

April 5, 2019

Patrick E. Fuller
Assembly Chief Clerk
17 West Main Street, Room 401
Madison, WI 53703

Jeff Renk
Senate Chief Clerk
P.O. Box 7882
Madison, WI 53707

Dear Mr. Fuller and Mr. Renk:

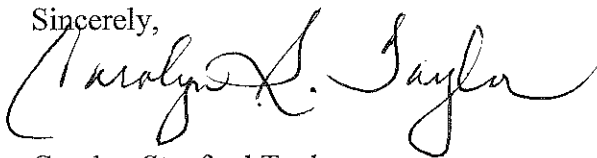

In accordance with Wis. Stat. sec. 115.996, the Department of Public Instruction submits this report relating to the status of bilingual-bicultural education programs. The report provides data for the 2019 fiscal year (school year July 1, 2017, through June 30, 2018).

This report presents details on the state's administration and funding of bilingual education in Wisconsin, including:

- the number of pupils served in bilingual-bicultural education programs for each language group by school district;
- the cost of the program per pupil for each school district; and
- the number of pupils in each school district and language group who, as a result of participation in a bilingual-bicultural education program, improved their English language ability and no longer need program services.

If you have questions, please contact Benson Gardner, communications officer, at benson.gardner@dpi.wi.gov or (608) 266-3374.

Sincerely,

Carolyn Stanford Taylor
State Superintendent

REPORT ON THE STATUS OF BILINGUAL-BICULTURAL EDUCATION PROGRAMS IN WISCONSIN FOR SCHOOL YEAR 2017-18

SUBCHAPTER VII of CHAPTER 115, WISCONSIN STATUTES

Background

Under Section 115.996, Wisconsin Statutes, the state superintendent is required to report to the legislature on the status of bilingual-bicultural education programs funded under this authority. This report provides the specific information required by law for the 2017-18 school year (paid during FY 2019).

Wisconsin school district personnel view Chapter 115, Subchapter VII, Wisconsin Statutes, as vital. It provides partial yet critical funding for student populations whose language education needs must be served.

Languages and Program Locations

In the 2017-18 school year, there were 361 public school districts in Wisconsin that had English Learners, totalling 52,446 English Learners. Fifty-three school districts applied to receive state bilingual-bicultural categorical aid. This equates to 27,961 English Learners, or 53.3 percent of all English Learners in the state, being served in districts that were partially reimbursed by the state. There are 13 languages supported by the state bilingual bicultural aid program. It is interesting to note that although Spanish and Hmong have held steady as the first and second most common languages spoken by students in this program for at least five years, 2017-18 is the first year Somali is the third most common language spoken.

The number of English Learners (ELs) used in this report is drawn from WISEdata and the ACCESS for ELLs assessment, which is the state’s annual English language proficiency assessment that meets ESEA criteria. It should be noted this report will use the term English Learner (EL) rather than Limited English Proficient student, which follows the precedent set by the reauthorization of the Elementary and Secondary Education Act (ESEA), as amended by ESSA, in using this terminology.

2017-18: Languages and Program Locations	
Number of EL students identified.	52,446
Number of EL students served in state-reimbursed programs.	27,961
Number of state-reimbursed programs.	53
	Abbotsford, Appleton, Baraboo, Barron, Beloit, Burlington, Clinton, Darlington, DC Everest, Delavan-Darien, Eau Claire, Edgerton, Elk Mound, Elkhorn, Fond du Lac, Franklin, Green Bay, Holmen, Howard-Suamico, Janesville, Kenosha, Kewaunee, LaCrosse, Lake Geneva J1, Lake Geneva-Genoa City UHS, Luxemburg-Casco, Madison, Manitowoc, Marshall,

	Menasha, Menomonie, Middleton-Cross Plains, Milwaukee, New London, Onalaska, Oregon, Oshkosh, Racine, Reedsburg, Rice Lake, Sauk Prairie, Sheboygan, Shorewood, Stevens Point, Verona, Walworth J1, Waterloo, Waukesha, Wausau, Wautoma, Whitewater, Wisconsin Dells, and Wisconsin Rapids
--	--

Program Costs for Categorically Aided District Programs

Originally, the appropriation from the state legislature was divided evenly among districts so that each received the same percentage of reimbursement for its approved expenditures. In 1999, Wisconsin Act 9 (the biennial budget) set aside \$250,000 from the bilingual-bicultural appropriation. This set-aside was to be divided proportionally among school districts whose enrollments in the previous school year were at least 15 percent English Learners and participated in the bilingual-bicultural aid program. The remainder of the appropriation was divided evenly among all the districts according to their approved total budgets. The same formula continues through the current fiscal year. Nine districts were eligible for this set-aside for 2017-18: Abbotsford, Barron, Beloit, Delavan-Darien, Green Bay, Madison Metropolitan, Sheboygan, Walworth, and Waterloo.

Program costs vary from district to district due to several factors, including, but not limited to:

- number of students served;
- base cost for a language program;
- variety of languages spoken by students and families in a district;
- English-language proficiency level of students and range of proficiency levels among students in a classroom or in a school;
- amount of previous schooling of English Learners;
- staff/student ratio;
- amount of instructional contact time;
- instructional resources provided, e.g., texts, equipment, technology, native language materials/assessments;
- type of program, such as in-class vs. pull-out programs, or self-contained (e.g., two-way dual language); and
- outreach and services to EL students and families, immigrant children and youth, or refugee status of students and families.

A salient point is that although a school district may have English Learners and a bilingual program, not all English Learners in a school district are necessarily in that bilingual program model. This could be for several possible reasons: the bilingual program model may be targeted at K-3 students; there could be a bilingual program for one language group in a district, but not for other languages; or if an EL is older, his/her schedule (in middle or high school) can be prohibitive to providing bilingual support at the cost of providing content instruction. The following data tables demonstrate the costs for educating English Learners in bilingual programs and the current reimbursement rates in FY19.

2016-17 Program Costs for Categorically Aided District Programs		
Average approved cost/EL student		\$3869
Average state reimbursement/EL student		\$298
Number of of state-reimbursed programs		53
Percentage of Reimbursement to Categorically Aided District Programs Paid in FY17		
Percent of reimbursement to all aided districts except those receiving set-aside	Formula = $\frac{\$8,589,800 - 250,000}{108,101,037.98}$	7.71482%
Districts receiving set-aside (EL enrollments of at least 15% of their student enrollment receive a percentage of the set-aside of \$250,000)	Abbotsford, Barron, Beloit, Delavan-Darien, Green Bay, Madison Metropolitan, Sheboygan, Walworth, and Waterloo	

Historical Profile: Fully English Proficient Students

The following statistics trace the history of bilingual education in Wisconsin from the last 16 years. This data includes the number of students served in programs receiving categorical aid and numbers of students from these programs who became fully English proficient during the school year. Both the total number of eligible students and the number of districts eligible for bilingual-bicultural categorical aid have grown significantly in the subsequent years. However, reimbursement is at a significantly lower percentage of approved costs.

Historical Demographic Data

School Year	Number of Districts Reporting EL Students	Number of EL Students Reported	Number of Aided Districts	Number of EL Students in Aided Programs Reclassified as Fully English Proficient	Number of Eligible EL Students Served	Number of Non-Aided Districts	"Balance" of EL Students ¹

2001-02	199	32,588	45	1,406	22,016	154	10,572

¹ Data regarding the types of services received, if any, are not collected for "non-eligible" LEP students; most of these students are being served in second language acquisition programs.

² This number is low compared to previous years due to a new standard for exiting on the ACCESS test; more information on the [WIDA web page](#).

³ Beginning with the March 2011 census, and for subsequent years through the 2014 census, different business rules were established resulting in totals that differ from previous years' data. The data in the shaded cells might differ if compared to an earlier report.

⁴ Beginning with the March 2011 census, data sources differ from previous years and numbers for PK students identified as ELL are again included. The change has caused an apparent drop in the number of ELLs, though that drop is more than likely due to the change in data sources.

⁵ This count appears low because it does not include most LEP migrant students or LEP students in PK.

Data Displays

Statewide data from school districts receiving categorical aid for the 2016-17 school year is presented on the following pages:
