- 1 AN ACT *to create* 990.001 (17), 990.01 (4m) and 990.01 (19j) of the statutes;
2 **relating to:** live birth or the circumstance of being born alive.

Analysis by the Legislative Reference Bureau

Under current law, the terms "live birth" and "born alive" are not defined and are used in various statutes, including those relating to abortion and disposition of property to heirs at death.

This bill defines "born alive" and "live birth" for application to all of the statutes. Further, the bill requires statutory construction such that one who is born alive or who undergoes a live birth as the result of an abortion has the same legal status and legal rights as a human being at any point after the human being is born alive or undergoes a live birth as the result of natural or induced labor or a cesarean section. Lastly, the bill prohibits construction of this requirement to affirm, deny, expand, or contract a legal status or legal right that is applicable to a human being at any point before the human being is born alive or undergoes a live birth.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
