### *Analysis by the Legislative Reference Bureau*

Under current law, a municipal utility may collect arrearages for utility service provided to lots or parcels of real estate by providing, on October 15, a written notice to the owner or occupant of the amount owing and in arrears. If payment is not received by November 15, the arrearage amount and late penalties become a lien on the property that is collected as a tax on the property. Additional requirements apply to a municipal utility that provides water or electric service to a tenant in a rental dwelling unit. If the owner of the unit notifies the municipal utility that the tenant has assumed responsibility for payment for the service, the municipal utility must provide additional notices regarding past due amounts to both the tenant and the owner in order to collect the arrearages through a lien. Also, current law gives the municipality a lien on the assets of each tenant who is responsible for arrears in payments for the water or electric service. If the owner pays off the arrearage, the municipality's lien on the assets transfers to the owner. Under the bill, an owner who pays off an arrearage on behalf of a tenant may deduct that amount when calculating income for state tax purposes. However, if the tenant pays the owner for all or part of the arrearage in a subsequent taxable year, the owner must add that amount to the owner's taxable income for that year.
