1 **AN ACT** *to amend* 49.265 (3) (b) 11. of the statutes; **relating to:** increasing
2 funding for grants to provide skills enhancement services, modifying eligibility
3 requirements for receiving services funded by those grants, and making an
4 appropriation.

Analysis by the Legislative Reference Bureau

This bill increases funding for skills enhancement grants for community action agencies and changes the eligibility requirement for the services provided under those grants.

Under current law, a community action agency approved by the secretary of children and families and by the legislative body of the local governmental unit serviced by the community action agency is required to develop and implement programs designed to serve persons whose income is at or below 125 percent of the poverty line. Those programs may include provisions that will help those persons secure and retain employment, improve their education, and secure needed transportation, among other things. Current law also appropriates money to the Department of Children and Families (DCF) and requires DCF to distribute grants to community action agencies to provide, to individuals who work at least 20 hours per week and whose earned income is at or below 150 percent of the poverty line, a program of skills enhancement that must include access to transportation, child care, career counseling, job placement assistance, and financial support for education and training (skills enhancement grants).

SENATE BILL 737

This bill increases the funding during the 2015-17 biennium for skills enhancement grants. The bill also requires a community action agency that receives a skills enhancement grant to provide skills enhancement services to individuals who work at least 15 hours per week and whose earned income would make the individuals eligible for any other program operated by the community action agency.
