6 weight limits of vehicles operating on the I 39 and I 41 corridors.

Analysis by the Legislative Reference Bureau

This bill makes various changes relating to vehicle size and weight limit permits issued by the Department of Transportation (DOT) authorizing operation of vehicles that exceed weight and length limits on certain highways.

Under federal law, no motor vehicle may exceed specified weight limits on interstate highways. An exemption exists for portions of I 39 and I 41, allowing the operation of vehicles that would have been allowed to operate on those highways prior to their designation as interstate highways. Under state law, the portion of I 41 that is exempt from the federal weight limits is defined as the "I 41 corridor."

This bill creates a similar provision for the "I 39 corridor," which is defined as that portion of I 39 between I 94 near the city of Portage and STH 29 south of the city of Wausau. This bill also replaces numerous references to the highway section that is now defined as the "I 39 corridor" with the defined term.

In addition to federal law, current state law specifies weight and length limits for vehicles operating on highways in the state. Subject to certain requirements,

ASSEMBLY BILL 558

DOT may issue permits to allow operation of vehicles that exceed these limits. Under this bill, these permits may not authorize the transportation of an article or vehicle that exceeds size, weight, or load limitations but that could reasonably be divided or reduced to comply with those limitations (“divisible load”) on an interstate highway other than the I 41 corridor.

Under current law, DOT may issue permits for the transportation of grain, coal, or iron on vehicles that exceed weight or length limits on any highway for a distance of not more than five miles from the state line. This permit is not applicable to interstate highways except for the I 41 corridor. This bill eliminates the exception for the I 41 corridor.

Under current law, DOT may issues permits for the transportation of granular roofing materials on vehicles that exceed weight or length limits. This permit is not applicable to interstate highways except for the I 41 corridor. This bill eliminates the exception for the I 41 corridor.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

10 their determination of such frozen condition and freedom of damage to such
11 highways by transportation, the officers or agencies in charge of maintenance of
12 highways shall declare particular highways, or highways within areas of the state,
13 as eligible for increased weight limitations, and each declaration shall be effective
