EXECUTIVE BRANCH

A PROFILE OF THE EXECUTIVE BRANCH

Structure of the Executive Branch

The structure of Wisconsin state government is based on a separation of powers among the legislative, executive, and judicial branches. The legislative branch sets broad policy and establishes the general structures and regulations for carrying them out. The executive branch administers the programs and policies, while the judicial branch is responsible for adjudicating any conflicts that may arise from the interpretation or application of the laws.

Constitutional Officers. The executive branch includes the state's six constitutional officers – the governor, lieutenant governor, secretary of state, state treasurer, attorney general, and state superintendent of public instruction. Originally, the term of office for all constitutional officers was two years, but since the 1970 elections, their terms have been four years. All, except the state superintendent, are elected on partisan ballots in the fall elections of the even-numbered years at the midpoint between presidential elections. Though originally a partisan officer, the superintendent is now elected on a nonpartisan ballot in the April election.

The governor, as head of the executive branch, is constitutionally required to “take care that the laws be faithfully executed”. In Article V of the state constitution, as ratified in 1848, the people of Wisconsin provided for the election of a governor and a lieutenant governor who would become “acting governor” in the event of a vacancy in the governor's office. Originally, the lieutenant governor was also the presiding officer of the senate. (By subsequent amendments, the lieutenant governor was relieved of senate duties and now assumes the full title of “governor” if the office is vacated.)

In Article VI, the constitution provided for three additional elected officers to assist in administering the laws of the new state. The first session of the legislature in 1848 authorized the secretary of state to keep official records, including enrolled laws and various state papers, and to act as state auditor by examining the treasurer's books and preparing budget projections for the legislature. The state treasurer was given responsibility for receiving all money and tax collections and paying out only those amounts authorized by the legislature for the operation of state government. The attorney general was to provide legal advice to the legislature and other constitutional officers and represent the state in legal matters tried in the courts of this state, other states, and the federal government.

The sixth officer, created by Article X of the constitution, was the state superintendent of public instruction. The first legislature gave the superintendent very specific duties, including the mandate to travel throughout the state inspecting common schools and advocating good public schools. The superintendent was to recommend texts, take a census of school age children, collect statistics on existing schools, and determine the apportionment of school aids.

The simplicity of administering state government in the early years is illustrated by the fact that total expenditures for 1848 government operations were only \$13,472, which included the expenses of the legislature and circuit courts. As prescribed by the constitution and state law, the salaries of all six constitutional officers totaled \$5,050 that year. (The lieutenant governor did not receive a salary, but he was given a double legislative per diem.) The state's annual budget totaled \$32.5 billion in fiscal year 2012-13, and many of the duties first assigned to the constitutional officers are now carried out by specialized state agencies.

1967 Reorganization. Over a century later, the Wisconsin Committee on the Reorganization of the Executive Branch, in its report to the 1967 Legislature, concluded that state government could no longer be neatly divided into precise legislative, executive, and judicial domains. In many instances the subjects of legislation had become so technically complex that the legislature found it necessary to grant rule-making authority to the administrative agencies. The courts

had also encountered a staggering load of technical detail and had come to depend on administrative agencies to use their quasi-judicial powers to assist the judicial branch.

Although the Wisconsin Constitution delegated ultimate responsibility for state administration to the governor, the proliferation of agencies over the years had made it increasingly difficult for one official to exercise effective executive control. The committee identified 85 state agencies within the executive branch of Wisconsin state government, many of which had no direct relationship to the governor. Chapter 75, Laws of 1967, attempted to integrate agencies by function and make them responsive to the elected chief executive, by drastically reducing the number of executive agencies from 85 to 32. Like everything else, however, state government does not remain static. Since the 1967 reorganization, the legislature has created new state agencies, while abolishing or consolidating others. In addition, there have been numerous changes to the duties and responsibilities of the various agencies. The following sections describe the current organization of the executive branch.

Departments. The term “department” is used to designate a principal administrative agency within the executive branch. Within a department, the major subunit is the division, which is headed by an administrator. Each division, in turn, is divided into bureaus, headed by directors. Bureaus may include sections, headed by chiefs, and smaller units, headed by supervisors. There currently are 17 departments in the executive branch.

Wisconsin Administrative Departments

| | |
|--|----------------------------------|
| Administration | Natural Resources |
| Agriculture, Trade and Consumer Protection | Public Instruction |
| Children and Families | Revenue |
| Corrections | Safety and Professional Services |
| Employee Trust Funds | Tourism |
| Financial Institutions | Transportation |
| Health Services | Veterans Affairs |
| Justice | Workforce Development |
| Military Affairs | |

In the majority of cases, the departments are headed by a secretary appointed by the governor with the advice and consent of the senate. Only the Department of Employee Trust Funds and the Department of Veterans Affairs are headed by boards that select the secretary. When administrators are personally chosen by and serve at the pleasure of the governor, they usually work in close cooperation with the chief executive.

Debate about whether the governor should directly appoint department heads continues. Public administration theory has long held that a governor can be the chief executive only if he or she has the authority to hold department heads directly accountable. On the other hand, the original purpose of a board was to insulate a department from politics, thereby enabling its head and staff to develop expertise and a sense of professionalism.

Independent Agencies. In addition to constitutional offices and administrative departments, there are 11 units of the executive branch that have been specifically designated as independent agencies.

Independent Executive Agencies

|---|---------------------------------------|
| Educational Communications Board | State Historical Society of Wisconsin |
| Employment Relations Commission | State Investment Board |
| Government Accountability Board | State Public Defender Board |
| Higher Educational Aids Board | Technical College System |
| Office of the Commissioner of Insurance | University of Wisconsin System |
| Public Service Commission | |

Although the independent agencies are usually headed by part-time boards or multiple commissioners, the governor appoints most of these officials, with advice and consent of the senate, which serves to strengthen executive control of these units.

Authorities. In some instances, the legislature has decided to create corporate public bodies, known as “authorities”, to handle specific functions. Although they are agencies of the state, the

authorities operate outside the regular government structure and are intended to be financially self-sufficient. Currently, there are 9 authorities provided for by Wisconsin law, 8 of which are active – the Wisconsin Aerospace Authority (WAA), the Wisconsin Economic Development Corporation, the Fox River Navigational System Authority, the Lower Fox River Remediation Authority, the Wisconsin Health and Educational Facilities Authority (WHEFA), the Health Insurance Risk-Sharing Plan Authority, the Wisconsin Housing and Economic Development Authority (WHEDA), and the University of Wisconsin Hospitals and Clinics Authority. WAA, the Lower Fox River Remediation Authority, WHEDA, WHEFA, and UW Hospitals and Clinics Authority are authorized to issue bonds to finance their respective activities. Most authority members are appointed by the governor with advice and consent of the senate, but some are chosen from the legislature or serve as *ex officio* members.

Nonprofit Corporation. In 1985, the legislature created the Bradley Center Sports and Entertainment Corporation, a public, nonprofit corporation, which operates the Bradley Center in Milwaukee, the home of the Milwaukee Bucks, the Milwaukee Admirals hockey team, and the Marquette University basketball team. The corporation is headed by a board of directors appointed by the governor.

Special Districts. The legislature may create special districts that serve “a statewide public purpose.” These districts oversee the management of facilities for exposition centers, sports teams, and the cultural arts. Members of the governing boards are appointed by public officials. Currently, the Wisconsin Center, Miller Park, Lambeau Field, and the Madison Overture Center operate as special districts.

Boards, Councils, and Committees. Many departments and agencies have subordinate part-time boards, councils, and committees that carry out specific tasks or act in an advisory capacity. Boards may function as policy-making units, and some are granted policy-making or quasi-judicial powers. Examining boards set the standards of professional competence and conduct for the professions they supervise, and they are authorized to examine new practitioners, grant licenses, and investigate complaints of alleged unprofessional conduct. Councils function on a continuing basis to study and recommend solutions for problems arising in a specified functional area of state government. Committees usually are short-term bodies, appointed to study a specific problem and to recommend solutions or policy alternatives.

Boards are always created by statute. Councils are usually created by statute, but committees, because of their temporary nature, are created by session law rather than being written into the statutes. In addition, agency heads may create and appoint their own councils or committees as needed. The *Blue Book* describes only those units created by statute.

Attached Units. Under the 1967 reorganization, certain boards, commissions, and councils were attached to departments or independent agencies for administrative purposes only. These units are sometimes referred to as “15.03 units” because of the statutory section number that defines them. The larger agencies are expected to provide various services, such as budgeting and program coordination, but the 15.03 units exercise their statutory powers independently of the department or agency to which they are attached.

Government Employment

Classified Service. An important feature of Wisconsin state government employment is the merit system. Wisconsin’s civil service, which is called “classified service”, is designed to ensure that the most qualified person is hired for the job, based on test results and experience, rather than political affiliation. In 1905, Wisconsin was one of the first states to adopt such a system, and the Wisconsin classified service was considered one of the strongest because it encompassed the major portion of state personnel.

Since the 1967 reorganization of the executive branch, the trend has been to make top agency positions, including deputy secretaries, executive assistants, and division administrators, unclassified appointments. Despite this change at the top levels, most state employees, with the principal exception of legislative staff and the University of Wisconsin faculty and academic appointments, are hired and promoted through the classified service on the basis of merit.

Salaries. Positions in the classified service are categorized so that those involving similar duties, responsibilities, and qualifications are paid on the same basis. The Office of State Employment Relations (OSER) is directed to apply the principle of equal pay for equivalent skills and responsibilities when assigning a classification to a pay range.

Each biennium, OSER establishes the compensation plan of classifications and related salary ranges for classified employees subject to modification by the Joint Committee on Employment Relations. The governor may veto the committee's actions, although the vote of six committee members can override a veto. Some provisions of the compensation plan, as approved by the committee, may require changes in existing law, in which case they must be presented in bill form to the legislature for enactment.

Number of State Employees. The increasing size and complexity of state government is reflected in the number of employees. To illustrate this, a total of 1,924 people worked for Wisconsin state government in 1906. By contrast, according to the Legislative Fiscal Bureau, 69,263 full-time equivalent employee positions were authorized for fiscal year 2012-13.

Housing State Government

The first capitol in Madison was built during the Wisconsin Territory days at a cost of more than \$60,000. Construction began in 1837 but was not completed until 1845. The building, which served as the first state capitol, was demolished in 1863 to make way for a larger second capitol, which was completed in 1866. When the second state capitol was extensively damaged by fire in 1904, construction of the current capitol began. The present capitol, which was completed in 1917 for \$7,203,826.35, has undergone extensive restoration and renovation, costing more than \$140 million, completed in 2001.

Today, the agencies of state government in Madison are housed in the capitol and various state-owned office buildings, with additional space leased from private landlords. There are also state office buildings in Eau Claire, Green Bay, La Crosse, Milwaukee, Waukesha, and Wisconsin Rapids, plus district offices maintained throughout the state for the field units of many of the operating departments.

Besides its office buildings, the state owns or maintains a variety of educational, correctional, and mental health institutions across Wisconsin. The University of Wisconsin System operates 13 degree-granting institutions and 13 two-year colleges that feature freshman-sophomore instruction.

The state's adult corrections program, under the direction of the Department of Corrections, currently operates 5 maximum security prisons, 11 medium security prisons, 2 minimum security institutions, a prison for women, and 16 correctional centers. The department's juvenile corrections program operates Lincoln Hills School for male juveniles and Copper Lake School for Girls, both at Irma.

Through the Department of Health Services, the state operates 4 mental health institutions at Madison, Mauston, and Winnebago, and 3 centers for the developmentally disabled at Madison, Chippewa Falls, and Union Grove. The department also operates the Mendota Juvenile Treatment Center, a secure juvenile correctional facility in an inpatient mental hospital setting.

The Department of Public Instruction maintains a school that offers special training for blind and visually impaired students at Janesville and a similar school for the deaf and hard-of-hearing at Delavan. The Wisconsin Veterans Homes at Chippewa Falls in Chippewa County, King in Waupaca County, and Union Grove in Racine County are operated by the state to serve eligible Wisconsin veterans and qualifying spouses.

Functions of the Executive Branch

Governor and Lieutenant Governor. The governor, as Wisconsin's chief executive officer, represents all the people of the state. Because of this, the Office of the Governor is the focal point for receiving suggestions and complaints about state affairs. Administratively, the governor exercises authority through the power of appointment, consultation with department heads, and execution of the executive budget after its enactment by the legislature. The governor plays a key role in the legislative process through drafting the initial version of the biennial budget, which is submitted to the legislature in the form of a bill. Other opportunities to influence legis-

lative action arise in the chief executive's state of the state message and special messages to the legislature about topics of concern. The governor also shapes the legislative process through the power to veto bills, call special sessions of the legislature, and appoint committees or task forces to study state problems and make recommendations for changes in the law.

Based on a 1979 amendment, the constitution provides that if the incumbent governor dies, resigns, or is removed from office, the lieutenant governor becomes governor for the unexpired term. The lieutenant governor serves temporarily as "acting governor" when the governor is impeached, incapacitated, or absent from the state.

Commerce. While the U.S. Constitution specifically delegates to Congress the regulation of interstate commerce, each state regulates intrastate commerce within its borders. The definitions of interstate and intrastate commerce overlap at times, and over the years the U.S. Supreme Court has greatly broadened the meaning of the "commerce clause" in the federal constitution. Despite this broad interpretation, the states continue to exercise considerable authority over commerce.

Commerce involves goods, services, and commercial documents, as well as transportation and communication, so the state's involvement in regulating commerce is broad. The state's primary objective is to protect the public as consumers and as participants in financial transactions. Wisconsin state government is also interested in maintaining a stable, orderly market for carrying out commercial activities and for promoting the state's economic development.

One aspect of consumer protection is the inspection of farm products and the conditions under which they are produced. The state inspects cattle for infectious diseases, conducts research in animal and plant diseases, regulates the use of pesticides, grades fruits and vegetables for marketing, and sets standards for processed food. Explicit standards are set by law or in the administrative rules promulgated by the Department of Agriculture, Trade and Consumer Protection. The department is concerned not only with the conditions of growing and processing food but also with fair trade practices in its sale.

Another important aspect of consumer protection is the licensing of various trades and professions. Individuals working in certain professions must achieve state-mandated levels of training and proficiency before they can offer their services to the public. Examples include professions affecting public health, such as doctors and nurses, or public safety, such as architects and engineers. The Department of Safety and Professional Services assists a variety of examining boards associated with various trades and professions and directly regulates certain types of professional activity.

The state protects consumers by maintaining an orderly market in which the public can conduct business. State activities include specifying methods of fair competition, regulating rates for public utilities, setting standards for the operation of financial institutions, regulating gambling, and regulating the sale of securities and insurance. The Department of Financial Institutions regulates banks, savings institutions, credit unions, and the sale of securities. It also registers trademarks, corporations, and other organizations and files Uniform Commercial Code documents. The Office of the Commissioner of Insurance regulates the sale of insurance. The Public Service Commission regulates public utility rates and services. The Gaming Division in the Department of Administration regulates racing and charitable gambling and oversees gaming compacts between Indian tribes and the state. The Department of Revenue administers the Wisconsin Lottery.

The state is concerned with promoting economic development. The Wisconsin Economic Development Corporation develops and implements programs to provide business support and expertise and financial assistance to companies that are investing and creating jobs in Wisconsin and to promote new business start-ups and business growth and expansion in the state. The Department of Tourism promotes travel to Wisconsin's scenic, historic, artistic, educational, and recreational sites. It stimulates the development of private commercial tourist facilities and encourages local tourist-related businesses.

In the interests of public safety and welfare, the state enforces laws that regulate public and private buildings. The Department of Safety and Professional Services enforces dwelling codes,

reviews construction plans for new buildings, inspects subsystems that serve buildings, and performs training and consulting services for the building industry.

Education. Wisconsin officially recognized the importance of education within a democratic society at statehood in 1848 when it provided for the establishment of local schools in the state constitution and required that education be free to all children. The constitution further directed the legislature to establish a state university at Madison and colleges throughout the state as needed.

Wisconsin's public educational institutions now enroll an estimated one million students each year. In fall 2012, there were 872,436 pupils in the public elementary (606,754) and secondary (265,682) schools and 180,969 students enrolled in the University of Wisconsin System. The Technical College System enrolled 132,535 students in its associate degree programs for the 2011-12 school year and 230,084 in its other programs.

Wisconsin relies on 426 local school districts to administer its elementary and secondary programs. Twelve cooperative educational service agencies (CESAs) furnish support activities to the local districts on a regional basis, and the Department of Public Instruction, headed by the State Superintendent of Public Instruction, a nonpartisan constitutional officer, provides supervision and consultation for the districts.

In 1970 the state was divided into 16 vocational, technical, and adult education districts. These districts, renamed technical college districts, are each supervised by a district board that has taxing power. At the state level, the Technical College System Board supervises the districts.

Governor Scott Walker is joined by elected officials and representatives of the Wisconsin and Minnesota Departments of Transportation on May 28, 2013 in a symbolic groundbreaking to mark the beginning of the construction of a new crossing over the St. Croix River that will replace the 1931 Stillwater Lift Bridge. The \$629 million project is expected to be completed in 2016, after which the lift bridge will become a hiking and biking trail. (Office of the Governor)

At the collegiate level, all state-financed institutions of higher education are integrated into a single University of Wisconsin System. The system's two largest campuses at Madison and Milwaukee offer programs leading to doctoral degrees. Eleven other degree-granting institutions provide 4-year courses of baccalaureate study, and 13 UW Colleges provide 2-year courses of college-level study. State funding also supports Wisconsin residents enrolled at the Medical College of Wisconsin, Inc.

Three other state agencies perform educational functions. The Higher Educational Aids Board administers federal and state student financial assistance programs. The Educational Communications Board operates the state's networks for educational radio and educational television. The State Historical Society of Wisconsin maintains the state historical library, museum, and various historic sites.

Environmental Resources and Transportation. From a wilderness inhabited by 305,391 people in 1850, the state has evolved into a complex society with a population of 5,686,986 in April 2010, according to the U.S. decennial census. Most of Wisconsin is not densely populated, and the state has a comparatively large amount of open space. However, population growth, higher levels of consumption, and industrial development have increased environmental pollution.

Once pioneers could come to a wilderness, cut the forests, clear the land, and hunt and fish with little thought of damage to the soil, streams, or wildlife. Now these resources must be protected from destruction, depletion, or extinction. The Department of Natural Resources administers numerous programs that control water quality, air pollution, and solid waste disposal. Under state regulations, municipalities and industries cannot dump untreated sewage or industrial wastes into surface waters; smokestacks and automobiles must meet air pollution limits; farmers are encouraged to preserve soil and groundwater quality; and solid waste disposal facilities must meet construction and operation standards. The department regulates hunting and fishing to protect fish and wildlife resources and manages other programs designed to conserve and restore endangered and threatened species. It also promotes recreational and educational opportunities through state parks, forests, trails, and natural areas.

The Department of Transportation administers a variety of programs related to environmental resources. The highways that crisscross the state have a major impact on land use and people's lifestyles. Urban freeways and interstate highways greatly affect the use and development of surrounding land. They determine where people live, work, and play. When state government plans the location and financing of highways and roads, it must carefully consider both short- and long-range consequences.

The state's highway system consists of approximately 12,000 miles of interstate highways, state highways, county trunk highways, town roads, city and village streets, and park and forest roads. The state is concerned not only with building and maintaining adequate roads to meet demands, but also with providing for the safety of travelers using those roads. In 2013, more than 5.4 million vehicles were registered in Wisconsin, and approximately 4.5 million residents were licensed to drive. With 601 traffic fatalities in 2012, traffic safety is a constant concern.

The department must ensure that licensed drivers know the laws, are physically fit to drive, and have the required driving skills. It keeps track of drivers' records and can suspend the licenses of those who prove hazardous to themselves or others. It oversees highway construction and maintenance, highway patrol, and enforcement of driver and vehicle standards. The department is also involved in developing aviation and airports in Wisconsin and with promoting mass transit and passenger rail transportation.

Human Relations and Resources. Besides protecting the environment, the state must also protect its citizens directly. Population growth that affects the quality of land, water, and air resources has an increasingly complex effect on people themselves and their relationships to each other and their government. The inhabitants of a state are its prime resource, and government must ensure their general welfare. Records of birth, marriage, divorce, and death are collected and used to identify trends and potential problems.

In the state's early days, public health was primarily concerned with preventing the spread of communicable diseases. Today, the work of the Department of Health Services includes protec-

tion from biological terrorist attacks, disease prevention and detection, health education programs, and maintenance of institutions for the care and treatment of the mentally handicapped or mentally ill. The department is also responsible for a broad range of social services for the aged, the handicapped, and children.

A wide range of work-related issues are subject to state regulation. Minimum wages and maximum hours are set by law. If a worker is injured on the job, state worker's compensation may be available; unemployment compensation helps many workers faced with loss of a job. If a worker is seeking a job, the state (in partnership with the federal government) provides a job service to help the individual find work or to acquire the skills necessary for employment. If a worker suspects job discrimination because of age, race, creed, color, handicap, marital status, sex, national origin, ancestry, sexual orientation, or arrest or conviction record, the state may investigate the matter. The Department of Workforce Development is responsible for protecting and assisting workers and provides employment and assistance to rehabilitate the handicapped. The Department of Children and Families provides training and other services to help welfare recipients join the labor market under the state's Wisconsin Works (W-2) program. The Employment Relations Commission mediates or arbitrates labor disputes between workers and their employers.

The Department of Veterans Affairs has grant and loan programs to help eligible veterans acquire a home, business, or education, and it provides personal and medical care for eligible elderly veterans and their spouses at the Wisconsin Veterans Homes at Chippewa Falls, King, and Union Grove.

The state also protects its citizens from society's lawless elements by maintaining stability and order. Law enforcement is largely a local matter, but the Department of Corrections is responsible for segregating convicted adult and juvenile offenders in its penal institutions and rehabilitating them for eventual return to society. The Office of the State Public Defender represents indigents in trial and postconviction legal proceedings. The Department of Justice furnishes legal services to state agencies and technical assistance and training to local law enforcement agencies. It also enforces state laws against gambling, arson, child pornography, and narcotic drugs.

The state maintains an armed military force, the Wisconsin National Guard, to protect the populace in times of state or national emergency, whether natural or human caused, and to supplement the federal armed forces in time of war. These activities come under the jurisdiction of the Department of Military Affairs.

General Executive Functions. The services described so far are direct services to the public. In order for the state to perform these functions, it must also perform certain "staff" functions. The state requires general departments that oversee the hiring of agency personnel and provide space, equipment, salaries, and a retirement system for them. It must levy and collect taxes to support its activities, manage these state funds, and ensure that they are spent according to law. It also evaluates agency operations to assure that the various departments are performing their assigned tasks and preparing for future needs.

Some agencies are designed to perform staff functions almost exclusively. The Department of Administration, for example, is called the state's "housekeeping" department. Its duties include state budgeting, preauditing, engineering and facilities management, state planning, and data processing. The Office of State Employment Relations operates the state's classified service system. The Department of Revenue collects taxes levied by state law, distributes part of that revenue to local units of government, and calculates the equalized value of the property that has been assessed by local government.

The Department of Employee Trust Funds manages the state's retirement systems and the employee insurance programs that cover state and local government workers. At any one time, the state must have large sums of money in its employee trust funds to meet its obligations. The Investment Board invests these funds in stocks, bonds, and real estate in order to earn the maximum amount of interest possible until the funds are needed. The Department of Administration processes the receipt and disbursement of these and other state moneys.

The Office of the Secretary of State handles general executive duties, such as keeping various state records and affixing the state seal on certain records. The Government Accountability Board oversees the state's election processes, monitors campaign expenditures, keeps election records, administers a code of ethics for state public officials, and regulates lobbyists and their employers.

This introduction illustrates how state government both benefits and regulates dozens of aspects of life in Wisconsin. The following sections describe in detail the agencies that make up the executive branch of state government and the numerous services they perform each day.

Total Budget, under each agency's entry, reflects the dollars budgeted during the 2011-12 legislative session for the 2011-13 fiscal biennium (July 1, 2011 to June 30, 2013). These figures are based on the final published appropriation schedule under Chapter 20, Wisconsin Statutes, and do not include statutorily-directed funding modifications or supplemental funding adjustments.

Number of Employees are the number of full-time equivalent positions authorized in the agency's 2012-13 "adjusted base", which is the set of figures each agency uses to begin budgeting for the next biennium.

Budget and employee data provided by the Legislative Fiscal Bureau. Telephone numbers listed without an area code are Madison numbers in area code 608.

Agency Responsibility: As the state's chief executive, the governor represents all the people and is responsible for safeguarding the public interest. The constitution sets certain limits on the governor's powers, but the increased size and complexity of state government have given the governor's office many more responsibilities than it originally had.

The governor gives policy direction to the state and plays an important role in the legislative process. Through the biennial budget, developed and administrated in conjunction with the Department of Administration and various agency heads, the governor ultimately reviews and directs the activities of all administrative agencies. Major policy changes are highlighted in the governor's annual state of the state message and other special messages to the legislature.

The governor has other specialized powers related to the legislative process. The chief executive may call a special legislative session to deal with specific legislation, may veto an entire bill, or may veto parts of appropriation bills. In the case of either whole or partial vetoes, a two-thirds vote of the members present in each house of the legislature is required to override the governor's action.

Although various administrators direct the day-to-day operations of state agencies, the governor is considered the head of the executive branch. For the most part, the individuals, commissions, or part-time boards that head the major administrative departments are appointed by,

and serve at the pleasure of the governor, although many of these appointments require senate confirmation.

As the state's chief administrative officer, the governor must approve federal aid expenditures; state land purchases; highway and airport construction; land or building leases for state use; and numerous state contracts, including compacts negotiated with Indian gaming authorities. The governor may request the attorney general to protect the public interest in various legal actions.

The statutes authorize the governor to create special advisory committees or task forces to conduct studies and make recommendations. These committees frequently attract experienced citizens from many fields, who donate their time and expertise as a public service. The governor also appoints over 1,000 persons to various councils and boards, which are created by law to advise and serve state government, and personally serves on selected bodies, such as the State of Wisconsin Building Commission.

If a vacancy occurs in the state senate or assembly, state law directs the governor to call a special election. Vacancies in elective county offices and judicial positions can be filled by gubernatorial appointment for the unexpired terms or until a successor is elected. The governor may dismiss sheriffs, district attorneys, coroners, or registers of deeds for proven malfeasance.

The governor serves as commander in chief of the Wisconsin National Guard when it is called into state service during emergencies, such as natural disasters and civil disturbances. (When National Guard units perform national service, they are under command of the U.S. President.)

The chief executive has sole power to extradite a person charged with a criminal offense and to exercise executive clemency by granting a pardon, reprieve, or sentence commutation to a convicted criminal offender. The nonstatutory Pardon Advisory Board, which was created by executive order in 1980 to expedite the pardon process, reviews applications for executive clemency and makes recommendations to the governor.

History: Before Wisconsin entered the Union, the U.S. President appointed the territorial governor, but the state constitution, adopted in 1848, gave executive powers to an elected governor. Debate during the constitutional conventions revealed reluctance to change the duties traditionally performed by the chief executive. Questions regarding the post of governor con-

centrated instead on the amount of salary, length of term, location of residence and, above all, veto power. An effort to divest the governor of veto power failed, as did attempts to vest pardoning power in the legislature and to deny the governor power to remove county officials from office for cause.

There have been several constitutional amendments adopted over the years affecting the authority of the governor. A 1967 amendment lengthened the governor's term from 2 to 4 years, effective 1971. A constitutional amendment, ratified in 1930, empowered the governor to approve appropriation bills in part, thereby creating the partial veto. Another amendment, ratified in 1990, restricted the partial veto power by forbidding the governor to create new words by striking individual letters within words. An amendment ratified in 2008 further restricted the partial veto power by forbidding the governor from creating a new sentence by combining parts of two or more sentences.

The Medical College of Wisconsin, Inc., is a private nonprofit educational corporation located in Milwaukee. The college receives a specified sum under the "student capitation" program for each Wisconsin resident it enrolls. The Higher Educational Aids Board determines whether applicants qualify as state residents. The college also receives state funds for its family medicine residency program.

The governor appoints two board of trustees members for 6-year terms. The college is required to fulfill certain reporting requirements, and the Legislative Audit Bureau conducts post-audits of expenditures made under state appropriations.

In September 1967, Marquette University terminated its sponsorship of the college, then known as the Marquette School of Medicine, Inc. To increase the supply of physicians in Wisconsin, the legislature enacted Chapter 3, Laws of 1969, which appropriated funds to the school provided Wisconsin residents received first preference for admission. The legislature made a token appropriation to test the law's constitutionality, and the Wisconsin Supreme Court ruled the law constitutional in *State ex rel. Warren v. Rueter*, 44 Wis. 2d 201 (1969). Chapter 185, Laws of 1969, fully funded state support for the college. In 1970, the college's name was changed to The Medical College of Wisconsin, Inc.

GOVERNOR'S SPECIAL COMMITTEES

June 30, 2013

The committees described in this section include those Governor Scott Walker created or continued. Most of the committees were created under Section 14.019, Wisconsin Statutes, which provides that “the governor may, by executive order, create nonstatutory committees in such number and with such membership as desired, to conduct such studies and to advise the governor in such matters as directed.” Committee members serve at the pleasure of the governor.

Unless terminated sooner, a special committee expires automatically on the fourth Monday of January of the year in which a new gubernatorial term begins. The governor may, however, provide for its continued existence by executive order. In that event, existing members continue to serve unless they resign or until the governor replaces them.

The law also provides that the governor may designate an employee of the Office of the Governor or of the Department of Administration to coordinate the activities of nonstatutory committees. In some cases, the governor has ordered other state agencies to staff and financially support committees.

When a new gubernatorial term begins, each committee is required to submit a final report to the governor or governor-elect prior to the new term. Copies of each final report and any other report a special committee prepared must be submitted to the Reference and Loan Library in the Department of Public Instruction for distribution under Section 35.83 (3), Wisconsin Statutes.

Section 20.505 (1) (ka), Wisconsin Statutes, provides for the expenses of special committees created by executive order. In addition, certain committees receive specific state appropriations, and some receive federal funds because they are established in response to federal program requirements.

The special committees are listed in alphabetical order by the key word in each committee name.

Lucey, and has been reauthorized through executive order by every governor since that time. It was most recently recreated by Governor Walker in Executive Order 6 on January 21, 2011. The original executive order provided initial guidance for the committee to advise the governor's office on a broad range of issues affecting people with disabilities. The committee's mission, "to enhance the health and general well-being of disabled citizens in Wisconsin", was created out of a realization that state government lacked a process of systematically communicating the needs of people with disabilities to responsible state and local officials. In an effort to enhance the value of the committee, the executive order was rewritten in 2004 to support a focus on issues, policies, and programs that will encourage involvement in the workforce.

The committee consists of the Lieutenant Governor as a nonvoting, *ex officio* member, and not more than 20 members, appointed by the governor to serve at his pleasure. The committee as a whole includes Wisconsin residents with disabilities and individuals that have demonstrated interest in the concerns of all disability groups. All serve as unpaid volunteers. *Nominated by the governor and appointed with the advice and consent of the senate. Senate confirmation is required for secretaries of departments, members of commissions and commissioners, governing boards, examining boards, and other boards as designated by statute.

¹List includes *only* appointments made by the governor. Additional members frequently serve *ex officio* or are appointed by other means. The governor also appoints members of intrastate regional agencies and nonstatutory committees and makes temporary appointments under statute Chapter 17 to elected state and county offices when vacancies occur. For complete membership list of unit, including officers, see full description elsewhere in the *Blue Book*. Section numbers under each entry refer to statute sections authorizing appointment by the governor. Statute Section 21.18 provides for the governor's military staff.

²Home address is the municipality from which the officer was appointed to a full-time office or the current address of part-time officials.

³Terms are specified by the following statute sections or as otherwise provided by law: Sec. 15.05 (1) - secretaries; Sec. 15.06 (1) - commissioners; Sec. 15.07 (1) - governing boards and attached boards; Sec. 15.08 (1) - examining boards and councils; Sec. 15.09 (1) - councils.

⁴Members of boards and councils are reimbursed for actual and necessary expenses incurred in performing their duties. In addition, examining board members receive \$25 per day for days worked, and members of certain other boards under statute Section 15.07 (5) receive a per diem as noted in the table. Statute Section 20.923 places state officials in one of 10 executive salary groups (ESG) for which salary ranges have been established. Group salary ranges for the period June 30, 2013 through June 27, 2015, are: Group 1: \$60,001-\$93,935; Group 2: \$64,801-\$101,450; Group 3: \$69,986-\$109,566; Group 4: \$75,586-\$118,333; Group 5: \$81,632-\$127,802; Group 6: \$88,164-\$138,029; Group 7: \$95,217-\$149,073; Group 8: \$102,836-\$160,999; Group 9: \$111,065-\$173,880; Group 10: \$119,951-\$187,793.

⁵Nominated by governor but not yet confirmed by senate.

⁶Compensation set by Economic Development Corporation Board.

Lieutenant Governor Kleefisch talks to pupils about the importance of disaster preparedness at the Student Tools for Emergency Planning (STEP) program at Woodlands School in Milwaukee. Also in attendance was General Don Dunbar, the state Adjutant General and head of the Department of Military Affairs, which contains the Wisconsin Division of Emergency Management. (Office of the Lieutenant Governor)

OFFICE OF THE LIEUTENANT GOVERNOR**Lieutenant Governor: REBECCA KLEEFISCH.***Chief of Staff and Media Inquiries: CASEY HIMEBAUCH.**Scheduling and Operations Director: MARGARET RING.**Policy Advisor: ROBERT SCHLAEGER.***Mailing Address: P.O. Box 2043, Madison 53702-2043.****Location: Room 19 East, State Capitol, Madison.****Telephone: 266-3516.****Fax: 267-3571.****Agency E-mail Address: ltgov@wisconsin.gov****Internet Address: www.ltgov.state.wi.us****Number of Employees: 4.00.****Total Budget 2011-13: \$787,0000.****Constitutional References: Article V, Sections 1, 2, 3, 7, and 8; Article XIII, Section 10.****Statutory Reference: Chapter 14, Subchapter II.**

Agency Responsibility: The lieutenant governor is the state's second-ranking executive officer, a position comparable to that of the Vice President of the United States. If the incumbent governor dies, resigns, or is removed from office, the lieutenant governor becomes governor for the balance of the unexpired term. (Prior to a constitutional amendment in April 1979, the lieutenant governor was considered only "acting governor" in those circumstances.) The lieutenant governor serves as acting governor when the governor is temporarily unable to perform the duties of the office due to impeachment, incapacitation, or absence from the state. If the lieutenant governor becomes governor, he or she must nominate a new lieutenant governor and the successor must be confirmed by the senate and the assembly.

The governor may designate the lieutenant governor to represent the governor's office on any statutory board, commission, or committee on which the governor is entitled to membership. Under such designation, the lieutenant governor has all the authority and responsibility granted by law to the governor. The governor may also designate the lieutenant governor to represent the chief executive's office on any nonstatutory committee or intergovernmental body created to maintain relationships with federal, state, and local governments or regional agencies. The lieutenant governor participates in national organizations of lieutenant governors and may be asked by the governor to coordinate specific state services and programs.

Organization: From 1848 until 1970, the lieutenant governor was elected for a 2-year term on a separate ballot in the November general election of even-numbered years. Since 1970, following amendment of the Wisconsin Constitution, voters have elected the governor and lieutenant governor on a joint ballot to a 4-year term. Candidates are nominated independently in the partisan August primary, but voters cast a combined ballot for the two offices in the November election.

History: The Territory of Wisconsin had no lieutenant governor, but the secretary of the territory was authorized to act as governor in the event of the governor's death or absence. The Wisconsin Constitution of 1848 provided for the post of lieutenant governor after considerable debate. Some delegates to the convention argued that the president of the senate, chosen from the membership of that body, should succeed the governor, with the secretary of state second in line of succession. The convention delegates who objected to a person's becoming governor without being elected on a statewide basis prevailed, however, and the post of lieutenant governor was included in the constitution.

Originally, the lieutenant governor was also the president of the senate and could cast a deciding vote in case of a tie. In 1979, the voters ratified a constitutional amendment enabling the senate to choose its own presiding officer from among its members, beginning in 1981.

Agency Responsibility: The Department of Administration (DOA) provides a wide range of support services to other state agencies. One of the chief duties of the department is to provide the governor with fiscal management information and the policy alternatives required for preparation of Wisconsin's biennial budget. It analyzes administrative and fiscal issues facing the state and recommends solutions. The department also coordinates telecommunications, energy, and land use planning and community development. It regulates racing, charitable gaming, and Indian gaming. It is responsible for managing the state's buildings and leased office space, as well as statewide facilities project planning and analysis. The department maintains a federal-state relations office in Washington, D.C.

Organization: The department is administered by a secretary appointed by the governor with the advice and consent of the senate. The secretary must be appointed "on the basis of recognized interest, administrative and executive ability, training and experience in and knowledge of problems and needs in the field of administration." The secretary appoints the department's division administrators from outside the classified service.

Unit Functions: The *Division of Administrative Services* provides numerous support services to the department and agencies attached for administrative support, including human resources, records and forms, space and property management, financial management, mail, printing, business recovery, and management planning. Other major functions are to prepare and administer the departmental budget, advise the secretary on policies and procedures, and perform internal audits. It pays the salaries and any associated fringe benefits for all district attorneys and their staff attorneys. It also reviews and pays the compensation of special prosecutors for the 71 district attorneys' offices. (Menominee and Shawano Counties share a district attorney.)

The *Division of Capitol Police* uses officers working in Madison and Milwaukee to provide a wide range of investigative, security, and related public safety services to state agencies, employees, and others. It protects state facilities; conducts criminal investigations; and provides protective services to the governor and visiting dignitaries.

The *Division of Energy Services* administers federal and statewide low-income household energy assistance programs involving conservation, weatherization, and bill payment. In coordination with local government and community action agencies, the division distributes more than \$140 million in annual energy assistance and approximately \$60 million annually to fund weatherization measures to approximately 215,000 low-income households throughout Wisconsin.

The State Energy Office is federally funded and administers federal funds received from the U.S. Department of Energy under the State Energy Program Strategic Plan and various federal laws. It develops policy options for consideration by the governor and state agencies, coordinates activities with other state agencies, identifies federal funding opportunities and facilitates applications for funding by state and local governments and private entities, and performs duties necessary to maintain federal designation and funding.

The *Division of Enterprise Operations* manages state procurement policies and contracts, auto and air fleet transportation, and risk management. The division handles statewide contracts, DOA and consolidated agency purchasing, municipal cooperative purchasing, work center contracting, federal and state surplus property disposition, state agency recycling and waste reduction programs, and minority business contracting. It oversees fleet policies, records management, interdepartmental mail, and state agency document sales and distribution. It also manages the state's self-funded programs for liability, property, and worker's compensation, and assists agencies in controlling and reducing risk management losses.

The *Division of Enterprise Technology* manages the state's information technology (IT) assets and uses technology to improve government efficiency and service delivery. It provides

computer services to state agencies and operates the statewide voice data and video telecommunications network. In consultation with business and IT managers from state agencies and local governments, the division develops strategies, policies, and standards for cross-agency and multi-jurisdictional use of IT resources. The division provides centralized security training, research, and print and mail services to other state agencies and provides statewide computer systems for district attorneys. Through the Geographic Information Office, the division coordinates Wisconsin's geospatial information activities and provides geographic information systems (GIS) services to state agencies, service organizations, and local governments.

The *Division of Executive Budget and Finance* provides fiscal and policy analysis to the governor for development of executive budget proposals and assists agencies in the technical preparation of budget requests. It reviews legislation and coordinates the fiscal estimates that accompany all expenditure bills. It also advises the State of Wisconsin Building Commission and the governor on the issuance of state debt and administers finances for the clean water revolving loan fund program. The division provides program and management evaluation and maintains the management information system for authorized state employee positions. It establishes accounting policies and procedures, maintains the state's central payroll and accounting systems, monitors agency internal control procedures, produces the state's annual fiscal and financial reports, and administers the state's Section 529 College Savings programs and the local government investment pool.

The *Division of Facilities Development* develops and administers the state building program under the direction of the State of Wisconsin Building Commission. Its functions include: statewide facilities project planning and analysis; architectural and engineering selection and design oversight; construction contract bidding and administration, and project management; and field supervision of construction projects. The division also oversees: management and operations of statewide heating plants and centralized fuel procurement; the energy conservation bonding program; and all real estate transactions requiring State Building Commission approval.

The *Division of Facilities Management* operates and maintains 30 major buildings in 7 cities throughout the state including the State Capitol, the Executive Residence, and state office build-

ings in Madison. The division is responsible for building management, tenant improvements, building service contracts, space planning and occupancy, parking administration, all state leasing and real estate transactions, and property acquisition and disposition.

The *Division of Gaming* regulates bingo, raffles, and Class III Indian gaming pursuant to state/tribal gaming compacts. The division licenses and regulates bingo games and raffles conducted by nonprofit, charitable, religious, fraternal, and service organizations. It conducts tribal gaming compliance reviews and payment audits and certifies vendors to conduct gaming business in accordance with state/tribal compacts and federal law.

The *Division of Housing* offers a broad range of financial and technical assistance to improve and expand housing, increase affordable housing opportunities, and provide services to people without housing. The variety of federal and state programs it manages benefits persons with disabilities, low- and moderate-income residents, and homeless populations. The division partners with local governments, homeless service providers, developers, and housing organizations throughout the state to improve housing conditions for low- to moderate-income Wisconsin residents. It distributes over \$30 million annually.

The *Division of Intergovernmental Relations* provides a variety of services to the public and state, local, and tribal governments. It advises the department and the governor on state, local, and tribal relationships and coordinates the state's efforts to influence federal legislation. It manages the Coastal Management Program, provides population estimates and projections, and does demographic research.

The division administers the Comprehensive Planning and Land Information Grants. Working with the Incorporation Review Board, the division reviews and issues determinations on petitions to incorporate towns into villages or cities. It oversees the Municipal Boundary Review Program and the Plat Review Program, and administers the municipal service payment program which reimburses local governments for providing police, fire, and solid waste services to state facilities.

The *Division of Legal Services*, created in Section 15.103 (1g) by 2009 Wisconsin Act 28, provides legal services to state agencies and to the Department of Administration. It provides legal assistance and advice on issues such as procurement, contracting, construction, budget development, and other common activities with the goal of bringing about greater agencywide consistency on such matters. The division is available to support and consult with agencies on contract development, negotiation, and other areas of legal expertise.

History: The legislature created the Department of Administration in Chapter 228, Laws of 1959, and authorized it to provide centralized staff services to the governor, to assume common administrative functions for other executive agencies, and to coordinate the state's business affairs. Chapter 228 also abolished the Bureaus of Engineering, Personnel, and Purchases; the Department of Budget and Accounts; and the Division of Departmental Research in the Office of the Governor. Their functions and personnel were transferred to the new department.

Since its creation, the department has assumed additional duties. State comprehensive planning responsibilities and population estimation were added in 1967 and 1972, respectively. 1976 Executive Order 36 moved the Office of Emergency Energy Assistance from the Office of the Governor to the department's State Planning Office and broadened its responsibilities to include energy policy planning and program management. The 1989 executive budget created the Division of Housing (subsequently repealed in 2003) and gave the department responsibility for grant and loan programs for low- and moderate-income housing. The 1991 executive budget created the Division of Information Technology Services (now the Division of Enterprise Technology) to consolidate and manage the state's computer and telecommunications resources.

Other functions assigned to the department have included the Coastal Management Program (1981), low-income weatherization assistance (1991), low-income energy assistance (1995), a college tuition prepayment program (1995) (transferred to the Office of the State Treasurer by 1999 Wisconsin Act 9), municipal boundary and plat review (1997), and the Wisconsin Fresh Start Program (1998).

Over the years, legislation has transferred various functions out of the department. Chapter 645, Laws of 1961, created a separate Personnel Board to review departmental decisions. Chap-

ter 196, Laws of 1977, transferred the administration of civil service, collective bargaining, and classification and compensation to the newly created Department of Employment Relations. The Division of Emergency Government, which became part of the department in 1979, was moved to the Department of Military Affairs by 1989 Wisconsin Act 31. Regulation of mobile home dealers and mobile parks was transferred to the Department of Commerce by 1999 Wisconsin Act 9. With the repeal of the Division of Housing, 2003 Wisconsin Act 33 transferred grant and loan programs for low- and moderate-income housing to the Department of Commerce. Housing programs were transferred from the Department of Commerce back to DOA by 2011 Wisconsin Act 32.

Gaming Regulation. 1997 Wisconsin Act 27 repealed the Wisconsin Gaming Board and created the Division of Gaming in the department to monitor gaming on Indian lands and regulate pari-mutuel wagering, racing, and charitable gaming.

Originally, the Wisconsin Constitution stated: “The legislature shall never authorize any lottery.” This provision was interpreted as prohibiting all forms of gambling. Following a 1973 constitutional amendment to allow charitable bingo, the legislature enacted Chapter 156, Laws of 1973, to permit bingo games and create the Bingo Control Board in the Department of Regulation and Licensing. Charitable raffles were permitted by a 1977 constitutional amendment, and the legislature assigned their regulation to the Bingo Control Board in Chapter 426, Laws of 1977.

Pari-mutuel on-track wagering and the state lottery were permitted by constitutional amendments in 1987. The legislature created the Racing Board to regulate the sport in 1987 Wisconsin Act 354. The Wisconsin Lottery, originally operated by the Lottery Board, was created by 1987 Wisconsin Act 119.

The Wisconsin Gaming Commission, created by 1991 Wisconsin Act 269, replaced the Lottery Board and the Racing Board and also assumed responsibility for Indian gaming, charitable gaming (bingo and raffles), and crane games. The Wisconsin Gaming Board, created by 1995 Wisconsin Act 27, replaced the Gaming Commission. (That act also transferred responsibility for management of the Wisconsin Lottery to the Department of Revenue.) 1997 Wisconsin Act 27 transferred gaming duties, except for lottery regulation, to the Department of Administration. 2011 Wisconsin Act 32 eliminated the Office of Energy Independence and transferred to DOA from the Office of the State Treasurer responsibility for the state’s Section 529 College Savings programs and the local government investment pool.

With the creation of the Department of Corrections in 1990, the legislature transferred a portion of the Office of Administrative Hearings from the Departments of Health and Social Services to the division, making the division responsible for parole, probation, and juvenile aftercare revocation. When the Office of the Commissioner of Transportation was abolished in 1993, the legislature transferred many Department of Transportation hearing functions to the division. OJA provides financial and technical assistance to public safety, first response and emergency management agencies, local and tribal governments, and nonprofit organizations throughout the state.

OJA is the state's administering agency (SAA) for federal criminal justice and homeland security grant funds including the federal Juvenile Justice Delinquency Prevention Act, Violence Against Women Act, Justice Assistance Grant program, and State Homeland Security Grant program. OJA is the applicant agency for federal discretionary criminal justice and homeland security grant programs including Grants to Encourage Arrests, National Criminal History Improvement Program, National Instant Criminal Background Check System, Residential Substance Abuse Treatment program, and others. State funded grant programs include Beat Patrol; Treatment Alternatives and Diversion; Child Advocacy Centers; and Youth Diversion grants.

OJA's has primary responsibility for carrying out the state coordination of automated justice information systems among state and local criminal justice agencies. OJA's Wisconsin Justice Information Sharing (WIJIS) program provides a statewide strategic vision of justice information sharing as well as innovative technical solutions that improve information sharing between law enforcement and justice agencies, and the flow of electronic information through the justice system.

OJA's Statistical Analysis Center (SAC) conducts research and publishes reports on high visibility justice issues. The SAC manages the state's Uniform Crime Reporting and Incident-based Reporting programs, Juvenile Secure Detention Records database, and Treatment Alternatives and Diversion data analysis.

OJA is responsible for the development and implementation of the statewide public safety interoperable communication system. OJA develops the Statewide Homeland Security Plan, and leads efforts to identify gaps in the state's protection, set priorities for use of federal funds to fill those gaps and awards grants to increase the capacity of first responders and communities to prevent, respond to, and recover from catastrophic events, including terrorist attacks.

OJA also assists in locating and registering sex offenders who have not complied with the state's sex offender registry requirements.

Several advisory groups and gubernatorial appointed commissions advise OJA on its programs and funding decisions, including the Governor's Juvenile Justice Commission, Interoperability Council, Violence Against Women Act Advisory Committee, WIJIS Policy Advisory Group, Treatment Alternatives and Diversion advisory group, and numerous other justice and grant advisory groups.

The Office of Justice Assistance originally was known as the Wisconsin Council on Criminal Justice, created by executive order in 1969 in the Department of Justice as the state planning body required by the federal Law Enforcement Assistance Administration. In 1971, the council was transferred by executive order to the governor's office. Chapter 418, Laws of 1977, created the council as a statutory agency in the governor's office. 1983 Wisconsin Act 27 created the council as an independent statutory body and attached it to the Department of Administration. The council was repealed and recreated under its current name by 1987 Wisconsin Act 27.

Agency Responsibility: The board, formerly the Council on Developmental Disabilities, advises the Department of Administration, other state agencies, the legislature, and the governor on matters related to developmental disabilities. The statutes do not specify the exact number of board members, but all who serve are appointed to staggered 4-year terms, must be state residents, represent all geographic areas of the state, and the state's diversity with respect to race and ethnicity. The public members appointed by the governor must include representatives of public and private nonprofit agencies that provide direct services at the local level to persons with developmental disabilities. Total Budget 2011-13: \$3,094,400.

Constitutional Reference: Article X, Sections 2, 5, 6, 7, and 8.

Statutory References: Section 15.103 (4) and Chapter 24.

Agency Responsibility and History: The Board of Commissioners of Public Lands and its Division of Trust Lands and Investments manage the state's remaining trust lands, manage trust funds primarily for the benefit of public education, and maintain the state's original 19th century land survey and land sales records.

The board was created in 1848 by Article X of the Wisconsin Constitution to manage and sell lands that were granted to the state by the federal government for the purposes of supporting public education and developing the state's infrastructure. Nearly all of the approximately 3.6 million acres from federal land grants that were placed into trust for the benefit of public education have been sold. The agency still holds title to about 76,000 acres of trust lands. Of those remaining lands, almost 71,000 acres are Normal School Trust Lands and nearly 5,200 acres are Common School Trust Lands. The School Trust Lands are managed for timber production, natural area preservation, and public use.

The constitution established "a board of commissioners for the sale of school and university lands and for the investment of funds arising therefrom" consisting of the Secretary of State, State Treasurer, and Attorney General. The Revised Statutes of 1849 created the Board of Commissioners of the School and University Lands. In 1878, the board was renamed the Board of Commissioners of Public Lands. Chapter 75, Laws of 1967, created the Division of Trust Lands and Investments, under the supervision of the board, to serve as the board's operating agency. The board appoints an executive secretary outside the classified service to administer the division. The division was originally attached to the Department of Natural Resources. Since then, the legislature has successively attached the division to the Department of Justice (Chapter 34, Laws of 1979), the Department of Administration (1993 Wisconsin Act 16), the Office of the State Treasurer (1995 Wisconsin Act 27), and again to the Department of Administration (1997 Wisconsin Act 27).

The agency manages four "trust funds", the largest of which is the Common School Fund. The principal of this fund continues to grow through the collection of fees, fines, and forfeitures that accrue to the state. Most of the trust fund assets are invested in loans to Wisconsin municipalities and school districts through the State Trust Fund Loan Program. The loans finance a wide variety of public purpose projects statewide while providing the trust funds with a reasonable rate of return at low risk. Over the last five years, Wisconsin citizens have benefited from \$625.76 million in trust fund loans used to support community, public safety, economic development, and school projects. Trust assets that are not invested in trust fund loans are invested in state and municipal bonds and the State Investment Fund.

The net earnings of the Common School Fund are distributed annually by the Department of Public Instruction to all Wisconsin public school districts. During the 2012 and 2013 fiscal years, a total of \$62.6 million in earnings were distributed from the Common School Fund to support public school libraries throughout Wisconsin. The other small trust funds are used to support the University of Wisconsin and the state's general fund. 2005 Wisconsin Act 352 enables the board to use the proceeds of the state of trust lands to purchase other property to improve timberland management, prevent forest fragmentation, or increase public access to existing land holdings. Over the last five years, the agency has increased lands managed for timber by 10%, decreased unproductive lands by 17%, and increased public access by 16%. In the process of realigning trust land ownership, 8,234 acres of high quality natural areas and wildlife habitat have been transferred to the Department of Natural Resources.

Publications: General Schedules for Records Common to State Agencies and Local Units of Government; miscellaneous training and records materials.

Statutory References: Sections 15.105 (4) and 16.61.

Agency Responsibility: The Public Records Board is responsible for the preservation of important state records, the cost-effective management of records by state agencies, and the orderly disposition of state records that have become obsolete. State agencies must have written approval from the board to dispose of records they generate or receive.

1991 Wisconsin Acts 39 and 269 directed the board to create a registry of those record series that contain personally identifiable information and made it the repository for general information about state computer matching programs.

Originally created by Chapter 316, Laws of 1947, as the Committee on Public Records and placed under the State Historical Society, the agency was transferred to the governor's office by Chapter 547, Laws of 1957. The committee was renamed the Public Records Board and attached to the Department of Administration by Chapter 75, Laws of 1967. Chapter 350, Laws of 1981, changed the board's name to the Public Records and Forms Board and added forms management to its duties. In 1995, Wisconsin Act 27 designated the board's current name and removed its forms management duties.

SMALL BUSINESS REGULATORY REVIEW BOARD

Members: SENATOR MOULTON (senate small business committee chairperson), REPRESENTATIVE MARKLEIN (assembly small business committee chairperson); STEVE DAVIS, ERICH KORTH, JIM RING, MINOO SEIFODDINI, KIMBERLY VELE, GUY WOOD, THOMAS WULF (appointed by governor).

Statutory References: Sections 15.105 (33), and 227.30.

Agency Responsibility: The 9-member Small Business Regulatory Review Board may determine that a newly filed emergency rule would have a significant fiscal impact on small businesses, defined as ones that employ 25 or fewer full-time employees or have gross annual sales of less than \$5 million. The board may further determine whether the issuing agency has complied with statutory provisions that seek to reduce the impact of rules on small businesses and whether the data used to propose a rule is accurate. If the board finds an agency has not

complied with the law, it may request compliance from that agency, and, in addition, suggest changes to the proposed rule. The board may also review state agency rules and guidelines to determine whether they place an unnecessary burden on small businesses. If the board determines a rule or guideline does place an undue burden on small businesses, it submits a report and recommendations to the Joint Committee for Review of Administrative Rules.

The 7 members the governor appoints represent small business and serve 3-year terms. The senate majority leader and assembly speaker each appoint one chairperson from standing committees concerned with small business. The board was created by 2003 Wisconsin Act 145 and its membership was revised by 2007 Wisconsin Act 20 and 2011 Wisconsin Acts 32 and 46.

Agency Responsibility: The Office of State Employment Relations is responsible for personnel and employment relations policies and programs for state government employees. The office administers the state's classified service, which is designed to staff state governmental agencies with employees chosen on the basis of merit. It evaluates job categories, determines employee performance and training needs, and assists managers in their supervisory duties. The office sets standards for and ensures compliance with affirmative action plans and provides training on human resource programs to supervisors, managers, human resource staff, and other state employees. It represents the executive branch in its role as an employer under the state's employment relations statutes.

A director, appointed by the governor, administers the office. The director appoints the administrators of the Division of Affirmative Action and Workforce Planning and the Division of Compensation, Classification and Labor Relations from outside the classified service. The governor appoints the administrator of the Division of Merit Recruitment and Selection to a 5-year term, with the advice and consent of the senate, based on a competitive examination. The governor may appoint the administrator for subsequent 5-year terms with the senate's consent.

Unit Functions: The *Division of Affirmative Action* administers the state's equal employment opportunity/affirmative action (EEO/AA) program and reports annually to the governor and legislature about the affirmative action accomplishments of state agencies. It develops state EEO/AA policies, procedures and programs; establishes state standards for agencies, the University of Wisconsin System, and legislative service agencies; approves and monitors agency EEO/AA plans, analyzes state workforce data for use in developing EEO/AA reports and recommendations. It monitors the effect of personnel transactions, hiring processes and employment conditions at state agencies to ensure that AA group members are not adversely affected, provides information and technical assistance to agencies to assist in the development of innovative personnel programs to increase the effectiveness of state EEO/AA efforts, assists in compliance investigations, helps state agencies in the recruitment for hard-to-fill positions, provides EEO/AA and diversity training to supervisors and managers, and provides support staff to the Council on Affirmative Action.

The *Division of Compensation, Classification and Labor Relations* administers the state's compensation plan and leave statutes and policies. It also assists in state agency compliance with the federal and state family and medical leave acts. The division represents the state as the employer in negotiating wages, benefits, and working conditions with the certified labor unions that represent state employees, and those contracts must then be ratified by the legislature. The division serves the state in arbitration proceedings and conducts labor relations training programs for state management representatives. It assigns nonrepresented classifications to pay ranges and assigns certain represented classifications to pay ranges as part of the collective bargaining process. It also assists in state agency compliance with protective occupation determinations and the federal Fair Labor Standards Act.

The *Division of Merit Recruitment and Selection*, created in Section 15.105 (29)(b) in 2003 Wisconsin Act 33, administers the state's civil service system by coordinating the recruiting, testing, evaluating, and hiring of applicants. It conducts and coordinates training for state managers and human resources staff. The division assists agencies in workforce planning and administers layoffs, transfers, and reinstatements of nonrepresented classified employees. It allocates positions to classifications and administers the state's performance evaluation program. The division operates Wisconsin Personnel Partners, which provides personnel services to local government units, and the Wisconsin Certification Examination Services, which provides licensure examination services to agencies on a fee basis. The division also oversees the administra-

tion of employee assistance programs in all state agencies, under which state employees and their families may receive assistance with personal or work-related problems.

History: An office that administers state employment procedures dates back to the creation of a State Civil Service Commission in Chapter 363, Laws of 1905. The law declared that appointments to and promotions in the civil service would be made only according to merit. Chapter 456, Laws of 1929, reconstituted the commission as the Personnel Board within the newly created Bureau of Personnel. This structure continued for 30 years until the legislature placed the board and bureau in the new Department of Administration, created in Chapter 228, Laws of 1959.

In 1972, Governor Patrick Lucey issued an executive order creating an affirmative action unit in the Bureau of Personnel. The order also directed the head of every state agency to encourage women and minorities to apply for promotions and to designate an affirmative action officer responsible for developing an affirmative action plan.

Chapter 196, Laws of 1977, created the Department of Employment Relations and transferred to it from the Department of Administration the organizational units and functions of the Employee Relations Division, including affirmative action, personnel, collective bargaining, and human resources services.

The legislature reorganized personnel functions in 1983 Wisconsin Act 27 by assigning classification and compensation responsibility to the secretary and recruitment and examination responsibility to a statutorily created Division of Merit Recruitment and Selection. The same law created the Personnel Board as an independent agency to review civil service rules and investigate and report on their impact. 1989 Wisconsin Act 31 abolished the Personnel Board and transferred its functions to the department. The 2003-05 biennial budget, Act 33, abolished the department and created the Office of State Employment Relations attached to the Department of Administration.

The Service Award Program operates under the direction of an 8-member Volunteer Fire Fighter and Emergency Medical Technician Service Award Board appointed by the governor. It establishes by rule a tax-deferred benefit program for volunteer fire fighters, emergency medical technicians, and first responders based on their length of service to a community. The program is designed to assist municipalities in retaining volunteers. The board contracts with qualified organizations to provide investment plans and administrative services to municipalities that choose to participate in the service awards program, and the communities make payments directly to the plan providers. In appointing the board members, who serve 3-year terms, the governor must seek representatives from different regions of the state and from municipalities of different sizes. Representatives of the fire chiefs and volunteer fire fighters organizations must be volunteer fire fighters themselves. The board was created by 1999 Wisconsin Act 105.

Agency Responsibility: The Department of Agriculture, Trade and Consumer Protection regulates agriculture, trade, and commercial activity in Wisconsin for the protection of the state’s citizens. It enforces the state’s primary consumer protection laws, including those relating to deceptive advertising, unfair business practices, and consumer product safety. The department oversees enforcement of Wisconsin’s animal health and disease control laws and conducts a variety of programs to conserve and protect the state’s vital land, water, and plant resources.

The department administers financial security programs to protect agricultural producers, facilitates the marketing of Wisconsin agricultural products in interstate and international markets, and promotes agricultural development and diversification.

Organization: The 9 members of the Board of Agriculture, Trade and Consumer Protection serve staggered 6-year terms. Of the board members, 2 must be consumer representatives and 7 must have an agricultural background. Appointments to the board must be made “without regard to party affiliation, residence or interest in any special organized group”. The board directs and supervises the department, which is administered by a secretary appointed by the governor with the advice and consent of the senate. The secretary appoints the division administrators from outside the classified service.

Unit Functions: The *Division of Agricultural Development* provides services to assist producers, agribusinesses, and organizations to develop local, state, national, and international markets for Wisconsin agricultural products and to foster agricultural development and diversification in the state. It also provides counseling and mediation services to farmers, administers a rural electric power service program with the Public Service Commission, and oversees the operation of producer-elected marketing boards that assess fees within their respective groups for promotion, research, and education related to their commodities. The division also administers Agricultural Development and Diversification grants, a federal-state market news program, the “Something Special from Wisconsin” and Alice in Dairyland marketing programs, as well as the state aid programs for county and district fairs, the Livestock Breeders Association, and World Dairy Expo.

The *Division of Agricultural Resource Management* administers programs designed to protect the state’s agricultural resources, as well as public health and the environment. It works to pre-

vent agricultural practices that contaminate surface water and groundwater and jointly administers a nonpoint source pollution control program with the Department of Natural Resources. It directs programs related to farmland preservation and soil and land conservation, agricultural chemical cleanup, drainage districts, and agricultural impact statements. It regulates the sale and use of pesticides, animal feed, fertilizers, seed, and soil and plant additives and conducts programs to prevent and control plant pests, such as the gypsy moth.

The *Division of Animal Health* works closely with agricultural producers and veterinarians to diagnose, prevent, and control serious domestic animal diseases that threaten public health and the food chain. It licenses and inspects animal dealers and markets, regulates the import and export of animals across state lines, acts to prevent the spread of animal diseases, and assists in the enforcement of state humane laws. Through the Premises Identification Program, it registers persons who keep livestock and assigns an identification code to each place at which livestock are kept to facilitate animal disease control. It also regulates emerging industries, such as aquaculture and farm-raised deer.

The *Division of Food Safety* protects the state's food supply. From production through processing, packaging, distribution, and retail sale, the division works to ensure safe and wholesome food and to prevent fraud and misbranding in food sales. It licenses and inspects dairy plants, food and beverage processing establishments, meat slaughter and processing facilities, food warehouses, grocery stores, and other food establishments. The division inspects all dairy farms; inspects and samples food products; oversees food grading; and regulates the advertising, packaging, and labeling of food products.

The *Division of Management Services* provides administrative services to the department, including budget and accounting; facilities and fleet management; shipping, mailing, and printing; human resource management; and information technology services. The division also operates a general laboratory that provides analytical support to departmental inspection and sampling programs.

The *Division of Trade and Consumer Protection* enforces a wide range of consumer protection laws and handles nearly 200,000 consumer complaints and inquiries annually. It promulgates and enforces rules pertaining to deceptive advertising, consumer fraud, consumer product safety, landlord-tenant practices, home improvement, telecommunications, telemarketing, motor vehicle repair, fair packaging and labeling, weights and measures, and many other aspects of marketing. To promote fair and open competition in the marketplace, the division investigates and regulates unfair and anticompetitive business practices. It monitors the financial condition and business practices of dairy plants, grain warehouses, food processing plants, and public storage warehouses in order to protect agricultural producers and depositors. It also administers the state's Telemarketing No-Call List.

History: The present form of the Department of Agriculture, Trade and Consumer Protection is largely the result of the consolidation of several related agencies in 1929, but the department traces its lineage and responsibilities back to pre-statehood days.

From its beginnings, Wisconsin has been concerned with agriculture; food quality, safety, and labeling; plant and animal health; unfair business and trade practices; and consumer protection, and has taken steps to protect the public. The 1839 territorial legislature provided for the inspection of certain food and other products and established a program to regulate weights and measures. County inspectors were responsible for certifying the grade, wholesomeness, quantity, and proper packaging of food and distilled spirits, with county treasurers charged with enforcing the weights and measures standards. The 1867 Legislature, in Chapter 176, authorized the governor to appoint a treasury agent to enforce the laws relating to itinerant sales by "hawkers and peddlers". The 1889 Legislature, in Chapter 452, created the Office of the Dairy and Food Commissioner to enforce food safety, food labeling, and weights and measures laws. Other legislation over the years created various related functions such as the State Veterinarian, the State Board of Agriculture, the Inspector of Apiaries, the State Orchard and Nursery Inspector, the State Supervisor of Illuminating Oils, and the State Humane Agent.

The Department of Agriculture was created by Chapter 413, Laws of 1915, which combined the functions of several prior entities including the Board of Agriculture, Livestock Sanitary Board, State Veterinarian, Inspector of Apiaries, and Orchard and Nursery Inspector. Under the control and supervision of a Commissioner of Agriculture appointed by the governor with senate consent, the department had the responsibility to promote the interests of agriculture, dairying, horticulture, manufactures, and the domestic arts. It collected and published farm crop, livestock, and other statistics relating to state resources and regulated the practice of veterinary medicine. Through its own informational publications and paid advertisements in print media both inside the country and in foreign lands, it also sought to further the "development and enrichment" of the state by attracting "desirable immigrants" and "capital seeking profitable investment". These efforts were intended to promote the advantages and opportunities offered by the state "to the farmer, the merchant, the manufacturer, the home seeker, and the summer visitor".

The Division of Markets was created within the Department of Agriculture by Chapter 670, Laws of 1919. The duty of the division was to promote, in the interest of the producer, distributor, and consuming public, the economical and efficient distribution of farm products. Responsibilities included devising systems for marketing, grading, standardization, and storage of farm products; preventing deceptive practices; maintaining a market news service for collecting and reporting information on the supply, demand, prices, and commercial movement of farm products; and designing copyrighted trademarks, labels, and brands for Wisconsin farm products. A separate Department of Markets was created by Chapter 571, Laws of 1921, under the direction of a commissioner of markets appointed by the governor with senate consent. The department retained most of the duties of the former division, but was allowed to give assistance to cooperative associations and was specifically charged with regulating unfair methods of competition in business and unfair trade practices.

The modern department had its inception when Chapter 479, Laws of 1929, created the Department of Agriculture and Markets by consolidation of the Department of Agriculture, the Department of Markets, the Dairy and Food Commissioner, the State Treasury Agent, the State Supervisor of Inspectors of Illuminating Oils, and the State Humane Agent. The department,

which was under the control of three commissioners appointed by the governor with senate consent, assumed all duties performed by the component agencies. The department was reorganized and renamed the Department of Agriculture by Chapter 85, Laws of 1939, but its basic mission and authority was not changed. The department was overseen by a 7-member State Board of Agriculture, whose members, appointed by the governor with senate consent, in turn appointed the department's director. All members of the board were required to be persons experienced in farming.

The department's name was changed to the current Department of Agriculture, Trade and Consumer Protection by Chapter 29, Laws of 1977. This law also specified that one of the 7 board members must be a consumer representative.

1995 Wisconsin Act 27 directed the governor, rather than the board, to appoint the department secretary with senate consent, and expanded the board's membership to 8, including 2 consumer representatives. The board continues to set policy for the agency. Act 27 also consolidated the administration of most consumer protection activities within the department by transferring some staff and functions from the Department of Justice. However, the Department of Justice cooperates in the enforcement of consumer protection laws by providing legal services such as civil litigation. 1997 Wisconsin Act 95 added a ninth board member to represent agriculture.

In recent decades, the legislature has expanded the department's responsibilities related to land and water resources, including the areas of soil conservation, drainage districts, ground-water protection, nonpoint source pollution abatement, pesticides, animal disease control, and agricultural chemical storage and cleanup. It has allowed the department to create marketing boards for agricultural commodities, to promote agricultural development and diversification, and promote the state's agricultural products in interstate and international markets. The department also conducts programs for protecting producers against catastrophic financial defaults, farmland preservation, and farm mediation.

Agency Responsibility: The Department of Children and Families provides or oversees county provision of various services to assist children, youth, and families, including services for children in need of protection or services for their families, adoption and foster care services, licensing of facilities that care for children, background investigations of child caregivers, and child abuse and neglect investigations. It administers the Wisconsin Works (W-2) program, including the child care subsidy program, child support enforcement and paternity establishment, and programs related to the Temporary Assistance to Needy Families (TANF) income support program. The department works to ensure families have access to high quality and affordable early care and education and also administers the licensing and regulation of day care centers.

Organization: The department is administered by a secretary who is appointed by the governor with the advice and consent of the senate. The secretary appoints the division administrators from outside the classified service.

Unit Functions: The *Division of Early Care and Education* is responsible for the child care licensing and quality improvement programs, including YoungStar; administers the Wisconsin Shares program; and manages the Milwaukee Early Care Administration.

The *Division of Family and Economic Security* is responsible for the W-2, child support, and refugee services programs.

The *Division of Management Services* oversees the department's budget, financial management, information systems and technology; regional operations; human resource services and employment relations; affirmative action and civil rights compliance; purchasing and contract administration; facilities management; project management; and other administrative services.

The *Division of Safety and Permanence* directly administers child welfare services in Milwaukee County, supervises county-administered child welfare services in the balance of the state, and manages related programs including prevention services and the Special Needs Adoption program.

History: By the time the federal government entered the field of public welfare during the Great Depression of the 1930s, Wisconsin had already pioneered a number of programs, including aid to children and pensions for the elderly (enacted in 1931). The Wisconsin Children's Code, enacted by Chapter 439, Laws of 1929, was one of the most comprehensive in the nation. The state's initial response to federal funding was to establish separate departments to administer social security funds and other public welfare programs. After several attempts at reorganization and a series of studies, the legislature established the State Department of Public Welfare in Chapter 435, Laws of 1939, to provide unified administration of all existing welfare functions. Public health and care for the aged were delegated to separate agencies.

The executive branch reorganization act of 1967 created the Department of Health and Social Services. The Board of Health and Social Services, appointed by the governor, directed the new department and appointed the departmental secretary to administer the agency, whose responsibilities included public welfare. In Chapter 39, Laws of 1975, the legislature abolished the board and replaced it with a secretary appointed by the governor with the advice and consent of the senate. That same law called for a reorganization of the department, which was completed by July 1977. The Department of Health and Social Services was renamed the Department of Health and Family Services (DHFS), effective July 1, 1996.

The decades of the 1960s and 1970s saw an expansion of public welfare and health services at both the federal and state levels. Especially notable were programs for medical care for the needy and aged (Medical Assistance and Medicare), drug treatment programs, food stamps, and Aid to Families with Dependent Children Program (AFDC). DHFS was assigned additional duties during the 1980s in the areas of child support, child abuse and neglect, and welfare reform.

1995 Wisconsin Act 27 revised AFDC and transferred it and other income support programs including Medical Assistance eligibility and food stamps to the Department of Workforce Development (DWD). (Wisconsin Works, known as W-2, replaced AFDC in 1995 Wisconsin Act 289.) Existing welfare reform programs, including Job Opportunities and Basic Skills (JOBS), Learnfare, Parental Responsibility, and Work-Not-Welfare, were also transferred to DWD, along with child and spousal support, the Children First Program, Older American Community Service Employment, refugee assistance programs, and vocational rehabilitation functions. facilities plan review was transferred from the Department of Industry, Labor and Human Relations to DHFS by 1995 Wisconsin Act 27. Act 27 also transferred laboratory certification to the Department of Agriculture, Trade and Consumer Protection and low-income energy assistance to the Department of Administration.

As a result of 1995 Wisconsin Act 303, DHFS assumed responsibility for direct administration and operation of Milwaukee County child welfare services. 2001 Wisconsin Act 16 transferred the Medical Assistance Eligibility Program and the Food Stamp Program to DHFS from the Department of Workforce Development.

2007 Wisconsin Act 20 created the Department of Children and Families (DCF), beginning July 1, 2008. It also changed the name of DHFS to the Department of Health Services and split the responsibilities of DHFS between the two departments. Act 20 transferred from DHFS to DCF the duty to provide or oversee county supervision of various services to assist children and families, including services for children in need of protection or services and their families, adoption services, licensing of facilities that provide care for children, child caregiver background investigations, and child abuse and neglect investigations. The act also transferred from DWD to DCF administration of Wisconsin Works, including the child care subsidy program, child support enforcement and paternity establishment, and programs related to temporary assistance for needy families (TANF).

Agency Responsibility: The Department of Corrections administers Wisconsin's state prisons, community corrections, and juvenile corrections programs. It supervises the custody and discipline of all inmates in order to protect the public and seeks to rehabilitate offenders and reintegrate them into society. The department currently operates 19 correctional facilities and 16 correctional centers for adults, and 2 facilities for juveniles. It also supervises offenders on probation, parole, and extended supervision; monitors compliance with deferred prosecution programs; and may make recommendations for pardons or commutations of sentence when requested by the governor. The department maintains the sex offender registry for those who are required by law to register. The department also monitors sex offenders who are required by law to be on lifetime GPS.

Organization: The department is headed by a secretary who is appointed by the governor with the advice and consent of the senate. The secretary appoints the division administrators from outside the classified service.

Unit Functions: The *Office of the Secretary* ensures the overall mission of the department is achieved. Services and initiatives directly supervised by the Office of the Secretary include legal counsel, public information, reentry, and the Prison Rape Elimination Act. The reentry initiative is a crime prevention strategy designed to increase the number of offenders who live productive, law-abiding lives from admission to custody through supervision in the community.

The *Office of Detention Facilities*, in the office of the secretary, is responsible for the inspection and evaluation of all local detention facilities, including jails, houses of correction, secure juvenile detention centers, and municipal lockups. It provides technical assistance and training on various detention issues.

The *Division of Adult Institutions* supervises adult inmates in a variety of correctional settings. It assigns inmates to one of 6 security classifications, based on their records, backgrounds, and the risk they may pose to the public, correctional officers, and other inmates.

Security classifications include 2 levels each of maximum, medium, and minimum security. These levels determine how closely inmates are guarded, how restricted their movements are within the institution, and the programs in which they may participate. Although prisons are classified by the highest level of security for which the facility is built and administered, an individual facility may contain several security levels.

The prison program is designed to offer offenders opportunities to develop skills necessary to lead law-abiding lives upon release. Services include evaluation of an offender's background and needs and the provision of programs to meet those needs. Programs include academic and vocational education, alcohol and other drug abuse treatment, other clinical treatment, work, and religious observance. The division offers job training for inmates through Badger State

Industries, which produces various items, including furniture, textiles and linens, license plates, and signs.

The division also administers 16 minimum security correctional centers across the state. Center staff work closely with probation and parole agents to assist the transition of inmates back into the community. Center programming includes basic education, alcohol and drug counseling, work experience, and work release.

The *Division of Community Corrections* supervises persons released on parole and extended supervision, as well as those placed on probation by the court. The supervision is community-based to strengthen family and community ties, encourage lawful behavior, and provide local treatment programs. Probation and parole agents hold offenders accountable for their behavior, provide direct services, and refer their clients to community service agencies. They also provide investigative services to the courts, the Division of Adult Institutions, and the Parole Commission to aid in sentencing, institutional programming, and parole planning. Under limited circumstances, agents supervise juveniles released to aftercare programs, persons conditionally released from mental health facilities, and sexually violent persons placed on supervised release. The division is also responsible for the sex offender registry and the electronic monitoring center.

The *Division of Juvenile Corrections*, created in Section 301.025, Wisconsin Statutes, by 1995 Wisconsin Act 27, administers programs to treat and rehabilitate delinquent youth and protect the public. It operates the state's juvenile corrections institutions and community corrections programs. Through its Juvenile Offender Review Program, the division determines whether offenders in the institutions are eligible for release, oversees the aftercare services of those who are released, and selects the participants for intensive surveillance under the Corrective Sanctions Program. The division also administers the Community Youth and Family Aids Program, which offers financial incentives to counties to divert juveniles from state institutions and into less restrictive community rehabilitation programs, and it awards grants to counties that participate in the Intensive Aftercare Program, which offers a wide range of social, educational, and employment assistance.

The *Division of Management Services* provides budgeting, research, data processing, personnel, and telecommunications services and oversees accounting, procurement, and facilities management.

History: In Chapter 288, Laws of 1851, the legislature established a commission to locate and supervise the building and administration of a state prison. The commissioners chose Waupun as the site and the facility was opened in 1852. Waupun housed both male and female offenders until 1933 when the Wisconsin Prison for Women opened in Taycheedah.

From 1853 to 1874 an elected state prison commissioner ran the prison. Beginning in 1874, the governor appointed three state prison commissioners to hire a warden and direct state prison operation. In 1881, prisons and other public welfare functions were placed under the supervision of the State Board of Supervision of Wisconsin Charitable, Reformatory and Penal Institutions, subsequently renamed the State Board of Control of the Wisconsin Reformatory, Charitable and Penal Institutions in 1891. Both adult and juvenile facilities came under the board's control.

By 1939, the Division of Corrections within the newly created Department of Public Welfare had assumed supervision of prisons, juvenile institutions, and probation and parole. Under the 1967 executive branch reorganization, the division became part of the Department of Health and Social Services. The division was reorganized as a separate Department of Corrections in 1989 Wisconsin Act 31, but responsibility for juvenile offenders remained with the Department of Health and Social Services until 1995 Wisconsin Act 27 transferred juvenile corrections and related services to the Department of Corrections.

Waupun was the state's only prison until 1898, when the Wisconsin State Reformatory for prisoners from 16 to 30 years-of-age opened at Green Bay. The age limitation was repealed in 1966 and the facility was renamed the Green Bay Correctional Institution in 1978. A separate facility for women, the Industrial Home for Women, began operations in Taycheedah in 1921. The Wisconsin Prison for Women at Taycheedah opened in 1933. Fox Lake Correctional Institution opened in 1962. Further expansion of the state prison system occurred when Kettle

Moraine Boys School was converted to an adult institution in 1975, followed by the conversion of Oregon School for Girls to a minimum security prison (Oakhill) in 1977. Dodge Correctional Institution, which serves as reception and evaluation center for all adult male felons sentenced by Wisconsin courts, opened in 1978. Rapid growth of the prison population led to the opening of Columbia and Oshkosh Correctional Institutions in 1986, Racine Correctional Institution in 1991, Jackson Correctional Institution in 1996, the Wisconsin Secure Program Facility located in Boscobel, in 1999, Redgranite Correctional Institution in 2001, Stanley Correctional Institution in 2003, and New Lisbon Correctional Institution in 2004. The department opened a minimum security facility to serve the needs of inmates with alcohol and other drug abuse problems in Chippewa Falls in 2004.

While the capacity of Wisconsin prisons had grown considerably since 1986, the number of inmates confined to adult institutions grew from just over 6,000 in 1989 to more than 15,000 in 1995. As a result, 1995 Wisconsin Act 344 authorized the department to contract with other states to house Wisconsin inmates. 1997 Wisconsin Act 27 authorized housing state inmates in private prisons in other states. By the end of 2002, out-of-state prisons housed more than 3,400 Wisconsin inmates. Near the end of 2004, fewer than 300 inmates were located out-of-state, due to new institutions, an increased number of beds at existing prisons, expanded contracting with county sheriffs to house inmates in county jails, and expanded noninstitutionalization options created in 2003 Wisconsin Act 33. By 2006, all out-of-state inmates were returned to Wisconsin facilities.

Wisconsin's first juvenile institution for boys opened in 1860 at Waukesha and was replaced by Kettle Moraine at Plymouth in 1963. A second facility, Wisconsin School for Boys, which was subsequently renamed the Ethan Allen School, opened at Wales in 1959. Lincoln Hills School for Boys began operations in 1970. (It was opened to girls in 1976 and the school was renamed.) The first juvenile institution for girls was established in 1875 in Milwaukee as a private agency that received state aid. The Wisconsin School for Girls, later renamed the Oregon School for Girls, opened in 1931 and closed in 1976. Girls were then sent to Lincoln Hills. In response to concerns about overcrowding at Lincoln Hills and the need for treatment programs for girls, the legislature authorized a separate facility, which opened as Southern Oaks Girls School at Union Grove in 1994. Another juvenile facility was opened in Prairie du Chien in 1997, but it has been converted into a medium security adult prison. 2011 Wisconsin Act 32 closed the Ethan Allen School and the Southern Oaks Girls School, with the boys from Ethan Allen school transferred to Lincoln Hills and the girls from Southern Oaks transferred to a new Copper Lake Girls School located on the Lincoln Hill grounds.

Probation and parole were unknown in the early years of statehood. Criminal sentences were for definite periods of time and to be fully served. Until 1860, executive pardons were the only means for early release. Chapter 324, Laws of 1860, established early releases for good behavior, known as "good time". Calculations of good time ended with the adoption of mandatory release dates for crimes committed after May 31, 1984. Parole was first enacted in 1889, but was apparently invalidated by the Wisconsin Supreme Court. New parole provisions were enacted in 1897 for the Green Bay Reformatory and for the Waupun State Prison in Chapter 110, Laws of 1907. That law allowed the State Board of Control to parole inmates with the governor's approval, but the approval requirement was removed in 1947. The State Board of Control was also given supervisory responsibility for offenders placed on probation in 1909. Currently, the Parole Commission, created in 1989, has final authority in granting discretionary paroles. Under 1997 Wisconsin Act 283, a person who is convicted of a felony committed on or after December 31, 1999, and sentenced to prison must serve a specified time in prison followed by a specified period of extended supervision in the community. Persons given this bifurcated sentence were not eligible for parole. The Earned Release Review Commission was created by 2009 Wisconsin Act 28. It authorized the commission to consider eligible inmates to be considered for release from incarceration to extended supervision depending on the nature of the crime, the time it was committed, and other factors such as the health or age of the inmate. Most incarcerated prisoners were able to earn "positive adjustment time" (sometimes referred to as "good time") for complying with prison regulations or performing assigned duties. 2011

Wisconsin Act 38 again renamed the body the Parole Commission and substantially repealed most early release provisions.

The commission's statutory predecessor, the Parole Board, was created by Chapter 221, Laws of 1979, to advise the secretary of health and social services, and its members were appointed by the secretary. The Parole Commission was created by 1989 Wisconsin Act 107. The Earned Release Review Commission was created by 2009 Wisconsin Act 28. It authorized the commission to consider eligible inmates to be considered for release from incarceration to extended supervision depending on the nature of the crime, the time it was committed, and other factors such as the health or age of the inmate. Most incarcerated prisoners were able to earn "positive adjustment time" (some-times referred to as "good time") for complying with prison regulations or performing assigned duties. 2011 Wisconsin Act 38 again renamed the body the Parole Commission and substantially repealed most early release provisions. The commission's composition and duties are prescribed in Sections 15.145 (1), 17.07 (3m), 304.01, and 304.06 of the statutes.

Agency Responsibility: The Educational Communications Board oversees the statewide public broadcasting system, its instructional telecommunications programming, and public service media for the cultural and educational needs of the state's citizens. The board plans, constructs, and operates the state's public radio and television networks, and it is the licensee for the state's 17 public radio stations and 5 public television stations. The board operates the Emergency Alert System, the Amber Alert System, National Weather Service Transmitters, a telecommunication operations center, satellite facilities, and an educational broadband system (EBS).

The board shares responsibility for public broadcasting with the University of Wisconsin Board of Regents. Programming is produced through UW facilities or acquired from national, regional, state, and local sources. The board also is affiliated with public television stations licensed to Milwaukee Area Technical College, television station WSDE in Duluth, and several public radio stations.

Educational services include selection, acquisition or production, implementation, and evaluation of K-12 educational media and accompanying materials in cooperation with teachers in public and private schools, the Cooperative Educational Service Agencies, the Department of Public Instruction, the Technical College System, and the UW System.

Organization: The board includes 16 members. Those appointed by the governor, the UW Board of Regents, and the Technical College System Board serve 4-year terms. Legislative members must represent the majority and minority party in each house. The board appoints an executive director from outside the classified service. Division administrators and other agency staff are appointed by the executive director.

Unit Functions: The *Division of Education* operates the Wisconsin Media Lab which provides a wide variety of K-12 educational media for use by Wisconsin educators and students. Programming is delivered to the state via Public Television and online.

The *Division of Engineering Services* develops, operates, and maintains the statewide telecommunication systems used to receive and deliver instructional, educational, and cultural programming. It coordinates broadcasting of the Emergency Alert System, the National Weather Service, and the Amber Alert System.

During the summer of 2012, the Educational Communications Board constructed a 400-ft. replacement tower for WHSA-FM, Brule. Here, a tower crew erects the new tower (right) which is next to the old tower (left). Built in 1952, the old tower was the last of the original “state station” towers built by the State Radio Council. The old tower was taken down following the completion of the new tower. In addition to WHSA-FM, a Wisconsin Public Radio station, the tower site provides a base for Wisconsin Public Television and public safety equipment. (Educational Communications Board)

The *Division of Public Radio* operates the statewide Wisconsin Public Radio service in partnership with the UW Board of Regents (through UW-Colleges and UW-Extension). Wisconsin Public Radio service includes three networks: 1) the News and Classical Music Network, 2) the Wisconsin Ideas Network, and 3) an HD-2 Classical Network – all of which offer national, regional, and local programming.

The *Division of Public Television* operates the statewide Wisconsin Public Television service in partnership with the UW Board of Regents (through UW-Colleges and UW-Extension). Day-time broadcast hours are devoted to children's and instructional programming and evening hours to cultural, informational, and entertainment programs. Wisconsin Public Television delivers national programming from the Public Broadcasting Service and focuses on producing local programs on topics of regional and state interest.

History: Wisconsin's history in educational broadcasting dates back to the oldest public radio station in the nation. The University of Wisconsin's research in "wireless" communication led to the beginning of scheduled radio broadcasting in 1917 on Station 9XM, which was renamed WHA-AM in 1922. Wisconsin made a commitment to statewide educational broadcasting in 1945. Chapter 570, Laws of 1945, created the State Radio Council to plan, produce, and transmit educational, cultural, and service programs over a statewide FM radio network. Over the next two decades, the council constructed and activated 10 radio transmitters. In Chapter 360, Laws of 1953, the council also assumed responsibility for research in educational television.

The 1967 executive branch reorganization renamed the council the Educational Broadcasting Board, created the Educational Broadcasting Division under its supervision, and attached the board and the division to the Coordinating Council for Higher Education. The name was changed to the Educational Communications Board in Chapter 276, Laws of 1969. With the demise of the Coordinating Council, the Educational Communications Board became an independent agency in Chapter 100, Laws of 1971. In 1971, the board began to extend educational television to the entire state, and it had constructed 5 UHF television stations by 1977. Signal translator facilities erected in the 1980s extended service to areas of the state beyond the reach of regular transmitters. Most recently, the Educational Communications Board has begun to offer HD Radio services and expanded television programming through WPT Create and WPT The Wisconsin Channel. The board has worked cooperatively with the UW Board of Regents to enhance public broadcasting service for the state's citizens.

Board membership includes 2 *ex officio* members and 11 members who are appointed or elected for 4-year terms to represent employers, members, employees, taxpayers, and annuitants. The member appointed by the governor to represent taxpayers must have specific professional experience and cannot be a WRS participant. The board approves all administrative rules; authorizes payment of all retirement annuities, except those for disability; and hears appeals of benefit determinations. It appoints the secretary from outside the classified service, and the secretary selects the deputy from outside the service. Division and office heads are appointed from within the classified service by the secretary.

Unit Functions: The *Division of Insurance Services* is responsible for policy development and implementation of health, life, disability, and long-term care insurance; accumulated sick leave conversion credit; and the employee reimbursement and commuter benefits accounts.

The *Division of Management Services* provides support services for human resources, payroll, information technology, facility management, capital budget and inventory, records management, document design, mail and supplies, board liaisons, library, and telecommunications.

The *Division of Retirement Services* develops and implements retirement policies and services for the members of the retirement system, including calculation and payment of retirement and related benefits, and the deferred compensation program.

History: The 1891 Legislature initiated pension coverage for local government employees when it required Milwaukee to create a pension fund for retired and disabled police and fire fighters in Chapter 287. Sixteen years later, the legislature extended pension coverage to protective service employees of smaller cities through Chapter 671, Laws of 1907. The 1909 Legislature authorized a pension system for City of Milwaukee teachers in Chapter 510; and Chapter 323, Laws of 1911, created a retirement system for those school districts throughout the rest of

the state that wished to enroll their teachers. With enactment of Chapter 459, Laws of 1921, Wisconsin established a mandatory, joint contributory, statewide teachers' pension system, covering virtually all teachers in public schools (outside of Milwaukee), normal schools, and the University of Wisconsin.

The legislature first provided retirement plans for general municipal employees outside of Milwaukee in Chapter 175, Laws of 1943. In the same session, a retirement system was created for general employees by Chapter 176, Laws of 1943. Local fire and police pension funds were closed to new members by Chapter 206, Laws of 1947, and these employees have since been covered with the general employees. Chapter 60, Laws of 1951, created the Public Employees Social Security Fund, making Wisconsin the first state in the nation to permit some state and local government employees to be covered by Social Security.

Chapter 211, Laws of 1959, created group life and group health insurance programs for state employees, a group life insurance program for municipal employees, and the Group Insurance Board to monitor the administration of the programs. The 1967 executive branch reorganization created the Department of Employee Trust Funds to administer the various retirement funds, and the Group Insurance Board was attached to it.

Chapter 280, Laws of 1975, initiated the merger of the existing, separate retirement funds that covered all publicly employed teachers in the state and all state and local public employees, except employees of the City of Milwaukee and Milwaukee County who have their own systems. The legislature transferred local police and fire pension funds to the overall general employee system in Chapter 182, Laws of 1977. The implementation of the merged Wisconsin Retirement System was completed, effective January 1, 1982, by Chapter 96, Laws of 1981.

DEPARTMENT OF FINANCIAL INSTITUTIONS

securities industry. It examines and files charters and other documents of businesses and organizations and registers and regulates the mortgage banking industry and other financial service providers. It oversees Uniform Commercial Code filings. It administers the Wisconsin Consumer Act and registers merchants who extend credit. It also issues notary public commissions and registers trademarks, trade names, and brands. The department is self-supporting through program revenue derived from fees and assessments paid by regulated entities and individuals.

Organization: The department is administered by a secretary, who is appointed by the governor with the advice and consent of the senate. The secretary appoints the administrators for 3 of the 4 divisions from outside the classified service and the administrator of the Division of Administrative Services and Technology from the classified service.

Unit Functions: The *Office of Financial Literacy* (OFL), in the Division of Corporate and Consumer Services, promotes financial literacy to the public as a vital life skill. It emphasizes financial and economic literacy for Wisconsin's youth. The OFL works closely with the Governor's Council on Financial Literacy (GCFL) in a statewide effort to improve the financial literacy of students, employees, and families, with special attention to fraud prevention and encouraging the "unbanked" to take advantage of the important services offered by financial institutions. The OFL takes the lead role in producing the GCFL's Money Smart Week Wisconsin (MSWW) campaign in conjunction with the Federal Reserve Bank of Chicago. MSWW is the nation's first-ever financial literacy campaign to focus on an entire state. The OFL also has a lead role in the National Institute of Financial and Economic Literacy, a nationally recognized, graduate-level, teacher-training program consisting of three week-long programs each summer.

The *Division of Administrative Services and Technology* provides support services to the department through its administration of the agency's budget, personnel, procurement, and information technology services.

The *Division of Banking*, created in Section 15.183 (1), Wisconsin Statutes, by 1995 Wisconsin Act 27, is advised by the Banking Review Board. It regulates and supervises state-chartered banks and consumer financial service industries under statutory Chapters 220 through 224. In addition to chartering and regularly examining state banks, the division licenses loan companies, mortgage bankers, mortgage brokers, loan originators, collection agencies, community currency exchanges, sales finance companies, adjustment service companies, sellers of checks, insurance premium finance companies, and credit services organizations. It also regulates auto dealers' installment sales contracts. The division investigates applications for expanded banking powers, new financial products, and interstate bank acquisitions and mergers. It may conduct joint examinations with Federal Reserve System examiners and with the Federal Deposit Insurance Corporation. With Banking Review Board approval, the administrator may establish uniform rules for savings programs and fiduciary operations.

The division supervises state-chartered savings and loan associations and savings banks and enforces the laws governing them under statutory Chapters 214 and 215 with the advice of the Savings Institutions Review Board. It works to resolve consumer complaints and reviews and approves applications for acquisitions, new branches and other offices, and the organization of mutual holding companies. It may rule on interstate mergers or acquisitions. It also conducts joint examinations of associations with the federal Office of Thrift Institutions and may examine savings banks with the Federal Deposit Insurance Corporation.

The division administers the Wisconsin Consumer Act, which resolves consumer complaints and advises consumers and lenders regarding their rights and responsibilities under consumer law.

The *Division of Corporate and Consumer Services* is responsible for examining and filing business records for corporations and other organizations. It examines charters, documents that affect mergers, consolidations, and dissolutions, and reviews the annual reports of various businesses, including partnerships, corporations, limited liability companies, cooperatives, and foreign corporations. It also examines and files documents under the Uniform Commercial Code, including statements of business indebtedness, consignments, terminations, and financing statements and maintains the statewide Uniform Commercial Code lien system. The division prepares certified copies of the records in its custody and responds to inquiries about corporations and other business entities and organizations for which it has records. It also issues notary

public commissions and registers trademarks, trade names, and brands. The division is also responsible for the issuance of state video franchise authority certificates.

The *Division of Securities*, created in Section 15.183 (3), Wisconsin Statutes, by 1995 Wisconsin Act 27, regulates the sale of investment securities and franchises under statutory Chapters 551, 552, and 553. It examines and registers the offerings and may bar them from registration in this state. The division licenses and monitors the activities of broker-dealers, securities agents, investment advisers, and investment adviser representatives. It conducts field audits and investigates complaints. When violations are detected, it initiates the appropriate administrative, injunctive, or criminal action. The division also regulates corporate takeovers.

History: The Department of Financial Institutions (DFI) was created in 1995 Wisconsin Act 27. The act reorganized formerly independent offices of the commissioners of banking, savings and loan, and securities as divisions and transferred them to the department. In addition, Act 27 transferred the responsibility for business organization filings and the Uniform Commercial Code lien information filings to the department from the Office of the Secretary of State. The same act transferred the regulation of mortgage bankers and loan originators and solicitors to the department from the Department of Regulation and Licensing. 2007 Wisconsin Act 42 replaced cable television franchises granted by municipalities with statewide video service franchises granted by DFI. 2011 Wisconsin Act 32 transferred to DFI the notary and trademark functions formerly performed by the Office of the Secretary of State. The Mortgage Loan Originator Council was repealed by 2011 Wisconsin Act 233.

Banking. For the first five years of statehood, no regular commercial banks existed in Wisconsin. Prior to amendment in 1902, Article XI of the Wisconsin Constitution required that any banking law must be approved in a statewide referendum. Bank regulation began when the legislature created the Office of Bank Comptroller in Chapter 479, Laws of 1852, and the voters approved the law in 1853. That law allowed any group meeting state requirements to go into the banking business. It was designed primarily to regulate the issuance of bank notes. Bank supervision was transferred to the state treasurer in 1868 and remained with that office until 1903.

The 1902 constitutional amendment gave the legislature the power to enact general banking laws without a referendum. In Chapter 234, Laws of 1903, the legislature created the State Banking Department. The department also supervised savings and loan associations until 1947 and credit unions until 1972. Under the 1967 executive branch reorganization, the department continued as an independent agency and was renamed the Office of the Commissioner of Banking. 1995 Wisconsin Act 27 reorganized the agency as the Division of Banking and transferred it to the Department of Financial Institutions.

Savings Institutions. Attempts to register and examine savings and loan associations date back to the 1850s in Wisconsin, but there are no records of any associations incorporating under these laws. In 1876, the legislature passed Chapter 384 to require that savings banks and savings societies register with the county registers of deeds and the secretary of state. Voters approved the law in November 1876. Several associations incorporated shortly afterward. Beginning with Chapter 368, Laws of 1897, building and loan associations were regulated by the bank examiner in the state treasurer's office.

In 1903, responsibility for regulating savings and loan associations was transferred to the State Banking Department. Chapter 411, Laws of 1947, moved regulation from that department to the newly created Savings and Loan Association Department. The law also created the forerunner of the current Savings Institutions Review Board. In 1967, the executive branch reorganization act renamed the department the Office of the Commissioner of Savings and Loan. In 1991 Wisconsin Act 221, the office assumed responsibility for chartering, regulating, and examining savings banks. The same law created the Savings Bank Review Board. 1995 Wisconsin Act 27 reorganized the agency as the Division of Savings and Loan and transferred it to the Department of Financial Institutions. It was renamed the Division of Savings Institutions in 1999 and repealed in 2003 Wisconsin Act 33. Its duties were transferred to the Division of Banking.

Securities. Laws enacted by states to protect the public against securities fraud are commonly referred to as "blue sky" laws. (The term "blue sky" is believed to have originated when a judge ruled that a particular stock had about the same value as a patch of blue sky.) Wisconsin's first "blue sky" law was Chapter 756, Laws of 1913. This law was revised successively in 1919,

1933, 1941, 1969, and 2007. The current Wisconsin Uniform Securities Law, effective January 1, 2009, was enacted as 2007 Wisconsin Act 196, and it is based upon the Uniform Securities Act of 2002. From 1913 until 1939, the regulation of securities came under the jurisdiction first of the Railroad Commission (and its successor the Public Service Commission) and later the State Banking Department. The Department of Securities was created by Chapter 68, Laws of 1939, to regulate the sale of stocks, bonds, and other forms of business ownership or debt. It was renamed the Office of the Commissioner of Securities by Chapter 75, Laws of 1967. 1995 Wisconsin Act 27, reorganized the agency as the Division of Securities and transferred it to the Department of Financial Institutions.

It may subpoena records and notify the district attorney or attorney general of any grounds for civil or criminal prosecution. The GAB issues advisory opinions to officials, local governments, and others asking about their own

conduct; promulgates administrative rules; and conducts training for local election officials, campaign and lobby registrants, and state public officials.

The GAB maintains the campaign finance registration and reporting system which limits and requires full disclosure of contributions and disbursements made on behalf of every candidate for public office. The statutes specify which candidates, individuals, political parties, and groups must register and file detailed financial statements. Registration and reporting are required for nonresident committees that make contributions and for all individuals who make independent disbursements. The GAB administers the electronic filing of campaign finance reports of all registrants that receive contributions in excess of \$20,000 in a campaign period for candidate committees or in excess of \$20,000 in a biennium for other registrants.

The GAB administers the state elections code along with implementing the federal Help America Vote Act of 2002 that establishes certain election requirements regarding the conduct of federal elections in the state. The director and general counsel serves as the chief state election official. The GAB is responsible for the design and maintenance of the Statewide Voter Registration System (SVRS) which is required to be used by all municipalities in the state to administer federal, state, and local elections.

The GAB also has compliance review authority over local election officials' actions relating to ballot preparation, candidate nomination, voter qualifications, recall, conduct of elections, and election administration. The GAB holds information and training meetings with local election officials to promote uniform election procedures. The GAB is responsible for the training and certification of all municipal clerks and chief election inspectors in the state.

The GAB administers the Code of Ethics for State Public Officials and Wisconsin's lobbying law. The intent of the ethics code is to forbid a state official from using a public position to obtain anything of value for the personal benefit of the official, the official's family, or the official's private business. Wisconsin's lobbying law prohibits lobbyists and the organizations that employ them from furnishing anything of value to a state official or employee except in a limited number of well-defined circumstances. The GAB collects and makes available information about the financial interests of state officials, candidates, and nominees; and compiles and disseminates on its Web sites information about organizations' efforts to influence legislation and administrative rules as well as the time and money spent by those organizations in lobbying activities.

Organization: The 6 members of the board, each of whom must have formerly been elected to and served as a judge of a court of record in Wisconsin, are appointed to 6-year terms by the governor from nominations submitted by a nominating committee called the Governmental Accountability Candidate Committee. The committee consists of one court of appeals judge from each of the court of appeals districts, chosen by lot by the chief justice of the supreme court in the presence of the other justices.

Board members may not be involved in partisan political activities and may not hold another state office or position except that of reserve judge of a circuit court or court of appeals. The board appoints a legal counsel outside the classified service as agency head to perform legal and administrative functions for the board. The board includes an Elections Division and an Ethics and Accountability Division, each of which is under the direction and supervision of an administrator appointed by the board. The board designates an employee to serve as the chief election officer of the state.

History: The Government Accountability Board was created by 2007 Wisconsin Act 1. Act 1 abolished the State Ethics and Elections Boards and their functions were merged into the new agency, effective after January 10, 2008.

The Elections Board was created as an independent agency by Chapter 334, Laws of 1973, which transferred administration of the state's election laws from the secretary of state and created the campaign finance registration and reporting system.

The Ethics Board was created by Chapter 90, Laws of 1973, to administer the ethics code applicable to public officials and employees created by the act. Lobbying has been regulated in Wisconsin since 1858. The secretary of state was made responsible for the enforcement of

lobbying laws by Chapter 278, Laws of 1977, and this regulation was transferred to the Ethics Board by 1989 Wisconsin Act 338.

The members of the council are appointed by the GAB elections division administrator. The membership must include the clerk or executive director of the board of election commissioners of the two counties or municipalities having the largest population, one or more election officials of other counties or municipalities, representatives of organizations that advocate for the interests of the voting public, and other electors of Wisconsin. The council was created by 2003 Wisconsin Act 265 in the Elections Board, and was attached to the GAB by 2007 Wisconsin Act 1. The composition and duties of the council are specified in Sections 5.05 (10), 5.68 (3m), and 15.607 (1) of the statutes.

Agency Responsibility: The Department of Health Services administers a wide range of services to clients in the community and at state institutions, regulates certain care providers, and supervises and consults with local public and voluntary agencies. Its responsibilities span public health; mental health and substance abuse; long-term support and care; services to people who have a disability, medical assistance, and children's services; aging programs; physical and developmental disability services; sensory disability programs; operation of care and treatment facilities; quality assurance programs; nutrition supplementation programs; medical assistance; and health care for low-income families, elderly, and disabled persons.

Organization: The department is administered by a secretary who is appointed by the governor with the advice and consent of the senate. The secretary appoints the division administrators from outside the classified service.

Unit Functions: The *Division of Enterprise Services* oversees financial management, information systems and technology, personnel and employment relations, affirmative action and civil rights compliance, purchasing and contract administration, facilities management, continuity of operations planning, project management, and other administrative services. It handles billing, collection, and related accounting for state institutions.

The *Division of Health Care Access and Accountability* provides access to health care for low-income persons, the elderly, and people with disabilities. It administers the Medical Assistance (Medicaid), BadgerCare Plus, SeniorCare, Chronic Disease Aids, General Relief, and FoodShare programs.

The *Division of Long Term Care* administers a variety of programs that provide long-term support for the elderly and people with disabilities. These programs include Family Care, Ag-

ing and Disability Resource Centers, Community Relocation Initiative, Community Integration Initiative, Pathways to Independence, and the Community Options Program. The division manages nursing home funding, nursing home policies, and reimbursement and auditing services. The division also includes the Offices for the Deaf and Hard of Hearing and the Blind or Visually Impaired as well as programs for Autism and Brain Injury. The division supports the Birth to 3 Interagency Coordinating Council and the Assistive Technology Council as required by federal law. In addition, it operates three state centers for persons with developmental disabilities: Northern Wisconsin Center (Chippewa Falls), Central Wisconsin Center (Madison), and Southern Wisconsin Center (Union Grove).

The *Division of Mental Health and Substance Abuse Services* administers programs to meet mental health and substance abuse prevention, diagnosis, early intervention, and treatment needs, as well as the Community Forensic Programs for individuals in need of competency evaluation and treatment and community-based treatment for persons found not guilty by reason of mental disease or defect when community treatment is ordered by the court. It administers the state's institutional programs for persons whose mental health needs or developmental disabilities cannot be met in a community setting. The two mental health institutes, Mendota Mental Health Institute and Winnebago Mental Health Institute, provide treatment for persons with mental health needs which require inpatient hospitalization including medical, psychological, social, and rehabilitative services. Mendota Mental Health Institute houses a secure treatment unit to meet the mental health needs of male adolescents from the Department of Corrections' juvenile institutions. The division operates the Wisconsin Resource Center as a medium security facility for mentally ill prison inmates whose treatment needs cannot be met by the Department of Corrections. It also provides treatment at the Sand Ridge Secure Treatment Center for individuals civilly committed under the sexually violent persons law, and provides services for persons placed on supervised release.

The *Division of Public Health* promotes and protects public health in Wisconsin through various services and regulations. It administers programs that address environmental and occupational health, family and community health, chronic and communicable disease prevention and control, and programs relating to maternal and child health, including the Women, Infants and Children (WIC) Supplemental Food Program. It licenses emergency medical service providers and technicians and approves and supervises their training. The division is also responsible for inspecting restaurants, hotels and motels, bed and breakfast establishments, camps and campgrounds, food vendors, and swimming pools. The division performs vital recordkeeping functions including providing birth, death, marriage, and divorce certificates and the gathering, analysis and publishing of statistical information related to the health of the state's population. The division conducts formal statutory reviews of all local health departments every five years.

The *Division of Quality Assurance* licenses and regulates over 40 different programs and facilities that provide health, long-term care, and mental health and substance abuse services including assisted living facilities, nursing homes, community-based residential facilities home health agencies, and facilities serving people with developmental disabilities. It also performs caregiver background checks and investigations.

History: The Department of Health Services combines supervision of many state and local functions that had developed separately in the 1800s. For more than two decades after statehood, Wisconsin created separate governing boards and institutions for the care of prisoners; juveniles; and blind, deaf, and mentally ill persons. By 1871, there were six such institutions. The first attempt to institute overall supervision of these services came when the legislature passed Chapter 136, Laws of 1871, creating the State Board of Charities and Reform. Its duties included examination of the operations of state institutions and their boards and investigation of practices in local asylums, jails, and schools for the blind and deaf.

In Chapter 298, Laws of 1881, the legislature abolished the separate institutional boards and combined their functions under the State Board of Supervision of Wisconsin Charitable, Reformatory and Penal Institutions. The State Board of Charities and Reform continued to operate until 1891. In that year, the two boards were combined as the State Board of Control of the Wisconsin Reformatory, Charitable and Penal Institutions in Chapter 221, Laws of 1891, thus completing the consolidation of public welfare activities.

The Department of Health Services building undergoes window replacement in 2013 as part of a \$14.5 million, 18-month, restoration project. Construction on the building, which is on the National Register of Historic Places, was begun in 1930, and is built of granite from the State Quarry in Amberg, Wisconsin. (Department of Health Services)

In the early days of statehood, public health was primarily a function of local governments. In Chapter 366, Laws of 1876, the legislature established the State Board of Health to “study the vital statistics of this state, and endeavor to make intelligent and profitable use of the collected records of death and sickness among the people.” The board was directed to “make sanitary investigations and inquiries respecting the causes of disease, and especially of epidemics; the causes of mortality, and the effects of localities, employments, conditions, ingesta, habits and circumstances on the health of the people.” This directive defines much of the work still done in public health. Later legislation required the board to take responsibility for tuberculosis care (1905), to direct its efforts toward preventing blindness in infants (1909), and to inspect water and sewerage systems to prevent typhoid and dysentery (1919). In addition, at various times, the board licensed restaurants, health facilities, barbers, embalmers, and funeral directors.

By the time the federal government entered the field of public welfare during the Great Depression of the 1930s, Wisconsin had already pioneered a number of programs, including aid to children and pensions for the elderly (enacted in 1931). The Wisconsin Children’s Code, enacted by Chapter 439, Laws of 1929, was one of the most comprehensive in the nation. The state’s initial response to federal funding was to establish separate departments to administer social security funds and other public welfare programs. After several attempts at reorganization and a series of studies, the legislature established the State Department of Public Welfare in Chapter 435, Laws of 1939, to provide unified administration of all existing welfare functions. Public health and care for the aged were delegated to separate agencies.

The executive branch reorganization act of 1967 created the Department of Health and Social Services. The Board of Health and Social Services, appointed by the governor, directed the new department and appointed the departmental secretary to administer the agency. In addition to combining public welfare, public health, and care for the aged in the reorganization act, the 1967 Legislature added the Division of Vocational Rehabilitation in Chapter 43. In Chapter 39, Laws of 1975, the legislature abolished the board and replaced it with a secretary appointed by the governor with the advice and consent of the senate. That same law called for a reorganization of the department, which was completed by July 1977. The Department of Health and Social Services was renamed the Department of Health and Family Services (DHFS), effective July 1, 1996.

The decades of the 1960s and 1970s saw an expansion of public welfare and health services at both the federal and state levels. Especially notable were programs for medical care for the needy and aged (Medical Assistance and Medicare), drug treatment programs, food stamps, Aid to Families with Dependent Children Program (AFDC), and increased regulation of hospitals and nursing homes.

While continuing to administer its established programs, the department was assigned additional duties during the 1980s in the areas of child support, child abuse and neglect, programs for the handicapped, and welfare reform. However, 1989 Wisconsin Acts 31 and 107 created a separate Department of Corrections to administer adult corrections institutions and programs, and 1995 Wisconsin Act 27 transferred responsibility for juvenile offenders to that department.

1995 Wisconsin Act 27 revised AFDC and transferred it and other income support programs including Medical Assistance eligibility and food stamps to the Department of Workforce Development (DWD). (Wisconsin Works, known as W-2, replaced AFDC in 1995 Wisconsin Act 289.) Existing welfare reform programs, including Job Opportunities and Basic Skills (JOBS), Learnfare, Parental Responsibility, and Work-Not-Welfare, were also transferred to DWD, along with child and spousal support, the Children First Program, Older American Community Service Employment, refugee assistance programs, and vocational rehabilitation functions. Health care facilities plan review was transferred from the Department of Industry, Labor and Human Relations to DHFS by 1995 Wisconsin Act 27. Act 27 also transferred laboratory certification to the Department of Agriculture, Trade and Consumer Protection and low-income energy assistance to the Department of Administration.

As a result of 1995 Wisconsin Act 303, the department assumed responsibility for direct administration and operation of Milwaukee County child welfare services. Primary responsibility for the Health Insurance Risk-Sharing Program (HIRSP) was transferred to the department from the Office of the Commissioner of Insurance by 1997 Wisconsin Act 27. 2001 Wisconsin Act 16

transferred the Medical Assistance Eligibility Program and the Food Stamp Program to DHFS from the Department of Workforce Development.

2007 Wisconsin Act 20 changed the name of the department to the Department of Health Services beginning July 1, 2008. Act 20 also created a separate Department of Children and Families and split the responsibilities of DHFS between the two departments.

The Office of Free Market Health Care, which is jointly directed by the Department of Health Services and the Office of the Commissioner of Insurance, was established by Executive Order 10 on January 27, 2011. The responsibilities of the office include developing plans that encourage competition in health care benefits and insurance plans through free-market, consumer driven approaches.

Chapter 264, Laws of 1965, gave the commission student financial aid responsibilities and changed its name to the State Commission for Higher Educational Aids. Chapter 313, Laws of 1967, authorized the commission to organize the Wisconsin Higher Education Corporation to administer the federal Guaranteed Student Loan Program. The corporation was given an independent board of directors as a private nonstock corporation in 1984. Chapter 276, Laws of 1969, renamed the commission the Higher Educational Aids Board. The Higher Educational Aids Board was inadvertently repealed by 1995 Wisconsin Act 27, but was continued as the Higher Educational Aids Council by Executive Order 283. Statutory References: Section 15.70; Chapter 44, Subchapters I and II.

Agency Responsibility: The mission of the State Historical Society of Wisconsin, known informally as the Wisconsin Historical Society, is to help connect people to the past. The society has a statutory duty to collect and preserve historical and cultural resources related to Wisconsin and to make them available to the public. To meet these objectives, the society maintains a major history research collection in Madison and in 14 area research centers; operates 11 historic sites and museums, an office at the Northern Great Lakes Visitor Center, a field services office in Eau Claire, and statewide school services programs. It owns Circus World Museum, which is managed by the Circus World Museum Foundation. It provides public history programming such as National History Day and collaborates with other agencies such as Wisconsin Public Television to deliver history programming to the public. It provides technical services and advice to 383 affiliated local historical societies throughout the state. It conducts, publishes, and disseminates research on Wisconsin and U.S. history, and serves as the state's historic preservation office, which regulates the designation of historic structures and archaeological sites by administering the state and national registers of historic places. The society is also responsible for implementation of the state's Burial Sites Preservation Law.

Organization: The society is both a state agency and a membership organization. The society's Board of Curators includes 8 statutory appointments and up to 30 members who are elected according to the society's constitution and bylaws. The 3 members appointed by the governor with senate consent serve staggered 3-year terms. The board selects the society's director, who serves as administrative head and as secretary to the board.

Unit Functions: The *Division of Administrative Services* provides management and program support in the areas of accounting, financial services, budgeting, human resources, purchasing, and facility maintenance of the society's headquarters building.

The *Division of Historic Preservation – Public History* helps make the history of Wisconsin more accessible to state residents and awards historic designations to places of historic value. It administers Wisconsin's portion of the National Register of Historic Places in partnership with the National Park Service and manages the State Register of Historic Places. It nominates places of architectural, historic, and archaeological significance to the registers. It reviews federal, state, and local projects for their effect on historic and archaeological properties. The division certifies historic building rehabilitation projects for state and federal income tax credits, archaeological sites for property tax exemptions, and historic buildings as eligible for the state historic building code. The division administers the historical markers program, identifies and promotes underwater archaeological sites, and administers the state's burial sites preservation program. The division, through the Wisconsin Historical Society Press, edits and publishes most of the materials issued by the society, including books and a quarterly magazine of history. The division offers instructional materials and programs to schools and teachers to assist them in teaching the history of Wisconsin (including the state history textbook for fourth graders), coordinates the state's National History Day program, and provides technical assistance to local historical societies affiliated with the society through the Wisconsin Council for Local History. It also operates a field services office in Eau Claire to serve northern Wisconsin.

The *Division of Library – Archives* maintains notable collections in Wisconsin and North American history including areas such as genealogy; labor; business and industry; social action, including civil rights, antiwar movements, and reproductive rights issues; mass communications; and dramatic arts, including theater, motion pictures, and television. The library and archives serve as the North American history research collection for the UW-Madison. The library acts as regional depository for U.S. government publications and official depository for Wisconsin state government publications. The archives program acquires, catalogs, preserves, and makes available primary source materials, including manuscripts, maps, newspapers, photographs, sound recordings, films, videos, and other records pertaining to Wisconsin history and selected fields of U.S. history. It serves as the state archives, collecting and providing access to permanent records of state and local government. In partnership with the University of Wisconsin System, the archives operates 14 Area Research Centers throughout Wisconsin to bring its archival holdings on regional history closer to the public. It also makes available the collections

of the Wisconsin Center for Film and Theater Research, which is administered jointly by the society and the UW-Madison.

The *Division of Museums and Historic Sites* operates 11 historic sites and museums: Black Point Estate, First Capitol, H.H. Bennett Studio, Madeline Island Museum, Old World Wisconsin, Pendarvis, Reed School, Stonefield, Villa Louis, Wade House, and the Wisconsin Historical Museum. The division collects and preserves the material culture of Wisconsin and interprets the state's history and prehistory for the public. The sites contain historic structures and visitor service buildings that reflect major themes of Wisconsin history, such as ethnic pioneer settlement, mining, farming, fur trade, exploration, transportation, rural life, and town development. The museum in Madison addresses the history of Wisconsin with exhibits covering all of these themes. The division fulfills its educational role through exhibitions, tours, school visits, and a variety of public programs conducted at the museum in Madison, the historic sites, and other venues throughout the state. The division supervises the preservation and development of artifact collections, and operates an archaeology program under a cooperative agreement with the Department of Transportation and the Department of Natural Resources.

The society owns an additional historic site in Baraboo, Circus World, which is operated by the Circus World Museum Foundation. This museum offers an extensive collection of circus memorabilia, unique circus wagons, and it operates a circus in Baraboo during the summer months.

The *Wisconsin Historical Foundation* is a 501 (c) (3) corporation and the advancement arm of the Wisconsin Historical Society. The foundation receives and administers gifts on behalf of the society and manages the society's membership program. The foundation has a separate board of directors.

History: The Wisconsin Historical Society was originally founded as a private association in 1846, two years before statehood. It was chartered by the Wisconsin Legislature in Chapter 17, Laws of 1853, which made the society responsible for the preservation and care of all records, articles, and other materials of historic interest to the state. The society has received state funding since 1854 (Chapter 16) – longer than any other state historical society in the nation.

The legislature expanded the state's historic preservation program in Chapter 29, Laws of 1977, by making the society responsible for preservation activities associated with the designation, restoration, and repair of historic properties. Chapter 341, Laws of 1981, provided statutory support for local ordinances designed to preserve historic buildings. It set up a framework for a state historic building code with alternative standards for the preservation or restoration of historic structures. 1987 Wisconsin Act 395 strengthened the state's historic preservation laws by creating the State Register of Historic Places to protect historic and prehistoric properties. This law and 1987 Wisconsin Act 399 provided state tax credits and exemptions for owners of certain historic and archaeological properties.

1985 Wisconsin Act 29 formalized the practice of allowing the historical society to enter into a lease agreement with a nonprofit corporation, now called the Circus World Museum Foundation, for the purpose of operating the Circus World Museum.

Statutory Council

Historical Society Endowment Fund Council: Inactive.

The agency oversees activities of the Health Care Liability Insurance Plan, which provides liability coverage for hospitals, physicians, and other health care providers in Wisconsin, and the Injured Patients and Families Compensation Fund, which provides medical malpractice coverage for qualified health care providers on claims in excess of a provider's underlying coverage.

Organization: The commissioner of insurance is appointed by the governor with the advice and consent of the senate. The commissioner cannot be a candidate for public office and there are stringent restrictions on the commissioner's political activities. The commissioner appoints the deputy commissioner from outside the classified service and the division administrators from the classified service.

Unit Functions: The *Funds and Program Management Organizational Unit* contains the Management Analysis and Planning Section, the Information Technology Section, the Local Government Property Insurance Fund, and the State Life Insurance Fund. The first two sections are responsible for providing a variety of administrative services in support of all agency programs and employees. These services include budget, finance and accounting, receivables, certain procurement tasks, training and employee development, project management, and all IT services including help desk, applications development and support, security, e-mail, and network management. The two funds operate state programs providing property insurance for local units of government in Wisconsin, and basic life insurance for Wisconsin residents, respectively.

The *Division of Regulation and Enforcement* conducts field reviews of insurer underwriting, rating, claim handling, and marketing practices. It investigates insurance agent activities, prepares enforcement proceedings, and, in conjunction with the legal unit, prosecutes offenders. It helps consumers resolve problems with insurers and agents, and carries out the agency's consumer education program. Other duties include review of premium rates and insurance policy forms and contracts filed with the office to ensure their compliance with state law; review of insurer advertising files; and licensing and testing of insurance agents.

The division also conducts field examinations of the financial condition of insurers domiciled in Wisconsin and monitors the financial condition of insurers doing business in the state. It oversees insurer rehabilitations and liquidations, and audits and collects insurer taxes and fees. It incorporates the formation of new insurers and is responsible for the licensing of nondomestic insurers that want to do business in the state. It reviews and approves, as appropriate, transactions that result in the change of control or financial structure of domestic insurers. It also administers the fire department dues program in cooperation with the Department of Safety and Professional Services, whereby dues paid by insurers who provide fire coverage are disbursed to municipalities for fire protection and the fire fighters' pension and disability funds.

History: State regulation of insurance dates back to 1870 when Chapter 56 created a Department of Insurance in the secretary of state's office to license agents and, upon complaint, examine the books of fire and inland navigation insurance companies. In 1878 (Chapter 214), the legislature created a separate Department of Insurance, headed by a commissioner appointed by the governor, to perform these functions. From 1881 to 1911, based on Chapter 300, Laws of 1881, an elected commissioner administered the insurance department. With the enactment of Chapter 484, Laws of 1911, the insurance commissioner was again made an appointee. The 1967 executive branch reorganization act renamed the department the Office of the Commissioner of Insurance and continued it as an independent regulatory agency.

Other highlights include the development of the standard fire insurance contract in Chapter 195, Laws of 1891, and stricter regulation of the life insurance industry in 1907 to prevent fraud and misrepresentation. In 1911 and 1913, Wisconsin added coverage of local governments' property and buildings under the State Insurance Fund.

Wisconsin became the only state to establish a state life insurance fund for its residents under Chapter 577, Laws of 1911, which authorized the Department of Insurance to issue life insurance and annuity contracts. Since 1947 (Chapters 487 and 521), the office's responsibilities have included the review of all insurance policy forms and the filing of most premium rates. Wisconsin's current insurance laws are largely the result of a recodification developed between 1967 and 1979 by the Legislative Council and they have served as a basis for the model acts adopted by the National Association of Insurance Commissioners (an association of state insurance regulators).

Statutory Boards and Council

Insurance Security Fund, Board of Directors of the: TED NICKEL (insurance commissioner), J.B. VAN HOLLEN (attorney general), KURT SCHULLER (state treasurer); MARK J. BACKE, JOHN F. CLEARY, JAMES E. CRIST, DAVID G. DIERCKS, KENNETH ERLER, PETER C. FARROW, J. STANLEY HOFFERT, ALLEN OGILVIE, JANIS POTTER, SCOTT SEYMOUR, TOD J. ZACHARIAS (insurance industry representatives appointed by commissioner).

The Board of Directors of the Insurance Security Fund administers a fund that protects certain insurance policyholders and claimants from excessive delay and loss in the event of insurer

liquidation. The fund consists of life, allocated annuity, health, HMO, property and casualty, and administrative accounts. The fund supports continuation of coverage under many life, annuity, and health policies. It is financed by assessments paid by most insurers in this state. The board may consist of 12 to 14 members but must include the attorney general, state treasurer, and insurance commissioner or their designees. The industry members must be chosen from representatives of insurers who are subject to the security fund law, and one member must be a representative of a service insurance corporation. The board's advice and recommendations to the commissioner are not subject to the state's open records law. The board was originally created in Chapter 144, Laws of 1969, with substantial revisions in Chapter 109, Laws of 1979, and its composition and duties are prescribed in Sections 646.12 and 646.13 of the statutes.

Injured Patients and Families Compensation Fund/Wisconsin Health Care Liability Insurance Plan, Board of Governors of the: TED NICKEL (insurance commissioner), *chairperson*; RANDY BLUMER, DAVID MAURER, LESLIE SVOBODA (insurance industry representatives appointed by commissioner); JOHN WALSH (named by State Bar of Wisconsin); M. ANGELA DENTICE (named by Wisconsin Association for Justice); ROBERT JAEGER, LINDA SYTH (named by Wisconsin Medical Society); RALPH TOPINKA (named by Wisconsin Hospital Association); CARLA BORDA, SUSAN ENGLER, CHRISTOPHER FLATTER, KATHRYN OSBORNE (public members appointed by governor).

The 13-member Board of Governors of the Injured Patients and Families Compensation Fund/Wisconsin Health Care Liability Insurance Plan oversees the health care liability plans for licensed physicians and nurse anesthetists, medical partnerships and corporations, cooperative sickness care associations, ambulatory surgery centers, hospitals, some nursing homes, and certain other health care providers. The board also supervises the Injured Patients and Families Compensation Fund, which pays medical malpractice claims in excess of a provider's underlying coverage. The 4 public members serve staggered 3-year terms, and at least 2 of them must not be attorneys or physicians nor be professionally affiliated with any hospital or insurance company. The insurance commissioner or the commissioner's designee, who must be an employee of the office of the commissioner, serves as chairperson. The board was created by the medical malpractice law, Chapter 37, Laws of 1975, and its composition and duties are prescribed in Sections 619.04 (3) and 655.27 of the statutes.

Injured Patients and Families Compensation Fund Peer Review Council: JOHN KELLY, *chairperson*; SANDRA OSBORN, vacancy (physicians); TOM KIRSCHBAUM, JEFF RENIER (public members).

The 5-member Injured Patients and Families Compensation Fund Peer Review Council reviews within one year of the first payment on a claim each claim for damages arising out of medical care provided by a health care provider or provider's employee, if the claim is paid by any of the following: the Patients Compensation Fund, a mandatory health care risk-sharing plan, a private health care liability insurer, or a self-insurer. The council can recommend adjustments in fees paid to the Injured Patients and Families Compensation Fund and the Wisconsin Health Care Liability Insurance Plan or premiums paid to private insurers, if requested by the insurer. The Board of Governors of the Injured Patients and Families Compensation Fund/Wisconsin Health Care Liability Insurance Plan appoints the council and designates its officers and the terms of the members. Not more than 3 members may be physicians. The chairperson must be a physician, who also serves as an *ex officio* nonvoting member of the Medical Examining Board. The council was created by 1985 Wisconsin Act 340, and its composition and duties are prescribed in Section 655.275 of the statutes.

Agency Responsibility: The State of Wisconsin Investment Board is responsible for investing the assets of the Wisconsin Retirement System, the State Life Insurance Fund, the Local Government Property Insurance Fund, the State Historical Society of Wisconsin Endowment Trust Fund, the Injured Patients and Families Compensation Fund, the Tuition Trust Fund, and the State Investment Fund.

For purposes of investment, the retirement system's assets are divided into two funds. The Core Retirement Investment Trust is a broadly diversified portfolio of domestic and international common stocks, corporate and government bonds, and private markets that include real estate and private debt and equity. The Variable Retirement Investment Trust is invested primarily in common stocks. On December 31, 2012, Wisconsin Retirement System trust funds constituted 93% of the \$91.1 billion managed by the Investment Board.

The State Investment Fund invests the commingled cash balances of various state and local government funds in short-term investments with earnings and losses distributed on a pro rata basis to the individual component funds. The fund encompasses the cash balance of the state's general fund and about 68 separate state funds, including the Children's Trust Fund, the Lottery Fund, the Recycling Fund, the Tuition Trust Fund, and the Wisconsin Election Campaign Fund, as well as various state agency accounts. Authorized local governments may participate by depositing moneys in the Local Government Investment Pool, which is a separate fund within the State Investment Fund.

Organization: Except for the secretary of administration, appointments to the 9-member board, which is a body corporate with power to sue and be sued, in its name, are for 6-year terms. The secretary of administration is an *ex officio* member. At least 4 of the 5 general members must have a minimum of 10 years investment experience, and none may have a financial interest in or be employed by a dealer or broker in securities, mortgages, or real estate investments. The

sixth member appointed by the governor must have 10 years of financial experience and be an employee of a government that participates in the Local Government Investment Pool.

The board appoints the executive director and the internal auditor from outside the classified service. The executive director, with the participation of the board, appoints the chief investment officer, and the managing and investment directors from outside the classified service. All other professional employees are also appointed by the executive director from outside the classified service. Board employees may not have any direct or indirect financial interest in any firm engaged in the sale or marketing of real estate or investments or give paid investment advice to others.

History: Chapter 459, Laws of 1921, created a mandatory pension system for teachers and three separate boards to invest the annuity funds of public school, normal school, and university teachers. The 1929 Legislature created the State Annuity and Investment Board and made it responsible for investing the assets of the teachers' pension funds and other state funds, except the school funds that remained under control of the Commissioners of Public Lands (Chapter 491). The board also assumed oversight and asset management of funds for the newly created state employee pension system as the result of Chapter 176, Laws of 1943.

Chapter 511, Laws of 1951, replaced the three teacher retirement boards and the Annuity and Investment Board with the State Teachers Retirement Board and the State Investment Board, which was responsible for investing the assets of all non-Milwaukee teachers. Chapter 511 also granted the State Investment Board authority to invest the assets of the nonteaching, non-Milwaukee public employees who were covered under the Wisconsin Retirement Fund. Chapter 430, Laws of 1957, brought the funds of the Milwaukee teachers under the control of the State Investment Board. Chapter 96, Laws of 1981, consolidated all public employee retirement plans, with the exception of the City and County of Milwaukee, into the Wisconsin Retirement System, and the State Investment Board has continued to invest the retirement system funds. As a result of the consolidation, the retirement system is the ninth largest public pension fund in the U.S. and the 30th largest public or private pension fund worldwide.

Chapter 449, Laws of 1925, created a State Board of Deposits to insure state funds on deposit in state banks through a deposit fund, managed by the state treasurer under the direction of the board. The board's duties were to designate the banks in which state funds could be deposited and to specify the maximum amount of state funds each could receive. Participating banks paid into the deposit fund, which was designed to reimburse any losses incurred through bank failure.

Chapter 511, Laws of 1951, authorized the State Investment Board to invest the state's operating funds and directed it to carry out the investment functions of the State Board of Deposits. Although state funds had been invested since 1911, the 1951 reorganization increased the types of investments the board could consider for the funds it managed. Previously, the state's operating funds had been placed in noninterest bearing accounts. In 1957, the legislature created the State Investment Fund, which merged all state funds except for a handful that are reported separately. The Local Government Pooled-Investment Fund, created in 1976, allows local governments to invest their idle cash at competitive rates of return and withdraw it on a two-day notice with no penalty.

The position of chief investment officer was created by 1995 Wisconsin Act 274, which also provided for an internal audit function.

Although the board has always been subject to the prudent expert fiduciary standard of responsibility, the statutes specified a legal list of authorized investments until 2007. 2007 Wisconsin Act 212 made the prudent expert fiduciary standard the prevailing standard with respect to assets of the Wisconsin Retirement System, thereby overriding the legal list and other provisions in law that previously constrained the board's investment authority.

Agency Responsibility: The Department of Justice provides legal advice and representation, criminal investigation, and various law enforcement services for the state. It represents the state in civil cases and handles criminal cases that reach the Wisconsin Court of Appeals or the Wisconsin Supreme Court. It also represents the state in criminal cases on appeal in federal courts and participates with other states in federal cases that are important to Wisconsin. The department provides legal representation in lower courts when expressly authorized by law or requested by the governor, either house of the legislature, or a state agency head. It also represents state agencies in court reviews of their administrative decisions.

Organization: The Department of Justice is supervised by the attorney general, a constitutional officer who is elected on a partisan ballot to a 4-year term. The attorney general appoints the deputy attorney general, the executive assistant, the department's division administrators, and the executive director of the Office of Crime Victim Services. With the exception of the administrator of the Division of Criminal Investigation, which is a classified position, all of these positions serve at the pleasure of the attorney general.

Unit Functions: The *Office of Crime Victim Services* administers state and federal funding to programs that assist victims of crime. Three programs receive full or partial funding from surcharges assessed against convicted criminals: the Crime Victim Compensation Program reimburses eligible victims and their dependents for medical and other qualifying expenses; the Sexual Assault Victim Services (SAVS) Program provides grants to nonprofit organizations that offer services to sexual assault victims; and the Victim/Witness Assistance Program partially reimburses counties for their costs of providing services to crime victims and witnesses. Federal funding supports four programs: the Wisconsin Victim Resource Center, which assists victims in understanding and exercising their statutory and constitutional crime victims' rights; the Victims of Crime Act (VOCA) Program that provides grants to programs to provide direct services to innocent victims of crime; the Children's Justice Act, which supports improved investigation, prosecution, and judicial handling of child abuse and neglect; and the Crime Victim Compensation Program.

The *Division of Criminal Investigation*, created in Section 15.253 (2), Wisconsin Statutes, by 1991 Wisconsin Act 269, investigates crimes that are statewide in nature or importance. Special agents work closely with local officials to investigate and prosecute crimes involving homicide, arson, drug trafficking, illegal gaming, crimes against children, financial crimes, multijurisdictional crimes, computer crimes, homeland security, public integrity, and government fraud. The division provides extensive training to local, state, and federal officers.

The *Division of Law Enforcement Services* provides advanced technical services, information, and training to state and local law enforcement agencies and jails. It maintains central fingerprint identification records and computerized criminal history information, operates the Handgun Hotline, and provides criminal history background check services. The statewide telecommunications system links Wisconsin criminal justice agencies to national, state, and local crime files and databases. The crime laboratory system with locations in Madison, Milwaukee, and Wausau, analyzes forensic evidence for the Wisconsin criminal justice system and provides crime scene response in major cases.

The division administers standards and basic recruit training for statewide criminal justice professionals including law enforcement, tribal law enforcement, jail, and secure juvenile detention officers. The division maintains and enforces certification and annual recertification training standards for law enforcement, jail, and secure detention officers, instructors, and training academies. It collaborates extensively with advisory committees and criminal justice training professionals in developing and delivering law enforcement curriculum. It also promotes and provides timely and accurate training, records, reimbursements, and reference information for law enforcement, jail, and secure detention officers.

The *Division of Legal Services* provides legal representation and advice to the governor, legislature, other state officers and agencies, district attorneys, and county corporation counsels. It also provides training and education to all district attorneys and assistant district attorneys. It enforces state environmental, antitrust, employment, consumer protection, and Medicaid fraud laws. It also prosecutes economic crimes and represents the state in all felony appeals and litigation brought by prison inmates. At the request of district attorneys, the division provides special

prosecutors in complex homicide, drug, and white collar and other criminal cases. It defends the state in civil lawsuits filed against the state or its officers and employees and handles matters related to public records, Indian law, and fair housing.

The *Division of Management Services* prepares the agency budget; manages agency personnel, finances, and facilities; and provides information technology services.

History: When Wisconsin became a territory in 1836, the U.S. President appointed the attorney general. In 1839, a territorial act gave the governor the power to appoint the attorney general with the consent of the Legislative Council (the upper house of the territorial legislature) to a term of 3 years. The Wisconsin Constitution, as adopted in 1848, provided for an elected attorney general with a 2-year term. A constitutional amendment ratified in 1967 increased the term to 4 years, effective in 1971.

Chapter 75, Laws of 1967, named the agency headed by the attorney general the Department of Justice and transferred to its control the State Crime Laboratory, the arson investigation program from the Commissioner of Insurance, and the criminal investigation functions of the Beverage and Cigarette Tax Division of the Department of Revenue. The 1975 Legislature returned alcohol and tobacco tax enforcement to the Department of Revenue.

The 1969 Legislature added enforcement of certain laws related to dangerous drugs, narcotics, and organized crime to the duties of the department and created the public intervenor to intervene in or initiate proceedings to protect public rights in water and other natural resources. In Chapter 189, Laws of 1979, the legislature transferred the crime victims program from the Department of Industry, Labor and Human Relations to the Department of Justice. 1995 Wisconsin Act 27 transferred the public intervenor to the Department of Natural Resources and consumer protection functions to the Department of Agriculture, Trade and Consumer Protection.

Attorney General J.B. Van Hollen speaks at the Wisconsin State Crime Laboratory in Milwaukee. The news conference was held to promote the national Prescription Drug “Take Back” Day, designed to combat prescription drug abuse. Also participating were representatives from the federal Drug Enforcement Administration, the Wisconsin Department of Natural Resources, and local law enforcement authorities. Agency Responsibility: The Department of Military Affairs provides an armed military force through the Wisconsin National Guard, which is organized, trained, equipped, and available for deployment under official orders in state and national emergencies. The federal mission of the National Guard is to provide trained units to the U.S. Army and U.S. Air Force in time of war or national emergency. Its state mission is to assist civil authorities, protect life and property, and preserve peace, order, and public safety in times of natural or human-caused emergencies.

The *Division of Emergency Management* is headed by a division administrator appointed by the governor with the advice and consent of the senate. It coordinates the development and implementation of the state emergency operations plan; provides assistance to local jurisdictions in the development of their programs and plans; administers private and federal disaster and emergency relief funds; administers the Wisconsin Disaster Fund; and maintains the state's 24-hour duty officer reporting and response system. The division also conducts training programs in emergency planning for businesses and state and local officials, as well as educational programs for the general public. Under Title III of the federal 1986 Superfund Amendments and Reauthorization Act and 1987 Wisconsin Act 342, the division requires public and private entities that possess hazardous substances to file reports on these substances. It establishes local

emergency response committees and oversees implementation of their plans and corresponding state plans. The division administers emergency planning performance grants that assist local emergency planning committees in complying with state and federal law. In addition, the division contracts with regional hazardous materials response teams which respond to the most dangerous levels of hazardous substance releases. It also coordinates planning and training for off-site radiological emergencies at nuclear power plants in and near Wisconsin. The Emergency Police Services (EPS) program provides support to law enforcement in times of crisis. The program coordinates state law enforcement response to emergencies, including coordination of mutual aid for law enforcement assistance in natural disasters, prison disturbances, and other emergencies. The Emergency Fire Services Coordinator enhances fire service emergency response throughout the state and coordinates intrastate mutual aid through the Mutual Aid Box Alarm System (MABAS).

A key resource within Wisconsin Emergency Management (WEM) is its system of 6 regional offices located throughout the state. The regional offices are co-located with the Wisconsin State Patrol regional posts in Waukesha, Fond du Lac, Eau Claire, Spooner, and Wausau, and at WEM's central office in Madison. Each office is assigned to work with a group of 8 to 14 counties. Regional directors are knowledgeable in each of the division's programs, and support both municipal and county programs in planning, training, exercising, response and recovery activities, as well as the coordination of administrative activities between the division and local governments. When disasters and emergencies strike, regional directors are the division's initial responders, serving as field liaisons for the State Emergency Operations Center.

Organization: The Wisconsin Constitution designates the governor as the commander in chief of the Wisconsin National Guard. The department is directed by the adjutant general, who is appointed by the governor for a 5-year term and may serve successive terms. The adjutant general must be an officer actively serving in the Army or Air National Guard of Wisconsin who has attained at least the rank of colonel and is fully qualified to hold the rank of major general in either the Army or Air National Guard.

In addition to state support, the Wisconsin National Guard is also funded and maintained by the federal government, and when it is called up in an active federal duty status, the president of the United States becomes its commander in chief. The federal government provides arms and ammunition, equipment and uniforms, major outdoor training facilities, pay for military and support personnel, and training and supervision. The state provides personnel; conducts training as required under the National Defense Act; and shares the cost of constructing, maintaining, and operating armories and other military facilities. The composition of Wisconsin Army and Air National Guard units is authorized by the U.S. secretary of defense through the National Guard Bureau. All officers and enlisted personnel must meet the same physical, education, and other eligibility requirements as members of the active-duty U.S. Army or U.S. Air Force.

History: Until the 20th century, the United States relied heavily on military units organized by the states to fight its wars. Known as "minutemen" in the American Revolution, state militias, which could be called up on brief notice, provided soldiers for the Revolutionary War, the Mexican War, the Civil War, and the Spanish-American War.

In 1792, the U.S. Congress passed a law that required all able-bodied men between 18 and 45 years of age to serve in local militia units, a provision that was incorporated into the territorial statutes of Wisconsin. The Wisconsin Constitution, as adopted in 1848, authorized the legislature to determine the composition, organization, and discipline of the state militia.

The 1849 Wisconsin Statutes specified the procedure for the organization of locally controlled "uniform companies". Each uniform company included 30 men who had to equip themselves with arms and uniforms.

By 1858 (Chapter 87), the legislature provided for the organization of the state militia, which ultimately replaced the uniform companies. As commander in chief of the militia, the governor appointed the adjutant general and the general officers and issued commissions to the elected officers of uniform companies. The governor could provide arms for the officers, but they were required to supply their own uniforms and horses. Not until 1873 (Chapter 202) was money appropriated from the general fund to help support militia companies. Chapter 208, Laws of 1879, changed the militia's name to the Wisconsin National Guard.

Federal supervision of and financial responsibility for the National Guard came with Congressional passage of the Dick Act in 1903. Congress passed the law in response to the lack of uniformity among state units, which became evident during the Spanish-American War and subsequent occupation of the Philippines. The act set standards for Guard units, granted federal aid, and provided for inspections by regular U.S. Army officers.

The National Defense Act of 1933 formally created the National Guard of the United States, a reserve component of the U.S. Army. The act allowed the mobilization of intact National Guard units through their simultaneous dual enlistment as state and federal military forces. This permitted Guard personnel to mobilize for federal duty directly from state status in event of a federal emergency, rather than being discharged to enlist in the federal forces, as was done in World War I. A 1990 U.S. Supreme Court case upheld the authority of the U.S. Congress to send Army National Guard units (under U.S. Army command) out of the country to train for their federal mission.

Wisconsin National Guard troops fought in the Civil War, the Spanish-American War, World War I, and World War II. Wisconsin troops from the “Iron Brigade” gained national recognition in the Civil War, and the 32nd “Red Arrow” Infantry Division won fame for its combat record in both World Wars. The Wisconsin Air National Guard became a separate service in 1947, and members of the Wisconsin Air Guard served in the Korean War. Over the past 50 years, Wisconsin units have been called to active federal service on numerous occasions. In 1961, the 32nd Division was activated during the Berlin Crisis. More than 1,400 Guard members from Wisconsin were sent to the Persian Gulf to participate in Operations Desert Shield and Desert Storm in 1990-91. Beginning in 1996, units were called to support peacekeeping efforts in the Balkans. Wisconsin Air National Guard units were deployed to enforce U.N. no-fly zones in Southwest Asia in the 1990s, and two units were called to support Operation Allied Force, the NATO air operations over Kosovo in 1999.

Within hours of the September 11, 2001, terrorist attacks on America, the Wisconsin National Guard began yet another period of extensive support to U.S. military operations. Air National Guard units in Wisconsin have provided fighter aircraft to patrol the skies over major U.S. cities and critical national infrastructure, tanker aircraft to refuel patrolling fighters and U.S. military aircraft overseas, and critical radar support to North American Aerospace Defense Command and the Federal Aviation Administration.

Wisconsin Army National Guard units began mobilizing into active federal service in December 2001. Since then, nearly every unit in the Wisconsin Army and Air National Guard has been ordered to active duty in support of operations in Afghanistan (Operation Enduring Freedom) and Iraq (Operation Iraqi Freedom and Operation New Dawn), as well as homeland defense missions in the United States (Operation Noble Eagle) and continuing operations in the Balkans. In 2009, nearly 4,000 Wisconsin Guard members deployed in support of the Global War on Terror including 3,200 members of the 32nd Infantry Brigade Combat Team who conducted the largest operational deployment of the Wisconsin National Guard since World War II. Since 2001, nearly 13,000 Wisconsin Guard members have deployed in support of the Global War on Terror.

However, while the soldiers and airmen of the state’s militia continue to deploy overseas and serve in harm’s way when America calls, they remain available to answer the call to service in Wisconsin and throughout the nation when a natural disaster strikes or in response to domestic emergencies. The Wisconsin National Guard has provided domestic support to the citizens of Wisconsin since the 1880s. It has assisted state and local authorities with personnel and equipment during natural disasters such as forest fires, floods, tornadoes, and snowstorms. It has also assisted local authorities in restoring order during periods of civil unrest during the late 1960s and early 1970s, as well as provided support to 25 state institutions during a state employee strike in 1977. The Wisconsin National Guard has provided assistance to other states and nations for such major catastrophic events as Hurricane Katrina and the 2010 Haiti earthquake. The most recent large-scale domestic service of the Wisconsin National Guard occurred in June 2008 when over 1,000 Wisconsin Guard members assisted state and local authorities in the response to widespread flooding across the southern part of the state.

The **Division of Emergency Management** originated as the Office of Civil Defense, which was developed to administer emergency programs in case of enemy attack and was located in the governor's office under Chapter 443, Laws of 1951. Its predecessors include the Wisconsin Council of Defense, organized by executive order of Governor Julius P. Heil in 1940, and the State Council on Civil Defense, created in the governor's office by Chapter 9, Laws of 1943. The 1943 council was abolished in 1945 and its functions transferred to the adjutant general, who was appointed director of the Office of Civil Defense by the governor, as permitted in the 1951 law.

Chapter 628, Laws of 1959, renamed the office the Bureau of Civil Defense and added responsibilities for natural and human-caused disasters. The 1967 executive branch reorganization transferred the bureau to the Department of Local Affairs and Development as the Division of Emergency Government. In Chapter 361, Laws of 1979, the division was transferred to the Department of Administration. The division became part of the Department of Military Affairs in 1989 Wisconsin Act 31 and was renamed by 1995 Wisconsin Act 247. When 1997 Wisconsin Act 27 abolished the State Emergency Response Board, the division assumed the board's responsibilities pertaining to hazardous chemical substances and spills and the contracts with regional hazardous materials response teams. Since 1997, Wisconsin Emergency Management has coordinated the state's terrorism preparedness efforts by working to deter, prevent, respond to, and recover from terrorist attacks. The Wisconsin Homeland Security Council was initially created in March 2003 (Executive Order 7) and recreated in January 2011 (Executive Order 6) to advise the governor and coordinate the efforts of state and local officials regarding the prevention of, and response to, potential threats to the homeland security of the state.

Agency Responsibility: The Department of Natural Resources (DNR) is responsible for implementing state and federal laws that protect and enhance Wisconsin's natural resources, including its air, land, water, forests, wildlife, fish, and plants. It coordinates the many state-administered programs that protect the environment and provides a full range of outdoor recreational opportunities for Wisconsin residents and visitors.

Organization: The 7 members of the Natural Resources Board serve staggered 6-year terms. At least 3 of them must be from the northern part of the state and at least 3 from the southern part. Effective May 1, 2017, at least one member is required to have an agricultural background, and at least 3 members must have held an annual hunting, fishing, or trapping license in at least 7 of the 10 years previous to being nominated. Board members are subject to restrictions on holding DNR permits or depending on permit holders for a significant portion of their income. The board directs and supervises the department and acts as a formal point of contact for citizens.

The department is administered by a secretary appointed by the governor with the advice and consent of the senate. The secretary appoints the department's division administrators from outside the classified service. The regional directors, who are appointed from the classified service, manage all of the agency's field operations for their respective areas and report directly to the secretary. The Office of Business Support and Sustainability focuses on proactive business support, organizational effectiveness, and sustainability. It provides focal points within the department to better balance job creation and economic vitality with the department's environmental and conservation mission; streamline regulations, improve operational and management systems, undertake organizational efficiencies, and improve customer service; and expand the department's capacity to support business and local government efforts to become more sustainable.

Unit Functions: The *Division of Air, Waste, and Remediation & Redevelopment* protects the state's air quality and general environmental health through air pollution control, cleanup and redevelopment of contaminated property, and solid and hazardous waste management in cooperation with the federal Environmental Protection Agency, international agencies, local governments, private industry, and citizens. It develops air quality implementation plans, monitors air quality, conducts inspections, operates a permit program, and initiates compliance actions in accordance with state and federal requirements. The division's waste and materials management program implements Wisconsin's waste management laws to help ensure adequate waste treatment and disposal capacity for Wisconsin citizens and businesses; efficiently regulates waste, materials, and mining facilities to minimize their impact on human health and the environment; implements waste and recycling laws to minimize waste, conserve energy, and make productive use of material resources; and ensures Wisconsin citizens and businesses have the knowledge, opportunity, and mechanisms to safely and economically minimize, reuse, recycle, manage, and dispose of the waste and materials/byproducts they generate. The division's remediation and redevelopment program is responsible for the cleanup and redevelopment of contaminated sites that fall under the following legislation: the hazardous substances spills law, the environmental repair law, the abandoned container law, the federal Superfund and Brownfields laws, the state land recycling law, and the Resource Conservation and Recovery Act. The remediation and redevelopment program also responds to emergency contamination incidents.

The *Division of Customer and Employee Services* provides a variety of customer services including the sale of hunting and fishing licenses, boat, ATV, and snowmobile registration, environmental education programs, and public information. It oversees distribution of financial aids for environmental programs that benefit local governments and nonprofit conservation organizations, such as the Clean Water Fund and the Stewardship Fund, and acts as liaison to federal and state agencies. The division also provides a variety of management services for the department, including budgetary and financial services, personnel and human resource management, computer and information technology support, affirmative action, employee assistance, training, and telecommunication services.

The *Division of Enforcement and Science* is responsible for enforcing the state's conservation, hunting, fishing, environmental, and recreational safety laws, for providing scientific research and environmental analyses to inform agency policy and operational decisions on natural resource issues, for providing interagency coordination of the review of transportation infra-

structure projects, and for providing a central point of contact for the regulated community on energy-related projects. The division's wardens and environmental staff promote safety and compliance with the law through enforcement and educational outreach programs, such as classes in hunting, boating, snowmobile, and all-terrain vehicle safety, and community involvement programs such as the Learn to Hunt Program. The division reviews major public and private proposals under the federal and state Environmental Policy Acts, and certifies laboratories and laboratory operators for wastewater treatment systems, water supply systems, incinerators, sanitary landfills, and septage services. The division is also responsible for provision of agency laboratory services (analytical chemistry and biological) through the Wisconsin State Laboratory of Hygiene and other private contract laboratories as necessary. The division also conducts biological and social science research, provides technical writing, editing, and publication of research results, and provides expertise to assist other divisions and guide the department in policy formation.

The *Division of Forestry*, created by 1999 Wisconsin Act 9, is responsible for the administration and implementation of programs that protect and manage the state's forest resources in a sustainable manner so as to provide economic, ecological, social, recreational, and cultural benefits. The division is involved with the management of about 16 million acres of public and private forest land and millions of urban trees in the state. All of the 500,000 acres of state forest land were certified in 2004 as sustainably managed by third party auditors from the Forest Stewardship Council and Sustainable Forestry Initiative. More than 2 million acres of county forest lands, which DNR works in partnership with 29 counties to manage, were certified in 2005, as were over 2 million acres of private lands managed under the Managed Forest Law program. Foresters provide assistance to private woodlot owners; offer expertise in urban forestry; manage and monitor forest insects and diseases; operate three tree nurseries; provide public education and awareness activities; and work in partnership with local governments, the timber industry, environmental groups, and recreation interests. The division administers grants and loans to county forests, urban forestry grants to communities, forest landowner grants to woodland owners, and forest fire protection grants to fire departments. The fire management program

is responsible for forest fire protection on 18 million acres of forest, brush, and grassland and coordinates with local fire departments to prevent and control forest fires.

The *Division of Land* has major responsibility for protecting and conserving the state's biological diversity and providing nature-based recreational opportunities. The division administers programs related to wildlife; state lands, parks, trails, southern forests, and recreation areas; rare and endangered animal and plant species, and natural communities; and outdoor recreational resources. The division operates educational programs and helps private landowners manage their lands for the benefit of wildlife and rare resources. It manages wildlife and habitats on about 1.5 million acres of land owned or leased by the state and works with federal, county, and other local government authorities to protect and manage the resources on an additional 3.6 million acres of public lands, including national and county forests. The wildlife program manages populations such as deer, bear, furbearers, waterfowl and birds, and maintains and restores habitats such as wetlands, grasslands, and prairies. The endangered resources program conserves Wisconsin's rare and declining species and natural communities through the State Natural Areas program and the Nongame and Endangered Species program work that is supported primarily by funds derived from voluntary contributions designated by taxpayers on their state income tax returns and through purchase of the Endangered Resources license plate. The Endangered Resources program also supports ecosystem management decision-making in the department through the Citizen-Based Monitoring Program, the Natural Heritage Inventory Program, and the Aquatic and Terrestrial Resources inventory. Parks personnel manage the state's extensive parks, southern forests, recreation areas, and trails systems, including the Ice Age and North Country National Scenic Trails, which are designed for the conservation of natural resources and a wide variety of recreational activities including biking, hiking, snowmobiling, and camping. The division is also responsible for land acquisition for parks, trails, southern forests, recreation areas, wildlife areas, fishery areas, natural areas, and other state wildlife-related recreation lands, as well as property planning and the development of public use facilities on state lands. It coordinates the Stewardship Program, which provides grants for the purchase of lands for natural and recreational areas, wildlife habitats, urban green spaces, local parks, trails, and riverways.

The *Division of Water* works with many partners to protect public health and safety, and the quality and quantity of Wisconsin's groundwater, surface water, and aquatic ecosystems. The division is responsible for implementing the Clean Water Act in order to achieve the goal of fishable and swimmable waters throughout Wisconsin. Division staff works to prevent or regulate water pollution from industries, municipal sewage treatment facilities, construction sites, large farms, and urban areas. The division monitors compliance, sets water quality standards, and provides financial and technical assistance. Division programs protect drinking water and groundwater resources for both human and ecosystem health, and ensure the safety and security of the state's drinking water systems and private wells. The division strives to enhance and restore outstanding fisheries in Wisconsin's waters. It regulates sport and commercial fishing through licensing and provides fish hatchery services, fish stocking and surveying, aquatic habit improvement, angler education, and public access programs. The division helps protect the waters of the state that are held in trust for all the people of the state through the Public Trust Doctrine. Division staff oversees the placement of structures in state waters, wetland management and restoration, shoreland zoning, and floodplain management. The division helps local government units to protect lives and property through floodplain management and dam safety inspections. The division cooperates with many states and Canada to protect the water quality, quantity, and ecosystems of the Mississippi River and Great Lakes basins. The division also houses the Office of Great Lakes, which is responsible for restoring five designated Areas of Concern (AOC) in and along the Great Lakes.

The *Field Regions* enable the department to make its programs accessible to the general public. (Most DNR field staff work within county assignments.) This structure combines employees with different types of expertise into interdisciplinary teams responsible for assessing natural resource and environmental needs from a broader perspective.

History: Today, the Department of Natural Resources has dual responsibility for both traditional conservation duties and environmental protection. Its history and structure reflect more

than a century of government and citizen involvement with these concerns. Wisconsin's earliest conservation legislation focused on fish, game, and forests. Chapter 253, Laws of 1874, created a Board of Fish Commissioners charged with hatching fish eggs received from the federal government and distributing the fry to Wisconsin waters. The governor was authorized in 1885 by Chapter 455 to appoint 3 fish wardens to enforce fishing regulations and collect statistics from commercial fishermen. Chapter 456, Laws of 1887, directed the governor to appoint 4 game wardens to enforce all laws protecting fish and game.

Chapter 229, Laws of 1897, established a 3-member commission to develop legislation creating a forestry department. The commission was directed to devise ways to use the state's forest resources without harming the climate or water supplies and to preserve forest resources without retarding the state's economic development. The report of this commission led to Chapter 450, Laws of 1903, which established a Department of State Forestry with a superintendent appointed by the Board of State Forest Commissioners. Chapter 495, Laws of 1907, created a State Park Board with authority to acquire and manage land for park purposes.

Chapter 406, Laws of 1915, consolidated all park and conservation functions under a 3-member Conservation Commission of Wisconsin, appointed by the governor with senate approval. From then until 1995, the management and conservation of Wisconsin's natural resources was directed by a part-time commission or board, except for the period 1923 to 1927, when a single full-time commissioner was created by Chapter 118, Laws of 1923, to head the Department of Conservation. Since the enactment of 1995 Wisconsin Act 27, which provided that the secretary would be appointed by the governor with senate consent rather than appointed by the board, the current board's role has been an advisory one.

The 1960s saw major changes in conservation legislation. Chapter 427, Laws of 1961, created a committee charged with developing a long-range plan for acquiring and improving outdoor recreation areas. It initiated the Outdoor Recreation Act Program (ORAP) to fund land acquisitions. In 1969, Chapter 353 expanded ORAP and authorized the state to incur debt up to \$56 million between 1969 and 1981 for the purpose of providing outdoor recreation opportunities. With enactment of 1989 Wisconsin Act 31, the legislature created the Stewardship Program, which authorized up to \$250 million in state debt to acquire and develop land for recreational uses, wildlife habitats, fisheries, and natural areas.

Wisconsin's antipollution efforts date back to Chapter 412, Laws of 1911, when the legislature gave the State Board of Health investigative powers in water pollution cases. Prior to that, such investigations were primarily the responsibility of local government. In Chapter 264, Laws of 1927, the legislature created a committee to supervise the water pollution control activities carried out by several state agencies, including the Conservation Commission. The Department of Resource Development, which had been created by Chapter 442, Laws of 1959, assumed water pollution control duties under Chapter 614, Laws of 1965, and statewide air pollution regulation with Chapter 83, Laws of 1967.

In the 1967 executive branch reorganization, the legislature created the Department of Natural Resources by combining the Department of Conservation and the Department of Resource Development. The new department was given authority to regulate air and water quality, as well as solid waste disposal, and directed to develop an integrated program to protect air, land, and water resources.

Chapter 274, Laws of 1971, required all state agencies to report on the environmental impacts of proposed actions that could significantly affect environmental quality. Chapter 275, Laws of 1971, provided for state protection of endangered fish and wildlife, and Chapter 370, Laws of 1977, placed nongame species and endangered wild plants under state protection. A program protecting surface waters from nonpoint source pollution was created by Chapter 418, Laws of 1977, and a groundwater protection program, based on numerical standards for polluting substances, was created by 1983 Wisconsin Act 410. In Wisconsin Act 335, the 1989 Legislature made major changes in the laws governing recycling, source reduction, and disposal of solid wastes.

Agency Responsibility: The Office of the State Public Defender makes determinations of indigence and provides legal representation for persons in specified types of proceedings who are unable to afford a private attorney. The state public defender, who must be a member of the state bar, serves at the pleasure of the Public Defender Board.

Organization: The 9-member Public Defender Board appoints the state public defender, promulgates rules for determining indigence, and establishes procedures for certifying lists of private attorneys who can be assigned as counsel. Board members are appointed for staggered 3-year terms, and at least 5 of these must be members of the State Bar of Wisconsin. Members may not be or be employed by a judicial or law enforcement officer, a district attorney, a corporation counsel, or the state public defender.

Unit Functions: The *Administrative Services Division* oversees accounting, purchasing, payroll services, budget preparation, case management, and fiscal analysis.

The *Appellate Division* uses both program staff and private attorneys to provide post-judgment legal representation to the indigent and minors in criminal, civil commitment, juvenile code, and children's code cases in the trial and appellate courts.

The *Assigned Counsel Division* oversees a variety of functions related to appointment of private attorneys to represent indigent clients in cases not handled by staff, including certification and training, logistical support, and payment of fees.

The *Trial Division* provides legal representation at the trial level to indigent persons who have been charged with adult felony crimes or misdemeanors punishable by imprisonment. It also represents minors charged with juvenile offenses, persons subject to a petition for civil commitment, and individuals involved in termination of parental rights.

History: Both the United States Constitution (Sixth and Fourteenth Amendments) and the Wisconsin Constitution (Article I, Section 7), as interpreted by the U.S. and Wisconsin Supreme Courts, guarantee the right to publicly-provided counsel for poor people charged with crimes or facing potential deprivations of liberty. In 1859, the Wisconsin Supreme Court ruled, in *Carpenter and Sprague vs. the County of Dane* (9 Wis. 274), that a county is liable to pay for an attorney provided by the court in a criminal case to represent an indigent defendant who cannot otherwise afford representation.

The position of state public defender was created in 1966 by Chapter 479, Laws of 1965, under the supervision of the Wisconsin Supreme Court and funded, in part, by a private grant from the Ford Foundation. The duties of the office were originally confined to appellate defense, and its mission was to pursue post-conviction appeals for indigents before the appropriate courts, including the U.S. Supreme Court. Defense of indigents at the trial court level remained a county responsibility, dependent upon court-appointed private counsel paid by the county or privately funded public defender services.

Chapter 29, Laws of 1977, transferred the state public defender from the judicial branch to the executive branch as an independent agency under the Public Defender Board, which was authorized to appoint the defender to a 5-year renewable term with removal only for cause. (Chapter 356, Laws of 1979, later provided that the public defender serve at the pleasure of the board.) Chapter 29 also transferred the responsibility for defense of indigents at the trial level from the counties to the public defender's office, but representation by the defender's staff was limited, based on funding and statutory criteria. Client representation was, and continues to be, divided between staff attorneys and private counsel paid by the public defender.

Chapter 29, Laws of 1977, directed the public defender to determine the percentage of cases that private counsel would handle in each county. Chapter 356, Laws of 1979, established those percentages by law with the public defender staff assuming various portions of the caseloads in 47 counties and private counsel responsible for all cases in the remaining 25 counties. 1985

Wisconsin Act 29 expanded the use of public defender staff attorneys to all 72 counties and repealed the sunset provision enacted in 1979, which would have abolished the agency, effective November 15, 1985.

1995 Wisconsin Act 27 directed the public defender to enter into annual fixed fee contracts with private counsel and limited the number of trial-level cases assigned to private attorneys to one-third of all cases handled. It also eliminated public defender representation in some cases, including certain matters related to prison and jail conditions, sentence modifications, probation and parole revocations, child support, and parents of children in need of protection or services (CHIPS).

2009 Wisconsin Act 164 revised the financial criteria for public defender representation and provided for additional staff positions to provide services to 75% of the additional clients who will qualify for representation. Act 164 was designed to reduce the number of cases in which the courts appoint an attorney at county expense and to enhance consistency in appointment of attorneys statewide.

Electronic publications include *Channel Weekly*, *DPI-ConnectED*, various program area newsletters and Web sites, including the School Performance Report and Wisconsin Information Network for Successful Schools (WINSS), available on the department's Internet site.

Agency Responsibility: The Department of Public Instruction provides direction and technical assistance for public elementary and secondary education in Wisconsin. The department offers a broad range of programs and professional services to local school administrators and staff. It distributes state school aids and administers federal aids to supplement local tax resources, improves curriculum and school operations, ensures education for children with disabilities, offers professional guidance and counseling, and develops school and public library resources.

Organization: The department is headed by the State Superintendent of Public Instruction, a constitutional officer who is elected on the nonpartisan spring ballot for a term of 4 years. The state superintendent appoints a deputy state superintendent and assistant state superintendents from outside the classified service. The assistant superintendents are responsible for administering the operating divisions of the department. The superintendent also appoints the director of the Office of Educational Accountability, which was created in Section 15.374 (1), Wisconsin Statutes, by 1993 Wisconsin Act 16.

Unit Functions: The *Division for Academic Excellence (DAE)* provides leadership and professional development regarding curriculum development, academic and technical skills standards, and instructional methods and strategies, as well as professional learning and support to a variety of content area educators. The division is comprised of five teams: Career and Technical Education; Common Core State Standards Implementation; Content and Learning; Educator Effectiveness; and Teacher Education, Professional Development and Licensing. A service orientation and culturally responsive view guide the teams' work to provide technical assistance to educators, parents, communities, and professional organizations.

The division reviews and approves educator preparation programs and licenses teachers, pupil services personnel, administrators, and library professionals. The division monitors school district and vocational education compliance with state nondiscrimination laws and rules.

The division administers a variety of programs that provide assistance and grants to public school students and teachers on the basis of merit and need, as well as provides consultation and leadership for multicultural education. These programs include: American Indian Studies Program, American Indian Language and Culture Education, Herb Kohl Educational Foundation Award Program, Presidential Awards for Mathematics and Science Teachers, U.S. Senate Youth Program, Urban Teacher World Program, as well as international partnerships with Germany, China, Japan, Thailand, and France. DAE also directs youth options, education for employment, the career and technical student organizations, and administers the high school equivalency/general educational development (HSED/GED) program for state residents who have not completed high school.

DAE administers federal programs that provide assistance for world languages, advanced placement, and alternative education. The division administers funds for school districts under the Carl D. Perkins Career and Technical Education Act of 2006 to enhance and improve career and technical educational programs. DAE also administers part of the state and federally funded Bilingual/English as a Second Language Program.

The division provides a cradle-to-career focus for instructional leaders and educators through work done by the Office of Early Learning and by providing standards and supports through high school and the transition to postsecondary work. The division curates and creates high quality resources to assist with Common Core State Standards implementation. Resources and technical assistance are provided around career and technical education standards and other core academic standards. Gifted and Talented education support can also be found in the Division for Academic Excellence.

The division is leading efforts to develop and implement a statewide educator effectiveness system, where all educators will be evaluated based upon multiple measures. This complex system factors in educator practice and student performance in providing feedback to educators around their strengths and areas for improvement.

The *Division for Finance and Management* distributes state and federal school aids and grants; administers school district revenue limits; monitors the Milwaukee Parental Choice Program and the interdistrict open enrollment program; prescribes school financial accounting methods; consults with school districts on their budgets; and collects, analyzes, and publishes school finance data. Consulting services are provided to assist districts and charter schools with management and planning, school district reorganization, pupil transportation, private school relations, school board elections and duties, and finance and asset management. The division is responsible for both state and federally funded school food and nutrition services, nonschool child care food services, and elderly nutrition programs. It also provides support services to the department for financial management, human resources, budget preparation, educational policy and administrative rule development, and legislative analysis.

The *Division for Learning Support*, created in Section 15.373 (1), Wisconsin Statutes, as the Division for Handicapped Children by Chapter 327, Laws of 1967, formerly named in 1993 Wisconsin Act 335, as the Division for Learning Support: Equity and Advocacy, and most recently renamed in 2011 Wisconsin Act 158, provides technical assistance, leadership, advocacy, staff development, training, and education to help meet the diverse cultural, emotional, social, health, and educational needs of Wisconsin's youth. The mission is met through collaboration with federal, state, and local groups. The division manages state and federal resources, monitors and evaluates programs and practices, and facilitates school-district and community efforts to meet specific needs of students. The division administers programs involving school nursing, social work, psychological services, and school counseling services; alcohol, tobacco, and other drug abuse; suicide prevention; alcohol and traffic safety; school-age parents; school violence prevention; prevention of HIV and other sexually transmitted diseases; pregnancy prevention; health education; physical education and activity; coordinated school health programs; compulsory school attendance; and after-school programs.

The division offers technical assistance and financial support to help school districts provide a free appropriate public education for students with disabilities, combat educational discrimination, and train professional staff. It is responsible for special educational programs and services for students with disabilities. It must ensure that all students with disabilities are identified, evaluated, and provided appropriate education and services. It supervises all special education programs and checks their compliance with departmental standards and state and federal law. The division provides consultation for and supervision of the Pupil Nondiscrimination Program.

The division administers the Wisconsin Educational Services Program for the Deaf and Hard of Hearing (WESP-DHH) and the Wisconsin Center for the Blind and Visually Impaired (WCBVI). Each program operates a residential school for state residents who are ages 3 to 21, have a visual or hearing impairment, and need individualized instruction. Both schools provide academic and vocational education on site at no cost to families. Both programs also offer instructional and technical assistance, teaching materials, and evaluations of pupils to local school districts and other agencies.

The *Division for Libraries and Technology (DLT)*, created as the Division for Library Services in Section 15.373 (2), Wisconsin Statutes, by Chapter 327, Laws of 1967, renamed as the Division for Libraries, Technology, and Community Learning in 2001 Wisconsin Act 48, and most recently renamed the Division for Libraries and Technology in 2011 Wisconsin Act 158, provides assistance for the development and improvement of public and school libraries; fosters interlibrary cooperation and resource sharing; and promotes information and instructional technology in schools and libraries. The division administers the state aid program for Wisconsin's 17 public library systems. It also administers the federal Library Services and Technology Act. The division facilitates interlibrary loan and reference services to the state's libraries and manages WISCAT (www.WISCAT.net), the interlibrary loan management system and electronic union and virtual catalog of Wisconsin library holdings. The division also acts as a state-level clearinghouse for interlibrary loan requests; administers BadgerLink (www.badgerlink.net), the statewide full-text database project that allows access to thousands of magazines, newsletters, newspapers, pamphlets, and historical documents; and, in collaboration with other Wisconsin library organizations, manages BadgerLearn, the statewide portal of training and professional development materials created by the Wisconsin library community. The division manages contracts with library organizations necessary to the provision of interlibrary loan services, library service to the blind and visually impaired, and enhancing awareness of high quality children's literature in the school and library communities. The division directs the public librarian certification program, and the summer library reading program, and provides planning and coordination for the development of libraries in schools and Wisconsin communities, as well as regional public library systems.

DLT also serves as the information technology team for the entire agency. One of the division's teams implements and supports a new statewide K-12 data warehouse and dashboard system; this data warehouse system aggregates data from a variety of data collections and information systems into an easy-to-use interface for every school district across Wisconsin known as WISEdash. The division provides information and resources for and about schools through WINSS (Wisconsin Information Network for Successful Schools), SDPR (School District Performance Report), and other department resources. DLT also provides guidance and oversight to instructional technology efforts in all Wisconsin school districts. The DLT staff has led the development of a statewide digital learning strategic plan with the state superintendent's Digital Learning Advisory Council, creating a roadmap for all school districts. Project efforts include creation of a statewide learning management system and virtual professional learning community portal. In addition, DLT provides guidance on development of local technology and library media program plans and utilization of the Common School Fund, and consults on school library media program staff licensure. The staff also facilitates professional learning activities associated with education technology integration within schools.

The *Division for Student and School Success* is responsible for ensuring that all children attain proficiency in meeting the Wisconsin Model Academic Standards. The four teams in this division, Educational Accountability, Student Assessment, Title I and School Support, and Wisconsin Educational Opportunity Programs and Urban Education, have as a major focus closing

the achievement gap that exists among children of color, the economically disadvantaged, and their peers.

The Office of Educational Accountability provides data to assist district and school personnel in evaluating and making decisions related to educational planning and programming. This team provides accountability outcomes via School and District Report Cards related to state and federal legislation and gives technical assistance in evaluating results and developing approaches to using data to inform decisions ensuring students are prepared for college and careers.

The Office of Student Assessment provides statewide assessments which measure student proficiency related to the Wisconsin Model Academic Standards and the Common Core State Standards. Assessments also include screening measures in early literacy and English language proficiency. The data from these assessments are compiled into reports for district and school improvement efforts as well as meeting the expectations of state and federal reporting requirements.

The Title I and School Support Team provides a multitude of resources to districts and schools that include a number of programs under the federal Elementary and Secondary Education Act of 1965 and the No Child Left Behind Act of 2001, including programs under Title I-Part A, Even Start, Migrant Education, Neglected and Delinquent Youth, McKinney-Vento Homeless Assistance Act, the VISTA program, and the state class size reduction program Student Achievement Guarantee in Education (SAGE).

The Wisconsin Educational Opportunity Programs and Urban Education Team focuses on improving high school graduation rates, reducing dropouts and encouraging nontraditional, minority, disadvantaged, and low-income students with college potential to pursue postsecondary education. Programs to achieve team objectives include state and federal Talent Search, Talent Incentive Program, Early Identification Program, Pre-College Scholarship Program, Gear Up, and Upward Bound Program. The Urban Education program was established in 1995 to provide services to urban areas including Beloit, Kenosha, Milwaukee, and Racine to facilitate cooperative efforts to address the challenges and equity needs facing families, children, and educators in an urban setting. Programs to achieve team objectives include Special Education, Title I, and Urban Staff Development and Teacher Education Program Review.

History: The Wisconsin Constitution, as adopted in 1848, required the state legislature to provide by law for the establishment of district schools that would be free to all children between the ages of 4 and 20 years. It also created a State Superintendent of Public Instruction to supervise public education. Under the 1849 Wisconsin Statutes, the superintendent was ordered to visit schools in all the counties, recommend textbooks and courses of instruction, and distribute state money for public schools to the counties.

Originally, the superintendent was elected to a 2-year term at the partisan general election in November. With the adoption of a constitutional amendment in 1902, the superintendent was placed on the nonpartisan April ballot and given a 4-year term of office.

In the early years of statehood, the hiring of teachers was entirely a local matter. In 1861, the legislature created county superintendents of schools with the power to license teachers beginning in 1862. The state superintendent was also given licensing authority in 1868 (Chapter 169). Local districts and county superintendents continued to license teachers until 1939, when the legislature gave that power exclusively to the Department of Public Instruction.

For a number of years, state support of public education consisted of money derived principally from the sale of public lands that the federal government had granted to the state. In Chapter 287, Laws of 1885, the legislature levied a one-mill (one-tenth of a cent) state property tax to be collected by the state and distributed to counties for school support. The state's first attempt to equalize tax support for schools in property-poor districts was the Wisconsin Elementary Equalization Law of 1927 (Chapter 536). It was promoted by State Superintendent John Callahan, who also urged a 40% level of state support for local school costs – a figure not reached until after 1970. The 1995 Legislature enacted a law to ensure that state aids and school levy tax credits would cover two-thirds of local school revenues, but subsequently repealed that requirement in 2003.

Originally, Wisconsin only required tax support for elementary schools. Individual cities, such as Racine and Kenosha, funded their own high schools. The legislature enacted public support for high schools in 1875 (Chapter 323). Kindergarten originated in 1856 when Margarethe Schurz started a German-speaking program for children 2 through 5 years of age in Watertown, Wisconsin. The first public school kindergarten opened in Manitowoc in 1873 for 4- and 5-year-old children. The program continued to spread until, in 1973, the legislature required school districts to provide a 5-year-old kindergarten. In the 1990s, an increasing number of school districts offered full-day programs for 5-year-old children and kindergarten programs for 4-year-olds.

Although state law had contained some curriculum requirements as early as 1849, the legislature did not establish high school graduation requirements until 1983. In 1985, it prescribed a detailed set of standards local districts must meet to be eligible for state aid. The 1997 Legislature mandated that school boards adopt pupil academic standards in certain subjects, a series of examinations to measure pupil achievement in 4th, 8th, and 10th grades, and a high school graduation examination. The 2003 Legislature eliminated the high school graduation examination.

State concern for special education began with the establishment of the Wisconsin Institute for Education of the Blind in Janesville in 1850 and a school for the deaf in Delavan in 1852. These schools were administered by public welfare agencies until transferred to the Department of Public Instruction in 1947. The 1927 Legislature enacted laws to provide aid for special classes for “crippled children” and increased aid for districts to educate mentally handicapped children. Funding for education of all handicapped children was enacted in 1973 to comply with federal law.

While state administration of school libraries fell under the jurisdiction of the superintendent, the Free Library Commission set standards for public libraries. In 1965, the legislature transferred this function to the department.

Agency Responsibility: The Public Service Commission (PSC) is responsible for regulating Wisconsin's public utilities and ensuring that utility services are provided to customers at prices reasonable to both ratepayers and utility owners. The commission regulates the rates and services of electric, gas distribution, heating, water, and combined water and sewer utilities. The commission has limited jurisdiction over landline telecommunications providers and services. In most instances, the commission's jurisdiction does not extend to the activities of electric cooperatives, wireless telephone providers, cable television, or Internet service.

Responsibilities of the commission include setting utility rates, determining levels for adequate and safe service, and utility bond sales and stock offerings. It confirms or rejects utility applications for major construction projects, such as power plants, transmission lines, and wind farms. In addition to ensuring utility compliance with statutes, administrative codes, and record-keeping requirements, the commission's staff investigates and mediates thousands of consumer complaints annually. During the complaint process, commission staff reviews all pertinent information to make certain that the utility's handling of the complaint is in compliance with the applicable rules. The commission also rules on proposed mergers between utility companies.

The commission certifies various types of telecommunications providers, manages the Universal Service Fund, handles some wholesale disputes between providers including interconnection agreement filings and disputes, and administers telephone numbering resources.

Organization: The governor appoints the 3 full-time commissioners, with senate approval, to serve staggered 6-year terms, but an individual commissioner holds office until a successor is appointed and qualified. No commissioner may have a financial interest in a railroad or public utility or water carrier or serve on or under a political party committee. By work rule, no employee or immediate family member may own stock in a utility or any entity regulated by the commission. The governor designates a chairperson who, in turn, may appoint division administrators from outside the classified service.

Unit Functions: The *Division of Administrative Services* provides the commission's human resources and personnel management, budget development, financial management, information technology, staff development, facilities management, intervenor financing coordination, procurement, and grants administration. Its central records management staff provides agency staff with printing, mail, and case file services.

The *Natural Gas and Energy Division* is responsible for all aspects of regulating electric utilities and the provision of natural gas service. PSC approval is required for utilities to change rates, build power plants, or construct major transmission lines. The division looks at need, alternatives, costs, and environmental impacts for construction cases and reviews finances, corporate structure, and affiliated interests in rate cases. It also provides the commissioners with information they need in order to make decisions regarding construction and rate cases.

The *Telecommunications Division* is responsible for oversight of the telecommunication industry in Wisconsin and resolution of disputes involving those services that are within PSC jurisdiction. The PSC promotes competition in the state's telecommunications markets in order

to ensure access to modern and affordable service throughout the state. The PSC works to resolve disputes between service providers, administers universal service programs, administers telephone numbering resources, and advises the Federal Communications Commission on matters pertaining to Wisconsin's interests in federal telecommunications policy. The division also undertakes the PSC's efforts on broadband infrastructure mapping and planning.

The *Division of Water, Compliance and Consumer Affairs* is responsible for regulating water and sewer public utilities in Wisconsin and ensuring utility compliance with the consumer sections of the state administrative code and statutes. The division offers assistance to all of the state's utilities for compliance with the statutes, code, and record-keeping requirements and the development of consumer affairs policies. The division also coordinates consumer information and mediates resolutions to consumer complaints.

History: Public utility regulation in Wisconsin followed and was closely related to railroad regulation. Railroads were the first modern enterprise to have their rates regulated, and Wisconsin became one of the first states to pass such laws. Chapter 273, Laws of 1874, established a railroad rate structure and provided for 3 appointed railroad commissioners to supervise rail freight operations. Two years later in Chapter 57, Laws of 1876, the legislature repealed much of the 1874 law and established a single appointed commissioner of railroads. The commissioner was made an elected official in 1881 (Chapter 300).

The forerunner of today's commission dates from Chapter 362, Laws of 1905, which created an appointed 3-member Railroad Commission to supervise rail operations, appraise railroad property, and set rates. With the enactment of Chapter 499, Laws of 1907, which extended the powers of the Railroad Commission, Wisconsin became the first state to regulate all public utilities.

Chapter 183, Laws of 1931, renamed the agency the Public Service Commission of Wisconsin and made it responsible for comprehensive motor carrier regulation in 1933 (Chapter 488). The 1967 executive branch reorganization continued the commission as an independent agency. Chapter 29, Laws of 1977, transferred the commission's railroad and motor carrier regulatory functions to the Transportation Commission (recreated in 1982 as the now defunct Office of the Commissioner of Transportation). Railroad regulation was assigned to the newly created Office of the Commissioner of Railroads by 1993 Wisconsin Act 123.

Laws passed in 1985 provided for a partial deregulation of public utility holding companies and telecommunications service. 1993 Wisconsin Act 496 significantly altered the regulation of telecommunications utilities, particularly regarding rate-setting procedures. 2011 Wisconsin Act 22 established a new regulatory framework for telecommunications utilities, which eliminated the commission's authority to regulate the prices utilities charge telecommunications customers, as well as removing the commission's authority to investigate most consumer complaints involving retail telecommunications issues.

Statutory Councils

Telecommunications Privacy Council: Inactive.

The Telecommunications Privacy Council advises the commission on guidelines designed to protect the privacy of users of telecommunications services. The number of members on the council is not specified, but all must represent telecommunications providers or consumers. The 15-member Wind Siting Council advises the commission on promulgation of rules relating to restrictions a political subdivision may impose on the installation of a wind energy system including setback requirements that provide reasonable protection from any health effects. The council also surveys the peer-reviewed scientific research regarding the health impacts of wind energy systems and studies state and national regulatory developments regarding the siting of wind energy systems. The members of the council are appointed by the commission for 3-year terms. The council was created by 2009 Wisconsin Act 40 and its composition and duties are prescribed in Sections 15.797 (1) and 196.378 (4g) of the statutes.

The *Technology Services Division* administers technology services for all parts of the department, including data administration, applications development, workstation support, data collection, and technology planning.

The department also administers the state's unclaimed property program.

History: The antecedents of the Department of Revenue date back at least to Chapter 130, Laws of 1868, which created a State Board of Assessors, composed of the secretary of state and the entire state senate, to perform the state's taxing functions. At that time, the property tax was the state's primary source of revenue.

Chapter 235, Laws of 1873, changed the board's composition to the secretary of state, state treasurer, and attorney general. The 1899 Legislature created the Office of Tax Commissioner (Chapter 206) to supervise the state's taxation system and made the commissioner a member and presiding officer of the State Board of Assessors.

The composition of the State Board of Assessors was changed again in Chapter 237, Laws of 1901, when the legislature replaced the constitutional officers with two assistant commissioners. The 1905 Legislature abolished the State Board of Assessors (Chapter 380) and assigned its functions to a 3-member Tax Commission, appointed by the governor with the advice and consent of the senate. This structure lasted until Chapter 412, Laws of 1939, created the Department of Taxation, headed by a single commissioner. Chapter 75, Laws of 1967, renamed the agency the Department of Revenue and the commissioner became the secretary.

Throughout the years, certain tax-related functions have been moved from one agency or level of government to another. For example, local officials originally assessed manufacturing property, but the 1973 Legislature gave the department responsibility for assessing all manufacturing property in the state.

Similarly, the 1939 Legislature made the Department of Taxation responsible for performing audits upon the request of local governmental units. After assignment to several other agencies, the legislature returned this function to the Department of Revenue in 1971. In 1983, the legislature repealed the department's mandatory municipal audit functions but left intact its discretionary oversight of municipal accounting.

The department currently is responsible for administration of the Wisconsin Lottery. The lottery was originally created by 1987 Wisconsin Act 119 and administered by the Lottery Board. It was later managed by the Wisconsin Gaming Commission. 1995 Wisconsin Act 27, which transferred the State Lottery to the Department of Revenue, also repealed the commission and created the Gaming Board. The Gaming Board was repealed in 1997 Wisconsin Act 27.

Statutory Board and Council

The number of board members is determined by the secretary, but all must be department employees. The board was created by Chapter 90, Laws of 1973, and its composition and duties are prescribed in Section 70.995 (8) of the statutes.

Farmland Advisory Council: RICHARD CHANDLER (secretary of revenue), *chairperson*; vacancy (agribusiness), CARL AXNESS (knowledgeable about agricultural lending practices), BRUCE JONES (UW System agricultural economist), TIM HANNA (mayor of a city of 40,000 or more population), vacancy (environmental expert), vacancy (representing nonagricultural business), STEPHEN HINTZ (urban studies professor), HERB TAUCHEN (farmer) (all appointed by secretary of revenue); MELVIN RAATZ (assessor) (appointed by secretary of revenue as an advisor to council).

Agency Responsibility: The 9-member Farmland Advisory Council advises the Department of Revenue on implementing use-value assessment of agricultural land and reducing urban

sprawl. It is required to report annually to the legislature on the usefulness of use-value assessment as a way to preserve farmland, discourage urban sprawl, and reduce the conversion of farmland to other uses. It also recommends changes to the shared revenue formula to compensate local governments adversely affected by use-value assessment. In carrying out its duties, it cooperates with the Wisconsin Strategic Growth Task Force of the State Interagency Land Use Council. The council was created by 1995 Wisconsin Act 27, and its composition and duties are prescribed in Section 73.03 (49) of the statutes.

Under Section 440.042, Wisconsin Statutes, the secretary of the department of safety and professional services may appoint advisory committees to advise the department and its boards on matters relating to the regulation of credential holders. Professions for which an advisory committee may be created are as follows: acupuncture; athletic agent; behavior analysts; boxing; charitable organizations; home inspector; interior designer; licensed midwife; music, art and dance therapy; peddler; private detective; private security person; professional employer organizations; professional fund raiser; professional fund raising council; real estate contractual forms; real estate appraisers application; real estate appraisers education and experience; registered sanitarian; substance abuse counselor.

Publications: Biennial reports; Consumer Complaints; Other Resources; The Impaired Professionals Procedure; Information About Your Hearing; Wisconsin Directory of Accredited Schools of Nursing; plus informational bulletins for credential holders, monthly disciplinary reports, and statute/rules codebooks.

Agency Responsibility: The Department of Safety and Professional Services is responsible for ensuring the safe and competent practice of licensed professionals in Wisconsin. The department also administers and enforces laws to assure safe and sanitary conditions in public and private buildings and regulates petroleum products and petroleum storage tank systems. It provides administrative services to the state occupational regulatory authorities responsible for regulation of occupations and offers policy assistance in such areas as evaluating and establishing new professional licensing programs, creating routine procedures for legal proceedings, and adjusting policies in response to public needs. Currently, the department and regulatory

authorities are responsible for regulating more than 430,000 credential holders and 200 types of credentials.

The department investigates and prosecutes complaints against credential holders and assists with drafting statutes and administrative rules. The Professional Assistance Procedure (PAP) program enforces participation agreements with credential holders who are chemically impaired, allowing them to retain their professional credentials if they comply with requirements, including treatment for chemical dependency.

The department provides direct regulation and licensing of certain occupations and activities. Numerous boards and regulatory authorities attached to the department have independent responsibility for the regulation of specific professions in the public interest. Within statutory limits, they determine the education and experience required for credentialing, develop and evaluate examinations, and establish standards for professional conduct. These standards are set by administrative rule and enforced through legal action upon complaints from the public. The regulatory authorities may reprimand a credential holder; limit, suspend, or revoke the credential of a practitioner who violates laws or board rules; and, in some cases, impose forfeitures.

Regulatory authority members must be state residents, and they cannot serve more than two consecutive terms. No member may be an officer, director, or employee of a private organization that promotes or furthers the profession or occupation regulated by that board.

Organization: The governor appoints the secretary of the department with the advice and consent of the senate. The secretary appoints a deputy secretary, an executive assistant, and the heads of various subunits from outside the classified service.

The boards and councils attached to the department consist primarily of members of the professions and occupations they regulate. In 1975, the legislature mandated that at least one public member serve on each board. In 1984, it required an additional public member on most boards. Public members are prohibited from having ties to the profession they regulate. In most cases, the governor appoints all members of the licensing and regulatory boards with the advice and consent of the senate. However, in some cases, council members are appointed by the governor without senate confirmation, by the secretary of the department, or by their related examining boards.

Unit Functions: The *Division of Industry Services* is divided into three bureaus and an administrative services section. The Bureau of Environmental Services administers the Petroleum Environmental Cleanup Fund Award (PECFA) and Petroleum Products and Tanks programs. The Bureau of Field Services provides services related to the construction and operation of buildings, along with ensuring compliance with health and safety codes. The Bureau of Technical Services provides services such as plan review, consultation, and product evaluation. The Administrative Services Section provides administrative support to internal and external stakeholders.

The *Division of Legal Services and Compliance* (DLSC) is a public law office providing legal services to professional boards and regulated industries. As part of these services, DLSC is organized into legal teams which include complaint intake personnel, consumer protection investigators, paralegals, prosecutors and designated board counsel. The division inspects business establishments of credential holders, audits specific trust accounts and financial records, monitors compliance with disciplinary orders and administers the Professional Assistance Procedure – a confidential monitoring program for impaired professionals.

The *Division of Management Services* provides administrative and technical support assistance to the department and boards, including information technology, budget and fiscal services, human resources, and administrative support services.

The *Division of Policy Development* provides professional and administrative support to over 60 regulatory boards, councils, and committees. This includes: preparing agendas, transcribing meeting minutes, and researching and analyzing issues related to the regulated professions and programs. The division facilitates the drafting of administrative code and implementation of new laws, rules, and policies.

The *Division of Professional Credential Processing* receives applications for licenses and permits, creates applicant records, and determines whether credential criteria have been met.

History: The 2011-13 biennial budget, 2011 Wisconsin Act 32, created the Department of Safety and Professional Services (DSPS) by combining the Department of Regulation and Licensing (DRL) and the Divisions of Safety and Buildings and Environmental and Regulatory Services from the Department of Commerce.

Chapter 75, Laws of 1967, created DRL and attached to it 14 separate examining boards that had been independent agencies. The 1967 reorganization also transferred to the department some direct licensing and registration functions not handled by boards, including those for private detectives and detective agencies, charitable organizations, and professional fund-raisers and solicitors.

DRL's responsibilities changed significantly since its creation. Initially, it performed routine housekeeping functions for the examining boards, which continued to function as independent agencies. Subsequently, a series of laws required the department to assume various substantive administrative functions previously performed by the boards and to provide direct regulation of several professions.

DSPS's Division of Safety and Buildings traces its roots to 1911 when the Legislature created the Industrial Commission in Chapter 485 to set standards for a safe place of employment. This "safe place" statute was extended in Chapter 588, Laws of 1913, to include public buildings, defined as "any structure used in whole or in part as a place of resort, assemblage, lodging, trade, traffic, occupancy, or use by the public, or by three or more tenants." The commission adopted its first building code in 1914. Programs added over the years include plumbing, heating, ventilation, air conditioning, energy conservation, private on-site waste treatment systems, accessibility for people with disabilities, and electrical inspection and certification. These responsibilities and the job of administering various other laws relating to the promotion of safety in public and private buildings, including enforcing building codes, and the licensure of occupations such as electricians and plumbers, were ultimately assumed by the Department of Commerce.

DSPS's Division of Environmental and Regulatory Services was created by 1995 Wisconsin Act 27 which transferred the PECFA program and the safety and buildings functions from the Department of Industry, Labor and Human Relations to the Department of Commerce. It was removed as a statutory requirement under 2011 Wisconsin Act 32.

Agency Responsibility: The Office of the Secretary of State performs a variety of services for state government and Wisconsin municipalities. Wisconsin's Constitution requires the secretary of state to maintain the official acts of the legislature and governor, and to keep the Great Seal of the State of Wisconsin and affix it to all official acts of the governor.

Organization: The secretary of state, a constitutional officer elected on a partisan ballot in the November general election, heads the Office of the Secretary of State.

Unit Functions: The *Government Records Division* keeps the Great Seal of the State of Wisconsin and affixes it to all official acts of the governor, coordinates the publication of state laws with the Legislative Reference Bureau, records official acts of the legislature and the governor, and files oaths of office. It also files deeds for state lands and buildings, issues authentications and apostilles (a form of international authentication of notaries public), preserves the original copies of all enrolled laws and resolutions, and files annexations, charter ordinances, and incorporation papers for villages and cities. Municipal records and deeds can be accessed via the agency Web site.

History: The 1836 congressional act that organized the Territory of Wisconsin provided for a secretary of the territory to be appointed by the President of the United States. This office was the forerunner of the post of secretary of state created by the Wisconsin Constitution. Delegates to the constitutional conventions of 1846 and 1848 determined that the secretary of state would be a constitutional officer. From the beginning of statehood until 1970, the secretary of state was elected for a 2-year term. Pursuant to a constitutional amendment ratified in 1967 and effective since the 1970 election, the term was extended to 4 years.

In the early days of statehood, the secretary of state personally performed a broad range of duties that are now delegated to other state agencies. Chapter 276, Laws of 1969, created the Office of the Secretary of State to assist the secretary.

Functions: The state treasurer participates in the promotion of the state's unclaimed property program administered by the Department of Revenue, and signs certain checks and other financial instruments.

History: The territorial treasurer, an office created in 1839, was appointed by the governor, but the Wisconsin Constitution, adopted in 1848, made the office an elective partisan position. From 1848 through 1968, the state treasurer was elected to a 2-year term in the November gen-

eral election. Since 1970, following ratification of a constitutional amendment in April 1967, the state treasurer has been elected to a 4-year term. Chapter 276, Laws of 1969, created the Office of the State Treasurer to assist the treasurer.

Statutory References: Section 15.94; Chapter 38.

Agency Responsibility: The Technical College System Board is the coordinating agency for the Technical College System. The board establishes statewide policies and standards for the educational programs and services provided by the 16 technical college districts that cover the state. The district boards, in turn, are responsible for the direct operation of their respective schools and programs. They are empowered to levy property taxes, provide for facilities and equipment, employ staff, and contract for services. The districts set academic and grading standards, appoint the district directors, hire instructional and other staff, and manage the district budget.

The system board supervises district operations through reporting and audit requirements and consultation, coordination, and support services. It sets standards for building new schools and adding to current facilities. It also provides assistance to districts in meeting the needs of target

groups, including services for the disadvantaged, the disabled, women, dislocated workers, the incarcerated, and minorities.

The board administers state and federal aids. It works with the Department of Public Instruction to coordinate secondary and postsecondary vocational and technical programs. It also cooperates with the University of Wisconsin System to establish coordinated programming to make the services of the two agencies fully available to state residents. The board cooperates with the Department of Workforce Development to provide training for apprentices.

Organization: The 13-member Technical College System Board includes 9 members appointed by the governor to serve staggered 6-year terms and a technical college student appointed for a 2-year term. The student must be 18 years of age and a state resident who is enrolled at least half-time and in good academic standing. The governor may not appoint a student member from the same technical college in any two consecutive terms. No person may serve as board president for more than two successive annual terms. A 1971 opinion of the attorney general held that a member of a technical college district board could not serve concurrently on the state board (60 OAG 178). The board appoints a director, called the “system president”, from outside the classified service to serve at its pleasure, and the system president selects the executive assistant and division administrators from outside the classified service.

The 16 technical college districts encompass 48 campuses. Each district is headed by a board of 9 members who serve staggered 3-year terms. For all districts except Milwaukee, district boards include 2 employers, 2 employees, a school district administrator, a state or local elected official, and 3 additional members as defined by statute. A district appointment committee, composed of county board chairpersons or school board presidents, appoints the board members, subject to approval of the state system board. Each district is administered by a director, called a “president”, appointed by the district board.

For Milwaukee, 7 of the 9 board members must be residents of Milwaukee County. The board’s 9 members include: 5 persons that represent employers (3 with 15 or more employees, 2 with 100 or more employees, and at least 2 manufacturers); one school district administrator; one elected official who holds a state or local office; and 2 additional members. Milwaukee board members are appointed by a committee composed of the county executive of Milwaukee County and the chairpersons of the Milwaukee, Ozaukee, and Washington County boards of supervisors.

Unit Functions: The *Strategic Advancement Team* provides leadership for systemwide policy analysis and development, public outreach, and federal and state government relations. It is responsible for coordination of systemwide budgeting and planning; research; and labor market information.

The *Offices of Management Services* and *Technology and Data Governance* have oversight responsibility for internal operations including accounting, budgeting, procurement, payroll, human resources, facilities, and information technology. In addition, the division provides guidance to the technical colleges in developing financial policies and standards, distributes state aid, and assists the board in determining student fees and tuition rates and approving district facility development projects. The offices are also responsible for management information and oversight of district budgets and enrollments.

The *Office of Instruction* has responsibility for program definition, approval, evaluation, and review. It focuses on programs in agriculture, office services, marketing, home economics (including family and consumer education), health occupations, trade and industry (including apprenticeship, fire service, law enforcement, safety, and technical and vocational training), general education, personnel certification, and environmental education. It also serves as a liaison to secondary schools.

The *Office of Student Development and Assessment* is responsible for coordination of state and federal grant programs, student financial aid, federal projects for the disabled and disadvantaged, adult and continuing education outreach, adult basic education and English language learning, and Workforce Investment Act projects. It serves as a liaison to business and industry.

History: Laws passed in 1907 permitted cities to operate trade schools for persons age 16 or older as part of the public school system (Chapter 122), and allowed them to establish technical

schools or colleges, under the control of either the school board or a special board (Chapter 344). In Chapter 616, Laws of 1911, Wisconsin was the first state to establish a system of state aid and support for industrial education. The law required every community with a population of 5,000 or more to establish an industrial education board, which was authorized to levy a property tax. It created the State Board of Industrial Education and an assistant for industrial education in the office of the State Superintendent of Public Instruction.

In the Laws of 1911, Wisconsin was the first state to set up apprenticeship agreements (Chapter 347) and require employers to release 14- to 16-year-olds for part-time attendance in continuation schools for apprentices, if such schooling was available (Chapter 505). Hours in class were to count as part of the total paid work hours. The schools, established through the work of Charles McCarthy, first director of the present-day Legislative Reference Bureau, emphasized general cultural and vocational education, as well as trade skills.

Due in part to the efforts of McCarthy, the U.S. Congress passed the Smith-Hughes Act in 1917, the first federal legislation specifically designed to promote vocational education, which it modeled on Wisconsin's vocational training programs. The act offered financial aid to states to help pay teachers' and administrators' salaries and provided funds for teacher training.

Chapter 494, Laws of 1917, changed the name of the State Board of Industrial Education to the State Board of Vocational Education, authorized it to employ a state director, and designated it as the sole agency to work with the newly created federal board.

During the Great Depression, Wisconsin tightened its compulsory school attendance laws, which resulted in more 14- to 18-year-olds attending vocational school. The demand for adult education also increased, as recognized by Chapter 349, Laws of 1937, which renamed the board the State Board of Vocational and Adult Education. During that same period, the vocational school in Milwaukee began to offer college transfer courses.

Events of the 1960s transformed the Wisconsin vocational-technical system into the post-secondary system of today. Federal vocational school legislation affected business education and emphasized training for the unemployed. The federal Vocational Education Act, passed in 1963, helped the local boards build new facilities. Chapter 51, Laws of 1961, authorized the state board to offer associate degrees for 2-year technical courses. The 1965 Legislature passed Chapter 292, which required a system of vocational, technical and adult education (VTAE) districts covering the entire state by 1970 and changed the board's name to the State Board of Vocational, Technical and Adult Education. (Chapter 327, Laws of 1967, dropped "State" from the name.) College transfer programs were authorized in Madison, Milwaukee, and Rhinelander.

As a result of federal and state legislative changes in the 1960s, VTAE enrollments more than doubled to 466,000 between 1967 and 1982. The 1970s also saw significant increases in the number of associate degree programs. Other major statutory changes included the requirement that VTAE schools charge tuition and that they improve cooperation and coordination with the University of Wisconsin System.

In the past two decades, the system has increased its focus on lifelong learning; education for economic development; and services for groups that formerly had less access to education, including people in rural areas, women, and minorities. The system has placed special emphasis on assisting the unemployed, displaced homemakers, and those with literacy problems.

1993 Wisconsin Act 399 renamed the VTAE system, changing the name to the Technical College System, and designated the state board as the Technical College System Board. District VTAE schools became "technical colleges".

Since the mid-1990s, the Wisconsin Technical College System (WTCS) has experienced sustained, unprecedented enrollment growth. Six-month placement rates for WTCS graduates remained very strong, even during periods of historic economic recession. The colleges continued to develop flexible delivery options, including online offerings and career pathways that make it easy for individuals to return for training and credentials over the course of a career. In 2011, the WTCS celebrated its centennial.

Number of Employees: 5.00.

Total Budget 2011-13: \$1,160,800.

Statutory References: Sections 15.945 (1) and 38.50.

Agency Responsibility: The Educational Approval Board (EAB) is an independent state agency responsible for protecting Wisconsin's consumers and supporting quality educational options, by regulating and evaluating for-profit postsecondary business, trade, or distance learning schools; out-of-state, nonprofit colleges and universities; and in-state, nonprofit institutions incorporated after 1991. The board currently oversees more than 200 schools serving approximately 60,000 adults in 800+ degree and nondegree programs.

The board consists of not more than 7 members who serve at the pleasure of the governor and represent state agencies and others interested in educational programs. It employs the executive secretary and other staff from the classified service. Originally formed by order of the governor in 1944, the legislature created the agency in Chapter 137, Laws of 1953, as the Governor's Educational Advisory Committee to approve and supervise schools and educational courses that trained veterans under various federal laws. A 1957 law (Chapter 438) directed the committee to certify those private vocational schools that offered adequate courses and to prevent fraud and misrepresentation. Chapter 568, Laws of 1963, gave the committee responsibility for licensing agents of private vocational schools, and Chapter 595, Laws of 1965, renamed it the Educational Approval Council. It was renamed the Educational Approval Board and administratively attached to the Department of Public Instruction by Chapter 214, Laws of 1967. The board was attached to the Board of Vocational, Technical and Adult Education by Chapter 125, Laws of 1971.

The Educational Approval Board was repealed by 1995 Wisconsin Act 27, as part of an initiative to create a state Department of Education. The Wisconsin Supreme Court ruled the measure unconstitutional and the agency's functions were continued under Executive Orders 283 and 287 which created the Educational Approval Council. The legislature recreated the board in 1997 Wisconsin Act 27 and attached it to the Higher Educational Aids Board. In 1999 Wisconsin Act 9, the board was attached to the Department of Veterans Affairs. 2001 Wisconsin Act 16 repealed statutory language which specifically made the board responsible for approving schools and courses of instruction for veterans and war orphans. The board was attached to the Wisconsin Technical College System Board (WTCSB) by 2005 Wisconsin Act 25. Under EAB's administrative attachment, budgeting, program operations, and related management functions are conducted with the help of the WTCSB. However, the EAB is treated as a distinct unit of government that exercises its powers, duties, and functions prescribed by law, including rule making, licensing and regulation, and operational planning independently of the WTCSB.

Through market research, coordinated advertising, promotional campaigns, and publications targeted to travelers’ interests, the bureau works to attract in-state and out-of-state tourists and associated travel dollars. The Communications team works with the news media worldwide to develop positive stories about Wisconsin as a travel destination.

The *Bureau of Technology and Customer Services* delivers Wisconsin travel information to visitors through various channels, including publication distribution, telephone travel assistance, and travelwisconsin.com, the official travel and tourism Web site for the State of Wisconsin. The bureau also coordinates several programs to collect local travel information from destination marketing organizations around the state, and makes the details on more than 13,000 attractions, restaurants, accommodations, and events readily available to potential visitors.

History: State tourism promotion originated in the Department of Natural Resources to encourage travel to state parks and commercial recreational sites. Chapter 39, Laws of 1975, transferred tourism functions to the Department of Business Development and created the Division of Tourism as a statutory entity within the department. Chapter 361, Laws of 1979, created the Department of Development, which absorbed the division, through a merger of the Department of Business Development and the Department of Local Affairs and Development. 1995 Wisconsin Act 27 reorganized the division as the Department of Tourism, effective January 1, 1996.

Agency Responsibility: The legislature directs the Arts Board to study and assist artistic and cultural activities in the state, assist communities in developing their own arts programs, and plan and implement funding programs for groups or individuals engaged in the arts.

As a funding agency, the board assists arts organizations and individual artists through a variety of programs designed to provide broad public access to the arts, strengthen the state's artistic resources, and create opportunities for individuals of exceptional talent. Financial support programs for individuals and organizations include apprenticeships, artists-in-education programs, challenge grants, community activities, fellowships, opportunity grants, program assistance and support, and programs for presenters. The board also provides matching grants to local arts agencies and municipalities through the Wisconsin Regranting Program.

The board aids Wisconsin's artistic community through an information program that includes workshops, conferences, research projects, and publications. The board regularly produces and distributes materials on local, state, and national arts activities for both the arts community and the general public. It arranges for the governor's official portrait.

The 15 board members serve staggered 3-year terms and must be state residents with a concern for the arts. Each geographic quadrant of the state must be represented by at least 2 members. The board selects the executive director from outside the classified service. Chapter 90, Laws of 1973, created the board and attached it to the Department of Administration to succeed the Governor's Council on the Arts, which Governor Gaylord Nelson had established in 1963. 1995 Wisconsin Act 27 attached the board to the Department of Tourism for administrative purposes. 2011 Wisconsin Act 32 provided that the Arts Board was in the Department of Tourism.

PETER HELLAND, JR., BRIAN KELSEY, JOE KLIMCZAK, KATHY KOPP, SCOTT KRAUSE, LOLA ROEH, STACEY WATSON; STEPHANIE KLETT (secretary of tourism); SENATORS HANSEN, MOULTON; REPRESENTATIVES BILLINGS, KAUFERT; GEORGE TZOUGROS (executive director, Arts Board); ELLSWORTH BROWN (director, state historical society). (All except *ex officio* members are appointed by governor.)

The 21-member Council on Tourism advises the secretary about tourism and encourages Wisconsin private companies to promote the state in their advertisements. The 14 appointed members serve 3-year terms and assist the secretary in formulating a statewide marketing plan. Nominations for public member appointments must be sought from (but are not limited to) multicounty regional associations engaged in promoting tourism; statewide associations of businesses related to tourism; area visitor and convention bureaus; arts organizations; the Great Lakes Inter-Tribal Council, Inc., and other agencies with knowledge of American Indian tourism; and persons engaged in businesses catering to tourists. Nominees must have experience in marketing and promotion strategy and must represent the different geographical areas of the state and the diversity of the tourism industry. The council was created by 1987 Wisconsin Act 1 in the Department of Development and transferred to the Department of Tourism by 1995 Wisconsin Act 27. Its composition and duties are prescribed in Sections 15.447 (1) and 41.12 of the statutes.

The board appoints the executive director from outside the classified service. The board was created as the Kickapoo Valley Governing Board by 1993 Wisconsin Act 349 and attached to the Department of Administration. 1995 Wisconsin Act 27 attached the board to the Department of Tourism, and it was renamed by 1995 Wisconsin Act 216. Agency Responsibility: The State Fair Park Board manages the State Fair Park and supervises its use for fairs, exhibits, or promotional events for agricultural, commercial, educational, and recreational purposes. It also leases or licenses the property at reasonable rates for other uses when not needed for public purposes. The board is directed to develop new facilities at State Fair Park and to provide a permanent location for an annual Wisconsin State Fair, major sports events, agricultural and industrial expositions, and other programs of civic interest.

Organization: The State Fair Park Board consists of 13 members. Legislative members, who represent the majority and minority parties, are nominated by party leadership and appointed by the governor. The 7 citizen members serve staggered 5-year terms. The departmental secretaries may designate members to serve in place of the secretaries. The board appoints the park director from outside the classified service.

History: Beginning with the first Wisconsin State Fair at Janesville in October 1851, the event has served as a showcase for Wisconsin agriculture and commerce. The State Agricultural Society, which sponsored the first fair, continued to operate it through 1897. In that year, Chapter 301 created the Wisconsin State Board of Agriculture and placed operation of the fair under its control. When the Department of Agriculture was created in 1915, the state fair became part of the new department.

In Chapter 149, Laws of 1961, the independent Wisconsin Exposition Department, headed by a 7-member board, was created to manage the fair and the park's year-round operation. Under the 1967 executive branch reorganization, the Exposition Department became the Wisconsin Exposition Council in the Department of Local Affairs and Development.

Chapter 125, Laws of 1971, created a 3-member State Fair Park Board, appointed by the governor and attached to the Department of Agriculture for administrative purposes. In 1985 Wisconsin Act 20, the legislature increased board membership to 5, specified 5-year terms of service, and required senate confirmation of the governor's nominees.

In 1990, as provided by 1989 Wisconsin Act 219, the State Fair Park Board became an independent body. 1995 Wisconsin Act 27 attached the board to the Department of Tourism, and 1999 Wisconsin Act 197 revised and increased board membership.

Over the years, the location of the state fair was debated and even its continued existence was in doubt. At various times between 1851 and 1885, Fond du Lac, Janesville, Madison, Milwaukee, and Watertown hosted the fair. Milwaukee was chosen as the state fair site from 1886 through 1891, and the fairs held there were so successful that a permanent site was purchased in what is now West Allis, a Milwaukee suburb. That site, first used for the 1892 fair, is included in the state fair's location today.

Several studies published during the 1960s recommended that the fair be moved to a larger site in the Milwaukee area. Chapter 125, Laws of 1971, decided the fair would remain at its site (partially in West Allis, partially in Milwaukee), with updated or new facilities being funded through self-amortizing state bonds. Fair operations have been self-financed since 1935. 1999 Wisconsin Act 9 provided funding for substantial construction and renovation of park facilities. 1999 Wisconsin Act 197 authorized the board to create a nonprofit corporation to raise funds and provide support and contract with that same corporation for operation and development of the park. Act 197 also authorized the park board to permit private individuals to construct facilities on fair grounds under a lease agreement with the board.

Today, State Fair Park draws more than 2 million visitors to its events and activities each year, and the Wisconsin State Fair, with attendance of more than 900,000, remains the state's oldest and largest annual event.

Organization: The secretary is appointed by the governor with the advice and consent of the senate and has overall management responsibility for the department. The secretary appoints the deputy secretary, executive assistant, and all division administrators from outside the classified service.

Unit Functions: The *Division of Business Management* plans and administers the department's programs for accounting and auditing, information technology, human resources, purchasing, vehicle fleet, facilities, and management services.

The *Division of Motor Vehicles* issues vehicle titles and registrations, individual identification cards, and handicapped parking permits; examines and licenses drivers, commercial driving instructors, and vehicle salespersons; certifies commercial driver examiners; licenses motor car-

riers, commercial driving schools, vehicle dealers, manufacturers, and distributors; and investigates consumer complaints about vehicle sales and trade practices. It keeps the records of drivers' traffic violations and demerit points. It is responsible for the vehicle emissions inspection program, and it administers reciprocal trucking agreements with other states and the Canadian provinces and provides traffic accident data to law enforcement officials, highway engineers, and traffic safety and media representatives. The division operates 5 regional offices, 81 customer service centers, and 11 travel locations to support the state's approximately 4.5 million licensed drivers and ID card holders and over 5.4 million registered vehicles.

The *Division of State Patrol* promotes highway safety by enforcing state traffic laws regarding motor vehicles and motor carriers. The State Patrol also has criminal law enforcement powers and can assist local law enforcement agencies by providing emergency police services. It operates the statewide mobile data communications network, which is available to local law enforcement agencies, and it makes annual inspections of Wisconsin's school buses and ambulances. The division oversees 5 regional offices and a law enforcement training academy open to all federal, state, county, local, and tribal law enforcement officers.

The *Division of Transportation Investment Management* performs statewide planning for highways, railroads, harbors, airports, and mass transit and promotes a multimodal transportation system to best serve state citizens and businesses. The division directs data collection; provides service to local governments and planning agencies; and manages state road aids, highway finance, and other transportation assistance programs. The division is responsible for uniform statewide direction in the planning, design, construction, maintenance, and operation of Wisconsin's airports, harbors, highways, and railroads. The division is involved with the state's 132 public use airports, 3,600 miles of railroad tracks, 29 commercial water ports, and harbors, and the approximately 12,000 miles of roads and streets in the State Trunk Highway (STH) system, including 743 miles of Interstate highways within the state. The division administers all state and federal funding for airport, railroad, and harbor development projects in Wisconsin.

The *Division of Transportation System Development* performs development, maintenance, and operations functions related to the STH system. The division is split into two basic areas: Statewide Bureaus and Regional Operations. It provides uniform direction in planning, design, and construction phases of project delivery as well as improving the safety and efficiency of the STH system. The division also provides leadership in the protection of public interests and resources through public and local interactions.

The five state statewide bureaus include: 1) Highway Maintenance, 2) Project Development, 3) Structures, 4) Technical Services, and 5) Traffic Operations. These statewide bureaus advise the regional offices as well as other divisions regarding engineering, economic, environmental, and social standards and practices. The division also monitors the quality and efficiency of the department's various programs and assures compliance with federal and state laws and regulations. The five regional offices manage the operation and development of state highways and participate in the development, management, and implementation of local road and nonhighway transportation projects. They also maintain working relationships with local units of government, represent the department in local and regional planning efforts, and represent local and regional needs in departmental processes.

History: The history of the Department of Transportation mirrors the evolution of 20th century transportation. The Highway Commission was created when Chapter 337, Laws of 1911, authorized state aid for public highways. Later, Chapter 410, Laws of 1939, consolidated registration, licensing, inspection, enforcement, and highway safety promotion in the Motor Vehicle Department. The legislature established the Aeronautics Commission in Chapter 513, Laws of 1945, and directed it to cooperate with the federal government and other states to "prepare for the generally expected extensive expansion of aviation following the termination of World War II."

The Department of Transportation was created by Chapter 75, Laws of 1967, which merged the Highway Commission, the Aeronautics Commission, and the Motor Vehicle Department. Chapter 500, Laws of 1969, required three divisions within the department: aeronautics, highways, and motor vehicles. The department was strengthened by Chapter 29, Laws of 1977, which vested accountability at the departmental, instead of divisional, level and gave the sec-

retary, rather than the governor, the authority to appoint division heads. The secretary was also allowed to reorganize the department with the governor's approval.

The 15-member Council on Highway Safety advises the secretary about highway safety matters. The council consists of 2 senators and 3 representatives. At least one senator and at least one representative must serve on standing committees that deal with transportation matters. The other 10 members, who serve staggered 3-year terms, include 5 state officers with transportation and highway safety duties and 5 citizen members. The council was originally created in the Office of the Governor by Chapter 276, Laws of 1969, and was moved to the Department of Transportation by Chapter 34, Laws of 1979. Its composition and duties are prescribed in Sections 15.467 (3) and 85.07 (2) of the statutes.

The 10-member Rustic Roads Board oversees the application and selection process of locally-nominated county highways and local roads for inclusion in the Rustic Roads network. Established in 1973, the Rustic Roads Program is a partnership between local officials and state government to showcase some of Wisconsin's most picturesque and lightly-traveled roadways for the leisurely enjoyment of hikers, bikers, and motorists. The board includes the chairpersons of the senate and assembly committees with jurisdiction over transportation matters. Its 8 nonlegislative members serve staggered 4-year terms, and at least 4 of them must be nominees of the Wisconsin Counties Association. The board was created by Chapter 142, Laws of 1973, and its composition and duties are prescribed in Sections 15.465 (2) and 83.42 of the statutes.

Uniformity of Traffic Citations and Complaints, Council on.

The 10-member Council on Uniformity of Traffic Citations and Complaints recommends forms used for traffic violations. The council was created by Chapter 292, Laws of 1967, as the Uniform Traffic Citation and Complaint Committee and renamed by 1985 Wisconsin Act 145. Its composition and duties are prescribed in Sections 15.467 (4) and 345.11 of the statutes.

The council meets on an as-needed basis, and members are designated when required. Members include the secretary of transportation or designee, a member of the Department of Transportation responsible for law enforcement, a member designated by the Director of State Courts, and members designated by the presidents of the following: the Wisconsin Sheriffs and Deputy Sheriffs Association, the County Traffic Patrol Association, the Chiefs of Police Association, the State Bar of Wisconsin, the Wisconsin Council of Safety, the Wisconsin District Attorneys Association, and the Judicial Conference.

Agency Responsibility: The prime responsibilities of the University of Wisconsin System are teaching, public service, and research. The system provides postsecondary academic education for more than 180,000 students, including 137,000 full-time equivalent undergraduates.

Organization: The UW System consists of 13 four-year universities, 13 two-year colleges, and statewide extension programs. UW-Madison and UW-Milwaukee offer bachelor's, master's, doctoral, and professional degrees. Eleven other universities in the UW System offer associate, bachelor's, and master's degree programs: UW-Eau Claire, UW-Green Bay, UW-La Crosse, UW-Oshkosh, UW-Parkside, UW-Platteville, UW-River Falls, UW-Stevens Point, UW-Stout, UW-Superior, and UW-Whitewater.

The two-year UW Colleges serve local and commuter students by providing freshman-sophomore university course work that is transferable to other campuses. In addition, the colleges offer general education associate degrees. While UW colleges faculty and staff are employed by the UW System, municipalities and/or counties own the campuses and buildings in which the UW Colleges are located.

UW-Extension provides noncredit and for-credit classroom and distance learning courses, as well as continuing education and a wide range of public service programs.

The 18-member Board of Regents of the University of Wisconsin System establishes policies to govern the system and plans for the future of public higher education in Wisconsin. Two members serve *ex officio*; the student members serve staggered 2-year terms; and the other 14 members serve staggered 7-year terms. The governor may not appoint a student member from the same institution in any 2 consecutive terms.

The board appoints the president of the UW System, the chancellors of the 13 universities, the chancellor of UW-Extension and the UW Colleges, and the deans of the 13 UW Colleges. All appointees serve at the pleasure of the board. The board also sets admission standards, reviews and approves university budgets, and establishes the regulatory framework within which the individual units operate.

Unit Functions: The president of the University of Wisconsin System has full executive responsibility for system operation and management. This officer carries out the duties prescribed by statute; implements the policies established by the Board of Regents; manages and

coordinates the system's administrative offices; and exercises fiscal control through budget development, management-planning programs, and coordination and evaluation of the academic programs on all campuses.

Each chancellor serves as executive head of a particular campus or program, administers board policies under the direction of the system's president, and is accountable to the board of regents. Subject to board policy, the chancellors, in consultation with their faculties, design curricula and set degree requirements; determine academic standards and establish grading systems; define and administer institutional standards for faculty peer evaluation; screen candidates for appointment, promotion, and tenure; administer auxiliary services; and control all funds allocated to or generated by their respective programs. One chancellor administers both UW Colleges and UW-Extension.

History: Today's UW System is the product of the 1971 merger of two existing university boards – the Board of Regents of the University of Wisconsin and the Board of Regents of the State Universities – and the institutions they governed.

From earliest times, Wisconsin lawmakers recognized the need for a tax-supported university. The territorial legislature passed laws in 1836, 1838, and 1839 regarding establishment and location of a university, and Article X, Section 6, of the state constitution ratified in 1848, provided for a state university at or near the seat of state government. Chapter 20, Laws of 1848, which implemented the constitutional provision, delegated university administration to a board of regents and classes began in 1849. Critical to the university's early development was Chapter 114, Laws of 1866, which reorganized the board of regents, expanded its authority, and authorized the governor to appoint the regents. The 1866 reorganization provided for instruction in agriculture on the Madison campus and an experimental farm, thereby making the university eligible, as Wisconsin's land-grant institution, to receive the proceeds derived from sale of lands granted by the federal government to support agricultural education and research.

The State Universities originated with Chapter 82, Laws of 1857, which provided funds for a system of 2-year normal schools to train teachers and created the Board of Regents of Normal Schools. The first normal school opened at Platteville in 1866 and the ninth 50 years later at Eau Claire. In 1929, the 9 normal schools became “state teachers colleges” and were authorized to offer baccalaureate degree programs. They were renamed state colleges in 1951 and state universities in 1964. Chapter 75, Laws of 1967, renamed the governing body, designating it the Board of Regents of State Universities.

Chapter 100, Laws of 1971, mandated the merger of Wisconsin’s two systems of public higher education to form the University of Wisconsin System. Chapter 335, Laws of 1973, recreated Chapter 36 of the statutes and provided a single statutory charter to govern public higher education in Wisconsin. The University of Wisconsin Colleges, which were previously called UW Centers, were renamed by 1997 Wisconsin Act 237.

Publications: *The Bugle; The Courier;* brochures on the state veterans' programs and services for Wisconsin veterans, Wisconsin Veterans Museum (Madison), the Wisconsin Veterans Home (King), the Wisconsin Veterans Home (Union Grove), and Wisconsin's veterans memorial cemeteries.

Agency Responsibility: The Department of Veterans Affairs works on behalf of Wisconsin's veterans community – veterans, their families and their survivors – in recognition of their service and sacrifice to our state and nation. It oversees veterans benefits, programs, and services in the areas of education, health care, and federal claims assistance, among others. It also operates the Wisconsin veterans homes at Chippewa Falls, King, and Union Grove, the Wisconsin Veterans Museum in Madison, the Southern Wisconsin Veterans Memorial Cemetery at Union Grove, the Northern Wisconsin Veterans Memorial Cemetery near Spooner, and the Central Wisconsin Veterans Memorial Cemetery at King. The department currently serves an estimated 397,000 veterans living in Wisconsin.

Organization: The department is headed by a secretary who directs and supervises departmental activities. The secretary, who must be a veteran, is nominated by the governor after personally consulting with the presiding officers of at least 6 Wisconsin veterans organizations and appointed with advice and consent of the senate. The board of veterans affairs consists of 9 members appointed by the governor with senate consent who serve staggered 4-year terms. All board members must be veterans, as defined by statute, and there must be at least one member of the board who is a resident of each congressional district. The secretary, after consulting with the board, may promulgate administrative rules necessary to carry out the powers and duties of the department.

Unit Functions: The *Division of Administration* administers information technology, information systems, infrastructure management, human resources, personnel benefits, and training.

The *Division of Veterans Benefits* administers loan and emergency grant programs offered by the state, state veteran cemeteries, and the state military funeral honors program.

Emergency grants are available to provide subsistence aid for qualified veterans who have experienced a loss of income due to illness or disability, and veterans who require health care that cannot be obtained through other means. These grants have strict income and asset limits.

The division provides administration for the veterans memorial cemeteries. These cemeteries provide burial space for veterans, their spouses, and eligible family members. Veterans can be buried free of charge; non-veteran spouses and family members are charged a burial fee. As part of the Bureau of State Veterans Cemeteries, the Veterans Assistance Program operates veterans assistance centers in Chippewa Falls, King, and Union Grove. Through the centers, homeless veterans and veterans at risk of becoming homeless receive education, job training, and rehabilitative services to enable them to obtain steady employment and affordable housing. The program is a joint effort with the U.S. Department of Veterans Affairs and community-based agencies and is supplemented by service delivery support and outreach to veterans service organizations, veterans health care facilities, and correctional institutions.

The division administers the military funeral honors program, coordinating the efforts of veterans service organizations, the active duty military and reserve forces, as well as the Wisconsin National Guard. The division provides training of veteran organizations and military units who provide military funeral honors requested by the family. The division has limited capability to provide military funeral honors teams with departmental staff.

The *Division of Veterans Homes* administers the state's facilities for eligible veterans who are permanently incapacitated from performing any substantially gainful employment due to age or physical disability and who may be admitted if they meet service and residency criteria. Applicants must apply their income and resources to the cost of their care as required by Medicaid eligibility standards. The spouses and parents of eligible veterans may also be admitted.

The Wisconsin Veterans Home at Chippewa Falls is a 72-bed skilled nursing facility.

The Wisconsin Veterans Home at King serves 721 members. It includes four licensed skilled nursing care buildings and the Central Wisconsin Veterans Memorial Cemetery. Residents receive complete medical and nursing care, along with therapeutic treatments and social services. Veterans and spouses or surviving spouses may be admitted at King.

The Wisconsin Veterans Home at Union Grove is capable of serving 197 members by providing a 39-bed assisted living residence and a 158-bed skilled nursing facility. This continuum of care is available to veterans and their spouses and offers assistance with health care, daily living needs, memory care, short-term rehabilitation, and long-term care.

The *Division of Veterans Services* administers education and employment services programs, claims services, and transition assistance programs. The division also provides an array of employment and educational services to include transition assistance, grants, job referrals, academic credit for military experience programs, and assistance in obtaining teaching credentials through the Troops to Teachers Program.

The State Approving Agency coordinates programs and approves schools to assist veterans to effectively use their GI Bill benefits.

The *Wisconsin Veterans Museum* in Madison is dedicated to Wisconsin veterans of all wars. It houses and exhibits artifacts related to Wisconsin's participation in U.S. military actions from the Civil War to the present and offers programs to the public on the history of Wisconsin's war efforts.

History: Legislation to benefit Wisconsin veterans dates back to the post-Civil War era. Most of the enactments between the Civil War and World War I were concerned with providing relief for destitute veterans and their families. In 1887, the Grand Army of the Republic (GAR), the prominent Civil War veterans' organization, founded the Grand Army Home at King, supported by private donations and federal and state subsidies. Now called the Wisconsin Veterans Home, the institution was first operated by the GAR and later by a state board and the adjutant general's office. Further recognition of Civil War veterans came in 1901, when the legislature established a Grand Army of the Republic headquarters and museum in the State Capitol. In 1993, the state opened the Wisconsin Veterans Museum in a separate building on the Capitol Square. The Southern Wisconsin Veterans Home at Union Grove, authorized in 1999 Wisconsin Act 9, opened in 2001.

After World War I, the 1919 Legislature granted a cash bonus, or alternatively an education bonus, to soldiers who fought in the war. It also created a fund for the relief of sick, wounded, or disabled veterans, administered by the Service Recognition Board and later its successor, the Soldiers' Rehabilitation Board. Other legislation between World Wars I and II provided funds for hospitalization, memorials, and free courses through the University of Wisconsin-Extension.

Chapter 443, Laws of 1943, created the Veterans Recognition Board to provide medical, hospital, educational, and economic assistance to returning Wisconsin veterans of World War II and their dependents.

The creation of the Department of Veterans Affairs by Chapter 580, Laws of 1945, brought all veterans programs under a single agency. The department absorbed the Grand Army Home, the GAR Memorial Hall, the veterans claim services, and the Soldiers' Rehabilitation Board. The department was assigned the economic aid, hospital care, and education grants programs.

It also took over three segregated veterans funds that were combined into the Veterans Trust Fund in 1961.

Two major new programs relating to housing and education were implemented after World War II. Beginning with legislation in 1947, programs were established to help veterans finance home loans through a trust fund. The state supreme court declared earmarking liquor tax moneys for the fund unconstitutional under the internal improvements clause, but a constitutional amendment, approved by the voters in 1949, resolved the problem. Chapter 627, Laws of 1949, authorized loans to qualified veterans for a portion of the value of their housing. The legislature converted this program to a second mortgage home loan program in 1973, when it established the Primary Home Loan Program that is financed with general obligation bonds. The state's use of general obligation bonding to offer home loans to veterans raised constitutional concerns. The legislature responded by proposing an amendment to the Wisconsin Constitution, which the voters ratified in April 1975.

1997 Wisconsin Act 27 expanded eligibility for state veterans benefits to any person who has served on active duty in the U.S. armed forces for two continuous years or the full period of the individual's initial service obligation, whichever is less, regardless of when or where the service occurred, including during peacetime. Previously, to be considered a "veteran" for the purposes of state benefits, a person must generally have performed active service for 90 days or more during a designated war period or a period of duty during specified conflicts or peacekeeping operations.

1999 Wisconsin Act 136 required the department to administer a program to coordinate the provision of military funeral honors to eligible deceased veterans. 2003 Wisconsin Act 102 authorized the department to develop and operate residential, treatment, and nursing care facilities in northwestern Wisconsin, on surplus land located at the Northern Wisconsin Center for the Developmentally Disabled in Chippewa Falls.

2011 Wisconsin Act 36 placed the direction and supervision of the department under the secretary of veterans affairs, rather than the board. It also increased the size of the board from 7 to 9 members, reduced their terms of office from 6 to 4 years, and required that at least one member of the board be a resident of each congressional district.

Agency Responsibility: The Department of Workforce Development conducts a variety of work-related programs designed to connect people with employment opportunities in Wisconsin. It has major responsibility for the state's employment and training services; job centers; job training and placement services provided in cooperation with private sector employers; apprenticeship programs; and employment-related services for people with disabilities. It oversees the unemployment insurance and worker's compensation programs and is also responsible for adjudicating cases involving employment discrimination, housing discrimination, and labor law.

Organization: The department is administered by a secretary who is appointed by the governor with the advice and consent of the senate. The secretary appoints the division administrators from outside the classified service.

Unit Functions: The *Administrative Services Division* provides management and program support to the other divisions, including facilities, finance, human resources, and information technology services.

The *Division of Employment and Training* oversees all workforce services administered by the department including the state labor exchange system (www.jobcenterofwisconsin.com); analyzes and distributes labor market information; monitors migrant worker services; and operates the state apprenticeship program. The division also has a statewide network of 22 comprehensive job centers.

The *Equal Rights Division*, created by Chapter 327, Laws of 1967, enforces state laws that protect citizens from discrimination in employment, housing, and public accommodations. It also administers the enforcement of family and medical leave laws and the labor laws relating to hours, conditions of work, minimum wage standards, and timely payment of wages. It determines prevailing wage rates and enforces them for state and municipal public works projects not including highway projects. The division also enforces child labor laws and plant closing laws.

The *Division of Unemployment Insurance* administers programs to pay benefits to unemployed workers, collect employer taxes, resolve contested benefit claims and employer tax issues, detect unemployment insurance fraud, and collect unemployment insurance overpayments and delinquent taxes. The division also collects wage information for national and Wisconsin New Hire Directory databases.

The *Division of Vocational Rehabilitation* provides employment services to individuals who have significant physical and mental disabilities that create barriers in obtaining, maintaining, or improving employment. Each person is counseled and may receive medical, psychological, and vocational evaluations and training services. Employment programs, which are supported through state and federal funding, include vocational rehabilitation for eligible persons with disabilities; supported employment, including job coaching for individuals with severe disabilities; and the Business Enterprise Program, which establishes business or vending stand locations for individuals who are legally blind.

The *Worker's Compensation Division* administers programs designed to ensure that injured workers receive required benefits from insurers or self-insured employers; encourage rehabilitation and reemployment for injured workers; and promote the reduction of work-related injuries, illnesses, and deaths.

History: In response to the state's industrialization, which began in the 1880s, Wisconsin took the lead nationally in adjusting labor laws to modern industrial conditions. Based on European models, the legislature adopted social insurance, whereby the costs of correcting labor problems, such as worker injuries and unemployment, were imposed on employers as an inducement to prevent the problems.

Wisconsin's laws, enacted during the early part of the 20th century, dealt with minimum wages, conditions of employment for women and children, worker's compensation, free public employment offices, apprenticeship standards, and job safety regulations. Many of these programs served as models for legislation in other states. Wisconsin's original worker's compensation act (Chapter 50, Laws of 1911) was the first state law of its kind in the nation. In the 1930s, Wisconsin led in developing the unemployment compensation system (Chapter 20, Laws of Special Session 1931) and issued the first benefit check in the nation in 1936.

Since World War II, Wisconsin has enacted legislation prohibiting discrimination in employment on the basis of race, sex, creed, national origin, marital status, ancestry, arrest or conviction record, off-duty use of lawful products, membership in military reserve, sexual orientation, age, and disability. Similar laws now protect access to housing and public accommodations.

Early in the 20th century, the state delegated labor law administration to a politically independent body of experts, the State Industrial Commission, and its advisory committees. The commission was encouraged to solve problems through administrative decision making and the development of administrative rules to supplement the laws. A close tie between state government and the University of Wisconsin enabled the governor and legislature to translate reforms conceived in the academic arena into law. This cooperative meshing of academic research and government action came to be known as "The Wisconsin Idea".

The Department of Workforce Development evolved from the Wisconsin Bureau of Labor Statistics, which was created in 1883. The bureau was succeeded by the State Industrial Commission in 1911. Following the 1967 executive branch reorganization, the commission directed the new Department of Industry, Labor and Human Relations (DILHR) and was renamed the Industry, Labor and Human Relations Commission by Chapter 276, Laws of 1969. The commission was replaced by a secretary in Chapter 29, Laws of 1977.

Effective July 1, 1996, the Department of Industry, Labor and Human Relations was renamed the Department of Industry, Labor and Job Development by 1995 Wisconsin Act 29, but the department was given the option of using the name Department of Workforce Development in 1995 Wisconsin Act 289. It formally chose to exercise that option beginning July 1, 1996, and the legislature officially recognized the name choice in 1997 Wisconsin Act 3.

The department was significantly altered by 1995 Wisconsin Act 27. It assumed many duties formerly performed by other agencies, in particular supervision of welfare and income maintenance programs and vocational rehabilitation services, which were transferred from the former Department of Health and Social Services. At the same time, the Division of Safety and Buildings was transferred out of the department to the new Department of Commerce. 1997 Wisconsin Act 191 assigned the department primary responsibility for establishing and operating a statewide system for enforcing child, family, and spousal support obligations, including expanded authority to deny, revoke, or suspend various licenses, permits, and credentials of delinquent payers.

The statutes provide that the minimum wage is set through the administrative rules process, which includes legislative review. In January 2004, the secretary established the Minimum Wage Advisory Council to recommend an appropriate increase in the minimum wage. The council was comprised of representatives from business, labor organizations, the university system, and the legislature, and issued its final report on May 1, 2004.

2007 Wisconsin Act 20 created the Department of Children and Families (DCF), beginning July 1, 2008. It also changed the name of the Department of Health and Family Services

(DHFS) to the Department of Health Services and split the responsibilities of DHFS between the two departments. Act 20 also transferred from the Department of Workforce Development to DCF administration of Wisconsin Works, including the child care subsidy program, child support enforcement and paternity establishment, and programs related to temporary assistance to needy families (TANF).

Agency Responsibility: The Wisconsin Economic Development Corporation (WEDC) develops and implements programs to provide business support and expertise and financial assistance to companies that are investing and creating jobs in Wisconsin and to promote new business start-ups and business expansion and growth in the state. The authority was established in 2011 to assume many of the functions previously performed by the former Department of Commerce.

Organization: The WEDC is an authority, which is a body corporate and politic. It is governed by a 15-member board composed of the governor, who shall serve as chairperson of the board; 6 members appointed by the governor with senate consent to serve at the pleasure of the

governor; 3 members appointed by the speaker of the assembly, consisting of one majority and one minority party representative, and one person employed in the private sector to serve at the speaker's pleasure; and 3 members appointed by the senate majority leader, consisting of one majority and one minority party senator, and one person employed in the private sector to serve at the majority leader's pleasure. The secretary of administration and the secretary of revenue serve as nonvoting members.

The corporation is administered by a chief executive officer (CEO) nominated by the governor, and with the advice and consent of the senate appointed, to serve at the pleasure of the governor. The board may delegate to the CEO any powers and duties the board considers proper and determines the compensation and qualifications of the CEO and employees. Corporation employees are not state employees but may participate in the Wisconsin Retirement System.

History: The 1911 Legislature created the Industrial Commission in Chapter 485 to set standards for a safe place of employment. This "safe place" statute was extended in Chapter 588, Laws of 1913, to include public buildings. The commission adopted its first building code in 1914.

The state's promotion of business and economic development originated with the Division of Industrial Development, established in the governor's office by Chapter 271, Laws of 1955. The division was transferred to the newly created Department of Resource Development in 1959 and renamed the Division of Economic Development. Chapter 614, Laws of 1965, returned the division to the governor's office. While in the executive office, it absorbed the Office of Economic Opportunity (1966), which had been created in the Department of Resource Development to administer the federal antipoverty programs enacted in 1964. Under the 1967 executive branch reorganization, the division became part of the Department of Local Affairs and Development, and local and regional planning functions were integrated into it.

Chapter 125, Laws of 1971, created the Department of Business Development. The department absorbed the Division of Tourism from the Department of Natural Resources in 1975. Under Chapter 361, Laws of 1979, the Department of Business Development was combined with the Department of Local Affairs and Development to form the Department of Development, subsequently renamed the Department of Commerce (Commerce) by 1995 Wisconsin Act 27. The department's responsibility for state tourism promotion ended with the creation of the Department of Tourism by 1995 Wisconsin Act 27. Act 27 also transferred to Commerce the PECFA program and the safety and buildings functions from the Department of Industry, Labor and Human Relations; responsibility for plat review from the Department of Agriculture, Trade and Consumer Protection; municipal boundary review from the Department of Administration; and relocation assistance under eminent domain law from the Department of Industry, Labor and Human Relations. Responsibility for plat review and municipal boundary review was transferred to the Department of Administration by 1997 Wisconsin Act 27. Regulation of manufactured home dealers and manufactured home parks was transferred to the department from the Department of Administration by 1999 Wisconsin Act 9. Act 9 also transferred titling of manufactured homes from the Department of Transportation. Regulation of manufactured home park utilities was transferred from the Public Service Commission by 2001 Wisconsin Act 16. In 2003, Wisconsin Act 33 transferred housing programs to the department from the Department of Administration.

2009 Wisconsin Act 2 deleted five existing zone programs, including the Enterprise Development Zones, the Community Development Zones, the Agricultural Development Zones, the Technology Development Zones, and the Airport Development Zones, and created a new consolidated tax credit program to promote job creation, capital investment, employee training, and job retention in Wisconsin. Act 2 also increased substantially the amount of angel and early-stage seed investment tax credits available annually for high-technology, biotechnology, and nanotechnology start-up companies which had been initiated by 2003 Wisconsin Act 255.

2011 Wisconsin Act 7 created, effective February 24, 2011, the Wisconsin Economic Development Corporation to develop and administer economic development programs for the state. Act 7 required Commerce to provide staff or other resources to assist the WEDC in carrying out its duties, and for both entities to coordinate their economic development programs.

2011 Wisconsin Act 32 repealed the Department of Commerce effective July 1, 2011. The act transferred certain of Commerce's economic development and business promotion responsibilities, including grants, loans, and tax incentives, to the WEDC and housing programs to the Department of Administration. The administration of various other laws relating to the promotion of safety in public and private buildings, including enforcing building codes, and the licensure of occupations that had been regulated by Commerce, such as electricians and plumbers, were transferred to a new Department of Safety and Professional Services (DSPS), which was also created by Act 32. In addition to the safety and buildings responsibilities transferred from Commerce, the DSPS assumed the other functions previously performed by the Department of Regulation and Licensing, which was also repealed by Act 32.

The authority calculates the amount of the assessment and levies the assessment on the consenting landowner. The landowner pays the assessment to the authority. The authority uses the assessment to repay the bonds and associated costs. The state is not liable for the authority’s bonds, and the bonds are not a debt of the state.

Agency Responsibility: The Wisconsin Health and Educational Facilities Authority (WHEFA) issues bonds on behalf of qualifying tax-exempt health care and educational facilities to help them finance their capital costs. Since interest earned on the bonds is exempt from federal income taxation, they can be marketed at lower interest rates, which reduces the cost of borrowing. WHEFA has no taxing power and receives no general appropriations from the state; it supports its operations by imposing fees on participating institutions. WHEFA's bonds and notes are funded solely through loan repayments from the borrowing institution or sponsor. WHEFA's bonds are not a debt, liability, or obligation of the State of Wisconsin or any of its subdivisions.

WHEFA may issue bonds to finance any qualifying capital project, including new construction, remodeling, and renovation; expansion of current facilities; and purchase of new equipment or furnishings. WHEFA may also issue bonds to refinance outstanding debt of qualifying health care and educational institutions.

Organization: WHEFA is a public corporation. Its 7 members are appointed by the governor with consent of the senate for staggered 7-year terms, and no more than 4 may be members of the same political party. Each member's appointment remains in effect until a successor is appointed. The governor annually appoints one member as chairperson, and the members appoint the vice chairperson and executive director. The executive director and staff are employed outside the classified service and are not paid by state funds. The members receive no compensation.

History: WHEFA was created as the Wisconsin Health Facilities Authority by Chapter 304, Laws of 1973. Operations began in September 1979, after the Wisconsin Supreme Court found the law constitutional in *State ex rel. Wisconsin Health Facilities Authority v. Lindner*, 91 Wis. 2d 145 (1979), when it ruled that assistance to a religiously affiliated hospital does not advance religion or foster unnecessary entanglement between church and state. WHEFA issued its first debt in December 1979.

1987 Wisconsin Act 27 expanded the scope of WHEFA to include assistance to private, tax-exempt colleges and universities and continuing care retirement communities and changed its name to reflect the broader responsibilities. 1993 Wisconsin Act 438 added not-for-profit institutions that have health education as their primary purpose. 2003 Wisconsin Act 109 further expanded the scope of WHEFA to include the issuance of bonds for the benefit of private, tax-exempt elementary or secondary educational institutions. 2009 Wisconsin Act 2 allowed for WHEFA to include the issuance of bonds for the benefit of private, tax-exempt research facilities.

Agency Responsibility: The Wisconsin Housing and Economic Development Authority (WHEDA) provides loans for low- and moderate-income housing, as well as financing programs for business and agricultural development. The authority finances most of its programs through the sale of bonds that are not an obligation of the State of Wisconsin. Since interest earned on the bonds is exempt from federal income taxation, they can be marketed at lower interest rates, which reduces the cost of borrowing.

WHEDA provides low-cost, 30-year fixed financing to low- and moderate-income home buyers who must meet specific income and loan limits eligibility requirements. WHEDA Advantage mortgages also provide access to down payment assistance, job loss mortgage payment protection, and education resources to help home buyers succeed long-term as homeowners. As an exclusive for WHEDA homeowners, the authority also offers low-cost home improvement loans to complete up to \$10,000 in home repairs.

Both federally taxable and tax-exempt bonds are used to finance multifamily housing programs, which include homeless and special needs housing initiatives and loans to help with predevelopment of rental housing projects. In addition, the authority administers the federal Low-Income Housing Tax Credit Program (LIHTC) for developers of affordable rental housing.

WHEDA acts for the state in administering federally funded housing programs in coordination with the U.S. Department of Housing and Urban Development. Foremost among these are the Section 8 programs of the federal Housing and Community Development Act of 1979, which fund construction and rehabilitation of rental housing through rent subsidies to owners.

A companion organization, the WHEDA Foundation, makes grants to nonprofit organizations and local governments for housing projects that benefit persons-in-crisis. Grants are made to acquire and/or rehabilitate existing housing or construct new housing. The foundation also receives grant money on behalf of WHEDA.

WHEDA administers several economic development loan guarantee and financing programs that encourage job creation and economic growth. Agricultural loan guarantees include the Credit Relief Outreach Program (CROP) to help farmers obtain agricultural production loans; the Farm Asset Reinvestment Management (FARM) program to help farmers who want to start, expand, or modernize operations; and the Agribusiness loan guarantee to help businesses develop or expand production of products using Wisconsin's raw agricultural commodities.

The authority also provides the WHEDA Small Business Guarantee (WSBC) to acquire or expand a small business; the Contractors Loan Guarantee (CLG) to help contractors complete

contracts to build their business; and the Neighborhood Business Revitalization Guarantee (NBRG), used to expand a business or to develop commercial real estate in an urban area.

WHEDA, as part of a Wisconsin based Community Development Entity (CDE), is responsible for allocating federal New Market Tax Credits (NMTC). Since 2004, \$450 million in NMTCs have been received to help stimulate economic development and job growth in low-income Wisconsin communities. In addition, WHEDA received \$22.4 million in federal funding from the State Small Business Credit Initiative (SSBCI) to create a small business lending program to help spur private sector job creation.

Organization: WHEDA is a public body corporate and politic consisting of 12 members. In addition to the secretary of administration and the CEO of the Wisconsin Economic Development Corporation, or their designees, there are 4 legislative members who must represent the majority and minority party in each house. The 6 public members serve staggered 4-year terms, and the governor selects one to serve as chairperson for a one-year term. The governor appoints WHEDA's executive director with the advice and consent of the senate for a 2-year term. Staff members are employed outside the classified service and are not paid from state funds.

History: WHEDA was created as the Wisconsin Housing Finance Authority by Chapter 287, Laws of 1971. Program operations began in July 1973, after the Wisconsin Supreme Court declared the Housing Finance Authority constitutional in *State ex rel. Warren v. Nusbaum*, 59 Wis. 2d 391 (1973). The authority issued its first debt instruments in March 1974. In 1983, Wisconsin Act 81 broadened the authority's mission to include financing for economic development projects and changed the name to the Wisconsin Housing and Economic Development Authority. In 1985 Wisconsin Acts 9 and 153 and 1987 Wisconsin Act 421, the legislature expanded WHEDA's powers to include the insuring and subsidizing of farm operating loans, drought assistance loan guarantees, and interest rate reductions. The legislature added loan guarantee programs for agricultural development and small businesses (1989 Wisconsin Act 31), recycling (1989 Wisconsin Act 335), tourism businesses (1989 Wisconsin Act 336), and businesses located in targeted areas of the state (1991 Wisconsin Act 39). 1993 Wisconsin Act 16 transferred the property tax deferral loan program to WHEDA from the Department of Administration. In 2005, WHEDA's Modernization Bill (2005 Wisconsin Act 75) was passed, representing the first comprehensive enhancement of WHEDA's programs in over 30 years. This legislation has increased WHEDA's financing capacity for affordable housing and business development. 2011 Wisconsin Act 79 expanded business eligibility and loan limits for WHEDA's business loan guarantee program. 2011 Wisconsin Act 214, signed into law in 2012, allowed the authority to issue federally tax-exempt bonds to finance new business expansion projects. In July 2012, WHEDA removed its first-time home buyer requirement for its home loans, enabling more Wisconsin families to qualify for an affordable mortgage.

Its responsibility is to own and operate the center for the economic and recreational benefit of the citizens of Wisconsin. The center is the home of the Milwaukee Bucks basketball team, the Milwaukee Admirals hockey team, and the Marquette University men's basketball team. Other tenants are family entertainment shows and concerts. The state and its political subdivisions are not liable for any debt or obligation of the corporation. The corporation may not divest itself of the center, nor may it dissolve unless the legislature directs it to do so by law. If the corporation is dissolved, all of its assets become state property.

State law exempts the corporation from most open records and open meeting laws applicable to state agencies, but the board must submit an annual financial statement to the governor and the legislature.

Organization: The corporation's board of directors is made up of 9 members appointed by the governor, serving staggered 7-year terms. Six members require senate consent, must "represent the diverse interests of the people of this state", and must be state residents. REGIONAL AGENCIES

The following agencies were created by state law to function in one specific area of the state, usually an area composed of more than one county.

REGIONAL PLANNING COMMISSIONS

Regional planning commissions advise local units of government on the planning and delivery of public services to the citizens of a defined region, and they prepare and adopt master plans for the physical development of the region they serve. Regional planning provides a way to address problems that transcend local government boundaries, and offers joint solutions for intergovernmental cooperation.

The commissions may conduct research studies; make and adopt plans for the physical, social, and economic development of the region; assist in grant writing for financial assistance; provide advisory services to local governmental units and other public and private agencies; and coordinate local programs that relate to their objectives. Many commissions serve as a one-stop source of statistical information for the local governments of their area.

Currently, there are nine regional planning commissions, serving all but five of the state's 72 counties. Their boundaries are based on such considerations as common topographical and geographical features; the extent of urban development; existence of special or acute agricultural, forestry, or other rural problems; or regional physical, social, and economic characteristics.

Among the many categories of projects developed or assisted by regional planning commissions are rail and air transportation, waste disposal and recycling, highways, air and water quality, farmland preservation and zoning, land conservation and reclamation, outdoor recreation, parking and lakefront studies, and land records modernization.

Chapter 466, Laws of 1955, created the statute that governs the state's regional planning commissions (Section 66.0309, Wisconsin Statutes) and authorized the governor (or a state agency designated by the governor) to create a regional planning commission upon petition by the local governing bodies.

Membership of regional planning commissions varies according to conditions defined by statute. Unless otherwise specified by a region's local governments, the term of office for a commissioner is six years. The commissions are funded through state and federal planning grants, contracts with local governments for special planning services, and a statutorily authorized levy of up to .003% of equalized real estate value charged to each local governmental unit.

As authorized by state law, Wisconsin's regional planning commissions have established the Association of Wisconsin Regional Planning Commissions. The association's purposes include assisting the study of common problems and serving as an information clearinghouse.

It also describes interstate compacts that are expressly ratified in the Wisconsin Statutes but do not require appointment of delegates.

The process is aimed at increasing the efficiency of conservation wardens by allowing more time for enforcement duties rather than violator processing. The compact requires each member state to recognize the revocations and suspensions of individuals hunting, fishing, and trapping privileges from other member states that result from a wildlife related violation. The compact also requires each member state to revoke or suspend the hunting, fishing, and trapping licenses of any resident of that state who violates a wildlife related law in another member state and fails to resolve the matter by payment of the penalty or appearance in court. The board of compact administrators was established to serve as the governing body for the resolution of all matters relating to the operation of the compact.

It assists and advises state and local agencies about maintaining and enhancing the scenic, historic, economic, and recreational assets within the corridor and cooperates with similar commissions in other Mississippi River states and the Province of Ontario. On June 15, 2000, the U.S. Secretary of Transportation designated the entire 250-mile length of the Wisconsin Great River Road as a National Scenic Byway, thereby recognizing it as an outstanding example of America's scenic beauty. It is Wisconsin's only National Scenic Byway.

Organization: The 16-member Wisconsin commission includes 12 voting members, appointed to 4-year terms, and 4 nonvoting *ex officio* members. The 4 legislative members represent the two major political parties in each house.

The commission selects its own chairperson who is Wisconsin's sole voting representative at national meetings of the Mississippi River Parkway Commission.

History: The Wisconsin commission is part of the Mississippi River Parkway Commission, which was given statutory recognition by Chapter 482, Laws of 1961. It dates back to 1939 when Wisconsin Governor Julius P. Heil appointed a 10-member committee to cooperate with agencies from other Mississippi River states in planning the Great River Road. This scenic route extends from the Gulf of Mexico to the Mississippi River's headwaters at Lake Itasca, Minnesota. North of Lake Itasca, the route connects with the Trans-Canada Highway and terminates at Minaki, Ontario.

The Federal Highway Aid Acts of 1973, 1976, and 1978 provided Wisconsin approximately \$21 million in Great River Road funding. While categorical funding is no longer available, the Wisconsin Department of Transportation has continued improvements to Wisconsin's portion of the Great River Road, including pedestrian and bicycle trails, landscaping, preservation of historic sites, and other programs. Wisconsin has also received more than \$7 million in discretionary grants from the National Scenic Byways Program from 2000 through 2008. These grants were matched with 20% state and local government funds. The commission also boasts an active Promotions Committee, comprised of volunteers and commissioners who are active in the Wisconsin tourism industry.

It sponsors studies of river-related issues, cooperative planning for use of the region's resources, and an information exchange. It also enables the member states to develop regional positions on resource issues and to advocate the basin states' collective interests before the U.S. Congress and federal agencies. This program, which was approved by the federal Water Resources Development Act of 1986, authorized habitat rehabilitation projects, resource inventory and analysis, recreation projects, and river traffic monitoring.

Organization: The association consists of one representative from each member state. The members annually elect one of their number to serve as chairperson. Five federal agencies with major water resources responsibilities serve as advisory members: the Environmental Protection Agency and the U.S. Departments of Agriculture, Army, Interior, and Transportation.

History: The Upper Mississippi River Basin Association was formed on December 2, 1981, when the articles of association were signed by representatives of the member states. In late 1983 and early 1984, executive orders were issued by four of the five governors reaffirming membership in the association.
