local exchange service including nonoptional extended area service exceed, in any 4 consecutive years, 100% or the small telecommunications utility’s proposed rate increases for residential basic local exchange service including nonoptional extended area service exceed, in any 4 consecutive years, 100% or \$10, whichever is higher.

2. The small telecommunications utility has failed to comply substantially with this section or s. 196.213.

3. The small telecommunications utility has violated s. 196.06, 196.52 or 196.60.

(2g) (a) In this subsection, “basic local exchange service” means any service providing access to and the transmission of 2–way switched voice communications within a local calling

area, including touchtone service, but does not include installation of or enhancements to basic local exchange service or local per–call coin charges.

(b) A small telecommunications utility may petition the commission for an exemption from sub. (2) (c) 1. and 1m. for a proposed rate increase for a telecommunications service other than basic local exchange service. The commission may grant the petition if it is reasonable and in the public interest. If the commission does not enter an order disposing of the petition within 20 days after its receipt, the petition is denied.

(2m) (a) A small telecommunications utility that has made itself subject to ss. 196.28 and 196.37 as they apply to any rate, toll or charge and to ss. 196.02 (2), 196.09 (2) to (7), 196.11 (2), 196.20 and 196.26 under sub. (2) (a) may exempt itself from those sections by amending its articles of incorporation.

(b) A small telecommunications utility that has made itself subject to ss. 196.28 and 196.37 as they apply to any rate, toll or charge and to ss. 196.02 (2), 196.09 (2) to (7), 196.11 (2), 196.20 and 196.26 under sub. (2) (b) may exempt itself from those sections by majority vote of all the voting members of its board of directors.

(c) A small telecommunications utility that the commission has made subject to ss. 196.28 and 196.37 as they apply to any rate, toll or charge and to ss. 196.02 (2), 196.09 (2) to (7), 196.11 (2), 196.20 and 196.26 under sub. (2) (c) 1. and 1m. may exempt itself from those sections by withdrawing the proposed rate increase that exceeds the limits established in sub. (2) (c) 1. or 1m. A small telecommunications utility may refile a proposed rate increase at any time unless the commission has determined rates, tolls or charges under sub. (6) (b).

(d) A small telecommunications utility that the commission has made subject to ss. 196.28 and 196.37 as they apply to any rate, toll or charge and to ss. 196.02 (2), 196.09 (2) to (7), 196.11 (2), 196.20 and 196.26 under sub. (2) (c) 2. may exempt itself from those sections by correcting its failure to comply substantially with s. 196.213 or this section.

(3) (a) If within 60 days after notice of a proposed rate increase is mailed under s. 196.213 the commission has not received petitions from at least the number of eligible consumers specified in par. (am) of the small telecommunications utility requesting that the commission determine rates, tolls or charges on the proposed increase, the commission shall certify that fact to the small telecommunications utility and the small telecommunications utility’s proposed rate increase shall take effect as published in the notice under s. 196.213. Rates, tolls and charges established by a small telecommunications utility under this paragraph shall be in effect for at least 365 days. If within 60 days after notice of a proposed rate increase is mailed the commission receives petitions from at least the number of eligible consumers specified in par. (am) of the small telecommunications utility requesting that the commission determine rates, tolls or charges on the proposed increase, the commission shall proceed under sub. (6) (d).

(am) 1. In the case of a proposed rate increase for a class of consumers under s. 196.213 (1) (a) 2. who purchase access to the local exchange operated by the small telecommunications utility that exceeds, in any 12–month period, the percentage increase in the U.S. consumer price index for all urban consumers, U.S. city average, for the previous year and that is not identical to the corresponding increase in charges for interstate access to the local network applicable to this class of consumers, the eligible consumers under par. (a) shall be any combination of telecommunications utilities or telecommunications carriers subject to this proposed rate increase that are billed for 10% or more of the small telecommunications utility’s revenues derived from charges for intrastate access to the local network.

2. For a proposed rate increase for any class of consumers under s. 196.213 (1) (a) 1., the number of eligible consumers

under par. (a) shall be equal to 9.5% of the small telecommunications utility's access lines in use unless this number is:

a. Less than 50, in which case 50 consumers shall constitute the number of eligible consumers; or

b. Greater than 500, in which case 500 consumers shall constitute the number of eligible consumers.

(ar) If the eligible consumers identified in par. (am) 1. submit a valid petition to the commission under par. (a), the eligible consumers may withdraw the petition at any time prior to the commission establishing the rates subject to the petition. Upon withdrawal, the commission may not establish these rates.

(cm) If the commission receives a petition from at least the number of eligible consumers specified in par. (am) 2. of the small telecommunications utility requesting that the commission investigate and determine if the small telecommunications utility's rates, tolls or charges are just and reasonable, the commission shall notify the small telecommunications utility that the commission will investigate under sub. (6). A signature on a petition may not be counted if the date of that signature is more than 60 days before the filing of the petition.

(d) The commission shall promulgate rules governing the form of petitions under this subsection. The commission may not deem invalid any petition submitted under this subsection which is substantially in compliance with the commission's rules.

(4) A small telecommunications utility shall be subject to ss. 196.28 and 196.37 as they apply to any rate, toll or charge and to ss. 196.02 (2), 196.09 (2) to (7), 196.11 (2), 196.20 and 196.26 under an order of the commission issued under sub. (2) (c) 3. until the first day of the 24th month after affirmation of the order by the circuit court of Dane county or after the expiration of the period during which a petition for review or rehearing is authorized under s. 196.52 or 227.16, whichever is sooner.

(5) (a) Interest coverage ratio is calculated by adding net operating income to income earned on temporary cash investments, deducting applicable federal income taxes and applicable taxes imposed under ch. 71, and dividing that figure by interest expense.

(b) 1. Target rate is calculated by adding Moody's average of yields on Baa public utility bonds, expressed in percent, to a percentage set by the commission under subd. 2.

2. The commission shall promulgate a rule establishing percentages used to calculate target rate under subd. 1. Percentages set under this subdivision shall be in effect for at least 7 years. The commission shall adopt a rule to change a percentage set under this subdivision at least 2 years before the effective date of the change. The commission may not change a percentage set under this subdivision by more than 20% of the amount of the percentage.

3. The rate of return range for a small telecommunications utility is a range 2% above to 2% below the small telecommunications utility's target rate.

4. Annually no later than January 31, the commission shall issue an order adjusting the Moody's average of yields on Baa public utility bonds used to determine the target rate by taking the most recent 12-month average of Moody's average of yields on Baa public utility bonds. The order shall take effect on February 1 immediately following the order. The commission may issue the order without a hearing.

(c) An equity-thin utility is building equity if the small telecommunications utility has an average dividend payout of less than 50% of its average net income after taxes or if the commission determines that the small telecommunications utility is increasing the percentage of common stock equity in its total capital structure through other appropriate means.

(d) 1. The commission shall use the information filed by a small telecommunications utility under s. 196.07 in the 3 most recent years to calculate average interest coverage ratio, average rate of return on common stock equity, average dividend payout and average net income after taxes.

2. The commission may adjust, for making a determination under this section, any salary, affiliated interest charge or depreciation expense that the commission determines to be unreasonable in calculating the rate of return on common stock equity of a small telecommunications utility. The commission may adjust, for making a determination under this section, a depreciation rate used by a small telecommunications utility only if that depreciation rate falls outside the range established under s. 196.09 (9) or has not otherwise been approved by the commission within the previous 24 months. If the commission adjusts for depreciation, it shall use the rate established under s. 196.09 (9) (a) that is closest to the rate used by the small telecommunications utility.

(6) (a) If consumers request that the commission investigate a small telecommunications utility's rates, tolls or charges under sub. (3) (cm), the commission shall dismiss the petition if any of the following financial conditions exists:

1. The small telecommunications utility has an average interest coverage ratio of less than 2.

2. The small telecommunications utility has an average rate of return on common stock equity within or below the small telecommunications utility's rate of return range.

3. If an equity-thin utility, the small telecommunications utility is building equity.

(b) Annually, if the commission does not dismiss a petition under par. (a), the commission shall proceed under s. 196.20 (5). Rates, tolls or charges established by the commission under this paragraph shall be in effect for at least 365 days.

(c) Subsection (5) (a) to (d), as it relates to financial conditions under that subsection, applies to financial conditions under this subsection.

(d) 1. If consumers petition the commission under sub. (3) (a), the small telecommunications utility may implement the proposed rate increase as published in the notice under s. 196.213, subject to refund. The commission shall proceed under s. 196.20 (5).

2. If consumers request that the commission investigate a small telecommunications utility's proposed rate increase under sub. (3) (a), the small telecommunications utility may withdraw the proposed rate increase within 10 days after the commission notifies the small telecommunications utility that the commission will investigate the proposed rate by notifying the commission and each of the consumers to whom the small telecommunications utility has provided notice of the proposed rate increase. A small telecommunications utility that withdraws a proposed rate increase under this subdivision may not propose a rate increase for the same service for 365 days from the date on which the small telecommunications utility mails the notice of withdrawal of the proposed rate increase.

(7) (a) The commission on its own motion may, under s. 196.20 (5), investigate, determine and order rates, tolls or charges of a small telecommunications utility if at least 3 of the following conditions exist:

1. The small telecommunications utility's basic single-party residential flat rate exceeds the monthly rate under par. (b) or, if the small telecommunications utility does not use a basic single-party residential flat rate, the small telecommunications utility's rate for that service exceeds a rate established by the commission that is equivalent to the monthly rate under par. (b).

2. The small telecommunications utility has an average interest coverage ratio of more than 2.

3. The small telecommunications utility has an average rate of return on common stock equity above the rate of return range.

4. If an equity-thin utility, the small telecommunications utility is not building equity.

(b) 1. Beginning on September 1, 1994, and ending on December 31, 1997, the basic single-party residential flat rate shall be the weighted average basic single-party residential monthly rate for all telecommunications utilities in this state as of December 31,

1993, which includes average local usage charges, touch-tone charges and extended area service charges but does not include extended community calling usage charges. Beginning on January 1, 1998, the basic single-party residential flat rate shall be the weighted average basic single-party residential monthly rate for all telecommunications utilities in this state, which includes average local usage charges, touch-tone charges and extended area service charges but does not include extended community calling usage charges, subject to adjustment under subd. 2.

2. Beginning in 1998 and thereafter annually, no later than March 31, the commission shall issue an order adjusting the basic single-party residential flat rate using information from the previous calendar year. The order shall take effect on April 1 immediately following the order. The commission may issue the order without a hearing.

(c) If the commission does not make a determination regarding the financial conditions under par. (a) 2. to 4. by October 1 or within 180 days after a small telecommunications utility files the information required under s. 196.07, whichever is later, the commission may not on its own motion order that small telecommunications utility to change its rates, tolls or charges under par. (a).

(d) Rates, tolls or charges established by the commission under this subsection shall be in effect for at least 365 days.

(e) Subsection (5) (a) to (d), as it relates to financial conditions under that subsection, applies to financial conditions under this subsection.

(8) If the amount of a small telecommunications utility's federal or state taxes decreases due to a decrease in tax rates, the decrease shall be reflected in rates, tolls or charges unless the small telecommunications utility files adequate information with the commission regarding why a decrease should not be reflected in rates, tolls or charges. The proposed method of implementing the decrease shall be submitted to the commission before the effective date of the tax rate decrease, or as soon as practicable after that effective date. The commission may deny or modify the proposed method if the commission determines that the method is not fair and reasonable. The commission shall review any information that a small telecommunications utility submits to support its position that rates, tolls or charges should not reflect the decrease and determine, based on all information available to the commission, whether a decrease in rates, tolls or charges should be implemented and the extent of any decrease. Any decrease under this subsection shall take effect on the effective date of the tax rate decrease. The commission may issue an order, without a hearing, requiring a small telecommunications utility to refund to consumers excess rates, tolls or charges paid by consumers if a decrease under this section is implemented after the effective date of the tax rate decrease.

(9) This section does not limit the commission's authority to regulate the capital structure of a small telecommunications utility.

History: 1985 a. 297; 1989 a. 344; 1993 a. 496.

196.216 Small telecommunications utilities as small businesses. A small telecommunications utility is a small business for the purposes of s. 227.114.

History: 1985 a. 297; 1987 a. 403 s. 256.

196.217 Average toll rates. (1) DIFFERENT RATES RESTRICTED. A telecommunications utility may not charge different rates for residential basic message telecommunications service, business basic message telecommunications service, or single-line wide-area telecommunications service on routes of similar distances within this state, unless authorized by the commission. This subsection does not prohibit volume or term discounts, discounts in promotional offerings, differences in the rates for intralata and interlata services of similar distances, the provision of optional toll calling plans to selected exchanges or customers or the passing through of any state or local taxes in the specific geographic area from which the tax originates.

(2) TOLL SERVICES. Notwithstanding sub. (1), a telecommunications utility may charge prices for toll services under contract that are unique to a particular customer or group of customers if differences in the cost of providing a service or a service element justify a different price for a particular customer or group of customers, or if market conditions require individual pricing.

(3) AVERAGED RATES. Notwithstanding subs. (1) and (2), an intralata toll provider shall offer all optional toll calling plans on a statewide basis at geographically averaged rates until the provider deploys intralata dial-1 presubscription, except that an optional toll call plan need not be offered where deployment of that offering would not be economically or technically feasible.

History: 1993 a. 496.

196.218 Universal service fund. (1) DEFINITION. In this section, "universal service" includes the availability of a basic set of essential telecommunications services and access to advanced service capabilities of a modern telecommunications infrastructure anywhere in this state.

(2) FUND ADMINISTRATION. The commission shall do all of the following:

(a) Hold a hearing on the universal service fund.

(b) After holding the hearing under par. (a), direct the establishment of the universal service fund.

(c) Contract for the administration of the universal service fund.

(d) Obtain an annual independent audit of the universal service fund.

(3) CONTRIBUTIONS TO THE FUND. (a) 1. Except as provided in par. (b), the commission shall require all telecommunications providers to contribute to the universal service fund beginning on January 1, 1996.

2. The commission may require a person other than a telecommunications provider to contribute to the universal service fund if, after notice and opportunity for hearing, the commission determines that the person is offering a nontraditional broadcast service in this state that competes with a telecommunications service provided in this state for which a contribution is required under this subsection.

3. The commission shall designate the method by which the contributions under this paragraph shall be calculated and collected. Contributions may be based only on the gross operating revenues from the provision of broadcast services identified by the commission under subd. 2. and on intrastate telecommunications services in this state of the telecommunications providers subject to the contribution.

(b) The commission may exempt from part or all of the contributions required under par. (a) telecommunications providers who have small gross operating revenues from the provision of intrastate telecommunications services in this state and who have provided these services for less than a period specified by the commission, not to exceed 5 years. The commission may also exempt a telecommunications provider or other person from part or all of the contribution required under par. (a) if the commission determines that requiring the contribution would not be in the public interest.

(c) The commission shall designate by rule the classes of providers or other persons subject to par. (a) and the required rates of contribution for each class.

(d) The commission shall consider all of the following in specifying the contributions required under par. (a):

1. The impact of the contributions on all members of the public and the telecommunications industry.

2. The fairness of the amount of the contributions and the methods of collection.

3. The costs of administering the collection of the contributions.

(e) Except as provided in s. 196.196 (2) (d), a telecommunications provider or other person may not establish a surcharge on

customers' bills to collect from customers contributions required under this subsection.

(4) ESSENTIAL SERVICES AND ADVANCED SERVICE CAPABILITIES. Before January 1, 1996, and biennially thereafter, the commission shall promulgate rules that define a basic set of essential telecommunications services that shall be available to all customers at affordable prices and that are a necessary component of universal service. Before January 1, 1996, and biennially thereafter, the commission shall promulgate rules that define a set of advanced service capabilities that shall be available to all areas of this state at affordable prices within a reasonable time and that are a necessary component of universal service. For rules promulgated before January 1, 1996, a reasonable time for the availability of the defined set of advanced service capabilities shall be no later than January 1, 2005, and, for rules promulgated thereafter, a reasonable time for the availability of additional advanced service capabilities in the defined set shall be no later than 7 years after the effective date of the rules. These essential services and advanced service capabilities shall be based on market, social, economic development and infrastructure development principles rather than on specific technologies or providers. Essential services include single-party service with touch-tone capability, line quality capable of carrying facsimile and data transmissions, equal access, emergency services number capability, a statewide telecommunications relay service and blocking of long distance toll service.

(4m) TOLL BLOCKING. The commission shall issue rules to implement, cost-free to low-income customers, the capability to block all long distance or other toll calls from a customer's telephone service with a goal of universal applicability of the toll-blocking service no later than January 1, 1996. A telecommunications utility may petition the commission for a waiver from providing toll-blocking service upon a demonstration that providing this service would represent an unreasonable expense for the telecommunications utility and its ratepayers.

(5) USES OF THE FUND. (a) The commission shall require that moneys in the universal service fund be used only for any of the following purposes:

1. To assist customers located in areas of this state that have relatively high costs of telecommunications services, low-income customers and disabled customers in obtaining affordable access to a basic set of essential telecommunications services.

2. To assist in the deployment of advanced service capabilities of a modern telecommunications infrastructure throughout this state.

3. To promote affordable access throughout this state to high-quality education, library and health care information services.

4. To administer the universal service fund.

(b) The commission shall promulgate rules to determine whether a telecommunications provider, the customers of a telecommunications provider or another person shall be assisted by the universal service fund for any use under par. (a).

(c) The commission shall consider all of the following in establishing the services and equipment which may be assisted by the universal service fund:

1. The impact of the assistance on all members of the public and the telecommunications industry.

2. Eligibility requirements for assistance recipients.

3. The costs of administering the assistance.

4. Telecommunications plans and requirements established by the federal rural electrification administration.

5. The extent to which the fund preserves and promotes an available and affordable basic set of essential telecommunications services, encourages access to the advanced service capabilities of a modern telecommunications infrastructure throughout the state and promotes economic development.

(5m) RULE REVIEW. At least biennially, the commission shall review and revise as appropriate rules promulgated under this section.

(5r) ANNUAL REPORT. (a) Annually, the commission shall submit a universal service fund report to the joint committee on information policy. The report shall include information about all of the following:

1. The affordability of and accessibility to a basic set of essential telecommunications services and of advanced service capabilities throughout this state.

2. The affordability of and accessibility to high-quality education, library and health care information services.

3. Financial assistance provided under the universal service fund.

4. An assessment of how successful investments identified in s. 196.196 (5) (f), assistance provided by the universal service fund or the Wisconsin advanced telecommunications foundation and price regulation and other alternative incentive regulations of telecommunications utilities designed to promote competition have been in advancing the public interest goals identified under s. 196.03 (6), and recommendations for further advancing those goals.

(b) The commission shall prepare a report to determine if public access broadcast channels may receive funding from the universal service fund as an advanced telecommunications service or other service and the effect of federal law on public access broadcast channel funding eligibility. The results of the report shall be included in the 2nd annual report submitted by the commission under par. (a).

(6) UNIVERSAL SERVICE FUND COUNCIL. (a) The commission shall appoint a universal service fund council under s. 15.04 (1) (c) consisting of representatives of telecommunications providers and consumers of telecommunications services, including this state. The majority of the members of the council shall be representatives of consumers of telecommunications services.

(b) The universal service fund council shall advise the commission concerning the administration of this section and the content of rules promulgated under this section.

(7) EDUCATION. The commission may require a telecommunications provider to undertake reasonable public notification and education efforts to inform eligible customers of the availability and requirements of universal and basic service programs, including any offerings of lifeline or other supported services established under state or federal law.

(8) PENALTIES. (a) Any person who fails or refuses to pay the contribution required under sub. (3) may be required to forfeit not less than \$100 nor more than \$10,000. Each day of continued violation constitutes a separate offense.

(b) A court imposing a forfeiture under par. (a) shall consider all of the following in determining the amount of the forfeiture:

1. The appropriateness of the forfeiture to the volume of business of the person.

2. The gravity of the violation.

3. Any good faith attempt to achieve compliance after the person or an officer, agent or employe of the person receives notice of the violation.

4. The financial gain sought by the person by not paying the contribution required under sub. (3).

(9) EMERGENCY TELEPHONE SERVICE STUDY. The commission shall conduct a study to determine if emergency telephone services should be supported by the universal service fund. The commission shall report its findings and recommendations, including any recommendations for statutory changes no later than January 1, 1997, to the joint committee on information policy.

History: 1993 a. 496.

196.219 Protection of telecommunications consumers. (1) DEFINITION. In this section, “consumer” means any person, including a telecommunications provider, that uses the services, products or facilities provided by a telecommunications utility.

(2) CONSUMER PROTECTION. (a) Notwithstanding any exemptions identified in this chapter except s. 196.202, a telecommunications utility shall provide protection to its consumers under this section unless exempted in whole or in part by rule or order of the commission under this section. The commission shall promulgate rules that identify the conditions under which provisions of this section may be suspended.

(b) On petition, the commission may grant an exemption from a requirement under this section upon a showing that the exemption is reasonable and not in conflict with the factors under s. 196.03 (6).

(c) On petition, the commission may grant an exemption from a requirement under this section retroactively if the application of the requirement would be unjust and unreasonable considering the factors under s. 196.03 (6) or other relevant factors.

(d) If the commission grants an exemption under this subsection, it may require the telecommunications utility to comply with any condition necessary to protect the public interest.

(2m) ACCESS SERVICES. (a) A telecommunications utility shall provide access services under tariff under the same rates, terms and conditions to all telecommunications providers.

(b) Paragraph (a) does not apply to cellular telephone interconnection arrangements authorized or required by the federal communications commission.

(3) PROHIBITED PRACTICES. A telecommunications utility may not do any of the following with respect to regulated services:

(a) Refuse to interconnect within a reasonable time with another person to the same extent that the federal communications commission requires the telecommunications utility to interconnect. The public service commission may require additional interconnection based on a determination, following notice and opportunity for hearing, that additional interconnection is in the public interest and is consistent with the factors under s. 196.03 (6).

(b) Upon request, fail to disclose in a timely and uniform manner information necessary for the design of equipment and services that will meet the specifications for interconnection.

(c) Impair the speed, quality or efficiency of services, products or facilities offered to a consumer under a tariff, contract or price list.

(d) Unreasonably refuse, restrict or delay access by any person to a telecommunications emergency service.

(e) Fail to provide a service, product or facility to a consumer other than a telecommunications provider in accord with the telecommunications utility’s applicable tariffs, price lists or contracts and with the commission’s rules and orders.

(em) Refuse to provide a service, product or facility to a telecommunications provider in accord with the telecommunications utility’s applicable tariffs, price lists or contracts and with the commission’s rules and orders.

(f) Refuse to provide basic local exchange service, business access line and usage service within a local calling area and access service on an unbundled basis to the same extent that the federal communications commission requires the telecommunications utility to unbundle the same services provided under its jurisdiction. The public service commission may require additional unbundling of intrastate telecommunications services based on a determination, following notice and opportunity for hearing, that additional unbundling is required in the public interest and is consistent with the factors under s. 196.03 (6). The public service commission may order unbundling by a small telecommunications utility.

(g) Provide services, products or facilities in violation of s. 196.204.

(h) To the extent prohibited by the federal communications commission, or by the public service commission under rules promulgated consistent with the factors under s. 196.03 (6), give preference or discriminate in the provision of services, products or facilities to an affiliate, or to the telecommunications utility’s own or an affiliate’s retail department that sells to consumers.

(j) Restrict resale or sharing of services, products or facilities, except for basic local exchange service other than extended community calling, unless the commission orders the restriction to be lifted. A telecommunications utility that has 150,000 or less access lines in use in this state may limit the use of extended community calling or business line and usage service within a local calling area as a substitute for access service, unless the commission orders the limitation to be lifted.

(L) Fail to provide, or to terminate, any telecommunications service as necessary to comply with the minimum standards of service established by the commission with respect to technical service quality, deposits, disconnection, billing and collection of amounts owed for services provided or to be provided.

(m) Provide telecommunications service to any person acting as a telecommunications utility, telecommunications provider, alternative telecommunications utility or telecommunications carrier if the commission has ordered the telecommunications utility to discontinue service to that person.

(n) Provide telecommunications service in violation of s. 100.207.

(4) ENFORCEMENT. (a) On the commission’s own motion or upon complaint filed by the consumer, the commission shall have jurisdiction to take administrative action or to commence civil actions against telecommunications utilities to enforce this section.

(b) The commission may, at its discretion, institute in any court of competent jurisdiction a proceeding against a telecommunications utility for injunctive relief to compel compliance with this section, to compel the accounting and refund of any moneys collected in violation of this section or for any other relief permitted under this chapter.

(4d) UNFAIR TRADE PRACTICE ENFORCEMENT. Upon receipt of a notice issued under s. 100.208, the commission may order a telecommunications provider to cease offering the telecommunications service that creates the unfair trade practice or method of competition.

(4m) CIVIL ACTIONS. Upon a finding of a violation of this section by the commission, any person injured because of a violation of this section by a telecommunications utility may commence a civil action to recover damages or to obtain injunctive relief.

(5) ALTERNATE DISPUTE RESOLUTION. The commission shall establish by rule a procedure for alternative dispute resolution to be available for complaints filed against a telecommunications utility.

History: 1993 a. 496.

196.22 Discrimination forbidden. No public utility may charge, demand, collect or receive more or less compensation for any service performed by it within the state, or for any service in connection therewith, than is specified in the schedules for the service filed under s. 196.19, including schedules of joint rates, as may at the time be in force, or demand, collect or receive any rate, toll or charge not specified in the schedule.

History: 1983 a. 53.

196.24 Agents of commission; powers. (1) For the purpose of making any investigation with regard to any public utility the commission may appoint, by an order in writing, an agent whose duties shall be prescribed in the order.

(2) In the discharge of his or her duties, an agent appointed under sub. (1) shall have any inquisitional power granted to the commission and the power of a court commissioner to take depositions under s. 757.69 (3) (b).

(3) The commission may conduct any number of investigations contemporaneously through different agents, and may delegate to any agent the authority to take testimony bearing upon any investigation or at any hearing. The decision of the commission shall comply with s. 227.46 and shall be based upon its records and upon the evidence before it.

History: 1975 c. 414 s. 28; 1983 a. 53; 1985 a. 182 s. 57.

196.25 Questionnaires. (1) If a public utility receives from the commission any questionnaire, the public utility shall respond fully, specifically and correctly to each question. If a public utility is unable to answer any question, the public utility shall give a good and sufficient reason for its failure. Every answer by a public utility under this section shall be verified under oath by the president, secretary, superintendent or general manager of the public utility and returned to the commission at its office within the period fixed by the commission.

(2) If required by the commission, a public utility shall deliver to the commission the original or a copy of any map, profile, contract or engineer's report and any other document, book, account, paper or record with a complete inventory of all its property, in such form as the commission directs.

(3) If a telecommunications provider receives a questionnaire from the commission, the telecommunications provider shall respond specifically, correctly and fully to each question. If a telecommunications provider is unable to answer any question, the telecommunications provider shall give a good and sufficient reason for its failure. Answers shall be verified under oath by the president, secretary, superintendent or general manager of the telecommunications provider. A completed questionnaire shall be returned to the commission within the time period specified by the commission.

History: 1983 a. 53; 1993 a. 496.

196.26 Complaint by consumers; hearing; notice; order; costs. (1) COMPLAINT. In this section "complaint" means a complaint filed with the commission that any rate, toll, charge or schedule, joint rate, regulation, measurement, act or practice relating to the provision of heat, light, water, power or telecommunications service is unreasonable, inadequate, unjustly discriminatory or cannot be obtained.

(1m) COMPLAINT AND INVESTIGATION. If any mercantile, agricultural or manufacturing society, body politic, municipal organization or 25 persons file a complaint against a public utility, the commission, with or without notice, may investigate the complaint as it deems necessary. The commission may not issue an order based on the investigation without a public hearing.

(2) NOTICE AND HEARING. (a) Prior to a hearing under this section, the commission shall notify the public utility complained of that a complaint has been made, and 10 days after the notice has been given the commission may proceed to set a time and place for a hearing and an investigation.

(b) The commission shall give the public utility which is the subject of a complaint filed under sub. (1) and the complainant 10 days' notice of the time and place of the hearing and the matter to be considered and determined at the hearing. The complainant and the public utility may be heard. The commission may subpoena any witness at the request of the public utility or complainant.

(c) Notice under pars. (a) and (b) may be combined. The combined notice may not be less than 10 days prior to hearing.

(3) SEPARATE HEARINGS. If a complaint is made under sub. (1m) of more than one rate or charge, the commission may order separate hearings on each rate and charge, and may consider and determine the complaint on each rate and charge separately and at such times as the commission prescribes. The commission may

not dismiss a complaint because of the absence of direct damage to the complainant.

(4) EXCEPTIONS. (a) This section does not apply to any rate, toll, charge or schedule of any telecommunications cooperative except as provided under s. 196.205 or unless at least 5% of the customers of the telecommunications cooperative file a complaint with the commission that the rate, toll, charge or schedule is in any respect unreasonable, insufficient or unjustly discriminatory.

(b) This section does not apply to any rate, toll, charge or schedule of any small telecommunications utility except as provided under s. 196.215 (2).

History: 1981 c. 148; 1983 a. 53; 1985 a. 297; 1989 a. 344; 1993 a. 496; 1995 a. 409.

196.28 Summary investigations. (1) If the commission believes that any rate or charge is unreasonable or unjustly discriminatory or that any service is inadequate or cannot be obtained or that an investigation of any matter relating to any public utility should for any reason be made, the commission on its own motion summarily may investigate with or without notice.

(2) If, after an investigation under sub. (1), the commission determines that sufficient grounds exist to warrant a hearing on the matters investigated, the commission shall set a time and place for a hearing. A hearing under this section shall be conducted as a hearing under s. 196.26.

(3) Notice of the time and place for a hearing under sub. (2) shall be given to the public utility, and to such other interested persons as the commission deems necessary. After the notice has been given, proceedings shall be had and conducted in reference to the matter investigated as if a complaint had been filed with the commission under s. 196.26 (1) relative to the matter investigated. The same order or orders may be made in reference to the matter as if the investigation had been made on complaint under s. 196.26.

(4) This section does not apply to rates, tolls or charges of a telecommunications cooperative or small telecommunications utility except as provided in s. 196.205 or 196.215 (2).

History: 1977 c. 29 s. 1654 (10) (c); 1983 a. 53 ss. 39, 41; 1989 a. 344; 1993 a. 496.

See note to 227.52, citing *Wis. Environmental Decade v. Public Service Comm.*, 93 W (2d) 650, 287 NW (2d) 737 (1980).

196.30 Utilities may complain. Any public utility may file a complaint with the commission on any matter affecting its own product or service.

History: 1983 a. 53.

196.31 Intervenor financing. (1) In any proceeding before the commission, the commission may compensate any participant in the proceeding who is not a public utility, for some or all of the reasonable costs of participation in the proceeding if the commission finds that:

(a) The participation is necessary to provide for the record an adequate presentation of a significant position in which the participant has a substantial interest, and that an adequate presentation would not be possible without a grant of compensation; or

(b) The participation has provided a significant contribution to the record and has caused a significant financial hardship to the participant.

(1m) The commission shall compensate any consumer group or consumer representative for all reasonable costs of participating in a hearing under s. 196.196 (1) (g) or 196.198.

(2) Compensation granted under this section shall be paid from the appropriation under s. 20.155 (1) (j) and shall be assessed under s. 196.85 (1), except that, if the commission finds that the participation for which compensation is granted relates more to a general issue of utility regulation rather than to an issue arising from a single proceeding, the cost of the compensation may be assessed under s. 196.85 (2). Any payment by a public utility for compensation under this section assessed under s. 196.85 (1) or (2) shall be credited to the appropriation under s. 20.155 (1) (j).

(3) The commission shall adopt rules to implement this section.

History: 1983 a. 27; 1985 a. 297; 1989 a. 56 s. 259; 1993 a. 496.

196.32 Witness fees and mileage. (1) Any witness who appears before the commission or its agent, by order, shall receive for the applicable attendance the fees provided for witnesses in civil cases in courts of record, which shall be audited and paid by the state in the same manner as other expenses are audited and paid under s. 885.07, upon the presentation of proper vouchers sworn to by such witnesses and approved by the chairperson of the commission. Fees paid under this section shall be charged to the appropriation for the commission under s. 20.155 (1) (g).

(2) No witness subpoenaed at the instance of parties other than the commission may be compensated under this section unless the commission certifies that the testimony of the witness was material to the matter investigated.

History: 1983 a. 53.

196.33 Depositions. The commission or any party in any investigation or hearing may cause the depositions of witnesses residing within or without the state to be taken in the manner prescribed by law for like depositions in civil actions in circuit courts. Any expense incurred or authorized by the commission in taking a deposition shall be charged to the appropriation for the commission under s. 20.155 (1) (g).

History: 1983 a. 53.

196.34 Commission records. The commission shall keep a complete record of its proceedings before the commission or its agent in any formal investigation or hearing.

History: 1983 a. 53; 1995 a. 27.

196.36 Transcripts and tapes. (1) TRANSCRIPTS. The commission shall receive into evidence a transcribed copy of the evidence and proceedings, or any specific part of the evidence and proceedings, on any investigation or hearing taken by a stenographer if the stenographer certifies that the copy is a true and correct transcript of all the testimony or of the testimony of a particular witness, or of any other specific part of the investigation or hearing, that the transcript was carefully compared by the stenographer with his or her original notes, and that the copy is a correct statement of the evidence presented and proceedings held in the investigation or hearing. The certified copy shall have the same effect as if the stenographer were present and testified to the correctness of the copy.

(1m) TRANSCRIPTS FROM TAPES. The commission shall receive into evidence a transcribed copy of an audiotape or videotape of the evidence and proceedings, or any specific part of the evidence and proceedings, of any investigation or hearing that is recorded if the transcriber certifies that the copy is a true and correct transcription from the audiotape or videotape of all the testimony or of the testimony of a particular witness, or of any other specific part of the investigation or hearing and that the copy is a correct statement of the evidence presented and proceedings held in the investigation or hearing. The certified copy shall have the same effect as if the transcriber were present and testified to the correctness of the copy.

(2) COPIES. A copy of a transcript under this section shall be furnished on demand free of cost to any party to the investigation or hearing from which the transcript is taken. Upon request, the commission shall furnish a copy of an audiotape or videotape to any party to the investigation or hearing from which the audiotape or videotape is taken. The commission may charge a reasonable price for the tape.

History: 1983 a. 53; 1995 a. 27.

196.37 Lawful rates; reasonable service. (1) If, after an investigation under this chapter or ch. 197, the commission finds rates, tolls, charges, schedules or joint rates to be unjust, unreasonable, insufficient or unjustly discriminatory or preferential or otherwise unreasonable or unlawful, the commission shall deter-

mine and order reasonable rates, tolls, charges, schedules or joint rates to be imposed, observed and followed in the future.

(2) If the commission finds that any measurement, regulation, practice, act or service is unjust, unreasonable, insufficient, preferential, unjustly discriminatory or otherwise unreasonable or unlawful, or that any service is inadequate, or that any service which reasonably can be demanded cannot be obtained, the commission shall determine and make any just and reasonable order relating to a measurement, regulation, practice, act or service to be furnished, imposed, observed and followed in the future.

(3) Any public utility to which an order under this section applies shall make such changes in schedules on file under s. 196.19 to make the schedules conform to the order. The public utility may not make any subsequent change in rates, tolls or charges without the approval of the commission, except as provided in s. 196.205 or 196.215 (2).

(4) This section does not apply to rates, tolls or charges of a telecommunications cooperative or small telecommunications utility except as provided in s. 196.205 or 196.215 (2).

History: 1981 c. 390; 1983 a. 53 ss. 47, 50; 1989 a. 344; 1993 a. 496; 1995 a. 409. In absence of statutory authority, PSC may not fix rates to be applied retroactively. *Cities & Villages of Algoma, Etc. v. PSC*, 91 W (2d) 252, 283 NW (2d) 261 (Ct. App. 1978).

Allowing utility to charge present ratepayers for storm damage casualty loss occurring in prior year did not constitute retroactive rate making. *Wis. Environmental Decade v. Public Service Comm.* 98 W (2d) 682, 298 NW (2d) 205 (Ct. App. 1980).

Commission order establishing rates was not supported by substantial evidence. *Madison Gas & Elec. Co. v. PSC*, 109 W (2d) 127, 325 NW (2d) 339 (1982).

Utility's failure to pay taxes under protest may constitute "imprudence" and may reasonably affect rate-setting decision. *Public Serv. Corp. v. Public Service Comm.* 156 W (2d) 611, 457 NW (2d) 502 (Ct. App. 1990).

PSC's imposition of penalty for imprudent administration of coal acquisition contract was impermissible retroactive rate making. *Wis. Power & Light v. PSC*, 181 W (2d) 385, 511 NW (2d) 291 (1994).

The PSC has authority to order a utility to refund compensation collected in violation of its filed tariffs. *GTE North Inc. v. Public Service Comm.* 176 W (2d) 559, 500 NW (2d) 284 (1993).

196.372 Railroad telecommunications service. If the commission receives a complaint that telecommunications service with any railroad, as defined under s. 195.02, is inadequate or in any respect unreasonably or unjustly discriminatory or that the service is unavailable, the commission shall investigate the same. If upon investigation the commission finds that any telecommunications service is inadequate or unreasonably or unjustly discriminatory or that the service is unavailable, it shall determine and by order fix a reasonable regulation, practice or service to be installed, imposed and observed and followed in the future.

History: 1977 c. 29 s. 1340; Stats. 1977 s. 196.627; 1983 a. 53 s. 83; Stats. 1983 s. 196.374; 1983 a. 192; Stats. 1983 s. 196.372; 1985 a. 297 s. 76.

196.373 Water heater thermostat settings. (1) In this section:

(a) "Periodic customer billing" means a demand for payment of utility services by a public utility to a residential utility consumer on a monthly or other regular basis.

(b) "Residential utility consumer" means any individual who lives in a dwelling which is located in this state and which is furnished with a utility service by a public utility. "Residential utility consumer" includes, but is not limited to, an individual engaged in farming as defined under s. 102.04 (3).

(2) At least annually every public utility furnishing gas or electricity shall include in its periodic customer billing a statement recommending that water heater thermostats be set no higher than 125 degrees Fahrenheit in order to prevent severe burns and unnecessary energy consumption.

History: 1987 a. 102.

196.374 Energy conservation programs. (1) In this section "utility" means a class A gas or electric utility, as defined by the commission. Every utility shall spend annually at least 0.5% of its total annual operating revenues on programs designed to promote and accomplish energy conservation. The commission may require a utility to spend annually for the purpose of promoting and accomplishing energy conservation, an amount which is

more or less than 0.5% of its annual operating revenues if, after notice and hearing, the commission finds that the expenditure of such amount is in the public interest.

(2) The commission may prescribe all or part of any program to be funded under sub. (1). The commission may require that a utility establish a program funded under sub. (1) which is applicable only to a group of consumers specified by the commission because the group has special energy conservation needs. Such a group may include, but is not limited to, low-income utility consumers, under guidelines established by the commission.

(3) The commission shall authorize every utility to recover from the utility's ratepayers any prudent energy conservation expenditure authorized by the commission. The commission may prescribe the accounting treatment of such an expenditure, including, but not limited to, escrow accounting.

History: 1983 a. 27.

196.375 Adequate service; reasonable rates. Upon complaint by any party affected, setting forth that any grantee of a permit to develop hydraulic power and generate hydroelectric energy for sale or service to the public is not furnishing consumers of this state with adequate service at a reasonable rate as a result of sales of the energy outside of the state, the commission may declare any or all contracts entered into by the grantee for the sales null and void insofar as the contracts interfere with the service or rate. The commission may not make a declaration under this section except after a hearing and investigation and a recorded finding that convenience and necessity require the sale of a specified part or all such energy within this state.

History: 1983 a. 53.

196.377 Promotion of renewable energy systems. The commission shall encourage public utilities to develop and demonstrate electric generating technologies that utilize renewable sources of energy, including new, innovative or experimental technologies. The commission may ensure that a public utility fully recovers the cost of developing, constructing and operating such demonstrations through rates charged to customers of the utility.

History: 1993 a. 418.

196.39 Change, amendment and rescission of orders; reopening cases. The commission at any time, on its own motion or upon motion of an interested party, and upon notice to the public utility and after opportunity to be heard, may rescind, alter or amend any order fixing rates, tolls, charges or schedules, or any other order made by the commission, and may reopen any case following the issuance of an order in the case, for any reason. Any order rescinding, altering, amending or reopening a prior order shall have the same effect as an original order. Within 30 days after service of an order, the commission may correct an error or omission in the order related to transcription, typing or calculation without hearing if the correction does not alter the intended effect of the order.

History: 1983 a. 53, 144, 538.

The PSC cannot order a change in rates by order without notice and hearing on the ground that the order is only a clarification of an earlier order. *Mid-Plains Telephone v. Public Serv. Comm.* 56 W (2d) 780, 202 NW (2d) 907.

196.395 Test, conditional, emergency and supplemental orders; waiver of conditions in orders. The commission may issue an order calling for a test of actual results under requirements prescribed by the order, during which test period the commission may retain jurisdiction of the subject matter. The commission may issue conditional, temporary, emergency and supplemental orders. If an order is issued upon certain stated conditions, any party acting upon any part of the order shall be deemed to have accepted and waived all objections to any condition contained in the order.

History: 1983 a. 53.

Temporary and emergency rates may be appropriately and widely used by public service commission where justified by circumstances. *Friends of Earth v. Public Service Commission*, 78 W (2d) 388, 254 NW (2d) 299.

196.40 Orders and determinations; time of taking effect. Every order or determination of the commission shall take effect 20 days after the order or determination has been filed and served by personal delivery or mail to all parties to the proceeding in which the order or determination was made or to their attorneys, unless the commission specifies a different date upon which the order or determination shall be effective. After the effective date every order or determination shall be on its face lawful and reasonable unless a court determines otherwise under s. 227.57.

History: 1983 a. 53; 1985 a. 182 s. 57.

196.41 Court review. Any order or determination of the commission may be reviewed under ch. 227.

History: 1983 a. 53.

See note to 227.52, citing *Friends of Earth v. Public Service Commission*, 78 W (2d) 388, 254 NW (2d) 299.

196.43 Injunction procedure. (1) No injunction may be issued in any proceeding for review under ch. 227 of an order of the commission, suspending or staying the order except upon application to the circuit court or presiding judge thereof, notice to the commission and any other party, and hearing. No injunction which delays or prevents an order of the commission from becoming effective may be issued in any other proceeding or action in any court unless the parties to the proceeding before the commission in which the order was made are also parties to the proceeding or action before the court.

(2) No injunction may be issued in any proceeding for review under ch. 227, or in any other proceeding or action, suspending or staying any order of the commission or having the effect of delaying or preventing any order of the commission from becoming effective, unless at least 2 sureties enter into an undertaking on behalf of the petitioner or plaintiff. The court or presiding judge of the court shall direct that the sum of the undertaking be enough to effect payment of any damage which the opposite party may sustain by the delay or prevention of the order of the commission from becoming effective, and to such further effect as the judge or court in its discretion directs. No order or judgment in any proceeding or action may be stayed upon appellate court review unless the petitioner or plaintiff enters into the undertaking under this subsection in addition to any undertaking required under s. 808.07.

History: Sup. Ct. Order, 67 W (2d) 585, 775 (1975); 1977 c. 187 s. 135; 1983 a. 53.

196.44 Law enforcement. (1) DUTY OF COMMISSION. The commission shall inquire into the neglect or violation of the laws of this state by public utilities, or by their officers, agents or employees or by persons operating public utilities, and shall enforce all laws relating to public utilities, and report all violations to the attorney general.

(2) DUTIES OF ATTORNEY GENERAL AND DISTRICT ATTORNEYS.

(a) Upon request of the commission, the attorney general or the district attorney of the proper county shall aid in any investigation, hearing or trial had under this chapter, and shall institute and prosecute all necessary actions or proceedings for the enforcement of all laws relating to public utilities, and for the punishment of all violations.

(b) The attorney general may, on his or her own initiative, appear before the commission on telecommunications matters relating to consumer protection and antitrust. If acting under the authority granted by this paragraph, the attorney general shall have the rights accorded a party before the commission in its proceedings but may not appeal as a party a decision of the commission to the circuit court. This paragraph does not apply after June 30, 1999.

(3) ACTIONS, CHARACTER, VENUE. Any forfeiture, fine or other penalty under this chapter may be recovered as a forfeiture in a

civil action brought in the name of the state in the circuit court of Dane county or in the county that would be the proper place of trial under s. 801.50.

History: Sup. Ct. Order, 67 W (2d) 585, 775 (1975); 1977 c. 29 ss. 1337, 1654 (10) (c), 1656 (43); 1977 c. 272; Stats. 1977 s. 196.44; 1981 c. 390 s. 252; 1983 a. 53; 1993 a. 496.

196.48 Incriminating evidence. No person may be excused from testifying or from producing books, accounts and papers in any proceeding based upon or growing out of any violation of chs. 195 to 197, on the ground or for the reason that the testimony or evidence may tend to incriminate or subject the person to penalty or forfeiture. A person who testifies under this section may not be:

(1) (a) Prosecuted or subjected to any penalty or forfeiture for testifying or producing evidence.

(b) The immunity provided under par. (a) is subject to the restrictions under s. 972.085.

(2) Exempted from prosecution or punishment for perjury in testifying.

History: 1977 c. 273; 1981 c. 390; 1983 a. 53; 1989 a. 122.

196.49 Authorization from commission before transacting business; extensions and improvements to be approved; enforcement of orders; natural gas. (1) (ag) In this subsection, “public utility” does not include a telecommunications utility.

(am) No public utility not legally engaged in performing a utility service on August 1, 1931, in any municipality may commence the construction of any public utility plant, extension or facility, or render service in such municipality directly, or indirectly by serving any other public utility or agency engaged in public utility service or otherwise, unless the public utility has obtained a certificate from the commission authorizing it to transact public utility business.

(b) This subsection applies only to a public utility which was not legally engaged in performing a public utility service on August 1, 1931, in a municipality and which proposes to commence construction or render service in the municipality. If there is a public utility engaged in similar service in operation under an indeterminate permit in the municipality, ss. 196.495 and 196.50 apply.

(2) No public utility may begin the construction, installation or operation of any new plant, equipment, property or facility, nor the construction or installation of any extension, improvement or addition to its existing plant, equipment, property, apparatus or facilities unless the public utility has complied with any applicable rule or order of the commission and with s. 281.35, if applicable. If a cooperative association has been incorporated under ch. 185 for the production, transmission, delivery or furnishing of light or power and has filed with the commission a map of the territory to be served by the association and a statement showing that a majority of the prospective consumers in the area are included in the project, no public utility may begin any such construction, installation or operation within the territory until after the expiration of 6 months from the date of filing the map and notice. If the cooperative association has entered into a loan agreement with any federal agency for the financing of its proposed system and has given written notice of the agreement to the commission, no public utility may begin any construction, installation or operation within the territory until 12 months after the date of the loan agreement.

(3) (a) In this subsection, “project” means construction of any new plant, equipment, property or facility, or extension, improvement or addition to its existing plant, equipment, property, apparatus or facilities. The commission may require by rule or special order that a public utility submit, periodically or at such times as the commission specifies and in such detail as the commission requires, plans, specifications and estimated costs of any proposed project which the commission finds will materially affect the public interest.

(b) Except as provided in par. (d), the commission may require by rule or special order under par. (a) that no project may proceed until the commission has certified that public convenience and necessity require the project. The commission may refuse to certify a project if it appears that the completion of the project will do any of the following:

1. Substantially impair the efficiency of the service of the public utility.

2. Provide facilities unreasonably in excess of the probable future requirements.

3. When placed in operation, add to the cost of service without proportionately increasing the value or available quantity of service unless the public utility waives consideration by the commission, in the fixation of rates, of such consequent increase of cost of service.

(c) The commission may issue a certificate for the project or for any part of the project which complies with the requirements of this section, or the commission may attach to the issuance of its certificate such terms and conditions as will ensure that the project meets the requirements of this section. The issuance of a certificate under this section shall not be a condition precedent to the exercise of eminent domain under ch. 32.

(d) A telecommunications utility is not required to obtain commission certification before beginning a construction project.

(5) (a) No public utility furnishing gas to the public in this state may construct, install or place in operation any new plant, equipment, property or facility, or construct or install any extension, improvement, addition or alteration to its existing plant, equipment, property or facilities for the purpose of connecting its properties and system to a source of supply of gaseous fuel for sale to the public which is different from that which has been sold previously, or for the purpose of adapting its facilities to use the different kind of gaseous fuel unless the commission certifies that the general public interest and public convenience and necessity require the connection to or use of the different fuel. No public utility may substitute natural gas or a mixture of natural and manufactured gas in lieu of manufactured gas for distribution and sale to the public unless it has obtained from the commission a certificate that the general public interest and public convenience and necessity require the substitution.

(b) Proceedings for a certificate under par. (a) shall be commenced by petition to the commission in a form prescribed by the commission, furnishing such information as the commission by rule or order prescribes. The commission shall prescribe the form of notice, to whom the notice shall be given, and how notice shall be given.

(c) A petition under par. (b) may include one or more municipalities, may be made by one or more public utilities as a joint petition, by any other interested person or by a public utility and any other interested person. The commission may direct the consolidation, separation or consideration of separate petitions as it deems necessary or expedient to a prompt hearing and disposition of the issue.

(d) Upon the filing of a petition under par. (b), notice of hearing on the petition shall be given by the person filing the petition by publication of a class 2 notice, under ch. 985, or by mailing or personal service, as the commission directs by the order under par. (b). Notice under this paragraph shall be given at least 2 weeks prior to hearing on the petition. Proof of notice shall be filed as directed by the commission.

(e) The commission, with or without an order, prior to or during any hearing under this subsection, may frame and prescribe special issues and limit the issues or the nature and extent of proof so as to avoid unnecessary duplication. The commission, with or without an order, may proceed with the hearing as to part of a petition under par. (b) as it may find desirable to a full but speedy hearing upon the petition.

(f) The commission may accept as presumptive evidence in a commission proceeding the facts found in findings and orders of

the federal energy regulatory commission or any federal agency having jurisdiction as to the availability of adequate supplies of natural gas, the adequacy or sufficiency of equipment and facilities to be employed in the delivery or storage of natural gas for any public utility, and any similar findings or determinations affecting the seller or person furnishing natural gas to any public utility and material to the ultimate determination of the issues in the proceeding. The commission may accept and take judicial notice of its own files and records, including all proceedings and the evidence therein which it finds to be material and relevant. The commission shall give notice of the taking of judicial notice under this paragraph prior to the conclusion of final hearings upon any proceeding so as to give interested parties the right to object to acceptance of the evidence or to contradict the evidence by other competent evidence.

(g) A certificate granted under par. (a) shall be authorized by an order following a hearing. The order shall contain any condition or limitation which the commission deems necessary or practicable, including, but not limited to, exceptions or regulations as to specific communities or public utilities, provision for protection of employes under existing labor contracts, as well as other employes, so as to avoid unemployment, regulations for accounting for expenses for change-over to the use of natural gas where necessary and to the extent necessary, provision for amortization of any expenditure or other items, and any other regulation, condition and limitation which the commission considers necessary in the public interest.

(h) The commission by order may extend a certificate under par. (a) to more than one public utility or municipality. The commission may prescribe different conditions and regulations for each public utility or municipality if the commission deems the different conditions and regulations necessary to carry out the purposes of this section.

(i) In making a determination under this section, the commission shall consider all appropriate factors affecting the public interest, including, but not limited to, when the substitution of natural or a mixture of natural and manufactured gas is involved, the likelihood of substantial rate reduction from the substitution and the effect of the substitution upon employment, existing business and industries, railroads and other transportation agencies and facilities, upon conveniences, economies and savings to consumers, upon existing gas utilities and their ability to continue to serve the public and upon the state, any of its political subdivisions or any citizen or resident of the state.

(6) If the commission finds that any public utility has taken or is about to take an action which violates or disregards a rule or special order under this section, the commission, in its own name either before or after investigation or public hearing and either before or after issuing any additional orders or directions it deems proper, may bring an action in the circuit court of Dane county to enjoin the action. If necessary to preserve the existing state of affairs, the court may issue a temporary injunction pending a hearing upon the merits. An appeal from an order or judgment of the circuit court may be taken to the court of appeals.

History: Sup. Ct. Order, 67 W (2d) 585, 775 (1975); 1977 c. 187; 1979 c. 110 s. 60 (9); 1983 a. 53; 1985 a. 60; 1993 a. 496; 1995 a. 227.

There is no hearing requirement as to the issuance of a certificate authorizing service. *Adams–Marquette E. Coop. v. P.S.C.* 51 W (2d) 718, 188 NW (2d) 515.

Term “public” in (3) (b) includes all electric consumers in state, not simply ratepayers of utility seeking authorization. *Wis. Power & Light v. Pub. Ser. Comm.* 148 W (2d) 881, 437 NW (2d) 888 (Ct. App. 1989).

196.491 Advance planning of electric generating facilities and transmission lines. (1) **DEFINITIONS.** In this section:

(a) “Bulk electric generating facility” means electric generating equipment and associated facilities designed for nominal operation at a capacity of 300,000 kilowatts or more.

(b) “Commencement of construction” means site clearing, excavation, placement of facilities or any other substantial action adversely affecting the natural environment of the site, but does

not mean borings necessary to determine foundation conditions or other preconstruction monitoring to establish background information related to site or environmental suitability.

(c) “Department” means the department of natural resources.

(d) “Electric utility” means any public utility, as defined in s. 196.01, which is involved in the generation, distribution and sale of electric energy, and any corporation, company, individual or association, and any cooperative association organized under ch. 185 for the purpose of generating, distributing or furnishing electric energy at retail or wholesale to its members only, which owns or operates, or plans within the next 10 years to construct, own or operate, bulk electric generating facilities, large electric generating facilities or high-voltage transmission lines in the state.

(e) “Facility” means a bulk electric generating facility, a large electric generating facility or a high-voltage transmission line.

(f) Except as provided in subs. (2) (b) 8. and (3) (d) 3m., “high-voltage transmission line” means a conductor of electric energy exceeding one mile in length designed for operation at a nominal voltage of 100 kilovolts or more, together with associated facilities, and does not include transmission line relocations that the commission determines are necessary to facilitate highway or airport projects.

(g) “Large electric generating facility” means electric generating equipment and associated facilities designed for nominal operation at a capacity of between 12,000 and 300,000 kilowatts.

(2) **ADVANCE PLANNING.** (a) On or before July 1 of each even-numbered year, or such other biennial period as the commission may approve, each electric utility shall file its plan with the commission and with those persons or agencies listed in par. (b). Such plans may be appropriate portions of a single regional plan or may be prepared jointly by 2 or more utilities, and shall:

1. Describe the general location, size and type of facilities which are expected to be owned or operated in whole or in part by such utility and the construction of which is expected to commence during the ensuing 10 years, or such longer period as the commission deems necessary, and shall identify all existing facilities intended to be removed from service during such period or upon completion of such construction;

2. Identify practical alternates to the general location, fuel type and method of generation of the proposed electric generating facilities, and set forth in detail the reasons for selecting the proposed general location, fuel type and method of generation;

3. Identify the location of proposed and alternative specific sites for all bulk electric generating facilities and all large electric generating facilities over 200,000 kilowatts for which a certificate of public convenience and necessity has not been applied for under sub. (3) but the commencement of whose construction is planned within 3 years, or such longer period as the commission deems necessary and indicate the impacts of the proposed and alternative generating facilities on the environment and the means by which potential adverse effects on such values will be avoided or minimized;

- 3m. Identify the location of tentative and alternative routes for high-voltage transmission lines on which construction is intended to be commenced in the succeeding 18 months and indicate the effects of such transmission lines on the environment and the means by which potential adverse effects will be avoided or minimized;

4. Indicate in detail the projected demand for electric energy and the basis for determining the projected demand;

5. Describe the utility’s relationship to other utilities and regional associations, power pools and networks;

6. Identify and describe all major research projects and programs which will continue or commence in the succeeding 3 years and set forth the reasons for selecting specific areas for research;

7. Identify and describe existing and planned programs and policies to discourage inefficient and excessive power use; and

8. Provide any other information required by the commission.

(am) No local ordinance may prohibit or restrict testing activities undertaken by a utility for purposes of preparing advance plans or determining the suitability of a site for the placement of a facility. Any local unit of government objecting to such testing may petition the commission to impose reasonable restrictions on such activity.

(b) A copy of each advance plan shall, at the time it is filed with the commission, also be filed with each of the following:

1. Department of administration.
2. Department of commerce.
3. Department of health and family services.
4. Department of justice.
5. Department of natural resources.
6. Department of transportation.
7. The director or chairperson of each regional planning commission constituted under s. 66.945 which has jurisdiction over any area where a facility is proposed to be located or which requests a copy of such plan.

8. The lower Wisconsin state riverway board if the plan includes the construction, modification or relocation of a high-voltage transmission line, as defined in s. 30.40 (3r), that is located in the lower Wisconsin riverway as defined in s. 30.40 (15).

(c) Those agencies receiving copies under par. (b) shall review the plans and submit their comments to the commission within 180 days after their receipt of the plans. Comments shall include:

1. A description of any statutory permits or approvals required by the agency.
2. A description of the types and forms of information required for adequate review of an application for each permit or approval.
3. A detailed discussion as to the areas in which the plans coordinate with the agency's plans, policies, functions and programs and the areas in which the plans conflict and the significance of such conflicts.
4. To the extent practicable and consistent with its program responsibilities, a discussion of the environmental impacts of the plan.

(d) The commission shall, within 10 days after the plan is filed, send a copy of such plan, or the applicable portion thereof, to the county planner, or, if none exists, to the county clerk of each county affected by the plan, to the main public library of each such county, and to any other county planner, county clerk or public library which requests copies of such plans or portions of plans. The commission shall send a copy of the applicable portion of the plan to the clerk of each municipality and town in which a bulk or large electric generating facility is proposed to be located, and shall notify each public library in such municipality or town that copies of the plan are available upon request.

(e) Any county, municipality, town or person may submit written comments on any plan to the commission within 180 days after the plan is filed.

(f) Because the planning process for facilities siting otherwise incorporates consideration and analysis of environmental impact, s. 1.11 (2) (c) shall not apply to advance plans prepared under par. (a) but the commission shall prepare a single environmental assessment on all plans submitted for approval under par. (a), which shall include a discussion of generic issues related thereto. Such assessment shall be made available to the public at least 30 days prior to the hearing under par. (g). The assessment on the plans is different from an environmental impact statement on a particular facility in that it need not identify the environmental effects of proposed sites for facilities in the plan with the same degree of detail as is required when a particular facility is considered for a certificate of public convenience and necessity under sub. (3). The assessment need not repeat information included in an assessment prepared for a plan submitted under par. (a) a prior reporting date and with respect to which no material addi-

tional data is required or as to which there has been no material change in circumstances. Applicable portions of such assessment may be included by reference in any environmental impact statement prepared by the commission, including a statement prepared in connection with the consideration of an application for a certificate of public convenience and necessity under sub. (3).

(g) Within 180 days after the plan is filed, the commission shall hold a hearing thereon. The hearing shall be held in an administrative district, established by executive order 22, issued August 24, 1970, which the commission determines will be significantly affected by facilities proposed in the plan to be constructed in the following 3 years. The commission may thereafter adjourn the hearing to other locations or may conduct the hearing by interactive video conference or other electronic method. Notice of such hearing shall be given by class 1 notice, under ch. 985, published in the official state newspaper and such other regional papers of general circulation as may be designated by the commission. At such hearing the commission shall briefly describe the plan and give all interested persons an opportunity, subject to reasonable limitations on the presentation of repetitious material, to express their views on any aspect of the plan. The presentation of such views need not be under oath nor subject to cross-examination. The commission shall advise all persons present of their right to express their views orally or in writing, under oath or otherwise, and of the legal effect of each such form of testimony. A written record of unsworn testimony shall be made and considered by the commission as comments on the plan under par. (e). Persons presenting such views shall not be parties. The utility, any state agency, county, municipality, town, or any person whose substantial rights may be adversely affected by the testing for or construction of facilities described in an advance plan, shall, upon filing written notice setting forth its interest at least 10 days in advance, be afforded all the rights of a party in a contested case.

(i) Except as provided under s. 196.493, a plan shall be approved if, upon the record of the hearing and the written comments submitted under pars. (c) and (e), the commission determines that the plan meets all of the following conditions:

1. Will provide for a reasonably adequate supply of electrical energy to meet the needs of the public during the planning period.
2. Is in the public interest when considering engineering, economic, health, safety, reliability, efficiency and environmental factors and alternate methods of generation or sources of supply.
3. Is reasonably coordinated with long-range plans and policies of other agencies or that a reasonable effort has been made to coordinate with such plans and policies.
4. Provides for programs which discourage inefficient and excessive power use.

(j) If any portion of the plan does not meet the criteria under par. (i), the commission shall disapprove the plan or portion thereof, or approve them, subject to such modifications as may be necessary to meet those criteria.

(jm) The commission shall either approve or disapprove each plan within 18 months after it is filed.

(k) Any portion of the plan that is not approved, may be resubmitted by the utility after entry of the order of disapproval, and, if resubmitted, shall be reviewed under this section in the same manner as a new advance plan, except that the commission may reduce the time for comments thereon to not less than 30 days.

(km) A utility may file an amendment to a previously approved plan with the commission at any time. The commission may grant review and approval under pars. (b) to (L), and may reduce the time for comments thereon to not less than 30 days.

(L) Once a plan has been approved, the commission may limit the scope of the issues before it upon review of a subsequent plan to those directly related to material changes.

(m) Any major contract relating to a facility for which a certificate of public convenience and necessity has not been applied for under sub. (3), other than a contract relating to acquisition of real

property, shall be reported in writing to the commission, indicating the general nature and amount of that commitment, within 30 days after it has been entered into.

(2m) APPLICANT TO FURNISH ENGINEERING PLAN TO DEPARTMENT. At least 120 days prior to the filing of an application for a certificate of public convenience and necessity under sub. (3) for a bulk or large electric generating facility, the applicant shall notify the department and the commission of its intention to make such application and provide the department with an engineering plan showing the location of the facility, a description of the facility, including the major components thereof having a significant air, water or solid waste pollution potential, and a description of the anticipated effects of such facility on air and water quality. Within 60 days thereafter, the department shall provide the applicant with a listing of each department permit or approval which, on the basis of the information contained in the engineering plan, appears to be required for the construction or operation of the facility. The department shall, in consultation with the commission, also designate which permits and approvals, or portions thereof, must be obtained prior to the issuance of the certificate of public convenience and necessity. Such designation shall be based on a finding by the department that the granting or denial of the same could significantly affect overall facility design or location. At any time prior to the issuance of the certificate of public convenience and necessity, the department may, in consultation with the commission, waive the necessity of obtaining any such permit or approval in advance of such certificate.

(3) CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY. (a) No person may commence the construction of a facility unless such person has applied for and received a certificate of public convenience and necessity from the commission as provided in this section. An application in the form and containing the information required by commission rules for such certificate shall be filed with the commission not less than 18 months prior to the commencement of construction of a bulk electric generating facility, and not less than 6 months prior to the commencement of construction of a large electric generating facility or a high-voltage transmission line. Within 10 days after filing the application, the commission shall send a copy of the application to the clerk of each municipality and town in which the proposed facility is to be located and to the main public library in each such county. The applicant shall apply for any permits or approvals required by the department prior to the issuance of a certificate of public convenience and necessity within 20 days after the application to the commission. An applicant shall make a preliminary application for all other permits and approvals specified under sub. (2m). Such preliminary application shall be sufficient if it identifies the permits and approvals applied for and contains so much of the information required for each such permit or approval as is then available to the applicant. Thereafter the applicant shall supply necessary additional engineering and design information as it becomes available.

(b) The commission shall hold a public hearing on the application in the area affected pursuant to s. 227.44. A class 1 notice, under ch. 985, shall be given at least 30 days prior to the hearing.

(d) Except as provided under s. 196.493, the application for a certificate of public convenience and necessity shall be approved if the commission determines that:

1. The proposed facility is in substantial compliance with the most recent advance plan filed under sub. (2) and approved by the commission under sub. (2) (i), except the commission may waive the requirement of this subdivision for large electric generating facilities or high-voltage transmission lines if it finds that the need for the facilities or lines could not have been reasonably foreseen by the utility at the time of the filing of its most recent advance plan approved by the commission.

2. The proposed facility is necessary to satisfy the reasonable needs of the public for an adequate supply of electric energy.

3. The design and location or route is in the public interest considering alternative sources of supply, alternative locations or routes, individual hardships, engineering, economic, safety, reliability and environmental factors. In its consideration of environmental factors, the commission may not determine that the design and location or route is not in the public interest because of the impact of air pollution if the proposed facility will meet the requirements of ch. 285.

3m. For a high-voltage transmission line, as defined in s. 30.40 (3r), that is to be located in the lower Wisconsin state riverway, as defined in s. 30.40 (15), the high-voltage transmission line will not impair, to the extent practicable, the scenic beauty or the natural value of the riverway. The commission may not require that a high-voltage transmission line, as defined in s. 30.40 (3r), be placed underground in order for it to approve an application.

4. The proposed facility will not have undue adverse impact on other environmental values such as, but not limited to, ecological balance, public health and welfare, historic sites, geological formations, the aesthetics of land and water and recreational use. In its consideration of the impact on other environmental values, the commission may not determine that the proposed facility will have an undue adverse impact on these values because of the impact of air pollution if the proposed facility will meet the requirements of ch. 285.

5. The proposed facility complies with the criteria under s. 196.49 (3) (b) if the application is by a public utility as defined in s. 196.01.

6. The proposed facility will not unreasonably interfere with the orderly land use and development plans for the area involved.

(e) If the application does not meet the criteria under par. (d), the commission shall reject the application or approve the application with such modifications as are necessary for an affirmative finding under par. (d). The commission may not issue a certificate of public convenience and necessity until the department has issued all permits and approvals designated under sub. (2m) as necessary prior to the issuance of the certificate of public convenience and necessity.

(f) The department shall complete action on all necessary permits and approvals required before issuance of a certificate of public convenience and necessity within:

1. 150 days after application under this subsection for large electric generating facilities or high-voltage transmission lines.

2. 480 days after application under this subsection for bulk electric generating stations.

(ff) The department shall complete action on each permit and approval for which preliminary application has been made under par. (a) within 90 days after the applicant has supplied all information required by the rules of the department.

(g) The commission shall take final action on the application within:

1. 180 days after application under this subsection for large electric generating facilities or high-voltage transmission lines.

2. 540 days after application under this subsection for bulk electric generating stations.

(h) The commission may waive compliance with any requirement of this section to the extent necessary to restore service which has been substantially interrupted by a natural catastrophe, accident, sabotage or act of God.

(hm) The commission and the department shall schedule as many hearings under this subsection as practicable at a time and place reasonably convenient to the majority of persons in the area of the facility.

(i) If installation or utilization of a facility for which a certificate of convenience and necessity has been granted is precluded or inhibited by a local ordinance, the installation and utilization of the facility may nevertheless proceed.

(j) Any person whose substantial rights may be adversely affected or any county, municipality or town having jurisdiction over land affected by an advance plan or certificate of public convenience and necessity may petition for judicial review, under ch. 227, of any decision of the commission regarding the advance plan or the certificate.

(k) No person may purchase or acquire an option to purchase, any interest in real property knowing that such property is being purchased to be used for the construction of a high-voltage transmission line unless the person gives written notice to the prospective seller of the size, maximum voltage and structure type of any transmission line planned to be constructed thereon and the electric utility by whom it will be operated. Contracts made in violation of this paragraph are subject to rescission by the seller at any time prior to the issuance of a certificate of public convenience and necessity for the facility by the commission.

History: 1975 c. 68, 199; 1979 c. 221, 361; 1983 a. 53 s. 114; 1983 a. 192, 401; 1985 a. 182 s. 57; 1989 a. 31; 1993 a. 184; 1995 a. 27 ss. 9116 (5), 9126 (19); 1995 a. 227, 409.

196.492 Advance plan for the lower Wisconsin state riverway for high-voltage transmission lines. (1) A public utility or a cooperative association organized under ch. 185 shall file a plan with the lower Wisconsin state riverway board 60 days before constructing, modifying or relocating a high-voltage transmission line, as defined in s. 30.40 (3r), in the lower Wisconsin state riverway, as defined in s. 30.40 (15), if the public utility or cooperative association is not required to file a plan with the commission under s. 196.491 for that facility.

(2) The plan may be an appropriate portion of a single regional plan and may be prepared jointly by 2 or more public utilities, 2 or more cooperative associations, or any combination of public utilities and cooperative associations.

(3) The plan shall include the information specified in s. 196.491 (2) (a) 1. to 8.

(4) The lower Wisconsin state riverway board shall approve the plan, if it determines that the high-voltage transmission line, as defined in s. 30.40 (3r), will not impair, to the extent practicable, the scenic beauty or the natural value of the lower Wisconsin state riverway.

(5) The lower Wisconsin state riverway board may not require that a high-voltage transmission line, as defined in s. 30.40 (3r), be placed underground in order for it to approve a plan under sub. (4).

(6) If the plan does not meet the criteria under sub. (4), the lower Wisconsin state riverway board shall reject the plan or approve the plan with any modifications that are necessary for an affirmative determination under sub. (4).

History: 1989 a. 31.

196.493 Construction of nuclear power plants limited.

(1) **DEFINITION.** In this section, “nuclear power plant” means a nuclear-fired large electric generating facility as defined under s. 196.491 (1) (g) or a nuclear-fired bulk electric generating facility as defined under s. 196.491 (1) (a).

(2) **LIMITS ON CERTIFICATION.** The commission may not certify under s. 196.49 (3) (b) or 196.491 (3) any nuclear power plant and may not approve under s. 196.491 (2) any plan which includes a nuclear power plant unless the commission finds that:

(a) A federally licensed facility, or a facility outside of the United States which the commission determines will satisfy the public welfare requirements of the people of this state, with adequate capacity to dispose of high-level nuclear waste from all nuclear power plants operating in this state will be available, as necessary, for disposal of the waste; and

(b) The proposed nuclear power plant, in comparison with feasible alternatives, is economically advantageous to ratepayers, based upon:

1. The existence of a reliable and adequate nuclear fuel supply;

2. The costs for construction, operation and decommissioning of nuclear power plants and for nuclear waste disposal; and

3. Any other factor having an impact on the economics of nuclear power plants, as determined by the commission.

History: 1983 a. 401.

196.495 Avoidance of duplication in electric facilities.

(1) (a) In this section:

1. “Primary voltage extension” means an extension of 500 feet or more.

2. “Secondary voltage extension” means an extension that is less than 500 feet.

(b) The length of an extension shall be measured as the air line distance between an existing local service distribution line that normally operates at less than 35 kilovolts and the nearest point on the principal building or facility to be served by a primary voltage extension or a secondary voltage extension.

(1m) No public utility, and no cooperative association organized under ch. 185 for the purpose of furnishing electric service to its members only, may:

(a) Extend or render electric service directly or indirectly to the premises of any person already receiving electric service directly or indirectly from another public utility or another cooperative association.

(b) Make a primary voltage extension to serve the premises of any person not receiving electric service and to which service is available from the facilities of another public utility or another such cooperative association through a secondary voltage extension, unless the other public utility or cooperative association consents to the primary voltage extension in writing or unless the commission, after notice to the interested parties and hearing, determines that the service rendered or to be rendered by the other public utility or cooperative association is inadequate and is not likely to be made adequate, or that the rates charged for service are unreasonable and are not likely to be made reasonable.

(2) If a public utility is rendering electric service under an indeterminate permit to a city or village, no cooperative association may extend any new electric service to the premises of any person inside the corporate limits, existing on January 1, 1961, of the city or village without the written consent of the public utility. Within any area annexed to a city or village after January 1, 1961, in which annexed area a cooperative association or public utility, other than the public utility serving the city or village under an indeterminate permit, has electric distribution facilities at the time of the annexation, the cooperative association or other public utility may make a primary voltage extension or a secondary voltage extension in the annexed area, subject to sub. (1m).

(2m) The distribution service facilities of a cooperative association or public utility rendering electric service in an annexed area under sub. (2) shall be subject to acquisition under ch. 197 by a city or village if the city or village operates or proposes to operate its own electric public utility.

(3) Nothing in this section shall preclude any public utility or any cooperative association from extending electric service to its own property or facilities or to another cooperative association for resale.

(4) To avoid duplication of facilities, a public utility and a cooperative association may enter into a written agreement governing the extension of electric distribution lines and the right to serve customers. The commission shall enforce an agreement if the agreement has been filed with the commission and approved by the commission as being in the public interest.

(5) If an interested party files a complaint with the commission that an electric public utility or a cooperative association has made a primary voltage extension that requires approval or consent under this section without obtaining approval or consent, the commission shall hear the complaint upon notice to the interested parties. If the commission determines that the primary voltage

extension was made in violation of this section, it shall order the prompt removal of the primary voltage extension.

(6) A cooperative association shall be subject to the authority of the commission to enforce the provisions of this section and to issue rules and orders relating to the provisions.

(7) A cooperative association shall be subject to the authority of the commission to allocate, assess and collect expenditures of the commission against a cooperative association involved in a proceeding under this section in the same manner as provided for public utilities under s. 196.85.

History: 1971 c. 125 s. 521; 1983 a. 53; 1991 a. 94.

Although one utility was serving a farm, when the farm is annexed to a city and a large shopping center is built, the utility having an indeterminate permit to serve the city cannot be barred from serving the area; the PSC should determine which utility should serve the area. *Adams–Marquette E. Coop. v. P.S.C.* 51 W (2d) 718, 188 NW (2d) 515.

The phrase “premises of a person already receiving electrical service” refers to the premises to be served, not the person. *Adams–Marquette E. Coop. v. P.S.C.* 51 W (2d) 718, 188 NW (2d) 515.

196.497 State policy regarding the long–term disposal of high–level radioactive waste and transuranic waste.

(1) DEFINITIONS. As used in this section unless the context requires otherwise:

(b) “Federal department of energy” means the federal department of energy or any successor agency assigned responsibility for the long–term disposal of high–level radioactive waste and transuranic waste.

(c) “High–level radioactive waste” means:

1. Fuel that is withdrawn from a nuclear reactor after irradiation and which is packaged and prepared for disposal; or

2. Highly radioactive waste resulting from reprocessing irradiated nuclear fuel including both the liquid waste which is produced directly in reprocessing and any solid material into which the liquid waste is transformed.

(d) “Transuranic waste” means waste material containing alpha–emitting radioactive elements having an atomic number greater than 92 in concentrations greater than 10 nanocuries per gram.

(2) COORDINATION. (a) *Initial agency to be contacted.* The commission shall serve as the initial agency in this state to be contacted by the federal department of energy or any other federal agency on any matter related to the long–term disposal of high–level radioactive waste or transuranic waste.

(b) *Receipt of information.* The commission shall serve as the initial agency in this state to receive any report, study, document, information or notification of proposed plans from the federal department of energy or any other federal agency on any matter related to the long–term disposal of high–level radioactive waste or transuranic waste. Notification of proposed plans include notification of proposals to conduct field work, on–site evaluation, on–site testing or similar activities.

(c) *Dissemination of information.* The commission shall disseminate or arrange with the federal department of energy or other federal agency to disseminate information received under par. (b) to appropriate state agencies, local units of government, regional planning commissions, American Indian tribal governing bodies, the general public, interested citizen groups and persons who have requested in writing to receive this information.

(d) *Response.* The commission shall respond to contacts under par. (a) and information received under par. (b) if a response is appropriate. The commission shall consult with appropriate state agencies, local units of government, regional planning commissions, American Indian tribal governing bodies, the general public and interested citizen groups in preparing this response.

(3) ADVOCATE. The commission shall serve as an advocate on behalf of the citizens of this state before the federal department of energy and other federal agencies on matters related to the long–term disposal of radioactive waste and transuranic waste.

(5) REVIEW OF APPLICATIONS FOR FEDERAL FUNDS. The commission shall review any application to the federal department of

energy or other federal agency by a state agency, local unit of government or regional planning commission for funds for any program related to the long–term disposal of high–level radioactive waste or transuranic waste. If the commission finds that the application is not consistent with the commission’s policy related to the long–term disposal of high–level radioactive waste or transuranic waste or that the application is not in the best interest of the state, the commission shall forward its findings to the governor, the joint committee on finance and the federal agency to which the application for funds is being made. If the commission finds that the application of a state agency is not consistent with the commission’s policy related to the long–term disposal of high–level radioactive waste or transuranic waste or that the application of a state agency is not in the best interest of the state, the findings forwarded to the governor shall include a recommendation that the governor act under s. 16.54 (1) and stipulate conditions for the acceptance of the funds which are necessary to safeguard the interests of the state.

(6) MONITOR FEDERAL ACTIVITY. The commission shall monitor activity in congress and the federal government related to the long–term disposal of high–level radioactive waste and transuranic waste. The commission may advise the congressional delegation from this state of action which is needed to protect the interests of the state.

(7) REQUEST ATTORNEY GENERAL TO INTERVENE. If appropriate the commission shall request the attorney general to intervene in federal proceedings to protect the state’s interests and present the state’s point of view on matters related to the long–term disposal of high–level radioactive waste or transuranic waste.

(8) NEGOTIATION OF AGREEMENTS. (a) *Negotiations with the federal department of energy.* The commission shall serve as the agency in this state to negotiate written agreements and modifications to these agreements, with the federal department of energy on any matter related to the long–term disposal of high–level radioactive waste or transuranic waste.

(b) *Negotiations with other federal agencies.* The commission shall serve as the agency in this state to negotiate written agreements and modifications to these agreements, with any federal agency other than the federal department of energy on any matter related to the long–term disposal of high–level radioactive waste or transuranic waste.

(d) *Hearings.* The commission shall conduct public hearings on any proposed agreement or modification to an agreement negotiated under par. (a) or (b). The commission shall provide 30 days’ notice of the date and location of hearings conducted under this paragraph. The commission shall prepare a written summary of testimony presented at hearings conducted under this paragraph and shall consider the need for modifications to the negotiated agreement as a result of the hearings.

(f) *Approval of agreements and modifications by the legislature and governor.* No agreement or modification to an agreement negotiated under par. (a) or (b) may take effect unless it is approved under sub. (10).

(g) *Technical revisions.* The commission may negotiate what in the commission’s judgment are technical revisions to any agreement approved under sub. (10).

(i) *Review of technical revisions by the legislature and governor.* No technical revision to an agreement negotiated under par. (g) may take effect unless it is considered approved under sub. (11).

(9) AGREEMENTS WITH THE FEDERAL DEPARTMENT OF ENERGY. (a) *Separate agreements.* The commission may negotiate separate agreements with the federal department of energy concerning different stages of the process of evaluating and selecting a site for the long–term disposal of high–level radioactive waste or transuranic waste. The commission shall negotiate a separate agreement with the federal department of energy for the final stages of the selection of any site for the long–term disposal of high–level radioactive waste or transuranic waste.

(b) *Contents.* Any agreement negotiated by the commission with the federal department of energy under sub. (8) (a) shall include all of the following:

1. A general description of the roles of the state and the federal department of energy.

2. A compliance schedule which includes a list of significant events and stages which are expected to be reached as the federal department of energy assesses the suitability of the state for the long-term disposal of high-level radioactive waste or transuranic waste and a description of the actions to be taken by the federal department of energy and the state at each event and stage.

3. The criteria that the department of energy shall use in evaluating the suitability of any site in the state for the long-term disposal of high-level radioactive waste or transuranic waste.

4. A requirement that the federal department of energy shall comply with all federal laws, American Indian laws, state laws and local ordinances and shall respect state sovereignty consistent with the 10th amendment to the U.S. constitution and the U.S. constitution, regardless of the ownership of the land on which the activity takes place.

5. A requirement that the federal department of energy and any of its contractors or subcontractors shall provide the commission with all reports and documents the commission requests and any other relevant reports and documents in a timely manner and in accordance with any applicable law, regulation or rule. The requirement shall specify that the federal department of energy may not charge a fee for searching for or for supplying reports and documents requested by the commission. The requirement shall specify that the federal department of energy shall provide the commission with all reports and documents the commission requests and any other relevant reports and documents from contractors and subcontractors after the reports and documents are submitted to the federal department of energy regardless of whether the reports and documents have received the department of energy's final approval.

6. A requirement that, upon request by the commission, the federal department of energy shall provide the data, methods and underlying assumptions used in the preparation of reports and documents in accordance with any applicable law, regulation or rule.

7. A requirement that the federal department of energy shall notify the commission of any grants related to the long-term disposal of high-level radioactive waste and transuranic waste from the federal department of energy to any person in this state.

8. A requirement that the federal department of energy shall notify the commission in a timely manner of any proposed field work, on-site evaluation, on-site testing or similar activities if or any contractor or subcontractor intends to conduct and a requirement that the federal department of energy shall allow the commission to monitor these activities by designating a reasonable number of persons to observe the activities or by any other appropriate means.

9. A requirement that the federal department of energy shall provide the commission in a timely manner with a copy of any requests for proposals and final contracts issued by the federal department of energy relating to the evaluation, selection or construction of a site for the long-term disposal of high-level radioactive waste or transuranic waste in this state.

10. A provision that the federal department of energy shall agree to provide funds to be used to review the activities of the federal department of energy and its contractors and subcontractors which relate to assessing the suitability of the state for the long-term disposal of high-level radioactive waste or transuranic waste.

11. A process for resolving disputes between the commission and the federal department of energy including disputes concerning alleged violations of the written agreement and disputes concerning technical assessments made by the federal department of energy. The process for resolving disputes concerning technical

assessments made by the federal department of energy may involve a process of scientific review and mediation.

12. A requirement that if the federal department of energy selects a site in the state for construction of a repository for the long-term disposal of high-level radioactive waste or transuranic waste, the federal department of energy shall prepare, prior to submission of an application to license or construct the repository, a repository plan which shall include descriptions of the federal department of energy's plans for construction of the repository, transportation of wastes to the repository, operation of the repository, closing of the repository and monitoring the repository after closure.

(c) *Objection to site selection.* Any agreement negotiated by the commission with the federal department of energy under sub. (8) (a) shall include a list of reasons for which the commission may object to the selection of a site within this state for the long-term disposal of high-level radioactive waste and transuranic waste. These reasons shall include the following:

1. The site or the transportation of waste to the site poses a danger to public health and safety or to the environment.

2. The federal department of energy fails to address to the satisfaction of the commission the potential socioeconomic effects of the site or of the transportation of waste to the site.

3. The federal department of energy violates any written agreement or revision approved under sub. (10) or (11).

4. If, in the judgment of the commission, the federal department of energy fails to comply with criteria, regulations or standards of other federal agencies concerning the long-term disposal of high-level radioactive waste or transuranic waste including criteria which excludes a proposed site from consideration because of previous mining or drilling of any type within the area which could be affected by the construction of the site or by the heat resulting from the disposal of high-level radioactive waste or transuranic waste at the site.

5. If, in the judgment of the commission, the federal department of energy fails to use generally accepted scientific and technical practices in evaluating the suitability of a site for the long-term disposal of high-level radioactive waste or transuranic waste.

(10) APPROVAL OF AGREEMENTS. (a) *Submission.* The commission shall submit any written agreement or modification to an agreement negotiated under sub. (8) (a) or (b), approved by the commission and approved by the federal department of energy or other federal agency to the speaker of the assembly and the president of the senate. The commission shall submit with the agreement or modification a written summary of the hearings held under sub. (8) (d).

(b) *Introduction of bill.* Upon request of the commission, the speaker of the assembly or the president of the senate shall introduce a bill to approve the agreement or modification to an agreement. The bill is not subject to s. 16.47 (2).

(c) *Legislative action required.* Within 120 days after the bill is introduced the appropriate committees in each house of the legislature shall authorize an extraordinary session of the legislature to commence within the 120 days and to extend until the legislature passes the bill or passes a joint resolution which disapproves of the agreement or modification and returns the agreement or modification to the commission for renegotiation. If the 120-day period extends beyond the date specified in s. 13.02 (1), the 120-day period is deemed to commence on the first day the succeeding legislature convenes, unless a bill or joint resolution is passed prior to that time.

(d) *Veto review.* Within 10 days after the bill passes the legislature, the chief clerk of the house of origin shall refer the bill to the governor for executive action. If the governor vetoes the bill, the appropriate committees in each house of the legislature shall schedule a veto review session.

(e) *Approval.* If the bill is enacted into law, the agreement or modification to the agreement is approved and shall take effect.

(11) REVIEW OF TECHNICAL REVISIONS. (a) *Submission.* The commission shall submit any technical revision to a written agreement negotiated under sub. (8) (g), approved by the commission and approved by the federal department of energy or other federal agency, to the presiding officer of each house of the legislature and to the governor.

(b) *Referral to standing committees.* Each presiding officer shall refer the technical revision to one standing committee within 7 working days after the day on which the revision is received unless the revision is received on or after November 1 of an even-numbered year. If a revision is received on or after November 1 of an even-numbered year, each presiding officer shall refer the revision to one standing committee within 7 days after the first day of the next regular session of the legislature. Each presiding officer shall cause a statement to appear in the journal of the appropriate house that a technical revision to an agreement approved under sub. (6) is submitted for review.

(c) *Standing committee review.* Either standing committee may object to the technical revision by taking action in executive session within 30 days after the revision is referred to the committee. If a standing committee objects to the revision, it shall submit a written notice of the objection to the presiding officer of that house of the legislature and the presiding officer shall cause the written notice of the objection to appear in the journal of the house.

(d) *Review by the governor.* The governor may object to the technical revision by taking action within 30 days after the revision is received unless the revision is received on or after November 1 of an even-numbered year. If the revision is received on or after November 1 of an even-numbered year, the governor may object to the revision by taking action within 30 days after the first day of the next regular session of the legislature. If the governor objects to the revision, the governor shall submit a written notice of the objection to the presiding officer of each house of the legislature and each presiding officer shall cause the written notice of the objection to appear in the journal of each house.

(e) *Objection.* A standing committee to which a revision is referred or the governor may object to a technical revision for any reason including a belief that the revision is so substantial that the revised agreement should be approved under sub. (10) rather than this subsection. If either standing committee to which a revision is referred or the governor objects to a technical revision within the 30-day review period, the revision may not take effect.

(f) *No objection.* If neither standing committee nor the governor objects to a technical revision within the 30-day review period, the revision is considered approved and shall take effect.

(11m) REVIEW OF FINAL SITE SELECTION AND SITE PLAN. (a) *Review by the commission.* If the federal department of energy selects a site in the state for construction of a repository for the long-term disposal of high-level radioactive or transuranic waste, the commission shall review the adequacy of the selected site and of the site plan prepared by the federal department of energy under sub. (9) (b) 12. The review shall include a full scientific review of the adequacy of the selected site and of the site plan. The commission shall utilize recognized experts in conducting its scientific review. The commission shall conduct more than one public hearing on the site plan and shall make available to the public arguments and evidence for and against the site plan. The commission shall provide 30 days' notice of the date and location of the public hearings. The commission shall solicit comments from appropriate state agencies, local units of government, regional planning commissions, American Indian tribal governing bodies, the general public and interested citizen groups on the adequacy of the selected site and the site plan. The commission shall make these comments available to the public.

(b) *Recommendation to the legislature and the governor.* After completing this review, the commission shall submit a recommendation to the speaker of the assembly, the president of the senate and the governor on whether the state should accept the site selected by the federal department of energy and the site plan. The

reasons for which the commission may recommend that the legislature and the governor object to the site selection or the site plan, or both, include those specified in sub. (9) (c). The recommendation to the speaker of the assembly and the president of the senate shall be accompanied by a request for the introduction of a bill to approve the site selected and the site plan or by a request for the introduction of a bill to disapprove the site or the site plan or both.

(c) *Introduction of legislation.* Upon request of the commission, the speaker of the assembly or the president of the senate shall introduce a bill reflecting the recommendation of the commission on whether to approve or disapprove the site selected by the federal department of energy and the site plan. The bill is not subject to s. 16.47 (2).

(d) *Legislative action required.* Within 120 days after the legislation is introduced under par. (c), the appropriate committees in each house of the legislature shall authorize an extraordinary session of the legislature to commence within the 120 days and to extend until the legislature passes a bill which approves the site selected by the federal department of energy and the site plan or the legislature passes a bill which disapproves the site or the site plan or both. If the 120-day period extends beyond the date specified under s. 13.02 (1), the 120-day period is deemed to commence on the first day the succeeding legislature convenes, unless a bill is passed prior to that time.

(e) *Veto review.* Within 10 days after the bill passes the legislature, the chief clerk of the house of origin shall refer the bill to the governor for executive action. If the governor vetoes the bill, the appropriate committees in each house of the legislature shall schedule a veto review session.

(f) *Transmittal of action by the legislature and the governor.* After the legislature takes action under par. (d) and after the governor takes any action under par. (e), the chief clerk of the house of origin shall notify the commission of the action taken and the commission shall send a report to the president of the United States, the members of the U.S. senate, the members of the U.S. house of representatives, the federal department of energy and other appropriate federal agencies. The report shall contain a summary of the review undertaken by the commission in accordance with par. (a), the recommendation made by the commission under par. (b), the action of the legislature under par. (d) and any action of the governor under par. (e).

(12) IMPLEMENTATION. The commission shall implement agreements, modifications and technical revisions approved under subs. (10) and (11). In implementing these agreements, modifications and revisions, the commission may solicit the views of appropriate state agencies, local units of government, regional planning commissions, American Indian tribal governing bodies, the general public and interested citizen groups.

(13) FUNDING. The commission shall attempt to finance all of its expenses under this section from moneys received from the federal department of energy and other federal agencies and from gifts and grants received from other persons.

(14) STATE AGENCIES TO COOPERATE. Other state agencies shall assist the commission in fulfilling its duties under this section to the fullest extent possible.

History: 1981 c. 62; 1985 a. 29; 1989 a. 31 ss. 107m, 713e; Stats. 1989 s. 36.50; 1991 a. 25; 1995 a. 27, ss. 1779 to 1799; Stats. 196.497.

Only the Radioactive Waste Review Board is authorized to negotiate agreements with the federal government regarding disposal of high-level nuclear waste. 80 Atty. Gen. 308.

196.499 Regulation of telecommunications carriers.

(1) SCOPE. Notwithstanding any other provisions of this chapter, a telecommunications carrier is not subject to regulation under this chapter, except that a telecommunications carrier shall comply with the requirements of this section, shall be treated under ss. 196.209, 196.218 (8) and 196.219 (4d) as a telecommunications provider, under s. 196.85 as a telecommunications utility and under s. 196.858 as an interexchange telecommunications utility, may be assessed under s. 196.218 (3) as a telecommunications

provider and shall respond, subject to the protection of the telecommunications carrier's competitive information, to all reasonable requests for information about its operations in this state from the commission necessary to establish and administer the universal service fund. A telecommunications carrier may not be assessed in a manner that is inconsistent with this section.

(2) TARIFFS. Every telecommunications carrier shall keep on file with the commission a tariff for each service, that contains all the rules, rates and classifications used by it in the provision of its telecommunications services, including limitations on liability unless the commission waives any requirement. A tariff shall be effective when filed or on a date indicated by the carrier. The telecommunications carrier shall provide notice of price increases by publication in newspapers or by any other reasonable means and may provide notice of price decreases or of tariffed promotional rates. Tariffs may be filed for services offered on an interim basis, for special promotions, for discounts, including discounts intended to maintain customer relations, or for individual contracts between carriers and customers. A telecommunications carrier shall charge rates in accordance with its tariff.

(3) RATES. (a) Except as provided in this subsection, a telecommunications carrier may not charge different rates for residential basic message telecommunications services, business basic message telecommunications services, or single-line wide-area telecommunications service on routes of similar distances within the state, unless otherwise authorized by the commission.

(am) Paragraph (a) does not prohibit volume or term discounts, discounts in promotional offerings, differences in the rates for intralata and interlata services of similar distances, the provision of optional toll calling plans to selected exchanges or customers or the passing through of any state or local taxes in the specific geographic areas from which the taxes originate.

(b) Notwithstanding any other provision in this chapter, a telecommunications carrier may furnish services to its employes, officers, agents or pensioners at no charge or at rates that are lower than its tariff rates.

(c) A telecommunications carrier may contract to charge prices for services that are unique to a particular customer or group of customers if differences in the cost of providing a service or a service element justify a different price for a particular customer or group of customers or if market conditions require individual pricing.

(4) ABANDONMENT OF SERVICES. A telecommunications carrier shall provide written notice to the commission not less than 60 days before its abandonment of basic message telecommunications service to an exchange. The carrier shall also publish notice in a newspaper of general circulation within the exchange and provide any other notice required by the commission. A telecommunications carrier shall be subject to rules and procedures that the commission may establish for the continuance of basic message telecommunications service to an exchange if notice has been received that all providers of the service intend to abandon that service in the exchange. A rule or procedure may not regulate the price, terms or conditions of service other than as authorized in this section and may not discriminate in favor of or against any telecommunications provider.

(5) COMPLAINTS. (a) In this subsection, "complaint" means a complaint filed with the commission that any rate, toll, charge or schedule relating to the provision of telecommunications service violates sub. (2) or (3) (a).

(am) In any complaint proceeding, the person initiating the complaint has the burden of proving a violation of sub. (2) or (3) (a).

(b) If any business organization, body politic or 25 individuals file a complaint against a telecommunications carrier, the commission, with or without notice, may investigate the complaint as it considers necessary. The commission may not issue an order based on the investigation without allowing the telecommunications carrier an opportunity for a hearing.

(c) 1. Before holding a hearing under this subsection, the commission shall notify the telecommunications carrier complained of that a complaint has been made, and no sooner than 10 days after the notice has been given the commission may set a time and place for a hearing.

2. The commission shall give the telecommunications carrier which is the subject of a complaint and the complainant at least 10 days' notice of the time and place of a hearing and the subject of the hearing. The commission may subpoena any witness at the request of the telecommunications carrier or complainant.

3. Notice under subs. 1. and 2. may be combined. The combined notice may not be given less than 10 days before a hearing.

(d) If the commission finds by a preponderance of the evidence that existing rates, tolls, charges or schedules violate sub. (2) or (3) (a), the commission may issue its order requiring compliance with sub. (2) or (3) (a).

(6) INVESTIGATIONS AND HEARINGS. (a) If the commission believes that any rate or charge violates sub. (2) or (3) (a), the commission on its own motion summarily may investigate with or without notice.

(b) If after an investigation under par. (a) the commission determines that sufficient grounds exist to warrant a hearing, the commission shall set a time and place for a hearing. The hearing shall be conducted as a hearing under sub. (5). Notice of the time and place for a hearing under this paragraph shall be given to the telecommunications carrier, and to any other interested person as the commission considers necessary.

(7) PETITIONS. A telecommunications carrier may file a petition for relief with the commission on any matter affecting the telecommunications carrier's product or service.

(8) DEPOSITIONS. The commission or any party in any investigation or hearing may take the depositions of witnesses in the manner prescribed for civil actions. Any expense incurred by or authorized by the commission in taking a deposition may be charged to the appropriation under s. 20.155 (1) (g).

(9) RECORDS AND TRANSCRIPTS. Sections 196.34 and 196.36, as they apply to records and transcripts relating to public utility hearings, apply to records and transcripts relating to telecommunications carrier hearings.

(11) REVIEW. Any order or determination of the commission may be reviewed under ch. 227.

(12) ENFORCEMENT. (a) The commission shall inquire into the neglect or violation of this section by telecommunications carriers, or by their officers, agents or employes or by persons operating telecommunications carriers, and shall enforce all laws relating to this section and report any violation to the attorney general.

(b) Upon request of the commission, the attorney general or a district attorney may aid in any investigation, hearing or trial under this section and shall prosecute any proceeding for the enforcement of laws relating to telecommunications carriers.

(c) A civil action to enforce this section shall be brought in the name of the state in the circuit court for Dane county or in the county that would be the proper place of trial under s. 801.50.

(d) This section and rules and orders of the commission promulgated or adopted under this section may be enforced by an action to recover forfeitures, an action for injunction, an action to compel performance or by other appropriate actions.

(13) CRISIS SITUATIONS. (a) If a sheriff, a police chief or a law enforcement officer designated by a sheriff or police chief to respond in a crisis situation has probable cause to believe that a person is holding a hostage or is resisting apprehension through the use or threatened use of force, the sheriff, police chief or law enforcement officer may order a telecommunications carrier to interrupt or reroute telecommunications service to or from the suspected person for the duration of the crisis situation to prevent the person from communicating with anyone other than a person authorized by the sheriff, police chief or law enforcement officer.

(b) A telecommunications carrier may not be held liable for any action that it takes under par. (a).

(13m) EMERGENCY SERVICES. A telecommunications carrier may not unreasonably refuse, restrict or delay access by any person to a telecommunications emergency service.

(14) EXTENSION OF FACILITIES. Any telecommunications carrier may extend its facilities into or through any municipality for the furnishing of its services, subject to the reasonable regulation of the governing body of the municipality relative to the location of poles and wires and the preservation of the safe and convenient use of streets and alleys to the public. Upon a petition for relief made by a telecommunications carrier, the commission shall set a hearing and if it finds a contract, ordinance or resolution under this subsection to be unreasonable, the contract, ordinance or resolution shall be void.

(15) CERTIFICATES. A telecommunications carrier that is not authorized to provide intrastate telecommunications service on January 1, 1994, may not commence the construction of any plant, extension or facility, or provide intrastate telecommunications service directly or indirectly to the public, unless the telecommunications carrier obtains a certificate from the commission authorizing the telecommunications carrier to provide intrastate telecommunications. The commission may issue a certificate if the telecommunications carrier demonstrates that it possesses sufficient technical, financial and managerial resources to provide intrastate telecommunications services. A telecommunications carrier that is authorized to provide intrastate telecommunications service on January 1, 1994, is not required to be recertified under this subsection.

(16) ACCESS SERVICE AUTHORIZATION. If a telecommunications utility with 150,000 or less access lines in use in this state is authorized in a geographic area to provide access service to the public or business access line and usage service within a local calling area, a telecommunications carrier may not offer in that same geographic area access service to the public or business access line and usage service within a local calling area without the authorization of the commission. The commission may authorize a telecommunications carrier to offer those services if, after notice and opportunity for hearing, the commission finds that public convenience and necessity require the offering of those services by the telecommunications carrier. The commission may not require a telecommunications carrier to meet a more stringent standard for authorization than the standard applied to any telecommunications provider seeking the same authority.

(17) FORFEITURES. (a) A telecommunications carrier who violates a provision of this section or rule or order of the commission promulgated or adopted under this section may be required to forfeit not less than \$100 nor more than \$1,000 for each violation. Each day of continued violation constitutes a separate offense.

(b) A telecommunications carrier that knowingly and intentionally violates sub. (2) or (3) (a) may be required to forfeit not less than \$100 nor more than \$5,000 for each violation.

History: 1993 a. 496.

196.50 Competing public utilities; indeterminate permits, telecommunications. **(1) CERTIFICATE OF NECESSITY.** (a) The commission may not grant any person a license, permit or franchise to own, operate, manage or control any plant or equipment for the production, transmission, delivery or furnishing of heat, light, water or power in the municipality, if there is in operation under an indeterminate permit a public utility engaged in similar service in the municipality, unless the person seeking the license, permit or franchise secures from the commission a declaration, after a public hearing of any interested party, that public convenience and necessity require the delivery of service by the applicant.

(b) 1. In this paragraph, “local exchange service” includes access service, basic local exchange service and business access line and usage service within a local calling area.

2. Except as provided in s. 196.203 (3) (b) or (e), the commission may not grant any person a certificate, license, permit or franchise to own, operate, manage or control any plant or equipment for the furnishing of local exchange service in a municipality, if there is in operation under an indeterminate permit a public utility engaged in similar service in the municipality under an indeterminate permit, unless any of the following conditions is met:

NOTE: Subd. 2. (intro.) is repealed and recreated eff. 9–1–98 by 1993 Wis. Act 496 to read:

2. (intro.) Except as provided in s. 196.203 (3) (b) or 196.499 (16), the commission may not grant any person a certificate, license, permit or franchise to own, operate, manage or control any plant or equipment for the furnishing of local exchange service in a municipality, if there is in operation under an indeterminate permit a public utility engaged in similar service in the municipality under an indeterminate permit, unless any of the following conditions is met:

a. The holder of the permit is a telecommunications utility with more than 150,000 access lines in use in this state.

b. The holder of the permit is a telecommunications utility with 150,000 or less access lines in use in this state and that has consented to the applicant’s provision of services.

c. The holder of the permit is a telecommunications utility with 150,000 or less access lines in use in this state and that provides local exchange service within the geographic area in which the applicant provides local exchange service other than cross-boundary foreign exchange service, services offered in open territory or services offered inadvertently or by mutual agreement between the serving telecommunications utilities.

d. The commission, after investigation and opportunity for hearing, finds that public convenience and necessity requires the delivery of service by the applicant, in which case the holder’s obligation to be provider of last resort is eliminated.

e. The holder of the permit and the applicant are both providers of cable television service, if the holder’s provision of cable television service began after September 1, 1994. This subd. 2. e. does not apply if the holder’s provision of cable television service is limited to the provision of satellite cable programming, as defined in s. 943.47 (1) (b).

3. If the commission authorizes a telecommunications carrier to provide access service to the public or business access line and usage service within a local calling area under s. 196.499 (16), the commission shall consider if or to what extent a telecommunications utility with 150,000 or less access lines in use in this state may be relieved of its obligation to be the provider of last resort. The commission shall consider the extent of competition in the relevant geographic area for the service, the revenues that have been or may be lost by the telecommunications utility, the ability of competing telecommunications providers to serve the existing or projected demand and any other factors that it considers to be relevant.

NOTE: Subd. 3 is created eff. 9–1–98 by 1993 Wis. Act 496.

(c) Any provision in an agreement or municipal franchise that prohibits entry into the telecommunications or cable television services market after September 1, 1994, is void. Paragraph (b) and this paragraph do not invalidate an ordinance enacted under s. 66.082 which requires a provider of cable television services to obtain a franchise before offering those services.

(2) CERTIFICATION OF TELECOMMUNICATIONS UTILITIES. (a) Alternative telecommunications utilities shall be certified under s. 196.203. All other telecommunications utilities shall be certified under this subsection.

(b) A certificate, franchise, license or permit, indeterminate or otherwise, in effect on September 1, 1994, for a telecommunications utility shall remain in effect and shall have the effect of a certificate of authority. A telecommunications utility is not required to apply for a new certificate of authority to continue offering or

providing service to the extent of the prior authorization. Each telecommunications utility, including telecommunications cooperatives, shall have on file with the commission under s. 196.19 a tariff that sets forth the rates, terms and conditions for all services provided and a map that defines the geographical limits of the service territory that the telecommunications utility is obliged to serve.

(c) After August 31, 1994, a person who does not possess authority from the commission to provide telecommunications services may not provide services in this state as a telecommunications utility until the person obtains a certificate of authority under this subsection. A certified alternative telecommunications utility or any other certified telecommunications utility may also apply for certification or amended certification under this subsection.

(d) No later than 45 days after the commission receives an application for a certificate of authority or an amended certificate of authority, the commission shall determine if the application is complete. If the commission determines that the application is complete, the commission shall docket the application and issue a final order no later than the expiration date of the temporary license under par. (e). If the commission determines that the application is incomplete, the commission shall notify the applicant in writing of the commission's determination, identify any part of the application which the commission has determined to be incomplete and state the reasons for the determination. An applicant may supplement and refile an application which the commission has determined to be incomplete. There is no limit on the number of times that an applicant may refile an application before a final order on the application. If the commission fails to make a determination within 15 days after receiving a refiled application regarding the completeness of an application previously determined to be incomplete, the refiled application shall be considered to be complete.

(e) 1. Pending the determination on an application for a certificate of authority or an amended certificate of authority, the commission may issue, without notice and hearing, a temporary license for a period not to exceed one year and may temporarily exempt the applicant from requirements of this chapter identified in s. 196.195 (5) if the exemption is in the public interest. The issuance of a temporary license does not bind the commission in the final determination on the application.

2. An application for a certificate of authority or amended certificate of authority that is filed after June 30, 1994, shall identify the geographical area to be served and the classification for which it is filed. The application shall be served by the applicant on all affected telecommunications providers.

(f) The commission shall issue a certificate of authority or an amended certificate of authority if it finds, after notice and opportunity for hearing, that the applicant possesses sufficient technical, financial and managerial resources to provide telecommunications service to any person within the identified geographic area. In making this determination, the commission shall consider the factors identified in s. 196.03 (6). The commission may order the applicant to satisfy any conditions that the commission considers to be necessary to protect the public interest, including structural safeguards.

(g) 1. The authority of every telecommunications utility with a certificate under this subsection is statewide and nonexclusive. The existence of or issuance of a certificate of authority or amended certificate of authority to any telecommunications utility and the approval of any tariff for the telecommunications utility shall not preclude the commission from authorizing additional telecommunications utilities to provide the same or equivalent service or to serve the same geographical area as any previously authorized utility or approved tariff.

2. A telecommunications utility's obligation to serve is defined by the map that the utility files under par. (b).

3. The commission shall establish by rule classes of certificates of authority based on services. The commission shall notify each telecommunications utility of its classification.

(h) After notice and opportunity for hearing, the commission may alter or amend any telecommunications utility's certificate of authority to provide telecommunications services in order to achieve or maintain the availability of reasonably adequate service at just and reasonable rates throughout the state.

(3) SECOND UTILITY. Any certificate, permit, license or franchise issued to a public utility, other than a telecommunications utility, which contains any term interfering with the existence of a 2nd public utility, other than a telecommunications utility, is amended to permit any municipality to grant a franchise for the operation of the 2nd public utility.

(4) MUNICIPALITY RESTRAINED. No municipality may construct any public utility if there is in operation under an indeterminate permit in the municipality a public utility engaged in similar service other than a telecommunications service, unless it secures from the commission a declaration, after a public hearing of all parties interested, that public convenience and necessity require the municipal public utility.

(5) INJUNCTION. Pending investigation and finding by the commission as to whether public convenience and necessity require a 2nd public utility, the furnishing of any public utility service, other than a telecommunications service, in any municipality contrary to the provisions of this section may be enjoined at the suit of the state or of any public utility having an interest in the issue.

(6) NO DENIAL ON FEDERAL FINANCING. No certificate of convenience and necessity or permit to any public utility under ss. 196.49 and 196.50 shall be denied because of the amount of the public utility's notes, bonds or other evidences of indebtedness issued to the United States in connection with loans to rural telecommunications utilities made under the rural electrification act of 1936, 7 USC 901 to 950aaa-5, as amended, or by reason of the ratio of such indebtedness to the value of the public utility's property or to its other classes of securities.

(7) INTERLATA CERTIFICATION. (a) This subsection applies to any telecommunications utility that is restricted under federal law or under any consent decree approved by a federal district court.

(b) Upon application by a telecommunications utility subject to this subsection for a certificate to provide interlata services, the commission shall consider all of the following factors in determining whether to grant a certificate of authority:

1. Whether granting the certificate is in the public interest.
2. Whether the utility will provide interconnection to its local exchange network under reasonable terms and conditions.
3. Whether the utility will permit appropriate resale and sharing of its services.
4. Whether the utility will provide unbundled services under reasonable terms and conditions.
5. Whether the utility provides its services in compliance with s. 196.204.
6. Whether competition in the interlata marketplace will be enhanced or hindered by granting the certificate.

(c) The commission may impose terms and conditions upon the grant of a certificate under par. (b) that are necessary to protect the public interest and promote competition.

(d) The commission, after providing notice and opportunity for hearing, shall issue its decision on the application within 180 days after the filing. The time period may be extended upon agreement of the commission and the applicant.

(e) An applicant may not be authorized to provide interlata service before the availability of dial–1 presubscription on an intralata basis in all of its exchanges except where it is technically infeasible to offer intralata dial–1 presubscription due to the action or inaction of a switch vendor.

History: 1977 c. 418; 1983 a. 53; 1985 a. 297 ss. 52 to 54, 76; 1993 a. 496; 1995 a. 409.

Cross-reference: For division of service between competing utilities, see s. 197.01 (4).

196.505 Construction of chapter. (1) Nothing in this chapter may be construed to deny a foreign corporation the privilege of offering telecommunications services in this state if it has received a certificate of authority under ch. 180 and any other authorization from the commission required under this chapter.

(2) Nothing in this chapter may be construed to permit chapter 184 or this chapter to apply differently to a foreign corporation which offers telecommunications services in this state than to a similarly situated domestic corporation which offers telecommunications services in this state.

History: 1985 a. 297; 1993 a. 496.

196.51 Prior permits and franchises validated. Any license, permit or franchise to own, operate, manage or control any plant or equipment for the production, transmission, delivery or furnishing of heat, light, water or power in any municipality is valid and shall not be affected by s. 196.50 (1), if the license, permit or franchise was granted prior to April 3, 1911, to any public utility or was under consideration prior to April 3, 1911, in the governing body of any municipality at the time another public utility operating in the municipality obtained an indeterminate permit.

History: 1983 a. 53.

196.52 Relations with affiliated interests; definition; contracts with affiliates filed and subject to commission control. (1) In this section, “person” includes but is not limited to trustees, lessees, holders of beneficial equitable interest, voluntary associations, receivers, partnerships and corporations; and “affiliated interests” means, with respect to a public utility:

(a) Any person owning or holding directly or indirectly 5% or more of the voting securities of the public utility.

(b) Any person in any chain of successive ownership of 5% or more of voting securities of the public utility.

(c) Every corporation 5% or more of whose voting securities is owned by any person owning 5% or more of the voting securities of the public utility or by any person in any chain of successive ownership of 5% or more of voting securities of the public utility.

(d) Any person who is an officer or director of the public utility or of any corporation in any chain of successive ownership of 5% or more of voting securities of the public utility.

(e) Any corporation operating a public utility, a railroad, or a servicing organization for furnishing supervisory, construction, engineering, accounting, legal and similar services to public utilities or railroads, which has one or more officers or one or more directors in common with the public utility, and any other corporation which has directors in common with the public utility if the number of such directors of the corporation is more than one-third of the total number of the public utility’s directors.

(f) Any person whom the commission determines as a matter of fact after investigation and hearing to be actually exercising any substantial influence over the policies and actions of the public utility even if such influence is not based upon stockholding, stockholders, directors or officers as specified under pars. (a) to (e).

(g) Any other person whom the commission determines as a matter of fact after investigation and hearing to be actually exercising substantial influence over the policies and actions of the public utility in conjunction with one or more other persons with whom they are related by ownership or blood relationship or by action in concert that together they are affiliated with such public

utility for the purpose of this section, even though no one of them alone is so affiliated under pars. (a) to (f).

(h) Any subsidiary of the public utility. In this paragraph, “subsidiary” means any person 5% or more of the securities of which are directly or indirectly owned by a public utility.

(3) (a) In this subsection, “contract or arrangement” means a contract or arrangement providing for the furnishing of management, supervisory, construction, engineering, accounting, legal, financial or similar services and any contract or arrangement for the purchase, sale, lease or exchange of any property, right, or thing, or for the furnishing of any service, property, right, or thing, other than management, supervisory, construction, engineering, accounting, legal, financial or similar services. Except as provided under par. (b), unless and until the commission gives its written approval, any contract or arrangement is not valid or effective if the contract or arrangement is made between a public utility and an affiliated interest after June 7, 1931. Every public utility shall file with the commission a verified copy of any contract or arrangement, a verified summary of any unwritten contract or arrangement, and any contract or arrangement, written or unwritten, which was in effect on June 7, 1931. The commission shall approve a contract or arrangement made or entered into after June 7, 1931, only if it shall clearly appear and be established upon investigation that it is reasonable and consistent with the public interest. The commission may not approve any contract or arrangement unless satisfactory proof is submitted to the commission of the cost to the affiliated interest of rendering the services or of furnishing the property or service to each public utility or of the cost to the public utility of rendering the services or of furnishing the property or service to each affiliated interest. No proof is satisfactory under this paragraph unless it includes the original (or verified copies) of the relevant cost records and other relevant accounts of the affiliated interest, or an abstract of the records and accounts or a summary taken from the records and accounts if the commission deems the abstract or summary adequate. The accounts shall be properly identified and duly authenticated. The commission, where reasonable, may approve or disapprove a contract or arrangement without submission of the cost records or accounts.

(b) 1. The requirement for written approval under par. (a) shall not apply to any contract or arrangement if the amount of consideration involved is not in excess of \$25,000 or 5% of the equity of the public utility, whichever is smaller, and does not apply to a telecommunications utility contract or arrangement. Regularly recurring payments under a general or continuing arrangement which aggregate a greater annual amount may not be broken down into a series of transactions to come within the exemption under this paragraph. Any transaction exempted under this paragraph shall be valid or effective without commission approval under this section.

2. In any proceeding involving the rates or practices of the public utility, the commission may exclude from the accounts of the public utility any payment or compensation made pursuant to a transaction exempted under this paragraph unless the public utility establishes the reasonableness of the payment or compensation.

(c) If the value of a contract or arrangement between an affiliated interest and a public utility, other than a telecommunications utility, exceeds \$1,000,000, the commission:

1. May not waive the requirement of the submission of cost records or accounts under par. (a);

2. Shall review the accounts of the affiliated interest as they relate to the contract or arrangement prior to the commission approving or disapproving the contract or arrangement under par. (a); and

3. May determine the extent of cost records and accounts which it deems adequate to meet the requirements for submission and review under subs. 1. and 2.

(4) (a) In any proceeding, whether upon the commission's own motion or upon application or complaint, involving the rates or practices of any public utility, the commission may exclude from the accounts of the public utility any payment or compensation to or from an affiliated interest for any services rendered or property or service furnished under an existing contract or arrangement with an affiliated interest under sub. (3) (a) unless the public utility establishes the reasonableness of the payment or compensation.

(b) The commission shall disallow the payment or compensation described in par. (a), in whole or in part, in the absence of satisfactory proof that the payment or compensation is reasonable in amount.

(c) The commission may not approve or allow any payment or compensation described in par. (a), in whole or in part, unless satisfactory proof is submitted to the commission of the cost to the affiliated interest of rendering the service or furnishing the property or service to each public utility or of the cost to the public utility of rendering the service or furnishing the property or service to each affiliated interest.

(d) No proof shall be satisfactory under this subsection unless it includes the original or verified copies of the relevant cost records and other relevant accounts of the affiliated interest, or an abstract of the records and accounts or a summary taken from the records and accounts if the commission deems the abstract or summary adequate. The accounts shall be properly identified and duly authenticated. The commission, where reasonable, may approve or disapprove a contract or arrangement without submission of the cost records or accounts.

(5) (a) The commission shall have continuing supervisory control over the terms and conditions of contracts and arrangements under this section as necessary to protect and promote the public interest. The commission shall have the same jurisdiction over the modifications or amendment of contracts or arrangements as it has over original contracts or arrangements. Commission approval of a contract or arrangement under this section shall not preclude disallowance or disapproval of a payment under the contract or arrangement if upon actual experience under the contract or arrangement it appears that the payments provided for or made were or are unreasonable. Every order of the commission approving a contract or arrangement shall be expressly conditioned upon the reserved power of the commission to revise and amend the terms and conditions of the contract or arrangement to protect and promote the public interest.

(b) For telecommunications utilities, the commission shall have supervisory jurisdiction over the terms and conditions of contracts and arrangements under this section as necessary to enforce ss. 196.204 and 196.219.

(6) If the commission finds upon investigation that a public utility, other than a telecommunications utility, is giving effect to a contract or arrangement without the commission's approval under this section, the commission shall issue a summary order directing that public utility to cease and desist from making any payments, receiving compensation, providing any service or otherwise giving any effect to the contract or arrangement until the contract or arrangement receives the approval of the commission. The circuit court of Dane county may enforce the order to cease and desist by appropriate process, including the issuance of a preliminary injunction, upon the suit of the commission.

(7) If the commission finds upon investigation that a public utility is making a payment to, providing a service to or receiving compensation from an affiliated interest, although the payment, service or compensation has been disallowed and disapproved by the commission in a proceeding involving the public utility's rates or practices, the commission shall issue a summary order directing the public utility to cease and desist from making the payment, providing the service or receiving the compensation. The circuit court of Dane county may enforce the order to cease and desist by

appropriate process, including the issuance of a preliminary injunction, upon the suit of the commission.

(8) Nothing in this section prevents a public utility from investing equity capital which is in excess of the level of equity that the commission has determined to be appropriate for the utility's capital structure in a subsidiary without commission approval.

History: 1981 c. 390; 1983 a. 53, 538; 1985 a. 297; 1993 a. 496; 1995 a. 225.

196.525 Loans to officers or directors and loans to and investments in securities of holding companies; penalty.

(1) Except under rules prescribed by the commission, a public utility may not lend funds or credit to any of its officers or directors by any of the following and a public utility other than a telecommunications utility may not lend funds or credit to any corporation, except a public utility subject to the regulatory powers of the commission, if the corporation holds, directly or indirectly through any chain of ownership, 5% or more of the voting stock of the public utility or renders any managerial, supervising, engineering, legal, accounting or financial service to the public utility by any of the following:

(a) Becoming surety, guarantor or endorser upon any obligations, contingent or otherwise, of the officer, director or corporation.

(b) Loaning funds, securities or other like assets to the officer, director or corporation.

(c) Purchasing in the open market, or otherwise, any obligation upon which the officer, director or corporation may be liable solely or jointly with others.

(2) Any contract made in violation of this section shall be void and subject to cancellation and recoupment by action at law. If a contract is made contrary to the provisions of this section, the commission, after notice and hearing, may order the public utility to take steps within 30 days to recover the funds or assets thus illegally loaned or transferred by action at law or other proceedings which will effectively release the public utility from the contract as surety, guarantor or endorser.

(3) Any director, treasurer or other officer or agent of a public utility who makes or votes to authorize a transaction in violation of this section may be fined not more than \$10,000.

(4) The provisions of this section shall extend to the renewal or extension of existing contracts.

History: 1983 a. 53; 1993 a. 496.

196.53 Franchise, foreign corporation not to have. No license, permit or franchise to own, operate, manage or control any plant or equipment for the production, transmission, delivery or furnishing of heat, light, water or power may be granted or transferred to a foreign corporation.

History: 1985 a. 297; 1993 a. 496.

196.54 Indeterminate permits. (1) GRANTS TO BE INDETERMINATE. Every license, permit or franchise granted after July 11, 1907, to any public utility shall have the effect of an indeterminate permit subject to this chapter and ch. 197.

(2) FRANCHISES MADE INDETERMINATE. Every license, permit or franchise granted prior to July 11, 1907, by the state or by a municipality authorizing and empowering the grantee to own, operate, manage or control within this state, either directly or indirectly, a public utility or any part of a public utility is altered and amended to constitute and be an indeterminate permit which is subject to this chapter and ch. 197. The license, permit or franchise shall have the same force and effect as a license, permit or franchise granted after July 11, 1907, to any public utility, except as provided under s. 197.02.

(3) VALIDATION OF FRANCHISES AND PERMITS. (a) No franchise affected by sub. (2) and no indeterminate permit shall be declared invalid if:

1. The franchise or permit was not obtained by fraud, bribery or corrupt practices.

2. When the franchise or permit was granted, no officer of the municipality granting the franchise or permit was directly or indirectly interested in the franchise or permit or in the corporation obtaining the franchise or permit.

(b) Any franchise affected by sub. (2) and any indeterminate permit is valid if:

1. The corporation having the franchise or permit, prior to surrendering of the franchise or at the beginning of its public service under the permit, in good faith has purchased or constructed any public utility, or any part of a public utility authorized by the franchise.

2. The corporation, in obtaining the franchise or permit, has substantially complied with the requirements provided by law for obtaining the franchise or permit.

(4) GRANTS AFTER JULY 11, 1907; CONSENT TO MUNICIPAL PURCHASE. If a public utility accepts or operates under any license, permit or franchise granted after July 11, 1907, the public utility shall be deemed to have consented under its indeterminate permit to a future purchase of its property actually used and useful for the convenience of the public by the municipality in which the major part of it is situated for the compensation and under the terms and conditions determined by the commission. The public utility shall be deemed to have waived the right to require that the necessity of taking be established by the verdict of a jury, and any other remedy or right relative to condemnation, except any remedy or right under this chapter and ch. 197.

(5) MUNICIPAL PURCHASE INVALIDATES PERMIT. An indeterminate permit shall be invalid if a municipality exercises its option to purchase the public utility being operated under the permit or if the permit is otherwise terminated according to law.

(6) APPLICABILITY. This section does not apply to a telecommunications utility.

History: 1981 c. 390; 1983 a. 53 ss. 69 to 73; 1983 a. 192; 1993 a. 496.

196.58 Municipality to regulate utilities; appeal.

(1) The governing body of every municipality may:

(a) Determine by contract, ordinance or resolution the quality and character of each kind of product or service to be furnished or rendered by any public utility within the municipality and all other terms and conditions, consistent with this chapter and ch. 197, upon which the public utility may be permitted to occupy the streets, highways or other public places within the municipality. The contract, ordinance or resolution shall be in force and on its face reasonable.

(b) Require of any public utility any addition or extension to its physical plant within the municipality as shall be reasonable and necessary in the interest of the public, and designate the location and nature of the addition or extension, the time within which it must be completed, and any condition under which it must be constructed, subject to review by the commission under sub. (4).

(c) Provide a penalty for noncompliance with the provisions of any ordinance or resolution adopted under this subsection.

(4) Upon complaint made by a public utility or by any qualified complainant under s. 196.26, the commission shall set a hearing and if it finds a contract, ordinance or resolution under sub. (1) to be unreasonable, the contract, ordinance or resolution shall be void.

(5) The commission shall have original and concurrent jurisdiction with municipalities to require extensions of service and to regulate service of public utilities. Nothing in this section shall limit the power of the commission to act on its own motion to require extensions of service and to regulate the service of public utilities.

(6) No public utility furnishing and selling gaseous fuel or undertaking to furnish or sell gaseous fuel in a municipality where the fuel has not been sold previously to the public shall change the character or kind of fuel by substituting for manufactured gas any

natural gas or any mixture of natural and manufactured gas for distribution and sale in any municipality, or undertake the sale of natural gas in any municipality where no gaseous fuel was previously sold, unless the governing body of the municipality, by authorization, passage or adoption of appropriate contract, ordinance or resolution, approves and authorizes the change in fuel or commencement of sale. No contract, ordinance or resolution enacted under this subsection may be inconsistent or in conflict with any certificate granted under s. 196.49.

(7) (a) If a municipality operating a water system seeks to serve consumers of an area which is part of the municipality and in the same county, but in order to serve such consumers it is necessary or economically prudent for the municipality to install mains, transmission lines, pipes or service connections through, upon or under a public street, highway, road, public thoroughfare or alley located within the boundaries of any adjacent municipality, the municipality seeking the installation may file a petition with the clerk of the legislative body of the adjacent municipality requesting approval for the installation of the mains, transmission lines, pipes or service connections. The governing body of the adjacent municipality shall act on the petition within 15 days after the petition is filed. If the governing body of the adjacent municipality fails to act within the 15-day period, the petition shall be deemed approved and the municipality may proceed with the installations required for service to its consumers. If, however, the governing body of the adjacent municipality rejects the petition, the municipality may make application to the commission for authority to install within the boundaries of the adjacent municipality the installations necessary to provide service to its consumers. The commission shall hold a hearing upon the application of the municipality. If the commission determines that it is necessary or economically prudent that the municipality seeking to serve its consumers make the installations within the boundaries of the adjacent municipality, the commission shall promptly issue an order authorizing the municipality to proceed to make the installation. In the order, the commission may establish the manner of making the installation.

(b) A municipality making an installation under this section shall restore the land on or in which such installation has been made to the same condition as it existed prior to the installation. Failure to make the restoration shall subject the municipality to an action for damages by the adjacent municipality. The adjacent municipality may require a performance bond from the municipality seeking to make the installation. If no agreement can be effected between the municipalities as to the amount of the performance bond, the commission shall determine the amount of the bond. If the commission issues an order authorizing an installation under this subsection, the commission shall determine the amount of the performance bond which shall be required of the applicant municipality.

History: 1981 c. 390; 1983 a. 53; 1995 a. 378.

196.59 Merchandising by utilities. Each public utility engaged in the production, transmission, delivery or furnishing of heat, light or power either directly or indirectly to or for the use of the public shall keep separate accounts to show any profit or loss resulting from the sale of appliances or other merchandise. The commission may not take the profit or loss into consideration in arriving at any rate to be charged for service by the public utility.

History: 1983 a. 53.

196.595 Utility advertising practices. (1) In this section:

(a) “Advertising” means:

1. Printed and published material and descriptive literature of a utility used in newspapers, magazines, radio and TV scripts, billboards and similar displays.

1m. Any material which provides information favorable to a public utility on any issue about which the utility is attempting to influence legislative or administrative action by direct oral or written communication with any elective state official, agency

official or legislative employe if the practice is regulated under subch. III of ch. 13.

2. Descriptive literature and sales aids of all kinds issued by a utility for presentation to utility consumers and other members of the public, including but not limited to any material enclosed with or added to a utility billing statement, circulars, leaflets, booklets, depictions, illustrations and form letters.

3. Prepared sales talks to the public and public informational facilities.

4. Other materials and procedures enumerated by rule of the commission which promote or provide information to the public about a public utility.

(b) "Expenditure" means any cost of advertising directly incurred by a utility and any cost of advertising incurred by contribution to parent or affiliated companies or to trade associations.

(c) "Public utility" in this section means any public utility, as defined in s. 196.01, engaged in the transmission, delivery or furnishing of natural gas by means of pipes or mains, heat, light or power. "Public utility" does not include any cooperative association organized under ch. 185.

(2) A public utility may not charge its ratepayers for any expenditure for advertising unless the advertising:

(b) Produces a demonstrated, direct and substantial benefit for ratepayers. Advertising which produces a direct and substantial benefit for ratepayers is limited to advertising which:

1. Demonstrates energy conservation methods;
2. Conveys safety information on the use of energy;
3. Demonstrates methods of reducing ratepayer costs;
4. Otherwise directly and substantially benefits ratepayers; or
5. Is required by law.

(3) The commission shall make rules to carry out the purposes of and to enforce this section.

History: 1983 a. 27, 235; 1985 a. 297; 1989 a. 338; 1993 a. 496.

196.60 Discrimination prohibited; penalty. (1) (a) Except as provided under sub. (2), no public utility and no agent, as defined in s. 196.66 (3) (a), or officer of a public utility, directly or indirectly, may charge, demand, collect or receive from any person more or less compensation for any service rendered or to be rendered by it in or affecting or relating to the production, transmission, delivery or furnishing of heat, light, water, telecommunications service or power or for any service in connection therewith, than that prescribed in the published schedules or tariffs then in force, or established under this chapter, or than it charges, demands, collects or receives from any other person for a like contemporaneous service.

(b) A public utility or an agent that violates par. (a) shall be deemed guilty of unjust discrimination and shall forfeit not less than \$100 nor more than \$5,000 for each offense. An officer who violates par. (a) shall be fined not less than \$50 nor more than \$2,500 for each offense.

(2) Nothing in this section and s. 196.604 or any other provision of law may be construed to prohibit a telecommunications utility from furnishing service to its employes, pensioners and officers, and its employes, pensioners and officers may receive such service, at no charge or at charges less than those prescribed in its published schedules or tariffs. The commission may prescribe rules under this subsection. The rules may not prohibit or restrict the furnishing of service to employes, pensioners and officers or the receiving of service by employes, pensioners and officers at no charge or charges less than those prescribed in the telecommunications utility's published schedules or tariffs. No revenue may accrue or be credited in the accounts of the telecommunications utility for service furnished and not charged under this subsection.

(3) If a public utility gives an unreasonable preference or advantage to any person or subjects any person to any unreasonable prejudice or disadvantage, the public utility shall be deemed guilty of unjust discrimination. A public utility violating this sub-

section shall forfeit not less than \$50 nor more than \$5,000 for each offense.

History: 1977 c. 418; 1983 a. 53 ss. 77, 78, 82; 1985 a. 297; 1989 a. 49.

196.604 Rebates, concessions and discriminations unlawful. No person may knowingly solicit, accept or receive any rebate, concession or discrimination from a public utility for any service in or affecting or relating to the production, transmission, delivery or furnishing of heat, light, water or power or the conveying of telecommunications messages within this state or for any connected service whereby the service is rendered or is to be rendered free or at a rate less than the rate named in the schedules and tariffs in force, or whereby any other service or advantage is received. Any person violating this section shall be fined not less than \$50 nor more than \$5,000 for each offense.

History: 1983 a. 53 s. 84; 1989 a. 49; 1995 a. 409.

196.605 Telecommunications cooperatives with federal loans. (1) A public utility which is a cooperative association incorporated under ch. 185 to furnish telecommunications service in rural areas on a nonprofit basis with a telecommunications utility financed in part through a loan from the United States under the rural electrification act of 1936, 7 USC 901 to 950aaa-5, as amended, may require each of its local service telecommunications patrons to deposit with the association the amount of the membership fee or other form of capital representing the proportional share of the total equity capital of the association required as a condition of federal financing. The membership fee or other form of equity capital attributable to each local service patron may be collected by the association in instalments in connection with billings for service. The required deposits of equity capital shall be segregated in the billing from service charges and shall be credited when received on the membership or equity capital account of the patron.

(2) The amount of the membership fee or equity capital to be so required of each local service telecommunications patron under sub. (1) may be based upon reasonable classifications of service and appropriate factors relating to the cost of rendition of the service. The amounts, classifications and manner of collecting the amounts shall be subject to the approval of the commission. The commission may promulgate rules under this subsection.

History: 1979 c. 110 s. 60 (11); 1983 a. 53; 1985 a. 297 s. 76; 1993 a. 496.

196.61 Facilities in exchange for compensation prohibited. A public utility may not demand, charge, collect or receive from any person less compensation for any service rendered or to be rendered by the public utility in return for the furnishing by that person of any part of the facilities incident to the service. This section may not be construed to prohibit any public utility from renting any facility relating to the production, transmission, delivery or furnishing of heat, light, water, telecommunications service or power and from paying a reasonable rental for the facility. This section may not be construed to require any public utility to furnish any part of any appliance which is at the premises of any consumer, except meters and appliances for measurements of any product or service, unless the commission orders otherwise.

History: 1983 a. 53; 1985 a. 297; 1993 a. 496.

196.625 Discrimination by telecommunications utilities. Except as provided in s. 196.63, a telecommunications utility shall receive and transmit without discrimination messages from and for any person upon tender or payment of the usual or customary charges therefor, whenever requested to do so, without regard to the character of the messages to be transmitted unless a court of competent jurisdiction finds the messages to be in violation of s. 944.21 (3). Any telecommunications utility or agent, as defined in s. 196.66 (3) (a), neglecting or refusing to comply with any of the provisions of this section shall forfeit not less than \$25 nor more than \$5,000 for each day of such neglect or refusal. Any director or officer of a telecommunications utility neglecting or refusing to comply with any of the provisions of this section shall

forfeit not less than \$25 nor more than \$2,500. Any employe of a telecommunications utility neglecting or refusing to comply with any of the provisions of this section shall forfeit not less than \$25 nor more than \$1,000. One-half of the forfeitures recovered under this section shall be paid to the person prosecuting under this section.

History: 1985 a. 297; 1987 a. 416; 1989 a. 49; 1991 a. 294.

Private person cannot commence forfeiture action under this section and thus forcibly join state as plaintiff. *State v. Wisconsin Telephone Co.* 91 W (2d) 702, 284 NW (2d) 41 (1979).

196.63 Telecommunications interruption in crisis situation. (1) **INTERRUPTION AUTHORITY.** If a sheriff, a police chief or a law enforcement officer designated by a sheriff or police chief to respond in a crisis situation has probable cause to believe that a person is holding a hostage or is resisting apprehension through the use or threatened use of force, the sheriff, police chief or law enforcement officer may order a telecommunications utility to interrupt or reroute telecommunications service to or from the suspected person for the duration of the crisis situation to prevent the person from communicating with anyone other than a person authorized by the sheriff, police chief or law enforcement officer.

(2) **UTILITY IMMUNITY.** A telecommunications utility may not be held liable for any action it takes under sub. (1).

History: 1991 a. 294.

196.635 Unbilled utility service. All service supplied by a public utility must be billed within 2 years of such service. No customer shall be liable for unbilled service 2 years after the date of the service unless:

(1) The utility made a reasonable effort to measure the service, but the customer did not allow the utility access to any device, including but not limited to a meter, necessary to measure service.

(2) The customer obtained the service by fraud or deception, including but not limited to theft or tampering with any device, including but not limited to a meter, necessary to measure service.

(3) The customer obtained the service by negligent interference by the customer or the customer's agent with equipment necessary to measure service and the interference causes service to go unmeasured.

History: 1977 c. 62; 1981 c. 179, 391; 1989 a. 40.

196.64 Public utilities, liability for treble damages.

(1) If a director, officer, employe or agent of a public utility, in the course of the discharge of his or her duties, wilfully, wantonly or recklessly does, causes or permits to be done any matter, act or thing prohibited or declared to be unlawful under this chapter or ch. 197, or wilfully, wantonly or recklessly fails to do any act, matter or thing required to be done under this chapter, the public utility shall be liable to the person injured thereby in treble the amount of damages sustained in consequence of the violation. No recovery as in this section provided shall affect a recovery by the state of the penalty prescribed for such violation.

(2) The burden of proof in an action under sub. (1) rests with the person injured to prove the case by clear and convincing evidence.

History: 1981 c. 390; 1983 a. 53; 1991 a. 39.

See note to 195.35, citing *Kamia v. C. & N. W. Ry. Co.* 57 W (2d) 761.

Award of treble damages does not require proof of wilful, wanton or reckless behavior; provision is constitutional. *Peissig v. Wisconsin Gas. Co.*, 155 W (2d) 686, 456 NW (2d) 348 (1990).

Principles of subrogation law prevent insurers from recovering treble damages. *Beacon Bowl v. Wis. Elec. Power Co.* 176 W (2d) 740, 501 NW (2d) 788 (1993).

196.642 Customer liability for treble damages. (1) In an action to collect the outstanding balance on a customer's account, a court may award a public utility furnishing gas or electricity 3 times the amount of that portion of the outstanding balance incurred after October 31 and before April 16 if all of the following conditions are met:

(a) The customer's payment on any portion of the outstanding balance incurred after October 31 and before April 16 is 80 or more days past due.

(b) The customer's quarterly household income exceeds 250% of the income poverty guidelines for the nonfarm population of the United States as prescribed by the federal office of management and budget under 42 USC 9902 (2) during a calendar year quarter in which any portion of the outstanding balance incurred after October 31 and before April 16 is billed.

(c) The customer exhibited an ability to pay the portion of the outstanding balance incurred after October 31 and before April 16 when billed.

(d) The public utility includes with the first billing statement for any portion of an outstanding balance incurred after October 31 and before April 16 a written notice informing the customer that a court may award the public utility 3 times the amount of that portion of the outstanding balance incurred after October 31 and before April 16 if the customer's payment on any portion of that amount is 80 or more days past due, the customer exhibited an ability to pay that amount and the customer's household income exceeds a threshold level.

(2) The finder of fact shall consider all of the following factors to determine if a customer exhibited an ability to pay:

(a) Size of the outstanding balance.

(b) Customer's payment history.

(c) Period of time the balance is past due.

(d) Customer's reasons for the outstanding balance.

(e) Customer's household size, income and expenses.

(3) The finder of fact may consider other relevant factors concerning a customer's circumstances to determine if a customer exhibited an ability to pay.

(4) Nothing in this section prevents a public utility in an action to collect the outstanding balance on a customer's account from seeking damages other than damages that meet the conditions under sub. (1), but the treble damages provision applies only to damages that meet the conditions under sub. (1).

History: 1989 a. 40.

196.643 Owner responsibility for service to rental dwelling unit. (1) **RESPONSIBLE PARTY.** When a customer terminates service to the customer's rental dwelling unit, a public utility shall make reasonable attempt to identify the party responsible for service to the rental dwelling unit after the customer's termination.

If a responsible party cannot be identified, the public utility may give the owner written notice by regular or other mail of the public utility's intent to hold the owner responsible for service to the rental dwelling unit. The owner shall not be responsible for service if the public utility does not give the notice under this subsection or if, within 15 days after the date the notice is mailed, the owner notifies the public utility of the name of the party responsible for service to the rental dwelling unit or notifies the public utility that service to the rental dwelling unit should be terminated and affirms that service termination will not endanger human health or life or cause damage to property.

(2) **JOINT METERING.** If gas, electric or water service is measured jointly for 2 or more rental dwelling units, the owner shall maintain the account for gas, electric or water service in the name of the owner or in the name of the agent responsible for the collection of rent and the management of the rental dwelling units.

History: 1989 a. 40.

196.645 Rate changes. (1) The commission, upon complaint or upon its own motion, may proceed to investigate and determine whether a public utility's rates should be changed by reason of a change in the cost of an energy, commodity or service resulting from a change in charges for the energy, commodity or service if:

(a) The rates of the public utility are based on the cost of the energy, commodity or service furnished to the public utility which the public utility furnishes or distributes to its consumers; and

(b) The charges for the energy, commodity and service are regulated by an authority of the federal government and the federal authority has prescribed the change in charges.

(2) The commission may make a change in rates under sub. (1) effective as of the effective date of the order of the federal authority prescribing the change in charges.

(3) Notwithstanding ss. 196.60 (3) and 196.604, the commission may determine and require payment by the public utility to its consumers of any sums which the public utility received from the consumers subsequent to the effective date of its order under this section and which are in excess of the rates prescribed by the commission under this section.

History: 1983 a. 53.

This section does not authorize use of excessive earnings test to determine whether refund received by utility when wholesaler's rate was lowered is to be distributed or retained. *Cities & Villages of Algoma, Etc. v. PSC*, 91 W (2d) 252, 283 NW (2d) 261 (Ct. App. 1978).

196.65 Penalties relating to information and records.

(1) An officer of a public utility shall be fined not less than \$100 nor more than \$2,500, or an agent, as defined in s. 196.66 (3) (a), shall be fined not less than \$100 nor more than \$5,000 or an employe of a public utility shall be fined not less than \$100 nor more than \$1,000 for each offense if the officer, agent or employe does any of the following:

(a) Fails or refuses to fill out and return any questionnaire required under this chapter.

(b) Fails or refuses to answer any question in any questionnaire required under this chapter.

(c) Knowingly gives a false answer to any question in any questionnaire required under this chapter.

(d) Evades the answer to any question in any questionnaire required under this chapter, if the answer is within his or her knowledge.

(e) Upon proper demand, fails or refuses to exhibit to the commission or any commissioner or any person authorized to examine it any record of the public utility which is in the possession or under the control of the officer, agent or employe.

(f) Fails to properly use and keep the system of accounting prescribed by the commission.

(g) Refuses to do any act in connection with the system of accounting prescribed by the commission when so directed by the commission or its authorized representative.

(2) A penalty of not less than \$500 nor more than \$5,000 shall be recovered from the public utility for each offense under sub. (1) if the officer, agent or employe of the public utility acted in obedience to the direction, instruction or request of the public utility or any general officer of the public utility.

(3) (a) In this subsection, "agent" means an authorized person who acts on behalf of or at the direction of a telecommunications provider. "Agent" does not include a director, officer or employe of a telecommunications provider.

(b) An officer of a telecommunications provider shall be fined not less than \$100 nor more than \$2,500, an agent of a telecommunications provider shall be fined not less than \$100 nor more than \$25,000 or an employe of a telecommunications provider shall be fined not less than \$100 nor more than \$1,000 for each offense if the officer, agent or employe does any of the following:

1. Fails or refuses to fill out and return any questionnaire required under s. 196.25 (3).

2. Fails or refuses to answer any question in any questionnaire required under s. 196.25 (3).

3. Knowingly gives a false answer to any question in any questionnaire required under s. 196.25 (3).

4. Evades the answer to any question in any questionnaire required under s. 196.25 (3).

5. Upon proper demand, fails or refuses to exhibit to the commission, or any person authorized to examine records, any record of the telecommunications provider which is in the possession or under the control of the officer, agent or employe.

(c) A telecommunications provider shall be fined not less than \$500 nor more than \$25,000 for each violation under par. (b) if the

officer, agent or employe of the telecommunications provider acted under the direction or request of the telecommunications provider or any general officer of the telecommunications provider.

(d) After notice and hearing, the commission may order a telecommunications utility to cease provision of interconnection or access services to a telecommunications provider who has violated par. (b).

History: 1977 c. 29 s. 1654 (10) (c); 1977 c. 273; 1981 c. 390; 1983 a. 53; 1989 a. 49; 1993 a. 496.

196.66 General forfeiture provisions. (1) GENERAL FORFEITURE; FAILURE TO OBEY. If any public utility violates this chapter or ch. 197 or fails or refuses to perform any duty enjoined upon it for which a penalty has not been provided, or fails, neglects or refuses to obey any lawful requirement or order of the commission or the governing body of a municipality or a sanitary commission or any judgment or decree of any court upon its application, for every violation, failure or refusal the public utility shall forfeit not less than \$25 nor more than \$5,000.

(2) EACH DAY SEPARATE OFFENSE. Every day during which any public utility or any officer, agent, as defined in sub. (3) (a), or employe of a public utility fails to comply with any order or direction of the commission or to perform any duty enjoined by this chapter or ch. 197 shall constitute a separate and distinct violation under sub. (1). If the order is suspended, stayed or enjoined, this penalty shall not accrue.

(3) CONSIDERATIONS IN SETTING FORFEITURES. (a) In this subsection, "agent" means an authorized person who acts on behalf of or at the direction of a public utility. "Agent" does not include a director, officer or employe of a public utility.

(b) A court imposing a forfeiture on a public utility or an agent, director, officer or employe of a public utility under this chapter shall consider all of the following in determining the amount of the forfeiture:

1. The appropriateness of the forfeiture to the volume of business of the public utility.

2. The gravity of the violation.

3. Any good faith attempt to achieve compliance after the public utility, agent, director, officer or employe receives notice of the violation.

(4) TREBLE MAXIMUM FORFEITURES. (a) If an act or omission causes death or a life-threatening or seriously debilitating injury, and is subject to a forfeiture proceeding under this chapter, the maximum forfeiture that may be imposed shall be trebled.

(b) If a public utility fails to comply with any rule, order or direction of the commission after actual receipt by the public utility of written notice from the commission specifying the failure, the maximum forfeiture under sub. (1) shall be \$15,000.

History: 1981 c. 390; 1983 a. 53; 1989 a. 49.

196.665 Unlawful combinations, trusts. (1) The state may take possession of any dam maintained under a permit granted under s. 31.06 or 31.08 by proceedings instituted by the commission if the dam:

(a) Is owned, leased, trustee, possessed or controlled in any manner that makes it form a part of or in any way effect an unlawful combination.

(b) Is controlled by any combination in the form of an unlawful trust.

(c) Forms the subject of any contract or conspiracy to limit the output of any hydraulic or hydroelectric power derived from the dam.

(2) In proceedings under this section, the members of the commission shall be appointed to act as receivers during a period of time to be determined by the court.

History: 1983 a. 53.

196.67 Warning signs. (1) Any person constructing, operating or maintaining an overhead electrical supply line with a volt-

age of 6,000 or more between conductors or between conductors and the ground shall place warning signs from 4 to 6 feet above the ground, upon all poles or other structures supporting the line.

(1m) If it determines that it is necessary for public safety, the commission, by order or rule, may apply sub. (1) to any person constructing, operating or maintaining an overhead electrical supply line with a voltage of 2,000 or more.

(2) The commission shall establish standards for warning signs on overhead electrical supply line poles and structures.

(3) A public utility or an agent, as defined in s. 196.66 (3) (a), violating this section shall be fined not less than \$50 nor more than \$5,000 for each offense. A director or officer of a public utility violating this section shall be fined not less than \$50 nor more than \$2,500 for each offense. An employe of a public utility violating this section shall be fined not less than \$50 nor more than \$1,000 for each offense.

History: 1979 c. 171; 1983 a. 53, 238; 1989 a. 49; 1993 a. 246.

196.675 Unlawful for carriers and public utilities to employ assistant district attorneys or judicial officers.

(1) No common carrier operating within this state and no public utility, except a municipal public utility, may retain or employ an assistant district attorney or any person holding a judicial office.

(2) If any assistant district attorney or any person holding a judicial office violates this section, the assistant district attorney's or judge's office shall be deemed vacant.

(3) This section does not apply to court commissioners.

History: 1977 c. 236; 1983 a. 53; 1987 a. 104; 1989 a. 31; 1991 a. 39.

196.68 Municipal officers, malfeasance. If any officer of a municipality which owns or operates a public utility does, causes or permits to be done any matter, act or thing prohibited or declared to be unlawful under this chapter or ch. 197 or omits, fails, neglects or refuses to perform any duty which is enjoined upon him or her and which relates directly or indirectly to the enforcement of this chapter and ch. 197, or if the officer omits, fails, neglects or refuses to obey any lawful requirement or order of the commission or any judgment or decree of a court upon its application, for every such violation, failure or refusal the officer shall forfeit not less than \$50 nor more than \$2,500.

History: 1981 c. 390; 1983 a. 53; 1989 a. 49.

196.69 Interference with commission's equipment.

(1) If any person destroys, injures or interferes with any apparatus or appliance owned, in the charge of or operated by the commission or its agent, the person shall be fined not more than \$5,000 or imprisoned for not more than 30 days or both if the person is a public utility or an agent, as defined in s. 196.66 (3) (a), fined not more than \$2,500 or imprisoned for not more than 30 days or both if the person is a director or officer of a public utility, or fined not more than \$1,000 or imprisoned for not more than 30 days or both if the person is an employe of a public utility.

(2) Any public utility permitting a violation of this section shall forfeit not more than \$5,000 for each offense.

History: 1983 a. 53; 1989 a. 49.

196.70 Temporary alteration or suspension of rates.

(1) The commission, when it deems necessary to prevent injury to the business or interests of the people or any public utility in case of any emergency to be judged of by the commission, may by order temporarily alter, amend, or with the consent of the public utility concerned, suspend any existing rates, schedules and order relating to or affecting any public utility or part of any public utility.

(2) The commission may direct an order under sub. (1) to part of a public utility or to one or more public utilities and may prescribe when the order takes effect and for how long the order shall be in effect.

History: 1983 a. 53.

Temporary and emergency rates may be appropriately and widely used by public service commission where justified by circumstances. *Friends of Earth v. Public Service Commission*, 78 W (2d) 388, 254 NW (2d) 299.

196.71 Municipal public utility contracts. If a municipality owns a public utility and if there is no other public utility furnishing the same service, the commission, after a public hearing and determination that the municipally owned public utility cannot be operated profitably, may authorize a contract between the municipality and any person not a public utility to furnish light, power or electric current to the municipality upon terms and conditions approved by the commission. The person contracting with the municipality is not a public utility solely due to the contract with the municipality.

History: 1983 a. 53.

196.72 Accidents; public utility report; investigation.

(1) (a) The commission may issue orders or rules, after hearing, requiring public utilities to record or report accidents which occur upon the public utilities' premises or which arise directly or indirectly from, or are connected with, the public utilities' maintenance or operation.

(b) Notwithstanding any statute to the contrary, any report filed with the commission under par. (a) shall be without prejudice to the person making the report and shall be for the sole information and use of the commission and its staff. Neither the report nor its content may be made available to any other person. The report may not be used as evidence in any trial, civil or criminal, arising out of the event concerning which the report is submitted.

(2) The commission shall investigate any accident under sub. (1) if the commission deems that the public interest requires it. The commission shall hold the investigation in the locality of the accident, unless it is more convenient to hold it at some other place. The commission may adjourn the investigation from place to place. The commission shall give the public utility reasonable notice of the time and place of the investigation.

History: 1983 a. 53; 1985 a. 297.

196.74 Electric lines; safety and interference. Each public utility and railroad which owns, operates, manages or controls along or across any public or private way any wires over which electricity or messages are transmitted shall construct, operate and maintain the wires and any related equipment in a manner which is reasonably adequate and safe and which does not unreasonably interfere with the service furnished by any other public utility or railroad. The commission may issue orders or rules, after hearing, requiring electric construction and operating of such wires and equipment to be safe. The commission may revise the orders or rules as may be required to promote public safety. If any interested party files a complaint with the commission indicating that public safety or adequate service requires changes in construction, location or methods of operation, the commission shall give notice to the parties in interest of the filing of the complaint. The commission shall proceed to investigate the complaint and shall order a hearing on it. After the hearing the commission shall order any change in construction or location or change of methods of operation required for public safety or to avoid service interference. The commission shall indicate in the order by whom the change shall be made. The commission shall fix the proportion of the cost and expense of the change, which shall be paid by the parties in interest. The commission shall fix reasonable terms and conditions related to the payment of the cost and expense.

History: 1983 a. 53.

196.745 Construction and operation; safety; commission orders.

(1) (a) A person who owns, operates, manages or controls any facility for the production, transmission or distribution of gas shall construct, operate and maintain the facility in a reasonably adequate and safe manner. Except as provided in par. (b), the commission may issue orders or rules, after holding a hearing, requiring the construction and operation of the facility to be safe, and may revise the orders or rules as required to promote public safety. Except as provided under par. (b), upon complaint to the commission that a facility is unsafe, the commission

may proceed under s. 196.26 or 196.28 (1). Sections 196.26 and 196.28 (1), as they apply to a public utility, apply to a person under this subsection. After holding a hearing the commission shall order any alteration in construction, maintenance or operation required in the interest of public safety.

(b) Paragraph (a) does not authorize the commission to do any of the following:

1. Issue an order or rule regarding the construction and operation of, or proceed under s. 196.26 or 196.28 (1) against, a propane gas distribution system that is not a public utility.
2. Unless specifically authorized by the federal department of transportation, proceed against an interstate pipeline company under s. 196.26 or 196.28 (1).
3. Issue an order or rule requiring prior approval for the construction of a facility for the production, transmission or distribution of gas.

(2) (a) Any person violating sub. (1) (a), or any order or rule issued under sub. (1) (a), shall forfeit an amount not exceeding \$25,000. Each day of violation is a separate violation of sub. (1) (a). No person may forfeit an amount exceeding \$500,000 for a single persisting violation of sub. (1) (a) or any order or any rule issued under sub. (1) (a).

(b) The commission may compromise any forfeiture assessed under par. (a).

(c) The commission shall consider the following in determining the amount of a forfeiture or whether a compromise is appropriate under this section:

1. The appropriateness of the forfeiture to the size of the business violating sub. (1) (a).
2. The gravity of the violation.
3. Any good faith attempt to achieve compliance after notification of the violation.

(3) The commission may seek injunctive relief for a violation of sub. (1) (a) or any order or rule issued under sub. (1) (a). The commission shall notify any person against whom the commission contemplates taking an action. The commission shall allow the person to present his or her views and shall give the person a reasonable opportunity to achieve compliance unless the person knowingly and wilfully violates sub. (1) (a) or any order or rule issued under sub. (1) (a). The failure of the commission to give notice and opportunity to comply shall not preclude the granting of appropriate relief. The circuit court for Dane county has jurisdiction under s. 196.44 (3) to enforce sub. (1) (a) and to grant injunctive relief under this section.

(4) Any person may demand a jury trial when charged with contempt of court because he or she has violated an injunction issued under sub. (3). Chapter 785 is applicable to contempt proceedings for the violation, unless ch. 785 conflicts with the right to a jury trial.

History: 1977 c. 29 s. 1656 (43); 1977 c. 273; 1979 c. 32; 1983 a. 53; 1989 a. 49; 1993 a. 142; 1995 a. 430.

196.76 Other rights of action; penalties cumulative.

This chapter and ch. 197 shall not have the effect of releasing or waiving any right of action by the state or by any person for any right, penalty or forfeiture which arises under any law of this state. All penalties and forfeitures accruing under this chapter and ch. 197 shall be cumulative. A suit for recovery of one penalty or forfeiture may not bar the recovery of any other penalty.

History: 1981 c. 390; 1983 a. 53.

196.77 Promotional rates. Except as provided in this section, nothing in this chapter prohibits a telecommunications utility from filing a tariff to make a limited offering of promotional rates. A promotional rate under this section shall take effect automatically at the time specified in the tariff but not earlier than 10 days after the date the tariff is filed with the commission unless the commission authorizes an earlier effective date or suspends the tariff within 10 days after the date on which it is filed. The commission may suspend a tariff if it believes that the tariff violates

s. 196.204, 196.209 or 196.219. If the commission suspends a tariff, it shall investigate and resolve the matter within 60 days after the date on which the tariff is suspended or the tariff shall be effective as filed.

History: 1985 a. 297; 1987 a. 403; 1993 a. 496.

196.78 Voluntary dissolution. No corporation or limited liability company owning or operating a public utility may be dissolved unless the commission consents. The commission may consent only after hearing. The commission shall give at least 30 days' notice to each municipality in which the public utility is operated and an opportunity to be heard to each municipality and to the stockholders in the corporation or members of a limited liability company.

History: 1983 a. 53; 1993 a. 112.

196.79 Reorganization subject to commission approval. (1) Except as provided in sub. (2), the reorganization of any public utility shall be subject to the supervision and control of the commission. No reorganization may take effect without the written approval of the commission. The commission may not approve any plan of reorganization unless the applicant for approval establishes that the plan of reorganization is consistent with the public interest.

(2) Subsection (1) does not apply to a telecommunications utility, except that the telecommunications utility shall provide the commission with adequate notice of the reorganization not more than 10 business days after the reorganization of the telecommunications utility. The commission shall retain continuing supervisory jurisdiction over the reorganization of the telecommunications utility, as necessary to enforce ss. 196.204 and 196.219.

History: 1977 c. 29; 1983 a. 53; 1993 a. 496.

196.795 Public utility holding companies. (1) DEFINITIONS. In this section:

(a) "Affiliated interest" has the meaning given under s. 196.52 (1).

(b) "Appliance" means any equipment used directly for cooking, drying, water tempering, space heating, space cooling or space ventilation. "Appliance" does not include equipment or devices which monitor or control the primary energy supply or source for any equipment used directly for cooking, drying, water tempering, space heating, space cooling or space ventilation.

(c) "Beneficial owner" means, with respect to a security, any person who in any way has the unconditional power to vote or receive the economic gains or losses of the security. "Beneficial owner" does not mean, with respect to a security, any person, including but not limited to any of the following, holding the security for another person:

1. The trustee of a qualified employee plan.
2. The trustee of a stock purchase plan or a dividend reinvestment plan.
3. A pledgee.
4. A nominee.
5. A broker or an agent.
6. An underwriter for the first 40 days following acquisition of securities from an issuer if the securities are held in the underwriter's own account.

(e) "Commercial building" means any building which is used primarily for carrying out any business, including but not limited to a nonprofit business, and any building which is used primarily for the manufacture or production of products, raw materials or agricultural commodities.

(f) "Company" means any partnership, corporation, joint-stock company, business trust or organized group of persons, whether incorporated or not, and any receiver, trustee or other liquidator of a partnership, association, joint-stock company, business trust or organized group of persons. "Company" does not include a municipality or other political subdivision.

(g) "Form a holding company" means any of the following:

1. As a beneficial owner, to take, hold or acquire 5% or more of the outstanding voting securities of a public utility with the unconditional power to vote those securities.

2. To exchange or convert 50% or more of the outstanding voting securities of a public utility, other than a municipality or other political subdivision, for or into the voting securities of a company organized, created, appointed or formed by or at the direction of the public utility or of a subsidiary of such company.

(h) 1. “Holding company” means any of the following:

a. Any company which, in any chain of successive ownership, directly or indirectly as a beneficial owner, owns, controls or holds 5% or more of the outstanding voting securities of a public utility, with the unconditional power to vote such securities.

b. Any person which the commission determines, after investigation and hearing, directly or indirectly, exercises, alone or under an arrangement or understanding with one or more persons, such a controlling interest over the management or policies of a public utility as to make it necessary or appropriate in the public interest or for the protection of the utility’s consumers or investors that such person be subject to this section.

2. “Holding company”, except for purposes of s. 196.795 (11) (b), does not mean any company which owns, operates, manages or controls a telecommunications utility, unless such company also owns, operates, manages or controls a public utility which is not a telecommunications utility.

(i) “Holding company system” means a holding company and any public utility with which the holding company is an affiliated interest and any company which is an affiliated interest with such public utility and any other company more than 5% of whose ownership interest is owned directly or indirectly in any chain of successive ownership by such public utility or by such company which is an affiliated interest with such public utility.

(j) “Nonutility affiliate” means a company in a holding company system which is not a public utility.

(k) “Person” means an individual or company.

(L) “Public utility affiliate” means a company which is in a holding company system and which is a public utility.

(Lm) “Public utility affiliate employee” means any individual who is in the regular employ of a public utility affiliate, except any officer or director and any officer’s or director’s incidental supporting staff and except such personnel as is required by the public utility affiliate’s organizational structure to perform such functions as accounting consolidation.

(m) “Sell at retail” means to sell an appliance to a person who is the consumer or user of the appliance.

(o) “Subsidiary” has the meaning given under s. 180.1130 (12).

(2) HOLDING COMPANY FORMATION. (a) No person may form a holding company unless the person has received a certificate of approval from the commission under this subsection.

(b) An application for a certificate of approval to form a holding company is complete if it contains all of the following information:

1. The names and corporate relationships of all companies which will be in the holding company system with the applicant when the applicant forms the holding company and the name of the applicant and any parent or subsidiary corporation of the applicant.

2. A description of how the applicant plans to form the holding company including, if available at the time of application:

a. Copies of the organizational documents associated with the holding company formation, including articles of incorporation or amendments to the articles of incorporation of all companies which will be in the holding company system with the applicant when the applicant forms the holding company.

b. Copies of any filings, including securities filings, related to the formation of the holding company made with any agency of this state or the federal government.

3. The costs and fees attributable to the formation of the holding company.

4. The method by which management, personnel, property, income, losses, costs and expenses will be allocated within the holding company system between public utility affiliates and non-utility affiliates.

5. A copy of any proposed agreement between a public utility affiliate and any person with which it will be an affiliated interest at the time the holding company is formed.

6. An identification of all public utility assets or information in existence at the time of formation of the holding company, such as customer lists, which the applicant plans to transfer to or permit a nonutility affiliate, with which it is in the holding company system, to use. The identification shall include a description of the proposed terms and conditions under which the assets or information will be transferred or used.

7. A copy of a financial forecast showing the capital requirements of every public utility affiliate which at the time of the formation of the holding company will be within the holding company system. The financial forecast shall include for each public utility affiliate on an annual basis for 10 years following the year of application:

a. Projected capital requirements.

b. Sources of capital.

c. An itemization of major capital expenditures.

d. Projected capital structure.

e. An estimated amount of retained earnings available for nonutility purposes.

f. The assumptions underlying the information included in the financial forecast under subd. 7. a. to e.

(c) No later than 30 days after the commission receives an application for a certificate of approval to form a holding company under this subsection, the commission shall determine whether such application is complete as specified under par. (b). If the commission determines that the application is complete, the commission shall docket the application for a determination under this paragraph. If the commission determines the application to be incomplete, the commission shall notify the applicant in writing of its determination, identify any part of the application which the commission has determined to be incomplete and state the reasons for such determination. An applicant may supplement and refile an application which the commission has determined to be incomplete under this paragraph. There is no limit on the number of times an applicant may refile an application under this paragraph prior to a determination under par. (e). If the commission fails to make a determination regarding the completeness of an application within 30 days after the application has been filed, the application shall be deemed to be complete.

(d) The commission shall hold a hearing concerning an application for a certificate of approval to form a holding company under this subsection. The hearing may not be a hearing under s. 227.42 or 227.44.

(e) No later than 120 days after an application has been docketed under par. (c), the commission shall issue its findings of fact, conclusions of law and special order approving or rejecting the application. The commission shall issue a certificate of approval to form a holding company unless it finds that the formation of the holding company would materially harm the interests of utility consumers or investors. The commission, in issuing a certificate of approval under this subsection, may only impose terms, limitations or conditions on such approval which are consistent with and necessary to satisfy the requirements of sub. (5) (b) to (s).

(f) At any time subsequent to the time the commission approves the formation of a holding company under par. (e), the commission may, after notice and opportunity for hearing, modify any term, limitation or condition imposed under par. (e) or add any limitation, term or condition under par. (e). Any term, limitation or condition modified or added under this paragraph shall be con-

sistent with and necessary to satisfy the requirements of sub. (5) (b) to (s).

(3) TAKEOVERS. No person may take, hold or acquire, directly or indirectly, more than 10% of the outstanding voting securities of a holding company, with the unconditional power to vote those securities, unless the commission has determined, after investigation and an opportunity for hearing, that the taking, holding or acquiring is in the best interests of utility consumers, investors and the public. This subsection does not apply to the taking, holding or acquiring of the voting securities of any holding company existing before November 28, 1985, if such holding company is a company which provides public utility service.

(4) CAPITAL IMPAIRMENT. If the commission finds that the capital of any public utility affiliate will be impaired by the payment of a dividend, the commission may, after an investigation and opportunity for hearing, order the public utility affiliate to limit or cease the payment of dividends to the holding company until the potential for impairment is eliminated.

(5) REGULATION OF HOLDING COMPANY SYSTEMS. (a) No holding company which is not a public utility and no nonutility affiliate is subject to any regulatory power of the commission except under this section, ss. 196.52, 196.525 and 196.84 and except under ch. 184 if the commission has made a determination under sub. (7) (a) which makes such holding company a public service corporation, as defined under s. 184.01 (2).

(b) The commission has full access to any book, record, document or other information relating to a holding company system to the extent that such information is relevant to the performance of the commission's duties under ch. 184, this chapter or any other statute applicable to the public utility affiliate. The commission may require a holding company to keep any record or document which is necessary for the commission to perform its duties under this section and which is consistent with generally accepted accounting and record-keeping practices of the particular type of business involved. Any information obtained under this paragraph is subject to sub. (9), when applicable.

(c) No public utility affiliate may lend money to any holding company which is not a public utility or to any nonutility affiliate with which it is in the holding company system.

(d) No public utility affiliate may guarantee the obligations of any nonutility affiliate with which it is in a holding company system.

(dm) No public utility affiliate may provide utility service to any consumer of such public utility service or to any nonutility affiliate with which the public utility affiliate is in a holding company system except on the same terms or conditions that it provides such utility service to consumers in the same class.

(dr) No public utility affiliate may provide any nonutility product or service in a manner or at a price that unfairly discriminates against any competing provider of the product or service.

(f) No nonutility activity of any holding company or nonutility affiliate may be subsidized materially by the consumers of any public utility affiliate with which the holding company or nonutility affiliate is in the holding company system. No public utility activity of any holding company or public utility affiliate may be subsidized materially by the nonutility activities of the holding company or any of its nonutility affiliates.

(g) No holding company system may be operated in any way which materially impairs the credit, ability to acquire capital on reasonable terms or ability to provide safe, reasonable, reliable and adequate utility service of any public utility affiliate in the holding company system.

(h) No public utility affiliate may transfer to any company with which it is in a holding company any confidential public utility information, including but not limited to customer lists, which will be transferred or used for any nonutility purpose by any holding company or nonutility affiliate unless the public utility affiliate has applied for and received the written approval of the commission for the transfer. The commission shall condition approval

of such a transfer upon the applicant's providing adequate notice of the availability of such information to the public and making the information available to any person at a cost not to exceed the cost of reproduction. The commission may not approve any transfer which would foster unfair or discriminatory business practices, or which would destroy or hamper competition through conduct which violates ch. 133 or any other applicable state or federal anti-trust law.

(i) In its determination of any rate change proposed by a public utility affiliate under s. 196.20, the commission:

1. Shall consider the public utility affiliate as a wholly independent corporation;

2. May not attribute to that public utility affiliate any tax benefit or other benefit or tax liability or other liability resulting from the operations of the holding company or of any subsidiary of the holding company; and

3. May not attribute to the holding company or to any subsidiary of the holding company any tax benefit or other benefit or tax liability or other liability resulting from the operations of that public utility affiliate.

(j) Every public utility affiliate is subject to every law, regulation and precedent applicable to the regulation of public utilities.

(k) 1. Except as provided under subd. 2., no public utility affiliate may transfer, sell or lease to any nonutility affiliate with which it is in a holding company system any real property which, on or after November 28, 1985, is held or used for provision of utility service except by public sale or offering to the highest qualified bidder.

2. A public utility affiliate may lease or rent office space to a holding company or any nonutility affiliate with which it is in a holding company system at not less than fair market value. A public utility affiliate may transfer real property which is contiguous to and used by the public utility affiliate for providing public access to a federally licensed hydroelectric project to a nonutility affiliate.

(L) Any holding company which is incorporated shall be incorporated under ch. 180.

(m) 1. No holding company system may take any action to terminate its interest in a public utility affiliate without notice to and approval of the commission. If the commission grants approval, it may impose conditions with respect to the division and allocation of plant, equipment, resources and any other asset necessary to protect the interests of utility consumers and investors and the public.

2. If a holding company system terminates its interest under subd. 1. in all public utility affiliates with which it is in a holding company system, no company remaining in the holding company system is subject to any regulatory power of the commission.

(n) A public utility affiliate may not engage in any combined advertising, directly or indirectly, with any nonutility affiliate with which it is in a holding company system within this state except for purposes of corporate identification and noncompetitive purposes.

(o) The assets of every company in a holding company system shall be as recorded on the books of accounting record of the company, net of any applicable valuation accounts, including but not limited to accumulated depreciation and allowance for uncollectible accounts, as of the end of the prior year.

(p) 1. The sum of the assets of all nonutility affiliates in a holding company system of any holding company formed on or after November 28, 1985, may not exceed the sum of the following:

a. Twenty-five percent of the assets of all public utility affiliates in the holding company system engaged in the generation, transmission or distribution of electric power.

b. A percentage of the assets, as determined by the commission, which may be more, but may not be less, than 25% of all public utility affiliates in the holding company system engaged in pro-

viding utility service other than the generation, transmission or distribution of electric power.

c. For any public utility affiliate which is in the holding company system and which engages in the provision of more than one type of utility service, a percentage of assets equal to the amount of the public utility affiliate's assets devoted to public utility service, other than the generation, transmission and distribution of electric power, multiplied by a percentage, as determined by the commission, which may be more, but may not be less, than 25%, plus 25% of all remaining assets of such public utility affiliate.

2. For purposes of subd. 1., the assets of each nonutility affiliate shall be determined by doing all of the following:

a. Subtracting from the nonutility affiliate's total assets the amount of the nonutility affiliate's investment in other utility and nonutility affiliates with which the nonutility affiliate is in a holding company system.

b. Multiplying the amount derived under subd. 2. a. by the quotient of the amount of the direct ownership interest in such nonutility affiliate owned by persons who are not with the nonutility affiliate in the holding company system, if such ownership by such persons is greater than one-half of the total ownership interest in such nonutility affiliate, divided by the total ownership interest in such nonutility affiliate.

c. Subtracting the amount derived under subd. 2. b. from the amount derived under subd. 2. a.

3. Within 36 months after it is formed, a holding company formed on or after November 28, 1985, may not have nonutility affiliate assets exceeding 40% of the maximum amount allowed under subd. 1.

4. If the commission establishes a percentage of assets under subd. 1. b. or c. which is greater than 25%, any subsequent reduction of such percentage by the commission may not take effect until the last day of the 12th month following issuance of the order establishing the reduction or until a later date which the commission sets and which the commission determines to be reasonable after considering the size of the reduction and which is no later than 36 months following issuance of the order establishing the reduction.

(q) 1. No nonutility affiliate or joint venture or partnership with a nonutility affiliate as a member or partner may, in the service territory of a public utility affiliate with which it is in a holding company system, sell at retail, lease, install, maintain or service any appliance that uses as its primary energy source energy supplied by that public utility affiliate under rates and tariffs approved by the commission, if the appliance is, or is intended to be, located in any building used primarily for residential occupancy or in any commercial building unless the building is owned or operated by the holding company or by its nonutility affiliates or unless the commission determines, after notice and hearing, that the selling at retail, leasing, installing, maintaining or servicing of the appliance will not do any of the following:

a. So as to violate ch. 133 or any other applicable state or federal antitrust law, lessen competition or tend to create a monopoly, restrain trade or constitute an unfair business practice.

b. Make use of any customer list, other confidential information, logo or trademark obtained from a public utility affiliate in a manner unfair to competitors.

2. Except as provided under subd. 3., no public utility affiliate or its subsidiary or joint venture or partnership having a utility affiliate or its subsidiary as a member or partner may, in the service territory of the public utility affiliate, sell at retail, lease, install, maintain or service any appliance that uses as its primary energy source energy supplied by that public utility affiliate under rates and tariffs approved by the commission, unless the appliance is located in facilities owned or operated by that public utility affiliate or its subsidiary or unless the appliance is sold, leased, installed, maintained or serviced:

a. In response to circumstances which reasonably appear to the public utility affiliate or its subsidiary to endanger human health or life or property;

b. Under any appliance sale or service plan or program in effect on March 1, 1985; or

c. Under any energy conservation or other program which a state law, state agency, federal law or federal agency requires the public utility or public utility affiliate to perform.

3. Notwithstanding subd. 2., a public utility affiliate or its subsidiary may sell, lease, install, maintain or service an appliance which is in its public utility service territory and which uses as its primary energy source energy supplied by the public utility affiliate under rates and tariffs approved by the commission if:

a. The installation, maintenance or service of the appliance is performed by an independent contractor which is not in the holding company system of the public utility affiliate and which is regularly engaged in, qualified and, if required by any state or local governmental unit, licensed to perform heating, ventilation, air conditioning, electrical or plumbing work; or

b. The commission determines, after notice and hearing, that the sale, lease, installation, maintenance or service of the appliance, if conducted by the public utility affiliate's employees or by the employees of the public utility affiliate's subsidiary, will not, so as to violate ch. 133 or any other applicable state or federal antitrust law, lessen competition, tend to create a monopoly, restrain trade or constitute an unfair business practice.

4. No nonutility affiliate may sell at wholesale to any person any appliance, except a swimming pool or spa heater, for delivery in this state unless the nonutility affiliate is engaged in the production, manufacture, fabrication or assembly of any component part of the appliance.

(r) No public utility affiliate may permit the use of any public utility affiliate employee's services by any nonutility affiliate with which it is in a holding company system except by contract or arrangement. Any such contract or arrangement made or entered into on or after November 28, 1985, for the use of any public utility affiliate employee's services by a nonutility affiliate shall have prior written approval of the commission before it is effective. The commission shall approve such contract or arrangement if it is established upon investigation that the nonutility affiliate will compensate the public utility affiliate for the use of the employee's services at the fair market value of the employee's service and that the nonutility affiliate's use of the employee's services will not result in unjust discrimination against, or have an anticompetitive impact on, any competitor of the nonutility affiliate. The commission may not approve any such contract or arrangement if it determines that the potential burden of administering such contract or arrangement is greater than the potential benefits to the public utility affiliate's customers or if it determines that the public utility affiliate has not minimized the use of such employees by nonutility affiliates in the holding company system. Any contract or arrangement in effect on November 28, 1985, for the continued or future use of any public utility affiliate employee's services by a nonutility affiliate approved under s. 196.52 shall be resubmitted for approval by the commission under this paragraph within 90 days after November 28, 1985. Such contract or arrangement, if approved by the commission, shall take effect within 60 days after the date of approval.

(s) In this paragraph, "property" means any equipment, facilities, property or other nonmonetary item of value except real property and utility service which is provided by the public utility affiliate on the same terms or conditions to all consumers in the same class. No public utility affiliate may sell, lease, transfer to or exchange with any nonutility affiliate with which it is in a holding company system any property except by contract or arrangement. Any such contract or arrangement made or entered into on or after November 28, 1985, for the sale, use, transfer or exchange of any public utility affiliate's property by a nonutility affiliate shall have

the prior written approval of the commission before it is effective. The commission shall approve such contract or arrangement if it is established upon investigation that the nonutility affiliate will compensate the public utility affiliate for selling, leasing, transferring to or exchanging with the nonutility affiliate any property at the fair market value of the property and that the nonutility affiliate's acquisition or lease of the property will not result in unjust discrimination against, or have an anticompetitive impact on, any competitor of the nonutility affiliate. The commission may not approve any such contract or arrangement if it determines that the potential burden of administering such contract or arrangement is greater than the potential benefits to the public utility affiliate's customers or if it determines that the public utility affiliate has not minimized selling, leasing, transferring to or exchanging with nonutility affiliates in the holding company system such property. Any contract or arrangement which is in effect on November 28, 1985, for a public utility affiliate to sell, lease, transfer to or exchange with a nonutility affiliate, on a continuing basis or in the future, the public utility affiliate's property and which is approved under s. 196.52 shall be resubmitted for approval by the commission under this paragraph within 90 days after November 28, 1985. Such contract or arrangement, if approved by the commission, shall take effect within 60 days after approval.

(6) REPORTING REQUIREMENTS. No more than 10 business days after a holding company forms, organizes or acquires a nonutility affiliate, the holding company shall notify the commission of the formation, organization or acquisition and shall provide the commission with the following information:

(a) The name, identification of officers and corporate relationship of the nonutility affiliate to the holding company and utility affiliate.

(b) A copy of any proposed agreement or arrangement between the nonutility affiliate and the public utility affiliate.

(c) A brief description of the nature of the business of the nonutility affiliate, including its most recent public annual financial statement.

(d) As of the last day of the calendar year immediately preceding the date of the notification under this subsection, the total amount of assets held by the nonutility affiliate, the amount of such assets located within this state, the total number of employees and the total number of employees located in this state. The holding company shall report the information required under this paragraph to the commission annually no later than March 31. The information shall be available to the public upon filing.

(7) COMMISSION INVESTIGATIONS. (a) No sooner than the first day of the 36th month after the formation of a holding company and at least once every 3 years thereafter, the commission shall investigate the impact of the operation of every holding company system formed on or after November 28, 1985, on every public utility affiliate in the holding company system and shall determine whether each nonutility affiliate does, or can reasonably be expected to do, at least one of the following:

1. Substantially retain, substantially attract or substantially promote business activity or employment or provide capital to businesses being formed or operating within the wholesale or retail service territory, within or outside this state, of:

a. Any public utility affiliate.

b. Any public utility or member of a cooperative association organized under ch. 185 which files or has filed a plan under s. 196.491 (2).

2. Increase or promote energy conservation or develop, produce or sell renewable energy products or equipment.

3. Conduct a business that is functionally related to the provision of utility service or to the development or acquisition of energy resources.

4. Develop or operate commercial or industrial parks in the wholesale or retail service territory of any public utility affiliate.

(am) Funds utilized by a nonutility affiliate for any of the following may not be considered by the commission in making any determination under par. (a):

1. The purchase or sale of securities or other appropriate cash management practices.

2. The establishment and maintenance of cash accounts in banks or other financial institutions.

(ar) Three years after the formation of a holding company under this section, the commission shall report its findings under par. (a) to the chief clerk of each house of the legislature, for distribution to the legislature under s. 13.172 (2). Thereafter the commission shall, based on its existing investigative findings, rate reviews and other relevant information, submit to the chief clerk of each house of the legislature, for distribution to the legislature under s. 13.172 (2), a report on the impact of the holding company, including the benefits and adverse effects on every public utility affiliate in the holding company system and on the investors and consumers of such public utility affiliates, at least once every 2 years. The report shall include any recommendations for legislation relating to the regulation of any part of a holding company system.

(b) The commission, on its own motion, or, at its discretion, upon the complaint of any person, may, after reasonable notice and an opportunity for hearing, conduct an investigation to determine if any practice of a holding company system violates any provision of sub. (5) (b) to (s) or any limitation, term or condition imposed under sub. (2) (e) or (f). If the commission finds after investigation, notice and opportunity for hearing that any practice of any company in a holding company system violates any provision of sub. (5) (b) to (s) or any term, limitation or condition imposed under sub. (2) (e) or (f), the commission, by order or otherwise, shall direct the company to modify or cease the practice. Such order is reviewable under ch. 227. The circuit court of Dane county, by appropriate process including the issuance of a preliminary injunction by suit of the commission, may enforce an order to cease or modify a practice under this paragraph.

(c) The commission, after investigation and a hearing, may order a holding company to terminate its interest in a public utility affiliate on terms adequate to protect the interests of utility investors and consumers and the public, if the commission finds that, based upon clear and convincing evidence, termination of the interest is necessary to protect the interests of utility investors in a financially healthy utility and consumers in reasonably adequate utility service at a just and reasonable price. The circuit court of Dane county may enforce by appropriate process an order establishing a plan of reorganization to terminate a holding company system's interest in a public utility affiliate. Any such order of the commission issued under this paragraph may be reviewed under ch. 227.

(8) EXEMPTIONS. (a) This section does not apply to any holding company which was organized or created before November 28, 1985, and which was not organized or created by or at the direction of a public utility.

(b) This section does not apply to any telecommunications utility.

(9) PROTECTION OF BUSINESS INFORMATION. If the commission obtains business information from a holding company system which, if disclosed to the public, would put any nonutility affiliate in the holding company system at a material competitive disadvantage, the information is not subject to s. 19.35 and the commission shall protect such information from public disclosure as if it were a trade secret as defined in s. 134.90 (1) (c).

(9m) PRIVATE CAUSE OF ACTION. Any company in a holding company system which does, causes or permits to be done any prohibited action under sub. (5) (c) to (dr), (f), (h), (k), (n), (q), (r) or (s), or fails to comply with any term, limitation or condition imposed under sub. (2) (e) or (f) consistent with sub. (5) (c) to (dr), (f), (h), (k), (n), (q), (r) or (s), is liable to any person injured thereby

in treble the amount of damages sustained in consequence of the prohibited action or failure to act.

(10) COMMISSION INTERVENOR AUTHORITY. The commission may intervene on behalf of this state in any proceeding before any state or federal agency or court before which an application or issue related to this section is pending. The commission may enter into any binding settlement related to any proceeding in which the commission has intervened and may exercise any power or right necessary to accomplish the intervention.

(10m) SMALL BUSINESS PROTECTION. In this subsection, “small business” means a business which has had less than \$5,000,000 in gross annual sales in the most recent calendar year or fiscal year and which has less than 150 employees. The commission shall provide assistance, monitoring and advocacy in protecting small business interests under s. 196.795 in any action or proceedings before the commission.

(11) CONSTRUCTION. (a) This section may not be deemed to diminish the commission’s control and regulation over the operations and assets of any public utility.

(b) This section shall be deemed to legalize and confirm the formation, prior to November 28, 1985, of any holding company, which is not itself a public utility, and shall be deemed to legalize and confirm the operations and issuances of securities of the holding company, except that nothing in this section shall be deemed to prevent the commission from imposing reasonable terms, limitations or conditions on any holding company which are consistent with and necessary to satisfy the requirements of sub. (5) (b) to (o) and (q) to (s) or which relate to future investments by the holding company unless the holding company owns, operates, manages or controls a telecommunications utility and does not also own, operate, manage or control a public utility which is not a telecommunications utility.

History: 1985 a. 79; 1985 a. 297 ss. 67, 68, 76; 1985 a. 332; 1987 a. 186; 1987 a. 403 s. 256; 1989 a. 303; 1991 a. 269; 1993 a. 213.

NOTE: This section was created by 1985 Act 79. Section 1 of that Act is entitled “Findings and purpose.”

196.80 Consolidation or merger of utilities. (1g) In this section, “public utility” does not include a telecommunications utility.

(1m) With the consent and approval of the commission but not otherwise a public utility may:

(a) Merge or consolidate with one or more other public utilities.

(b) Acquire the stock of any other public utility or any part thereof.

(d) Consolidate or merge with any Wisconsin corporation if substantially all of the assets of the corporation consist of the entire stock of the public utility. The total of the resulting securities outstanding of the possessor corporation which have not been authorized previously under ch. 184 shall require authorization under ch. 184 as a condition precedent to the merger or consolidation.

(e) Sell, acquire, lease or rent any public utility plant or property constituting an operating unit or system.

(2) Nothing in this section shall be construed to affect or limit the operation of ss. 197.01 to 197.10 or of ss. 66.06 to 66.078.

(3) The interested public utility shall make an application for the approval and consent of the commission under this section. The application shall contain a concise statement of the proposed action, the reasons for the action and any other information required by the commission. If an application is filed, the commission shall investigate the application. The investigation may be with or without public hearing. If the commission conducts a public hearing, the hearing shall be upon such notice as the commission may require. If the commission finds that the proposed action is consistent with the public interest, it shall give its consent and approval in writing. In reaching its determination the commission shall take into consideration the reasonable value of the property and assets of the corporation to be acquired or merged.

(5) Any transaction required under this section to be submitted to the commission for its consent and approval shall be void unless the commission gives its consent and approval to the transaction in writing.

(6) Nothing in this section may be construed to limit any authority conferred by statute upon the commission before June 27, 1935.

History: 1977 c. 29; 1983 a. 53; 1993 a. 496.

196.805 Consolidation or merger of telecommunications utilities. (1) NOTICE. A telecommunications utility shall provide the commission with adequate notice of any consolidation, merger or acquisition listed in sub. (2) not more than 10 business days after the completion of the consolidation, merger or acquisition. The commission shall retain continuing supervisory jurisdiction over the telecommunications utility, as necessary to enforce ss. 196.204 and 196.219.

(2) APPLICABILITY. This section applies to any of the following actions of a telecommunications utility:

(a) Merger or consolidation with one or more other public utilities.

(b) Acquisition of 5% or more of the stock of any other public utility.

(c) Consolidation or merger with any Wisconsin corporation if substantially all of the assets of the corporation consist of the entire stock of the public utility.

(d) Sale, acquisition, lease or rental of any telecommunications utility plant or property constituting an operating unit or system.

(e) Acquisition of the majority of the stock of a telecommunications utility by other than a public utility.

History: 1993 a. 496.

196.81 Abandonment; commission approval required. (1) No public utility may abandon or discontinue any line or extension or service thereon without first securing the approval of the commission. In granting its approval, the commission may impose any term, condition or requirement it deems necessary to protect the public interest. If a public utility abandons or discontinues a line or extension or service thereon upon receiving commission approval, the public utility shall be deemed to have waived any objection to any term, condition or requirement imposed by the commission in granting the approval.

(2) The commission may not approve a request by an electric or telecommunications utility to abandon a right-of-way, unless the commission requires the public utility to remove any pole at ground level from the right-of-way and any other structure which extends more than 3 feet above ground level and which belongs to the utility at the time of abandonment. If the commission approves a request under this section it shall require any part of the abandoned right-of-way which is in a rural area and which was obtained by the utility by condemnation to be disposed of by the utility within 3 years from the date of approval. The commission may rescind the disposal requirement if the utility applies for rescission within 6 months prior to the end of the 3-year period and if the commission finds that the requirement would subject the utility to undue hardship.

(3) This section does not apply to a service discontinuance by a telecommunications utility.

History: 1973 c. 157; 1977 c. 29, 203, 418; 1983 a. 53; 1985 a. 297; 1993 a. 496.

196.84 Commission’s holding company and nonutility affiliate regulation costs. Under rules promulgated by the commission, a holding company, as defined in s. 196.795 (1) (h) or a nonutility affiliate, as defined under s. 196.795 (1) (j), shall compensate the commission for the cost of any increase in regulation of any public utility affiliate, as defined under s. 196.795 (1) (L), which is with the holding company or nonutility affiliate in a holding company system as defined in s. 196.795 (1) (i), if the commission determines that the increase is reasonably required in order for the commission to implement and enforce s. 196.795. Such compensation may not be recovered directly or indirectly

from any public utility affiliate. The commission shall assess such compensation using the procedure prescribed in s. 196.85, except that no advance payment of a remainder assessment under s. 196.85 (2) may be required for the first 2 fiscal years after November 28, 1985. No assessment may be made under this section against any holding company or nonutility affiliate for any time worked by any person under s. 196.795 (10m) if the time is properly assessable for utility regulation under s. 196.85. For the purpose of calculating cost increases under this section, 90% of the cost increases determined shall be costs of the commission and 10% of the cost increases determined shall be costs of state government operations.

History: 1985 a. 79; 1991 a. 269.

196.85 Payment of commission's expenditures by utilities. (1) If the commission in a proceeding upon its own motion, on complaint, or upon an application to it deems it necessary in order to carry out the duties imposed upon it by law to investigate the books, accounts, practices and activities of, or make appraisals of the property of any public utility, power district or sewerage system or to render any engineering or accounting services to any public utility, power district or sewerage system, the public utility, power district or sewerage system shall pay the expenses attributable to the investigation, including the cost of litigation, appraisal or service. The commission shall mail a bill for the expenses to the public utility, power district or sewerage system either at the conclusion of the investigation, appraisal or services, or during its progress. The bill constitutes notice of the assessment and demand of payment. The public utility, power district or sewerage system shall, within 30 days after the mailing of the bill pay to the commission the amount of the special expense for which it is billed. Ninety percent of the payment shall be credited to the appropriation account under s. 20.155 (1) (g). The total amount in any one calendar year for which any public utility, power district or sewerage system is liable, by reason of costs incurred by the commission within the calendar year, including charges under s. 184.10 (3), may not exceed four-fifths of one percent of its gross operating revenues derived from intrastate operations in the last preceding calendar year. Nothing in this subsection shall prevent the commission from rendering bills in one calendar year for costs incurred within a previous year. For the purpose of calculating the costs of investigations, appraisals and other services under this subsection, 90% of the costs determined shall be costs of the commission and 10% of the costs determined shall be costs of state government operations.

(1m) For the purpose of direct assessment under sub. (1) of expenses incurred by the commission in connection with its activities under s. 196.491, the term "public utility" includes electric utilities as defined in s. 196.491 (1) (d).

(2) The commission shall annually, within 90 days of the commencement of each fiscal year, calculate the total of its expenditures during the prior fiscal year which are reasonably attributable to the performance of its duties relating to public utilities, sewerage systems and power districts under this chapter and chs. 66, 184 and 198 and expenditures of the state for state government operations to support the performance of such duties. For purposes of such calculation, 90% of the expenditures so determined shall be expenditures of the commission and 10% of the expenditures so determined shall be expenditures for state government operations. The commission shall deduct from this total all amounts chargeable to public utilities, sewerage systems and power districts under sub. (1) and s. 184.10 (3). The commission shall assess a sum equal to the remainder plus 10% of the remainder to the public utilities and power districts in proportion to their respective gross operating revenues during the last calendar year, derived from intrastate operations. If, at the time of payment, the prior year's expenditures made under this section exceeded the payment made under this section in the prior year, the commission shall charge the remainder to the public utilities and power districts in proportion to their gross operating revenues during the last calendar year. If, at the time of payment it is determined that

the prior year's expenditures made under this section were less than the payment made under this section in the prior year, the commission shall credit the difference to the current year's payment. The assessment shall be paid within 30 days after the bill has been mailed to the public utilities and power districts. The bill constitutes notice of the assessment and demand of payment. Ninety percent of the payment shall be credited to the appropriation account under s. 20.155 (1) (g).

(2m) Annually, the commission shall assess telecommunications utilities for the cost of one attorney position in the department of justice to provide services relating to telecommunications matters and for the cost of supplies, services and equipment related to that position. The amounts received under this subsection shall be credited to the appropriation under s. 20.455 (1) (kt). This subsection does not apply after June 30, 1999.

(3) If any public utility, sewerage system or power district is billed under sub. (1) or (2) and fails to pay the bill within 30 days or fails to file objections to the bill with the commission, as provided in this subsection, the commission shall transmit to the state treasurer a certified copy of the bill, together with notice of failure to pay the bill, and on the same day the commission shall mail by registered mail to the public utility, sewerage system or power district a copy of the notice which it has transmitted to the state treasurer. Within 10 days after the receipt of notice and certified copy of the bill the state treasurer shall levy the amount stated on the bill to be due, with interest, by distress and sale of any property, including stocks, securities, bank accounts, evidences of debt, and accounts receivable belonging to the delinquent public utility, sewerage system or power district. The levy by distress and sale shall be governed by s. 74.10, 1985 stats., except that it shall be made by the state treasurer and that goods and chattels anywhere within the state may be levied upon.

(4) (a) Within 30 days after the date of the mailing of any bill under subs. (1) and (2) the public utility, sewerage system or power district that has been billed may file with the commission objections setting out in detail the grounds upon which the objector regards the bill to be excessive, erroneous, unlawful or invalid. The commission, after notice to the objector, shall hold a hearing upon the objections, from 5 to 10 days after providing the notice. If after the hearing the commission finds any part of the bill to be excessive, erroneous, unlawful or invalid it shall record its findings upon its minutes and transmit to the objector by registered mail an amended bill, in accordance with the findings. The amended bill shall have the same force and effect under this section as an original bill rendered under subs. (1) and (2).

(b) If after such hearing the commission finds the entire bill unlawful or invalid it shall notify the objector by registered mail of such determination, in which case said original bill shall be deemed null and void.

(c) If after such hearing the commission finds that the bill as rendered is neither excessive, erroneous, unlawful or invalid either in whole or in part it shall record such findings upon its minutes, and transmit to the objector by registered mail notice of such finding.

(d) If any bill against which objections have been filed shall not be paid within ten days after notice of a finding that such objections have been overruled and disallowed by the commission has been mailed to the objector as herein provided, the commission shall give notice of such delinquency to the state treasurer and to the objector, in the manner provided in sub. (3). The state treasurer shall then proceed to collect the amount of said bill as provided in sub. (3). If an amended bill is not paid within ten days after a copy thereof is mailed to the objector by registered mail, the commission shall notify the state treasurer and the objector as in the case of delinquency in the payment of an original bill. The state treasurer shall then proceed to collect the amount of said bill as provided in the case of an original bill.

(5) No suit or proceeding may be maintained in any court to restrain or delay the collection or payment of any bill rendered under subs. (1) and (2). Every public utility, sewerage system or

power district that is billed shall pay the amount of the bill, and after payment may in the manner provided under this section, at any time within 2 years from the date the payment was made, sue the state to recover the amount paid plus interest from the date of payment, upon the ground that the assessment was excessive, erroneous, unlawful or invalid in whole or in part. If the court finds that any part of the bill for which payment was made was excessive, erroneous, unlawful or invalid, the state treasurer shall make a refund to the claimant as directed by the court. The refund shall be charged to the appropriations to the commission.

(6) No action for recovery of any amount paid pursuant to this section shall be maintained in any court unless objections have been filed with the commission as herein provided. In any action for recovery of any payments made under this section the claimant shall be entitled to raise every relevant issue of law, but the commission's findings of fact made pursuant to this section shall be prima facie evidence of the facts therein stated.

(7) The following shall be deemed to be findings of fact of the commission, within the meaning of this section: (a) Determinations of fact expressed in bills rendered pursuant to this section; (b) determinations of fact set out in those minutes of the commission which record the action of the commission in passing upon said bills, and in passing upon objections thereto.

(8) The procedure by this section providing for determining the lawfulness of bills and the recovery back of payments made pursuant to such bills shall be exclusive of all other remedies and procedures.

History: 1971 c. 40 s. 93; 1971 c. 125; 1973 c. 243 s. 82; 1975 c. 68; 1977 c. 29 ss. 1359, 1360, 1654 (10) (f); 1977 c. 203, 418; 1979 c. 171; 1981 c. 390; 1987 a. 378; 1991 a. 269; 1993 a. 496.

196.855 Assessment of costs against municipalities.

Any expense incurred by the commission in making any appraisal or investigation of public utility property under ch. 197 shall be charged directly to the municipality making the application. The commission shall ascertain the expense, and shall render and review any bill under s. 196.85 insofar as applicable. For the purpose of calculating the expense, 90% of the costs determined shall be costs of the commission and 10% of the costs determined shall be costs of state government operations. If a bill under this section is not paid within the time required by s. 196.85, the bill shall bear interest at the rate of 6% per year and the amount of the bill and the interest shall be certified to the department of administration and shall be levied and collected as a special charge in the same manner as a state tax.

History: 1979 c. 110 s. 60 (13); 1983 a. 53; 1991 a. 269.

196.856 Assessment for acid deposition activities.

(1) The commission shall annually assess against the major utilities, as defined under s. 285.41 (1) (f), the total, not to exceed \$400,000, of the amount appropriated under s. 20.370 (2) (cj) for acid deposition studies and evaluation and monitoring activities conducted by the department of natural resources.

(2) The commission shall, with the cooperation of the department of natural resources, promulgate rules establishing a method for assessing each major utility an amount that is proportionate to its fraction of the total amount of sulfur dioxide emissions from major utilities in this state.

(3) This section does not apply after June 30, 1996.

History: 1985 a. 296; 1987 a. 27; 1995 a. 27, 227.

196.857 Stray voltage program. (1g) PROGRAM ELEMENTS. (a) The commission shall establish and administer a stray voltage program. The program shall focus on regulation, education, inspection and investigation relating to stray voltage.

(b) The commission shall identify standardized test procedures check lists and equipment to be used by public utilities to investigate stray voltage. The commission may audit the results of investigations.

(c) The commission shall conduct classroom and on-farm stray voltage training sessions for public utilities, cooperatives, electricians or other interested parties.

(d) The commission shall conduct unannounced spot checks of on-farm stray voltage testing done by public utilities if the farmer gives permission for the check at the time the farm is visited. The commission may inspect the operation of public utility stray voltage programs to ensure that proper equipment and procedures are being used and to ensure that investigators are properly trained.

(e) In cooperation with the department of agriculture, trade and consumer protection, the commission shall investigate the causes of stray voltage on individual farms, recommend to farmers solutions to stray voltage problems and evaluate the effectiveness of on-site technical assistance.

(1m) ASSESSMENTS. The commission shall assess annually all of the following amounts to public utilities which produce electricity and which have annual gross operating revenues related to electricity in excess of \$100,000,000 in proportion to their respective electric gross operating revenues during the last calendar year, derived from intrastate operations:

(a) The amount appropriated under s. 20.155 (1) (L), less any amount received under s. 20.155 (1) (Lb) and less any fees received under sub. (2k) and credited to the appropriation under s. 20.155 (1) (L). The amounts received under this paragraph shall be credited to the appropriation made in s. 20.155 (1) (L).

(b) The amount appropriated under s. 20.115 (8) (j), less any fees received from farmers under sub. (2g) and credited to the appropriation under s. 20.115 (8) (j). The amounts received under this paragraph shall be credited to the appropriation made in s. 20.115 (8) (j).

(2) DUE DATE. A public utility shall pay the total amount that it is assessed under sub. (1m) within 30 days after it receives a bill for that amount from the commission. The bill constitutes notice of the assessment and demand of payment.

(2g) FARM SERVICE FEES. The commission may charge reasonable fees not to exceed \$300 per farm for services provided to farmers under this section. The fees shall be in accordance with a standardized schedule of fees established by the commission by rule. The fees collected under this subsection shall be credited to the appropriation account under s. 20.115 (8) (j) in each fiscal year.

(2k) OTHER SERVICES FEES. The commission may charge a reasonable fee for services, other than on-farm site-related services, provided under this section. The fee may not exceed the actual costs of the services. The fees collected under this subsection shall be credited to the appropriation account under s. 20.155 (1) (L) in each fiscal year.

(2m) ADDITIONAL INVESTIGATIONS. If the commission, at the request of an electric cooperative organized under ch. 185 or any public utility which is not assessed under sub. (1m), conducts an investigation of the causes of stray voltage on any farm receiving electrical service from that electric cooperative or public utility, that electric cooperative or public utility shall pay reasonable fees assessed by the commission in accordance with a standardized schedule of fees established by the commission by rule. The amounts received under this subsection shall be credited to the appropriation account under s. 20.155 (1) (L).

History: 1987 a. 27, 399; 1991 a. 39; 1993 a. 16; 1995 a. 27.

196.858 Assessment for telephone relay service.

(1) The commission shall annually assess against local exchange and interexchange telecommunications utilities the total, not to exceed \$5,000,000, of the amounts appropriated under s. 20.505 (4) (is).

(2) The commission shall assess a sum equal to the annual total to local exchange and interexchange telecommunications utilities in proportion to their gross operating revenues during the

last calendar year. If total expenditures for telephone relay service exceeded the payment made under this section in the prior year, the commission shall charge the remainder to assessed telecommunications utilities in proportion to their gross operating revenues during the last calendar year. A telecommunications utility shall pay the assessment within 30 days after the bill has been mailed to the assessed telecommunication utility. The bill constitutes notice of the assessment and demand of payment. Payments shall be credited to the appropriation under s. 20.505 (4) (is).

(3) Section 196.85 (3) to (8), as it applies to assessments under s. 196.85 (1) or (2), applies to assessments under this section.

(5) A telecommunications utility may not recover the assessment under this section by billing a customer for the assessment on a separate line in a billing statement.

History: 1989 a. 336; 1991 a. 39.

196.91 Acquisition of existing dams. (1) Except as provided under s. 196.92 (3) (c), every domestic corporation lawfully engaged in the business of producing, transmitting, delivering or furnishing heat, light, water or power to or for the public may acquire, for the purpose of developing power and generating energy for public use in the business:

(a) Any dam in or across any navigable waters of this state.

(b) All flowage and other rights and property necessary to the maintenance of any dam under par. (a).

(c) Any undeveloped water power or dam site upon any navigable waters within this state, except as provided under sub. (2).

(2) No award in any condemnation proceedings authorized by sub. (1) shall be effective, and no corporation may purchase or otherwise acquire any property under sub. (1) until it obtains from the commission a certificate that public convenience and necessity require the acquisition of the property, at the amount fixed by the award or agreed upon with the owner of the property.

History: 1983 a. 53; 1985 a. 187.

196.92 Procedure for acquiring dams. (1) If a corporation under s. 196.91 (1) desires to purchase or acquire any property under s. 196.91, the corporation shall apply to the commission for a certificate of public convenience and necessity. The application shall state:

(a) The name of any owner of the property sought to be acquired.

(b) The business in connection with which it is desired to utilize the property.

(c) The specific public purpose for which it is proposed to use the property.

(d) The compensation or price to be paid for the property.

(e) A statement to the effect that the corporation agrees to cancel all contracts for the sale of hydroelectric power outside this state, if the commission finds that the contract interferes with adequate service and reasonable rates to the people of this state.

(f) Any other information the commission requires.

(2) If the commission receives an application under sub. (1), the commission shall fix a convenient time and place for a public hearing on the application. The time may not be more than 8 weeks from the date of filing the application. The commission shall give notice of the time and place to the applicant. Prior to the hearing the applicant shall publish the time and place as a class 3 notice, under ch. 985. Not less than 20 days prior to that date, the applicant shall serve notice of the hearing upon any owner of the property personally, or by registered mail, if the post-office address of the owner, by due diligence, can be ascertained. Proof of the publication and service of the notice shall be filed with the commission.

(3) (a) At a hearing under this section or any adjournment of the hearing, the commission shall consider the application and shall receive the evidence offered by the applicant and any other person for or against the application.

(b) The commission may issue a certificate that public convenience and necessity require the utilization of the property as proposed by the applicant if the commission finds that:

1. The acquisition and use of the property in connection with the business of the applicant for the purpose or purposes and at the price or compensation set forth in the application would be a public convenience;

2. The applicant possesses the financial ability to utilize the property for its proposed purpose; and

3. Public necessity requires the proposed acquisition and use.

(c) Section 196.91 shall not apply to the acquisition of flowage rights necessary for the improvement or development of dams or dam sites previously acquired.

History: 1983 a. 53 ss. 109 to 111, 113.

196.97 Nonessential uses of natural gas. (1) No gas utility doing business in this state or other person may install, connect or cause to be installed or connected to the distribution system any device which constitutes a nonessential use of natural gas, unless such devices have been ordered and received by any person prior to the effective date of each rule specifying a nonessential use of natural gas under sub. (2), including item inventories held by retailers or wholesalers.

(2) The commission shall, by rule, specify criteria for determining a nonessential use of natural gas for purposes of this section. The commission shall, by rule, specify each nonessential use of natural gas under this section. The commission may review any nonessential use of natural gas specified under this subsection at any time. Every rule promulgated under this subsection shall be transmitted to the joint committee for review of administrative rules for review by the joint committee.

(3) The commission may make rules as it deems necessary to carry out the purposes of and to enforce this section. The commission shall provide for exemptions for nonessential uses of natural gas for reasons of health, safety or unusual hardship.

(4) Any person who violates this section or any rule promulgated under this section shall be subject to a forfeiture of not more than \$400 for each day of violation.

(5) Enforcement of this section shall be under s. 196.44.

History: 1977 c. 369; 1979 c. 154.

196.975 Local access and transport area boundaries.

(1) One hundred fifty or more consumers, as defined in s. 196.213 (1) (a) 1., who are residents of the same local exchange area for telecommunications service may file with the commission a petition requesting that commission staff, in cooperation with the affected telecommunications utilities and telecommunications carriers, petition the appropriate federal district court to include their local exchange area in a different local access and transport area. The petitioners shall include with the petition information explaining why the current boundaries of the local access and transport area which includes their local exchange area does not adequately reflect areas of common social, economic and other concerns.

(2) After receiving a petition under sub. (1), the commission shall schedule a public hearing, to be held in the local exchange area of the petitioners, serving to receive testimony on the contents of the petition and any other matters deemed relevant by the commission. The commission shall publish a class 1 notice under ch. 985 in a newspaper serving the local exchange area at least 20 days prior to the hearing.

(3) If, after the hearing under sub. (2), the commission determines that there is sufficient evidence that current boundaries of the local access and transport area does not adequately reflect areas of common social, economic and other concerns and that there is substantial public support within the local exchange area to include the area in a different local access and transport area, the commission shall direct its staff, in cooperation with the affected telecommunications utilities and telecommunications carriers to petition the appropriate federal district court to revise

the local access and transport area boundaries. All of the commission's expenses of petitioning the federal court shall be paid by the commission from its appropriation under s. 20.155 (1) (g).

History: 1985 a. 297; 1993 a. 496.

196.98 Water reporting required. The commission shall ensure that each public utility to which s. 281.35 applies shall comply with the requirements of that section and shall report its

volume and rate of withdrawal, as defined under s. 281.35 (1) (m), and its volume and rate of water loss, as defined under s. 281.35 (1) (L), if any, to the commission in the form and at the times specified by the department of natural resources. The commission shall provide the information reported under this section to the department of natural resources.

History: 1985 a. 60; 1995 a. 227.
