May 17, 2023 - Introduced by Representatives SORTWELL, GUSTAFSON, MOSES, MURPHY, SAPIK and SCHRAA, cosponsored by Senators TOMCZYK and STROEBEL. Referred to Committee on Education.

1 **AN ACT to amend** 67.05 (6a) (a) 2. (intro.) and 115.385 (1) (a) (intro.); and **to**
2 **create** 67.05 (6a) (a) 3. of the statutes; **relating to:** restricting a school district's
3 authority to increase its revenue limit by referendum.

Analysis by the Legislative Reference Bureau

Current law generally limits the total amount of revenue a school district may receive from general school aids and property taxes in a school year. However, there are several exceptions to the revenue limit. One exception to the revenue limit is an increase for funds needed to service general obligation debt issued by a school district, if the debt was approved by a referendum. This type of referendum is often referred to as a capital referendum.

This bill prohibits a school board from initiating the process for a capital referendum for borrowing other than for maintenance expenses if the school district received lower than a certain score for pupil achievement in reading and mathematics on the most recent school and school district accountability report. Specifically, the school board of a school district in which 2,000 or more pupils are enrolled is prohibited from initiating the capital referendum process if its overall pupil achievement score in reading and mathematics was below 60 points, and a school board of a school district in which fewer than 2,000 pupils are enrolled is prohibited from initiating the capital referendum process if its overall pupil achievement score in reading and mathematics was below 50 points. The bill also requires the Department of Public Instruction to use a 100 point scale for certain measures that are required to be included in the school and school district accountability report, including pupil achievement in reading and mathematics.
