### *Analysis by the Legislative Reference Bureau*

Currently, when an action involves the mental or physical condition of one of the parties, the court may order that party to submit to a physical or mental examination. If the action seeks to recover damages for personal injury, under current law, the court is required to order the plaintiff to allow the defendant to inspect any X-rays taken of the plaintiff. Current law also requires the court in such actions to order the plaintiff to allow the defendant to inspect any hospital, medical and other records relevant to the action.

This bill removes the mandatory requirement that the court order the plaintiff to allow the defendant to inspect relevant hospital, medical and other records. Under the bill, the court is given discretionary authority to so order the plaintiff.
