1 **AN ACT to repeal and recreate** 560.075 (3); and **to create** 20.143 (1) (ft) and
2 560.075 of the statutes; **relating to:** incentive payments for an air carrier that
3 operates from a hub facility and making an appropriation.

Analysis by the Legislative Reference Bureau

Current law defines a hub facility as either:

1. A facility at an airport from which an air carrier company operated at least 45 common carrier departing flights each weekday in the prior year and from which it transported passengers to at least 15 nonstop destinations or transported cargo to nonstop destinations.

2. An airport or any combination of airports in this state from which an air carrier company cumulatively operated at least 20 common carrier departing flights each weekday in the prior year, if the air carrier company's headquarters is in this state.

This bill requires the Department of Commerce (DOC) to make an incentive payment to an air carrier company that operates from either type of hub facility. The payment amount is based on the number of passengers boarded at each hub facility and starts, for an air carrier that meets the first definition, at \$1.70 per passenger for the year ending December 31, 2003, with annual increases up to \$4.40 per passenger for the year ending December 31, 2012. The payment amount for an air carrier that meets the second definition is \$3.60 per passenger. DOC makes the first payments on October 1, 2005, and makes semiannual payments on April 1 and October 1 of every year thereafter.

ASSEMBLY BILL 933

The bill also requires a transfer of funds from the transportation fund to the general fund in fiscal year 2004–05.
