

At the October 19, 2016 meeting of the Study Committee, three questions were asked of Dr. Vicki J. Martin, President, Milwaukee Area Technical College, for which follow-up information need to be provided. The answers are provided in the attached tables. Below are the three questions:

1. What is the funding source of the Right Path program? How much is the funding? Is there an end-date to the funding?
2. What are the attrition rate and graduation rate of the various programs that Dr. Martin presented to the committee? Are there any other measurements that MATC uses to measure the success of the programs? If so, what are they and what are the results?
3. How many offenders has MATC served? Of the programs specifically targeting offenders, how many have been served?

Summary of MATC Services to Incarcerated Individuals or Their Children

Table 1. Summary of MATC Programs Targeting Incarcerated Individuals or Their Children (Responsive to Questions 1 and 2)

Program Title	Program Description	Funding Source	Number of Participants or Served	Success Measures
Blueprint for Prosperity	CNC training to incarcerated individuals	Wisconsin Fast Forward Grant	68 participated over past two years	<ul style="list-style-type: none"> - Number of Graduate – 56 - Number Employed in Manufacturing – 29 - Number Employed in other areas – 7 - Number Continuing with Education – 6
