4 tax credit for businesses.

Analysis by the Legislative Reference Bureau

This bill creates an income tax and franchise tax credit for businesses that pay tuition for an individual to attend a university, college, or technical college. Sole proprietorships, corporations, and insurers may claim the credit. Partnerships, limited liability companies, and tax-option corporations compute the credit but pass it on to the partners, members, and shareholders in proportion to their ownership interests. The credit is an amount equal to: 1) Fifty percent of the tuition paid by a business for an individual to attend school in a taxable year, if the individual is enrolled in a degree-granting program; and 2) Seventy-five percent of the tuition paid by a business for an individual to attend school in a taxable year, if the individual is enrolled in a degree-granting program and if the individual's taxable income is not more than 185% of the federal poverty line. If the credit claimed by a business exceeds the business's tax liability, the state will not issue a refund check, but the business may carry forward any remaining credit to subsequent taxable years.
