## 2015 SENATE BILL 84

March 23, 2015 - Introduced by Senators GUXEX, MARKLEIN, NASS, OLSEN, WANGGAARD and VUKMIR, cosponsored by Representatives HUTTON, E. BROOKS, KOOYENGA, BALLWEG, CZAJA, MURPHY, EDMING, QUINN, HINTZ and THIESFELDT. Referred to Committee on Judiciary and Public Safety.

1     **AN ACT to create** 15.145 (6), 301.103 and 450.01 (16) (hr) of the statutes;  
2           **relating to:** creating a Corrections System Formulary Board in the  
3           Department of Corrections, therapeutic alternate drug selections in the state  
4           correctional system, and granting rule-making authority.

### *Analysis by the Legislative Reference Bureau*

Under current law, a licensed pharmacist may make therapeutic alternate drug selections, if made in accordance with written guidelines or procedures (a formulary) previously established by: 1) a pharmacy and therapeutics committee of a hospital and approved by the hospital's medical staff, for patients in a hospital; or 2) a quality assessment and assurance committee of a nursing home, for patients in a nursing home. The use of the therapeutic alternate drug selection must have been approved for a patient during the period of the patient's stay within the hospital or nursing home by the patient's attending physician, physician assistant, or, in the case of a hospital, the patient's advanced practice nurse prescriber.

This bill creates a Corrections System Formulary Board (board) in the Department of Corrections (DOC), to consist of two physicians, one of whom is a psychiatrist, a pharmacist, and, at the discretion of the secretary of corrections (secretary), other members, all appointed by the secretary. The bill requires the board to promulgate rules to establish a formulary for prisoners confined in state correctional institutions and allows a pharmacist to make therapeutic alternate drug selections in accordance with that formulary, if approved for a prisoner during his or her period of confinement in a state correctional institution by a physician, an

advanced practice nursing prescriber, or a physician assistant. The bill requires that the formulary established by the board apply uniformly within all state correctional institutions.
