Analysis by the Legislative Reference Bureau

Beginning in the 2015–16 school year, this bill increases the limit on the per pupil revenue amount a school district may receive by the annual increase in the consumer price index. Under current law, beginning in the 2015–16 school year, there is no adjustment to a school district’s per pupil revenue.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
