#### INDEPENDENT AUDITORS' REPORT

Board of Education Barron Area School District Barron, Wisconsin

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Barron Area School District, Wisconsin (District) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Barron Area School District, Wisconsin as of June 30, 2019, and the respective changes in the financial position, thereof and for the year then ended in conformity with accounting principles generally accepted in the United States of America.

### **Other Matters**

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information, pension plan schedules, and other postemployment benefits schedules be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The District has omitted a management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The individual and combining fund statements, charter school authorizer annual report, and debt retirement schedules are presented for purposes of additional analysis and are not a required part of the financial statements. The schedule of expenditures of federal awards and schedule of state financial assistance are presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and the *State Single Audit Guidelines*, issued by the Wisconsin Department of Administration, respectively, and are also not a required part of the basic financial statements.

The individual and combining fund statements, charter school authorizer annual report, debt retirement schedules, schedule of expenditures of federal awards, and schedule of state financial assistance are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information (including only section VI of the charter school authorizer annual report) have been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

Board of Education
Barron Area School District

In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The charter school authorizer annual report, sections I through V and VII, has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 11, 2019 on our consideration of District's internal control over financial reporting and on our tests on its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

#### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. Basis of Presentation

The financial statements of the Barron Area School District (the "District") have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting principles and policies utilized by the District are described below.

### **B.** Reporting Entity

The Barron Area School District is organized as a common school district. The District, governed by a nine member elected school board, operates grades K through twelve and is comprised of all or parts of nineteen taxing districts.

The financial reporting of the District is defined by the GASB to consist of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that the exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The basic financial statements of the District consist solely of the primary government. No other organizations were identified for inclusion in the financial reporting entity of the District.

#### C. Government-Wide and Fund Financial Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds) as described below:

#### **Government-Wide Statements**

The statement of net position and the statement of activities present financial information about the District's governmental type activities. (The District had no business-type activities for the reporting year.) These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### C. Government-Wide and Fund Financial Statements (Continued)

### **Government-Wide Statements (Continued)**

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

### **Fund Financial Statements**

The fund statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category - governmental and fiduciary - are presented. The emphasis of fund financial statements is on major governmental funds; each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The District has the following major governmental funds:

**General Fund** – The General Fund is the operating fund of the District. It is used to account for all financial resources of the District except those required to be accounted for in another fund.

**Mentorship Program Fund** – The Mentorship Program Fund is a special revenue fund used to account for the donation received and use of such funds per donor specifications.

**Debt Service Fund** – The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

**Capital Projects Fund** – The Capital Projects Fund is used to account for the financing of various building projects.

The remaining governmental funds are reported as nonmajor funds.

Additionally, the District reports the following fiduciary fund:

**Agency Fund** - The Agency Fund is used to account for assets held by the District as an agent for individuals, private organizations and/or other governmental units, specifically, activities of student organizations are accounted for in the agency fund.

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### D. Measurement Focus and Basis of Accounting

The government-wide and fiduciary trust fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Fiduciary agency funds do not have a measurement focus.

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after the end of the fiscal year. State and federal aids under cost reimbursement programs are generally recognized when earned if expected to be collected in the subsequent year. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District may fund certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Therefore, when program expenses are incurred, both restricted and unrestricted net position may be available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, followed by general revenues.

The preparation of the basic financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in financial statements and accompanying notes. Actual results could differ from those estimates.

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Equity

#### 1. Deposits and Investments

Investments of the District are stated at fair value. Cash and investment balances for individual funds are pooled unless maintained in segregated accounts.

The District is required to invest its funds in accordance with Wisconsin Statutes 66.0603 and 67.11(2). State statutes permit the District to invest available cash balances, other than debt service funds, in time deposits of authorized depositories, U.S. Treasury obligations, U.S. agency issues, high grade commercial paper, and the local government pooled-investment fund administered by the state investment board. Available balances in the debt service fund may be invested in municipal obligations, obligations of the United States and the local government pooled-investment fund.

Donations to the District of securities or other property are considered trust funds and are invested as the donor specifies. In the absence of any specific directions, the District may invest the donated items in accordance with the laws applicable to trust investments.

### 2. Receivables and Payables

**Accounts Receivable**. Accounts receivable are shown at gross amounts. No allowance for uncollectible accounts has been provided since such allowance would not be material.

**Property Taxes**. Under Wisconsin law, personal property taxes and first installment real estate taxes are collected by city, town, and village treasurers or clerks who then make proportional settlement with the school district and county treasurer for those taxes collected on their behalf. The county treasurer who then makes settlement with the city, town, village and school districts before retaining any for county purposes collects second installment real estate taxes and delinquent taxes.

The District's property taxes are levied on or before October 31 on the equalized property valuation certified by the Department of Revenue. As permitted by a collecting municipality's ordinance, taxes may be paid in full or two or more installments with the first installment payable the subsequent January 31st, and a final payment no later than the following July 31st. The District is paid by the collecting municipality its proportionate share of tax collections received through the last day of the preceding month on or before January 15th, and by the 20th of each subsequent month thereafter. On or before August 20th, the County Treasurer makes full settlement to the District for any remaining balance. The County assumes all responsibility for delinquent real property taxes.

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Equity (Continued)

### 2. Receivables and Payables (Continued)

**Property Taxes (Continued).** Property taxes are recognized as revenue in the period for which taxes are levied. The 2018 tax levy is used to finance operations of the District's fiscal year ended June 30, 2019. All property taxes are considered due on January 1st, when an enforceable lien is assessed against the property and the taxpayer is liable for the taxes. All taxes are collected within 60 days of June 30th and are available to pay current liabilities.

Interfund Balances. The current portion of lending/borrowing arrangements between funds is identified as "due to/from other funds". The non-current portion of outstanding balances between funds is reported as "advances to/from other funds". Advances between funds are classified as nonspendable fund balance to indicate that they are not available for appropriation and are not expendable available financial resources. For government-wide financial statements, eliminations were made for amounts due to and due from within the same fund type.

### 3. Prepaid Items

Expendable supplies or non-capital items acquired for initial use in subsequent fiscal periods are recorded as prepaid expenses. Prepaid insurance or service contracts are not recorded unless their recognition as an expenditure would result in more than one year's cost being recorded. Prepaid supplies are valued at the lower of cost (first-in, first-out method) or market.

### 4. Capital Assets

Capital assets are reported at actual cost or estimated historical costs based on an appraisal conducted by an independent third-party appraisal firm. Donated assets are reported at estimated acquisition value at the time received.

Capitalization thresholds (the dollar valued above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the government-wide statements are as follows:

|                              | Capitalization Threshold | Depreciation <u>Method</u> | Estimated<br><u>Useful Life</u> |
|------------------------------|--------------------------|----------------------------|---------------------------------|
| Land                         | \$2,500                  | N/A                        | N/A                             |

<sup>\*</sup> For purposes of determining the capitalization threshold for these items the District groups all purchases for the year.

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Equity (Continued)

#### 5. Deferred Outflows of Resources

The District reports decreases in net position or fund balance that relate to future periods as deferred outflows of resources in a separate section of its government-wide statement of net position or governmental fund balance sheet. The District reports deferred outflows of resources for pension and OPEB related items.

### 6. Deferred Inflows of Resources

The District reports increases in net position or fund balance that applies to a future period as deferred inflows of resources in a separate section of its government-wide statement of net position or governmental fund balance sheet. The District reports deferred inflows of resources for pension and OPEB related items.

### 7. Compensated Absences

The District's policies generally allow accumulated employee vacation and sick leave benefits to vest for administrators, teachers, and support staff. A liability for accumulated employee benefits is not accrued in the District's governmental fund financial statements but is recorded as an expenditure when paid. Such liability is accrued in the government-wide financial statements when earned. The District's policies and estimated liability at year end are further discussed in Note 4.D.

### 8. Other Postemployment Benefits (OPEB) – Single Employer Plan

Under the provisions of various employee and union contracts, if certain age and minimum years of service requirements are met, for every five years of service the employee has with the District, upon retirement the District provides a set contribution toward health care premiums. The amount to be incurred is limited as specified by contract. This amount was actuarially determined, in accordance with GASB 75.

### 9. Other Postemployment Benefits (OPEB) - Multiple-Employer Plan

The fiduciary net position of the Local Retiree Life Insurance Fund (LRLIF) has been determined using the flow of economic resources measurement focus and the accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about the fiduciary net position of the LRLIF and additions to/deductions from LRLIF's fiduciary net position have been determined on the same basis as they are reported by LRLIF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Equity (Continued)

### 10. Wisconsin Retirement System Pension Plan Benefits

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wisconsin Retirement System (WRS) and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### 11. Long-Term Obligations

In the government-wide financial statements, outstanding long-term debt and other long-term obligations are reported as liabilities.

In the fund financial statements, governmental fund types recognize debt premiums and discounts, as well as debt issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. As required by state statute, premium and accrued interest received as part of the proceeds are recorded in the debt service fund.

#### 12. Equity Classifications

Fund equity, representing the difference between assets and deferred outflows of resources, less liabilities and deferred inflows of resources, is classified as follows in the District's financial statements:

Government-Wide Statements. Fund equity is classified as net position in the government-wide financial statements and is displayed in three components. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement for those assets. Net position is reported as restricted when there are limitations imposed on its use through external restrictions imposed by creditors, grantors or laws or regulations of other governments. All other net position is displayed as unrestricted.

### NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Equity (Continued)

### 12. Equity Classifications (Continued)

Fund Financial Statements. In the fund financial statements, governmental funds report components of fund balance to provide information about fund balance availability for appropriation. Nonspendable fund balance represents amounts that are inherently nonspendable or assets that are legally or contractually required to be maintained intact. Restricted fund balance represents amounts available for appropriation but intended for a specific use and is legally restricted by outside parties. Committed fund balance represents constraints on spending that the government imposes upon itself by high-level formal action prior to the close of the fiscal period. Assigned fund balance represents resources intended for spending for a purpose set by the government body itself or by some person or body delegated to exercise such authority in accordance with policy established by the board. Unassigned fund balance is the residual classification for the District's general fund and includes all spendable amounts not contained in the other classifications. The District does not have a general fund minimum fund balance policy.

Committed fund balance is required to be established, modified, or rescinded by resolution of the District Board prior to each year end. Based on resolution of the District Board, the District Administrator and / or Business Manager have the authority to establish or modify assigned fund balance. When restricted and unrestricted fund balance is available for an expenditure, it is the District's policy to first use restricted fund balance. When committed, assigned, and unassigned fund balance is available for an expenditure, it is the District's policy to use committed, assigned and finally unassigned fund balance.

#### 13. Use of Restricted Resources

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

### NOTE 2 RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Due to the differences in the measurement focus and basis of accounting used in the governmental fund financial statements and the government-wide financial statements, certain financial transactions are treated differently. Reconciliations of governmental fund balances and changes thereto to the net position and revenues/expenses shown in the government-wide financial statements are presented on pages 7 and 9, respectively.

#### NOTE 3 DETAILED NOTES ON ALL FUNDS

### A. Deposits and Investments

The debt service fund accounts for its transactions through separate and distinct bank and investment accounts as recommended by the Department of Public Instruction. In addition, the trust and agency funds use separate and distinct accounts. All other funds share in common cash and investment accounts.

The District's cash and investments balance at June 30, 2019 were shown in the financial statements as follows:

| Governmental Funds | \$<br>4,470,646 |
|--------------------|-----------------|
| Fiduciary Funds    | 133,581         |
| •                  | \$<br>4,604,227 |

The above balances at June 30, 2019 consisted of the following:

| Deposits at Financial Institutions | \$<br>3,298,804 |
|------------------------------------|-----------------|
| Investment with Fiscal Agent       | 1,305,423       |
|                                    | \$<br>4,604,227 |

### **Deposits at Financial Institutions**

The District's balances at individual financial institutions were subject to coverage under federal depository insurance and amounts appropriated by Sections 20.144(1)(a) and 34.08 of the Wisconsin Statutes (State Guarantee Fund). Federal depository insurance provides for coverage of up to \$250,000 for time and savings deposits and up to an additional \$250,000 for demand accounts. In addition, funds held for others (such as trust funds) are subject to coverage under the name of the party for whom the funds are held. Coverage under the State Guarantee Fund may not exceed \$400,000 above the amount of coverage under federal depository insurance at any institution and is limited by the availability of the appropriations authorized therein. (Due to the relatively small size of the State Guarantee Fund in relation to the total coverage, total recovery of losses may not be available.) Also, Section 34.07 of the Wisconsin Statutes authorizes the District to collateralize its deposits that exceed the amount of coverage provided by federal depository insurance and the State Guarantee Fund.

Custodial credit risk for deposits is the risk that, in the event of bank failure, the District's deposits may not be returned. At June 30, 2019, the District's deposits were not exposed to custodial risk.

### NOTE 3 DETAILED NOTES ON ALL FUNDS (CONTINUED)

#### A. Deposits and Investments (Continued)

### Investments

The District's investments at June 30, 2019, consisted of deposits in the following:

|                        |                 | Investment Maturities (in Years) |    |      |    |     |  |
|------------------------|-----------------|----------------------------------|----|------|----|-----|--|
| Description            | Totals          | < 1                              | 1  | to 3 |    | > 3 |  |

Credit risk for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligation to the holder of the investment. The District's policy is to invest its funds in accordance with provisions of the Wisconsin Statutes previously discussed in Note 1.E.1.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the fair values of investments with maturity dates farther into the future are more sensitive to changes in market interest rates. The short weighted average maturities of the investments in the above external investment pool mitigates this risk to the District.

### **Fair Value Measurements**

The District uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures.

The District follows an accounting standard that defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value, and requires expanded disclosures about fair value measurements. In accordance with this standard, the District has categorized its investments, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

Financial assets and liabilities recorded on the combined statements of financial position are categorized based on the inputs to the valuation techniques as follows:

Level 1 – Financial assets and liabilities are valued using inputs that are unadjusted quoted prices in active markets accessible at the measurement date of identical financial assets and liabilities.

### NOTE 3 DETAILED NOTES ON ALL FUNDS (CONTINUED)

### A. Deposits and Investments (Continued)

### Fair Value Measurements (Continued)

Level 2 – Financial assets and liabilities are valued based on quoted prices for similar assets, or inputs that are observable, either directly or indirectly for substantially the full term through corroboration with observable market data.

Level 3 – Financial assets and liabilities are valued using pricing inputs which are unobservable for the asset, inputs that reflect the reporting entity's own assumptions about the assumptions market participants and would use in pricing the asset.

Assets measured at fair value on a recurring basis:

|                                  | Level 1      | Level 2  | Level 3 | Total        |  |  |

#### A. Wisconsin Retirement System Pension Plan Benefits

#### General Information about the Pension Plan

Plan Description. The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, and expected to work at least 1200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS. ETF issues a standalone Comprehensive Annual Financial Report (CAFR), which can be found at http://etf.wi.gov/publications/cafr.htm.

Vesting. For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

Benefits Provided. Employees who retire at or after age 65 (54 for protective occupations and 62 for elected officials and executive service retirement plan participants, if hired on or before 12/31/2016) are entitled to a retirement benefit based on a formula factor, their final average earnings, and creditable service.

Final average earnings is the average of the participant's three highest annual earnings periods. Creditable service includes current service and prior service for which a participant received earnings and made contributions as required. Creditable service also includes creditable military service. The retirement benefit will be calculated as a money purchase benefit based on the employee's contributions plus matching employer's contributions, with interest, if that benefit is higher than the formula benefit.

Vested participants may retire at or after age 55 (50 for protective occupations) and receive an actuarially-reduced benefit. Participants terminating covered employment prior to eligibility for an annuity may either receive employee-required contributions plus interest as a separation benefit or leave contributions on deposit and defer application until eligible to receive a retirement benefit.

The WRS also provides death and disability benefits for employees.

Contributions. Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers, and Executives and Elected Officials. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period July 1, 2018 through June 30, 2019, the WRS recognized \$593,820 in contributions from the employer.

Contribution rates as of June 30, 2019 are:

|                              | Employee | Employer |
|------------------------------|----------|----------|
| General (including Teachers) | 6.55%    | 6.55%    |

Post-Retirement Adjustments. The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

| Year | Core Fund<br>Adjustment | Variable Fund<br>Adjustment |

### <u>Pension Liability/Asset, Pension Expense, and Deferred Outflows of Resources</u> and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the District reported a liability of \$2,113,911 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2017 rolled forward to December 31, 2018. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2018, the District's proportion was 0.05941814 percent, which was an increase of 0.00002092 from its proportion measured as of December 31, 2017.

Actuarial assumptions. The total pension liability in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:

December 31, 2017

Measurement Date of Net Pension Liability (Asset):

December 31, 2018

Actuarial Cost Method:

Entry Age

Asset Valuation Method:

Fair Value

Long-Term Expected Rate of Return:

7.0%

Discount Rate:

7.0%

Inflation:

3.0%

Salary Increases:

3.1% to 8.6% including inflation

Mortality:

Wisconsin 2018 mortality table

Post-retirement Adjustments\*:

1.9%

Actuarial assumptions are based upon an experience study conducted in 2018 that covered a three-year period from January 1, 2015 to December 31, 2017. Based on this experience study, actuarial assumptions used to measure the Total Pension Liability changed from prior year, including the discount rate, long-term expected rate of return, post-retirement adjustment, wage inflation rate, mortality and separation rates. The total pension liability for December 31, 2018 is based upon a roll-forward of the liability calculated from the December 31, 2017 actuarial valuation.

<sup>\*</sup>No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 1.9% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.

## <u>Pension Liability/Asset, Pension Expense, and Deferred Outflows of Resources</u> and Deferred Inflows of Resources Related to Pensions (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

|                            | Core Asset Allocation |                | Variable A | sset Allocation |

Discount rate. A single discount rate of 7.00% was used to measure the total pension liability, as opposed to a discount rate of 7.20% for the prior year. This single discount rate was based on the expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 3.71%. Because of the unique structure of WRS, the 7.00% expected rate of return implies that a dividend of approximately 1.9% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the municipal bond rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

## **Plan Description**

Certain classifications of employees with a minimum number years of service to the District receive contributions towards their medical and dental insurance for up to 60 months upon retirement. The District does not accumulate any assets in a trust to fund the plan.

Employees covered by benefit terms. At June 30, 2019, the following employees were covered by the benefit terms:

| Inactive plan members or beneficiaries currently receiving benefit payments | 12  |
|---|-----|
| Inactive plan members entitled to but not yet receiving benefit payments    | 0   |
| Active plan members   | 107 |

## **Total OPEB Liability**

The District's total OPEB liability of \$1,936,383 was measured as of June 30, 2018.

### **Actuarial Assumptions**

The total OPEB liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Actuary Cost Method:

Entry Age

Amortization Method:

Level Percent of Salary

Amortization Period:

30 Years

Discount Rate:

Inflation:

3.75% 2.5%

Healthcare Cost Trend Rates 7.5% decreasing 0.5% to 6.5%, then decreasing by 0.1% to 5.0%

and level thereafter

Salary Increases:

3.2% to 8.6% including inflation

Retirement Age:

In the 2017 actuarial valuation, expected retirement ages of

general employees were adjusted to more closely reflect actual

experience.

Mortality:

Wisconsin 2012 Mortality Table

The discount rate was based on the Bond Buyer Go 20-year AA municipal bond rate Index published by the Federal Reserve.

The actuarial assumptions used were based on an experience study conducted in 2015 using Wisconsin Retirement System (WRS) experience from 2012-2014.

There were no changes in benefit terms or assumptions during the reporting period, with the exception of the discount rate changing from 3.50% to 3.75%.

## C. Other Postemployment Benefits – Multiple Employer Plan

### **Plan Description**

The LRLIF is a multiple-employer defined benefit OPEB plan. LRLIF benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. The Wisconsin Department of Employee Trust Funds (ETF) and the Group Insurance Board have statutory authority for program administration and oversight. The plan provides post-employment life insurance benefits for all eligible employees. ETF issues a standalone Comprehensive Annual Financial Report, which can be found at <a href="http://etf.wi.gov/publications/cafr.htm">http://etf.wi.gov/publications/cafr.htm</a>.

Benefits Provided. The LRLIF plan provides fully paid up life insurance benefits for postage 64 retired employees and pre-65 retirees who pay for their coverage.

Contributions. The Group Insurance Board approves contribution rates annually, based on recommendations from the insurance carrier. Recommended rates are based on an annual valuation, taking into consideration an estimate of the present value of future benefits and the present value of future contributions. A portion of employer contributions made during a member's working lifetime funds a post-retirement benefit.

Employers are required to pay the following contributions based on employee contributions for active members to provide them with Basic Coverage after age 65. There are no employer contributions required for pre-age 65 annuitant coverage. If a member retires prior to age 65, they must continue paying the employee premiums until age 65 in order to be eligible for the benefit after age 65.

Contribution rates as of June 30, 2019 are:

| Coverage Type                | Employer Contribution        |  |  |
|------------------------------|------------------------------|--|--|
| 50% Post Retirement Coverage | 40% of employee contribution |  |  |
| 25% Post Retirement Coverage | 20% of employee contribution |  |  |

Employee contributions are based upon nine age bands through age 69 and an additional eight age bands for those age 70 and over. Participating employees must pay monthly contribution rates per \$1,000 of coverage until the age of 65 (age 70 if active). The employee contribution rates in effect for the year ended December 31, 2018 are:

| Attained Age | Basic  |
|--------------|--------|
| Under 30     | \$0.05 |
| 30-34        | 0.06   |
| 35-39        | 0.07   |
| 40-44        | 0.08   |
| 45-49        | 0.12   |
| 50-54        | 0.22   |
| 55-59        | 0.39   |
| 60-64        | 0.49   |
| 65-69        | 0.57   |

During the year ending June 30, 2019, the LRLIF recognized \$2,369 in contributions from the employer.

## OPEB Liabilities/Assets, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At June 30, 2019, the District reported a liability of \$298,390 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of December 31, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2017 and rolled forward to December 31, 2018. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The District's proportion of the net OPEB liability was based on the District's share of contributions to the OPEB plan relative to the contributions of all participating employers. At December 31, 2018, the District's proportion was 0.11564000 percent, which was an increase of 0.00181600 from its proportion measured as of December 31, 2017.

For the year ended June 30, 2019, the District recognized OPEB expense of \$29,397. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to OPEBs from the following sources:

Long-term expected Return on Plan Assets. The long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. Investments for the LRLIF are held with Securian, the insurance carrier. Interest is calculated and credited to the LRLIF based on the rate of return for a segment of the insurance carriers' general fund, specifically 10-year A-Bonds (as a proxy, and not tied to any specific investments). The overall aggregate interest rate is calculated using a tiered approach based on the year the funds were originally invested and the rate of return for that year. Investment interest is credited based on the aggregate rate of return and assets are not adjusted to fair market value. Furthermore, the insurance carrier guarantees the principal amounts of the reserves, including all interest previously credited thereto.

Single Discount rate. A single discount rate of 4.22% was used to measure the Total OPEB Liability for the current year, as opposed to a discount rate of 3.63% for the prior year. The Plan's fiduciary net position was projected to be insufficient to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the Total OPEB Liability is equal to the single equivalent rate that results in the same actuarial present value as the long-term expected rate of return applied to benefit payments, to the extent that the plan's fiduciary net position is projected to be sufficient to make projected benefit payments, and the municipal bond rate applied to benefit payment to the extent that the plan's fiduciary net position is projected to be insufficient. The plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through December 31, 2036.

Sensitivity of the District's proportionate share of the net OPEB liability (asset) to changes in the discount rate. The following presents the District's proportionate share of the net OPEB liability (asset) calculated using the discount rate of 4.22 percent, as well as what the District's proportionate share of the net OPEB liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (3.22 percent) or 1-percentage-point higher (5.22 percent) than the current rate:

|  | 1% Decrease (3.22%) | Current Discount<br>Rate (4.22%) | 1% Increase (5.22%) |  |  |

#### D. Accrued Employee Leave Liability

Bus drivers who retire at age 57 or older with at least 15 years of service are paid \$18 for each day of accumulated sick leave, up to 90 days maximum. Support staff who retire at age 57 or older with at least 15 years of service are paid between \$25 and \$75 for each day of accumulated sick leave, depending on annual contracted hours, up to 120 days maximum. Teachers who retire at age 55 or older with at least 10 years of service are paid \$50 for each day of accumulated sick leave, up to 120 days maximum. The District's estimated liability for this leave at June 30, 2019 was \$244,756. In addition, under provisions of certain contracts, unused vacation leave can accumulate from one year to the next. The District's estimated liability for unused vacation totaled \$15,886 at June 30, 2019.

## E. District/Hospital Steam Agreement

The District and Barron Medical Center – Mayo Health System have jointly constructed a wood fired steam heating plant. An agreement between the co-owners requires monthly charges for operating costs, debt service and a contingency fund surcharge.

Operating costs and the District's share of contingency fund surcharges are accounted for in the general fund. Debt service charges are accounted for in the debt service fund and the Hospital's share of contingency fund surcharges are recorded in a special revenue fund.

#### F. Limitation on School District Revenues

Wisconsin statutes limit the amount of revenues school districts may derive from general school aids and property taxes. The annual revenue increase from these sources is based on pupil count and is limited to the amount approved by legislative action unless a higher amount has been approved by a referendum. The State has also placed a limit on the decrease in the annual revenue cap due to declining enrollments. The State further allows an exemption equal to 75% of the prior year unused allowable revenue.

This limitation does not apply to revenues needed for payment of any general obligation debt service (including refinancing debt) authorized by either of the following:

- A resolution of the school board or by a referendum prior to August 12, 1993.
- A referendum on or after August 12, 1993.

### G. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the District. There were no significant reductions in coverage from the prior year and settled claims have not exceeded this commercial coverage in any of the past three years.

## BARRON AREA SCHOOL DISTRICT BARRON, WISCONSIN NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2019

#### **BUDGETARY INFORMATION**

GASB Statement No. 34 requires the presentation of budgetary comparison schedules for the general fund and for each major special revenue fund. Budgetary information for the general fund is derived from the District's annual operating budget. The District did not formally adopt a budget for the Mentorship Program special revenue fund.

Budgets are adopted each fiscal year for all funds in accordance with Section 65.90 of the Wisconsin Statutes, using the budgetary accounting basis prescribed by the Wisconsin Department of Public Instruction. The District's legally adopted budget and budgetary expenditure control is exercised at the function level in the general fund and at the fund level for all other funds. Reported budget amounts are as originally adopted or as amended by School Board resolution.

The District follows these procedures in establishing the budgetary data reflected in the financial statements.

- Based upon requests from District staff, District administration recommends budget proposals to the school board.
- The school board prepares a proposed budget including proposed expenditures and the means
  of financing them for the July 1 through June 30 fiscal year.
- A public notice is published containing a summary of the budget and identifying the time and place where the public hearing will be held on the proposed budget.
- Pursuant to the public budget hearing, the school board may make alterations to the proposed budget.
- Once the school board (following the public hearing) adopts the budget, no changes may be made in the amount of the tax to be levied or in the amount of the various appropriations and the purposes of such appropriations unless authorized by a 2/3 vote of the entire school board.
- Appropriations lapse at year-end unless authorized as a carryover by the school board.

Budget amounts in the financial statements include both original adopted budget and the final budget.

The following line items exceeded the final budget. These overages were determined necessary and authorized by management.

### SECTION III: ACADEMIC PERFORMANCE OF CHARTER SCHOOLS

### Advanced Learning Academy of Wisconsin (ALAW)

During the 2018-2019 school year, based on the Alternative Accountability Report, ALAW set reading/English language arts academic achievement goal of having 50% of ALAW students that tested will be at/above the 50th percentile rank in STAR Reading and to see a growth in their reading results. In the area of reading, ALAW increased their growth percentile from 9.61 to 10.27, while still maintaining 50% of our students who tested, at/above benchmark.

ALAW set a goal to increase a growth in math skills for their students and used the STAR results as their measurement tool. Students who tested, increased their growth percentile from a 9.61 to a 10.32 and SS was increased to 847, with an overall grade equivalency increase of 12.2.

### Barron Area Montessori School (BAMS)

BAMS set a reading goal of seeing typical growth (35-65) and/or above typical growth (66-99) in reading for 80% of the students as measured by STAR for grades 1-3. STAR Reading data from 2018-2019 indicated that 100% of first grade, 83% of second grade, and 100% of third grade made typical or above typical growth in reading.

For mathematics, BAMS set a goal of having 80% of students achieve typical or above typical growth. STAR Math data showed that 60% of BAMS students grew typical or above from Fall to Spring.

### SECTION IV: FINANCIAL PERFORMANCE OF CHARTER SCHOOLS

### Advanced Learning Academy of Wisconsin (ALAW)

The Barron Area School District's (BASD) agreement with the Advanced Learning Academy of Wisconsin (ALAW) states that ALAW shall receive 80% of the correlating funding that BASD would receive for that student. For example, if the student is a district resident student, ALAW receives 80% of the revenue limit per-pupil funding. Also, if an ALAW student is an open-enrolled student, ALAW receives 80% of the current-year DPI open-enrollment funding amount. Funding numbers are based on third-Friday in September pupil counts and the budget for ALAW is set at that point in time.

During the 2018-19 fiscal year third-Friday count, ALAW had 47 students: 28 open-enrolled students and 19 district resident students. Based on these numbers, the ALAW budget was adopted at \$324,115 for 2018-19. ALAW expenditures for the fiscal-year totaled \$283,173. The excess monies that were not utilized by ALAW, and the 20% portion BASD keeps per the agreement, are utilized in the general fund to offset other expenditures related to copying, facility use, utilities, and administrative support.

## Barron Area Montessori School (BAMS)

The Barron Area School District's (BASD) agreement with the Barron Area Montessori School (BAMS) states that BAMS shall receive 60% of the correlating funding that BASD would receive for that student. For example, if the student is a district resident student, BAMS receives 60% of the revenue limit perpupil funding. Also, if a BAMS student is an open-enrolled student, BAMS receives 60% of the current-year DPI open-enrollment funding amount. It should also be noted that BAMS accepts 3 and 4 year-old students. There is no funding allotment for 3-year olds, as the District is not funded for those students. 4-year old students are also prorated to the same FTE proration that the District receives. Funding numbers are based on third-Friday in September pupil counts and the budget for BAMS is set at that point in time.

During the 2018-19 fiscal year third-Friday count, BAMS had 48 students 4-year old and older: 4 openenrolled students and 44 district resident students. 15 students were 4-year olds and received prorated funding. Based on these numbers, the BAMS budget was adopted at \$260,124 for 2018-19. BAMS expenditures for the fiscal-year totaled \$220,961. The excess monies that were not utilized by BAMS, and the 40% portion BASD keeps per the agreement, are utilized in the general fund to offset other expenditures related to copying, facility use, utilities, and administrative support.

# BARRON AREA SCHOOL DISTRICT BARRON, WISCONSIN NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE JUNE 30, 2019

#### NOTE 1 GENERAL

The accompanying schedules of expenditures of federal awards and state financial assistance present the expenditures of all federal financial assistance programs and state financial assistance of the District subject to inclusion under the federal and state single audit requirements. Such expenditures are recognized following the cost principles contained in the *Uniform Guidance* and the Wisconsin *State Single Audit Guidelines*, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The reporting entity is defined in Note 1 to the financial statements.

#### NOTE 2 BASIS OF ACCOUNTING

The accompanying schedules of expenditures of federal awards and state financial assistance are presented using the modified accrual basis of accounting, which is described in Note 1 to the District's financial statements.

### NOTE 3 FOOD DISTRIBUTION

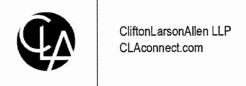

Non-monetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed for the USDA Commodities Program (CFDA #10.555).

#### NOTE 4 INDIRECT COSTS

The District has not elected to use the 10% de minimis indirect cost rate.

### NOTE 5 MEDICAL ASSISTANCE

Expenditures presented for the Medicaid School Based Services (SBS) Benefit represent only the federal funds for the program that the District receives from the Department of Health Services (DHS). District records should be consulted to determine the total amount expended for this program.

## INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Education Barron Area School District Barron, Wisconsin

We have audited, in accordance with auditing standards generally accepted in the United States of America and standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Barron Area School District, Wisconsin (District) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 11, 2019.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify a deficiency in internal control, as described in the accompanying Schedule of Findings and Questioned Costs as item 2019-001, that we consider to be a material weakness.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our test disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Barron Area School District's Response to Finding**

The District's response to the finding identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

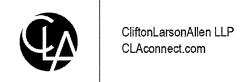

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND STATE SINGLE AUDIT GUIDELINES

Board of Education Barron Area School District Barron, Wisconsin

## Report on Compliance for Each Major Federal and State Program

We have audited the Barron Area School District, Wisconsin's (District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2019. We have also audited the District's compliance with types of compliance requirements described in the *State Single Audit Guidelines*, issued by the Wisconsin Department of Administration that are applicable to each of its major state programs (including federal programs required to be tested as major state programs) for the same period. The District's major federal programs and major state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

## Management's Responsibility

Management is responsible for compliance with the requirements federal and state statutes, regulations, and the terms and conditions of its federal and state awards.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*; and the *State Single Audit Guidelines,* issued by the Wisconsin Department of Administration. Those standards, the Uniform Guidance, and state guidelines require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination on the District's compliance.

### Opinion on Each of the Major Federal and State Programs

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on to each of its major federal and state programs for the year ended June 30, 2019.

### **Report on Internal Control Over Compliance**

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit, we considered the District's internal control over compliance with the requirements that could have a direct and material effect on a major federal or state program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance and *State Single Audit Guidelines*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the result of that testing based on the requirements of the Uniform Guidance and *State Single Audit Guidelines*. Accordingly, this report is not suitable for any other purpose.

## BARRON AREA SCHOOL DISTRICT BARRON, WISCONSIN SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED) YEAR ENDED JUNE 30, 2019

PART II: FINDINGS RELATED TO INTERNAL CONTROL OVER FINANCIAL REPORTING:

FINDING: 2019-001 Limited Segregation of Duties

Criteria: Generally, a system of internal control contemplates separation of duties such

that no individual has responsibility to execute a transaction, have physical access to the related assets, and have responsibility or authority to record the

transaction.

Condition: The auditors noted during the audit that the available staff precludes a proper

separation of duties to assure adequate internal control.

Context: The limited size of the District's staff responsible for accounting and financial

duties precludes a complete segregation of incompatible duties. The District has informed us that it may not be cost effective to hire the additional personnel

required to achieve complete segregation of duties.

Cause: The condition is due to limited staff available.

**Effect:** Lack of segregation of duties could result in a financial statement misstatement,

caused by error or fraud, that would not be detected or prevented by District staff.

Recommendation: The District should continue to evaluate its staffing in order to segregate

incompatible duties whenever possible.

Views of Responsible Officials and Planned Corrective Actions: The District continues to work to achieve segregation of duties whenever cost effective. The District Superintendent is the official responsible for ensuring corrective action of the deficiency.

PART III: FINDINGS RELATED TO MAJOR FEDERAL AWARD PROGRAMS:

None.

PART IV: FINDINGS RELATED TO MAJOR STATE FINANCIAL ASSISTANCE PROGRAMS:

None.

PART V: FINDINGS RELATED TO STATE GENERAL REQUIREMENTS:

None.
