### *Analysis by the Legislative Reference Bureau*

Currently, the Department of Health Services (DHS) administers the Medical Assistance (MA) program, which is a joint federal and state program that provides health services to individuals who have limited financial resources. Some services are provided through programs that operate under a waiver of federal Medicaid laws, including services provided through the BadgerCare Plus (BC+) and BadgerCare Plus Core (BC+ Core) programs. Under current law, certain parents and caretaker relatives with incomes of not more than 200 percent of the federal poverty line (FPL) are eligible for BC+ benefits. Adults who are under age 65, who have a family income that does not exceed 200 percent of the FPL and who are not otherwise eligible for MA, including BC+, are eligible for benefits under BC+ Core under current law. Beginning on January 1, 2014, the income eligibility level is 100 percent of the FPL before a 5 percent income disregard is applied for parents and caretaker relatives under BC+ and for all individuals under BC+ Core.

This bill requires DHS to submit on behalf of a county a waiver of federal Medicaid law or a proposal for a demonstration program to the federal government in order to provide MA benefits to adults whose family incomes do not exceed 133 percent of the FPL. Under the bill, DHS is required to assist, in good faith, the county in preparing the waiver request or proposal for federal approval and in any negotiations with the federal government. In any negotiations with the federal government, DHS must promote approval of the waiver request or proposal and must

also seek the highest available federal medical assistance matching percentage described in the federal Patient Protection and Affordable Care Act. To qualify for the highest available federal medical assistance matching percentage, DHS must submit any necessary amendment to the state plan, submit any amendment to the county's waiver request or proposal, and comply and assist the county in complying with all federal requirements. If the county obtains federal permission to expand MA eligibility, DHS must facilitate the administration of MA benefits in that county as needed.
