Analysis by the Legislative Reference Bureau

This bill creates a grant program for the purpose of providing grants to eligible businesses for training employees who, as a result of a major new business investment, will be required to operate new equipment or implement new manufacturing processes. An eligible business may obtain a grant only if each employment position for which training is financed by a grant is for the performance of duties in this state and if the business agrees to maintain, or establish and maintain, operations in this state for at least five years following the receipt of the grant, to provide a full-time job for each employee who receives training that is financed by the grant, to maintain each employment position for which training is financed, at least in part, by the grant for at least five years following the receipt of the grant, and to expend grant moneys only in this state. The bill allows the Department of Commerce, by rule, to establish additional eligibility requirements for the grant program. The bill appropriates \$10,000,000 of general purpose revenue annually to fund grants under the program.
