

## 2003 ASSEMBLY BILL 889

February 23, 2004 - Introduced by Representative BLACK. Referred to Committee on Government Operations and Spending Limitations.

- 1     **AN ACT** *to create* 121.91 (4) (L) of the statutes; **relating to:** increasing a school  
2           districts revenue limit by the amount spent for school safety and security  
3           measures and granting rule-making authority.

---

### *Analysis by the Legislative Reference Bureau*

Current law generally limits the increase in the total amount of revenue per pupil that a school district may receive from general school aids and property taxes in a school year to the amount of revenue increase allowed per pupil in the previous school year increased by the percentage change in the consumer price index. Several exceptions are provided. For example, if a school district increases the services that it provides by adding responsibility for providing a service transferred to it from another governmental unit, its revenue limit is increased by the cost of that service.

This bill provides that a school district's revenue limit in any school year is increased by an amount equal to the amount spent by the school district in that school year for safety and security measures, but not more than an amount equal to \$100 multiplied by the number of pupils enrolled.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
