Each person satisfactorily completing this program shall receive a snowmobile safety certificate from the department. The department shall establish by rule an instruction fee for this program. An instructor conducting a program of instruction under this section shall collect the instruction fee from each person who receives instruction. The department may determine the portion of this fee, which may not exceed 50 percent, that the instructor may retain to defray expenses incurred by the instructor in conducting the program. (c) If the snowmobile is equipped with a multiple beam head lamp, the upper beam shall meet the minimum requirements set forth in par. (b) and the lower most beam shall be so aimed and of sufficient intensity to reveal persons and vehicles at a distance of at least 100 feet ahead.

(d) If the snowmobile is equipped with a single beam lamp, such lamp shall be so aimed that when the vehicle is loaded none of the high intensity portion of the light, at a distance of 25 feet ahead, projects higher than the level of the center of the lamp from which it comes.

(3) After February 12, 1970, the tail lamp on a snowmobile must display a red light plainly visible during darkness from a distance of 500 feet to the rear.

(4) Every snowmobile shall be equipped with at least one brake operated either by hand or by foot, capable of bringing the snowmobile to a stop, under normal conditions, within 40 feet when traveling at a speed of 20 miles per hour with a 150 pound driver on a level, hard-packed snow surface, or capable of locking the track on a level, hard-packed snow surface. The design shall permit simple and easy adjustment to compensate for wear. There shall be no other control linked to the brake which impairs braking operation.

The device shall be capable of being attached to the body of the operator, and shall be so attached when the snowmobile is being operated.

Cross-reference: See also s. NR 6.01, Wis. adm. code.

(a) Every snowmobile that is manufactured on or after July 2, 1975, and that is offered for sale or sold in this state as a new snowmobile shall be manufactured so as to limit total vehicle noise to not more than 78 decibels of A sound pressure, as measured by Society of Automotive Engineers standards.

(b) No snowmobile may be modified by any person in any manner that shall amplify or otherwise increase total vehicle noise above that emitted by the snowmobile as originally manufactured, regardless of date of manufacture.

(2) NOISE LEVEL STANDARDS; EXHAUST AND ENGINE NOISE. (a) No snowmobile may be manufactured, sold, offered for sale, or operated unless it is equipped with a muffler in good working order.

(b) For snowmobiles manufactured after July 1, 1972, a muffler that is in good working order is one that blends the exhaust noise into the overall engine noise and is in constant operation to prevent exhaust and engine noise that exceeds the applicable noise level standards established under pars. (c) and (d).

(c) For every snowmobile manufactured after July 1, 1972, and before July 2, 1975, the noise level standard for exhaust and engine noise shall be 90 decibels as measured in accordance with the procedures established for the measurement of exhaust sound levels of stationary snowmobiles in the January 2004 Society of Automotive Engineers Standard J2567.

(d) 1. Except as provided in subd. 2., for every snowmobile manufactured on or after July 2, 1975, the noise level standard for exhaust and engine noise shall be 88 decibels as measured in accordance with the procedures established for the measurement of exhaust sound levels of stationary snowmobiles in the January 2004 Society of Automotive Engineers Standard J2567.

2. After consulting with the snowmobile recreational council, the department may promulgate a rule that establishes a noise level standard for exhaust and engine noise that is other than 88 decibels.

(2) Use of test results. A law enforcement officer may use the results of a preliminary breath screening test for the purpose of deciding whether or not to arrest a person for a violation of the intoxicated snowmobiling law or for the purpose of deciding whether or not to request a chemical test under s. 350.104. Following the preliminary breath screening test, chemical tests may be required of the person under s. 350.104.
(3) Admissibility. The result of a preliminary breath screening test is not admissible in any action or proceeding except to show probable cause for an arrest, if the arrest is challenged, or to show that a chemical test was properly required of a person under s. 350.104.

The department shall make payments under par. (bm) for trail maintenance costs that were incurred in the previous fiscal year and that exceed the maximum specified under par. (b) 1. before making payments for any of the other purposes specified in par. (b).

A separate permit is required for each snowmobile rail crossing subject to this section.

(2) within 90 days after sending a copy of the application to the rail authority’s designated agent under sub. (3) if the department determines that all of the following conditions have been met:

In making its finding, the department shall consider, but not be limited to, all of the following factors:

1. Whether the proposed snowmobile rail crossing could pose a substantial danger to public safety.

2. Whether a snowmobile rail crossing that is located near the proposed snowmobile rail crossing provides an adequate crossing for snowmobiles.

3. Whether the proposed snowmobile rail crossing would have a substantial adverse effect on railroad operations.

4. Whether the proposed snowmobile rail crossing conforms with the requirements of the rules promulgated under s. 350.137.

(e) If the department issues a permit to an applicant under this section, the rail authority shall construct that portion of the snowmobile rail crossing that is on the track and that portion that extends outward 4 feet from each outer rail.

The department shall require a snowmobile organization to maintain in effect liability insurance to indemnify the applicable rail authority for damages resulting from the design, construction, maintenance, existence, or use of a snowmobile rail crossing for which a permit is issued under this section, except that the department may not require the snowmobile organization to maintain in effect liability insurance to indemnify the applicable rail authority for injuries sustained by a person engaged in a recreational activity, if the rail authority would be immune from liability for those injuries under s. 895.52. Regardless of the number of snowmobile rail crossings that the snowmobile organization maintains under this section and s. 350.139, the amount of the liability insurance that is required to be maintained under this subsection shall be at least $2,000,000 for each snowmobile organization. The snowmobile organization shall designate the applicable rail authority as a named insured on the policy. Any liability insurance that is required under this subsection for the purpose of indemnifying a rail authority that is a rail transit body shall also indemnify the owners and operators of any railroad using the tracks of the rail transit body. Annually, beginning on December 1, 2001, each snowmobile organization that is required to maintain liability insurance under this subsection shall furnish proof of that insurance to the applicable rail authority and to the department.

(8) REVOCATION OF PERMITS. The department may revoke a permit that it issued if the department determines that the snowmobile rail crossing is not constructed or maintained in compliance with the rules promulgated under s. 350.137. The department shall revoke a permit that it issued if the snowmobile organization does not maintain any liability insurance that is required under sub. (6) or the snowmobile rail crossing is not maintained for use by snowmobiles for at least 5 winters in any 10-year period. The 10-year period for purposes of this subsection shall begin on the first December 15 following the date of the issuance of the permit.

(9) INSPECTION AUTHORIZED. The department or the office of the commissioner of railroads may inspect the site of a proposed snowmobile rail crossing or the site of a snowmobile rail crossing for which a permit has been issued to determine whether there are grounds to refuse to issue a permit under sub.
