SUBJECT: Tax and Fee Modifications Included in 1999 Acts 9 and 10

The attached table provides a brief description of each tax and fee modification included in Acts 9 and 10. The table consists of three parts: (1) tax increases and decreases; (2) fee increases and decreases; and (3) measures to enhance the collection of current taxes or fees. Each entry in the table includes the agency name, a summary of the modification and an estimate of the revenue change due to the tax or fee modification. Items with an extensive list of changes are more fully identified in attachments to this memorandum.

In the table, GPR represents general fund revenue. Revenue to a program revenue account is signified by PR and SEG signifies revenue to a segregated fund. "Unknown" means that no estimate of the revenue impact is available at this time. The revenue estimates shown in the table were prepared by this office.

In summary, the changes included in Acts 9 and 10 are estimated to decrease net taxes by \$756,332,500 (\$442,777,500 in 1999-00 and -\$313,555,000 in 2000-01) and increase net fees by \$131,102,200 (\$68,637,900 in 1999-00 and \$62,464,300 in 2000-01). In addition, measures to enhance the collection of current taxes/fees are estimated to generate an additional \$33,869,300 (\$6,846,200 in 1999-00 and \$27,023,100 in 2000-01).

The sum of these revenue changes for the 1999-01 biennium is shown below.

<b>TAXES -- INCREASES</b>			
<b>Individual Income Tax--Eliminate PTRC.</b> Eliminate the property tax/rent credit (PTRC) in tax year 1999, which is estimated to increase revenues by \$236.5 million in 1999-00. The fiscal effect of the PTRC elimination for tax year 2000 and thereafter is incorporated into the "Individual Income Tax Modifications" entry under "Taxes--Decreases."	\$236,500,000	\$0	GPR
<b>Internal Revenue Code Update for 1998.</b> Provide that, beginning in tax year 1999, state individual income and corporate and business tax provisions referenced to the federal Internal Revenue Code (IRC) refer to the code in effect on December 31, 1998, rather than December 31, 1997. Modify current lottery provisions to allow prize winners to make a designation of whether to receive the prize as a lump sum or as an annuity within 60 days after winning if the lottery prize is payable over at least 10 years. In addition, allow individuals who won prior to October 21, 1998, and currently receive the prize as an annuity, to designate a lump sum payment for the remaining portion of the prize, if the option is exercised by December 31, 2000.	\$15,915,000	\$6,155,000	GPR
<b>Recycling Surcharge.</b> Impose a recycling surcharge on businesses to be calculated the same as under prior law with certain modifications. Prior law, until April, 1999, imposed a surcharge in tax year 1998 equal to 2.75% of gross tax liability for corporations (5.5% in tax years prior to 1998) and 0.2173% of net business income for nonfarm sole proprietorships, partnerships, limited liability companies taxable as partnerships and S corporations (0.4345% in tax years prior to 1998). Businesses with under \$4,000 in gross income and farms with less than \$1,000 of net income were excluded from paying the prior surcharge.  Under Act 9, nonfarm businesses with \$4 million or less in gross receipts and farms with \$1 million or less in gross receipts are excluded from paying the surcharge. However, businesses with gross receipts in excess of these amounts are subject to the surcharge based on the business' total net income or gross tax liability. The prior law \$9,800 maximum payment and \$25 minimum payment were retained. The recycling surcharge is effective beginning with tax year 2000 and is 3.0% of gross tax liability for corporations and 0.2% of net business income for nonfarm sole proprietorships, partnerships, limited liability companies taxable as partnerships and S corporations.  The recycling surcharge, which is deposited in the segregated recycling fund, is estimated to generate \$6 million in 1999-00 and \$16.9 million in 2000-01.	\$6,000,000	\$16,900,000	SEG
<b>Sales Tax Late Filing Fee.</b> Increase the late filing fee for delinquent sales and use tax returns from \$10 to \$20. The provision first applies to sales and use tax returns that are filed for periods beginning after September 30, 1999.	\$565,000	\$700,000	GPR

<b>Tobacco Products Tax.</b> Change the tobacco products tax from an occupational tax to an excise tax. Authorize DOR to enter into agreements with Indian tribes to provide for the refunding to the tribes of: (a) 50% of taxes collected on sales of tobacco products on Indian reservations to non-tribal members; and (b) 100% of tobacco products taxes collected on sales on reservations to tribal members. Estimate increased tobacco products tax collections of \$375,000 in 1999-00 and \$500,000 in 2000-01 and increased refunds to the tribes of \$187,500 in 1999-00 and \$250,000 in 2000-01. The net effect of these provisions is an estimated increase in general fund revenues of \$187,500 in 1999-00 and \$250,000 in 2000-01.	\$187,500	\$250,000	GPR

<b>TAXES -- DECREASES</b>			
<b>Sales Tax Rebate.</b> Provide a sales tax rebate on a one-time basis to be paid in 1999-00 at an estimated cost of \$700 million. The rebate amounts vary according to filing status and income.	-\$700,000,000	\$0	GPR
<b>Individual Income Tax Modifications.</b> Modify the individual income tax structure beginning in 2000 by increasing the sliding scale standard deduction, creating personal exemptions, creating a fourth income tax bracket, reducing the income tax rates, eliminating miscellaneous deductions from the itemized deduction credit, creating a deduction for the repayment of income previously taxed, increasing the married couple credit, eliminating the PTRC and dependent and senior tax credits and making withholding table adjustments. On a tax year basis, these provisions are estimated to reduce income tax revenues by \$208.6 million in 2000 and \$324.8 million in 2001. The \$334.4 million estimate shown for the 2000-01 fiscal year also includes \$125.8 million from the withholding table adjustment on July 1, 2000. Although the net impact of the modifications is a tax reduction, some taxpayers will pay higher taxes.	\$0	-\$334,400,000	GPR
<b>Individual Income Tax Credit for Military Income.</b> Provide an income tax credit for up to \$200 in income received as an active duty member of the U.S. Armed Forces while stationed outside of the U.S. beginning in tax year 2000. A married couple is eligible for a credit of up to \$400 if both spouses qualify.	\$0	-\$260,000	GPR
<b>Income Tax Exclusion for Amounts Received by Victims of Nazi or Axis Persecution.</b> Exclude any amounts received as a settlement for claims for recovered assets, or any amounts of assets or any gain generated on such assets, that were stolen from, hidden from or otherwise lost by an individual who was persecuted by Nazi Germany or any Axis regime during any period from 1933 to 1945 and that have been recovered, returned or otherwise paid to the original victim, heir or beneficiary. Specify that this exclusion takes effect with tax year 1999. The fiscal effect of this provision is unknown because there is not information available on the number of Wisconsin residents who would be affected by this provision nor on the amount of income that would be excluded from taxation. <p><b>Taxation of Trusts.</b> Modify current law as it relates to the taxation of inter vivos trusts (trusts created by a living person) as follows: (a) authorize Wisconsin to tax trusts created by persons who were Wisconsin residents at the time the trust becomes irrevocable, whether the trust is administered in Wisconsin or in another state; and (b) prohibit Wisconsin from taxing the trusts of nonresidents that are administered in Wisconsin. Specify that a trust is irrevocable if the power to revest title does not exist and that a trust is revocable if the person whose property constitutes the trust may revest title to the property. Specify that this provision takes effect on January 1, 1999, and applies to trusts that become irrevocable after January 1, 1999.</p>	\$0	Minimal	GPR
<p><b>Corporate Income and Franchise Tax--Activity Not Creating Nexus.</b> Provide that an out-of-state corporation would not have nexus with Wisconsin and could not be subject to corporate income and franchise tax if each of the following conditions were met:</p> <p>(a) the out-of-state corporation stores tangible personal property in the state on property not owned by the corporation;</p> <p>(b) the tangible personal property is stored for 90 days or less;</p> <p>(c) the tangible personal property is stored on another person's property and is transferred to the person for manufacturing in the state;</p> <p>(d) the value of manufacturing real estate of the parcel on which the tangible personal property is stored and manufactured is between \$10 million and \$11 million on January 1, 1999.</p>	-\$250,000	-\$500,000	GPR
<p><b>Individual and Corporate Income and Franchise Taxes -- Development and Enterprise Development Zone Program and Tax Credit Modifications.</b> Modify the development and enterprise development zones programs and tax credits as follows:</p> <p>(a) Increase the maximum amount of tax credits that can be claimed under the development zones program by \$5 million, from \$33.155 million to \$38.155 million.</p> <p>(b) Authorize Commerce to create an additional 15 enterprise development zones. The total number of zones authorized would be 79 (up to 100 could be designated with Joint Committee on Finance approval), including at least 10 of which would be for environmental remediation.</p> <p>(c) Designate an area in the City of Kenosha as a development opportunity zone that would exist for seven years. Provide that any corporation that conducted economic activity in the zone and that, in conjunction with the local governing body of Kenosha, submitted a project plan by July 1, 2000, would be eligible to claim the development zone credit and development zone investment credit. Limit the amount of credits that could be claimed by such businesses to \$7 million.</p> <p>(d) Specify that development zone credits could only be used to offset income from the claimant's business activities in the development or enterprise zone.</p> <p>(e) Delete the requirement that 25% of all development zone tax credits claimed must be based on creating or retaining full time jobs for development zone environmental remediation tax credits and provide that environmental remediation tax credits claimed in development and enterprise development zones would not have to be based on activities that created or caused to create jobs.</p> <p>(f) Modify the full-time jobs component of the development zone tax credit to: (1) increase from \$6,500 to \$8,000 the maximum credit that could be claimed for each full-</p>	Unknown	Unknown	GPR

<b>Full-Year Sales Tax Exemption for Electricity Used in Farming.</b> Extend the current law sales tax exemption for electricity sold from November through April for use in farming to electricity sold for use in farming at any time of the year. Provide that the extension of this exemption first applies to electricity sold for use in farming on May 1, 2000. It is estimated that these provisions will reduce general fund revenues by \$700,000 in 1999-00 and \$2.2 million in 2000-01.	- \$700,000	- \$2,200,000	GPR
<b>Time-Share Properties.</b> Exempt sales of flex-time time-share property, including maintenance charges, from the sales tax and impose the real estate transfer fee on all sales of time-share property, effective on the first day of the second month beginning after publication of the bill. These provisions specify that all sales of time-shares are subject to the real estate transfer fee and not the sales tax. The fiscal effect is estimated to be a net reduction of general fund tax collections of \$70,000 in the first year and \$90,000 in the second year.	- \$70,000	- \$90,000	GPR
<b>Vending Machine Sales.</b> Provide that, effective July 1, 2001, food and beverages that are exempt from the state sales tax when sold in a store for off-premises consumption will also be exempt when sold through a vending machine. Due to the effective date of the provision, there is no effect on general fund revenues during the 1999-01 biennium. However, it is estimated that this provision will result in reduced general fund revenues of \$3.7 million annually, beginning in 2001-02. This estimate is in 1999-00 dollars.	See Text	See Text	GPR
<b>Sales Tax on Auction Sales.</b> Provide that the current sales tax exemption for occasional sales would apply to auctions that are the sale of personal farm property or household goods and not held more than five times by the same auctioneer at the same location during a year. Specify that, in the case of an indoor location, "location" means a building, except that in the case of a shopping center or shopping mall, "location" means a store. The fiscal effect of this provision is estimated to be minimal.	Minimal	Minimal	GPR
<b>Sales and Use Tax on Food and Related Items Provided to Restaurant Employees at Work.</b> Provide a sales tax exemption for certain food and related items provided by restaurants to their employees during work hours. The exemption applies to certain items that are specifically excluded from the current law sales tax exemption for food and beverages, such as soda water beverages and soda fountain items. In addition, provide that paper and similar disposable products provided by a restaurant to its employees to use in the consumption of food, food products and beverages while at work are exempt from the sales and use tax. The fiscal effect of these provisions is estimated to be minimal.	Minimal	Minimal	GPR

<p><b>Transitional Adjustment Fee on Telecommunications Companies.</b> Provide that, for a telecommunications company subject to a transitional adjustment fee for 1999 and 2000 under 1995 Act 351, if the calculation of the transitional adjustment fee results in a negative amount, a portion of the amount calculated could be used as a credit against the ad valorem tax assessment (under current law, the calculation of a negative transitional adjustment fee would mean that the fee would be zero). However, specify that the credit would only be available for a company with "total Wisconsin gross revenues" under s. 76.38, 1993 statutes of less than \$10.0 million. Limit the credit to 60% of the positive value of the negative transition fee amount calculated for the first year of the transition period under Act 351 and 40% of the positive value of the amount calculated for the second year of the transition period. Specify that these provisions are retroactive to include taxes for the first year of the transition period under Act 351 and will sunset at the end of the transition period. <b>FEES -- INCREASES</b>			
<b>ADMINISTRATION</b>			
<p><b>Public Benefits Fees.</b> Require investor-owned utilities to generate from new fees imposed on customers up to \$24 million annually to support low-income energy assistance programs for low-income customers and up to \$20 million annually for energy conservation and efficiency services program grants. Provide that the required annual level of fees collected by investor-owned utilities for each program be decreased by an amount equal to one-half of the fees collected for comparable programs by municipal utilities and electric cooperatives. Specify that 70% of all amounts collected would have to be charged to residential customers and 30% would have to be charged to nonresidential customers. Through June 30, 2008, limit the total amount of fees payable by an individual customer to a 3% increase in the customer's monthly bill or \$750 per month, whichever is less. Customers of municipal utilities and cooperatives would be subject to fees limited to an average of \$16 per electric meter per year. Of the \$44 million annually of new public benefit fees collected, an estimated \$37 million annually would be deposited by investor-owned utilities to a new public benefits trust under DOA for expenditure through two new SEG-funded sum sufficient appropriations. In addition, an estimated \$7 million annually would be collected and expended by municipal utilities and electric cooperatives for public benefits programs in their respective service areas; this is shown as local fees in the fund column at the right.</p>	\$18,500,000 \$3,500,000	\$37,000,000 \$7,000,000	SEG Local

<b>BOARD OF COMMISSIONERS OF PUBLIC LANDS</b>			
<b>Origination and Servicing Fees for Certain Trust Fund Loans.</b> Authorize the Board to charge a fee to municipal borrowers to cover the Board's administrative costs in originating and servicing loans that are repaid after March 15 but before August 1 of any year. The apparent intent is to charge the fee only when a loan is repaid during its first year before any interest has become payable. Although no fee is specified, the Board indicates that it would likely establish the fee as a percentage of the principal amount borrowed.	Unknown	Unknown	PR
<b>COMMERCE</b>			
<b>Wisconsin Development Fund Loan Origination Fee.</b> Increase from 1.5% to 2.0%, the current origination fee that applies to major economic development (MED) and customized labor training (CLT) grants and loans in excess of \$200,000. Currently, Commerce is authorized to charge a 1.5% loan origination fee on customized labor training and major economic development awards over \$200,000.	\$32,500	\$32,500	PR
<b>Main Street Program Fees for Services.</b> Authorize the Department to charge reasonable fees for services and information provided to communities that are not participants in the Main Street Program. The Wisconsin Main Street program provides technical assistance to help communities plan, manage and implement programs to revitalize their downtown business areas through comprehensive economic redevelopment and historic preservation. Commerce also provides technical assistance and information on the revitalization of business areas to municipalities not participating in the program.	Unknown	Unknown	PR
<b>PECFA -- Site Bid Insurance.</b> Authorize Commerce to promulgate rules that require a person to pay a specified fee as a condition of submitting a bid to provide a service for a cleanup under the PECFA program. The fee would be deposited in the petroleum inspection fund.	Unknown	Unknown	SEG
<b>PECFA -- Case Closure Fee.</b> Authorize Commerce to promulgate rules to assess and collect fees to recover its costs of approving requests by owners or operators for case closure and providing other assistance requested by claimants at petroleum sites. The fees would be deposited in a new PR appropriation.	Unknown	Unknown	PR
<b>Hazardous Substance Tank Regulation.</b> Expand the Department's authority for regulation of tanks that store flammable and combustible liquids to also include tanks that store liquids that are considered hazardous substances under the federal Superfund Act. <b>Impact Fees for High-Voltage Transmission Lines</b> - Require the PSC, as a condition of issuing a certificate of public convenience and necessity for high-voltage transmission lines, to ensure the payment of two new impact fees. Require DOA to promulgate rules for the two fees related to the PSC approval of high voltage transmission lines for operation at 345 kilovolts or more. Require an applicant seeking to construct a high voltage transmission line to pay to DOA an annual facility impact fee equal to 0.3% of the cost of the transmission line and a one-time environmental impact fee equal to 5% of the cost of the transmission line. Direct the PSC to determine the cost of the line and the areas impacted and require DOA to distribute the fees by statutory formula to counties, towns, cities, and villages through which the high-voltage transmission line is routed.	\$0	Unknown	PR

<b>Revised Agency Credential Fees (Credential Renewal Fees)</b> . Increase from \$41 to \$44 the basic non-variable component of the biennial renewal fee. Revise the variable portion of these fees based on the proportionate share of enforcement costs attributable to each regulated profession. The new renewal fee amounts would represent a fee increase for 77% of the credential renewal fees, a decrease for 15% of the credential renewal fees, and 8% of the credential renewal fees would remain unchanged (see Attachment 2).	\$136,700 \$1,392,200	\$49,200 \$395,300	GPR PR
<b>Examination Fees -- Vendor Payments</b> . Require that 10% of the total exam revenues, or \$235,100 annually, be deposited to the general fund for reimbursement of R&L's share of general state costs, such as unbilled services provided by DOA. (Note: The Committee also implemented the Governor's recommendation for a change in the way R&L pays outside test contractors that provide credential applicant examinations. Currently, for those examinations the vendor collects a fee for those services directly from the credential applicant. DOA accounting procedures now require that these fees be collected by R&L and deposited in the state treasury and that R&L then pay the vendors based upon an invoice detailing the services provided. While this change results in an increase of \$1,917,000 PR in fees annually coming into the state treasury, these fees are currently paid by applicants directly to the vendors and therefore do not constitute a new fee.)	\$235,100	\$235,100	GPR
<b>Licensure of Athletic Trainers</b> . Require the regulation of athletic trainers and establish an initial license fee of \$44 and a renewal fee of \$41.
