Analysis by the Legislative Reference Bureau

Under current law, the Department of Natural Resources (DNR) regulates the disposal of solid waste. DNR has promulgated a rule requiring that ash resulting from the burning of a structure for practice or instruction of fire fighters or the testing of fire fighting equipment be disposed of in a landfill licensed by DNR.

This bill prohibits DNR from requiring that ash resulting from the burning of a structure for practice or instruction of fire fighters or the testing of fire fighting equipment be disposed of in a landfill licensed by DNR.
