Analysis by the Legislative Reference Bureau

This bill requires the Technical College System Board to award grants in the 2023-25 fiscal biennium to technical colleges to support the recruitment and retention of instructors in manufacturing, advanced manufacturing, and truck driving programs. The bill requires the TCS Board to award grants to pay hiring bonuses to such instructors. A grant of up to \$5,000 per instructor may fund a hiring bonus if 1) the instructor is hired into a position that is at least half-time to teach courses in manufacturing or advanced manufacturing or preparatory to issuance or upgrade of a commercial driver license; 2) the technical college provides at least an equal amount of matching funding for the bonus; and 3) the instructor agrees in writing to continue employment with the technical college for at least three years in a similar capacity. With exceptions, an instructor who fails to maintain employment for the three-year period must repay the bonus on a pro rata basis according to the actual duration of employment. If an instructor who received a hiring bonus remains employed with the technical college in a similar capacity five years later, the technical college must pay the instructor, from its own funds, a retention bonus of \$5,000. A technical college that receives a grant award must report certain information related to the results of its instructor bonuses.

ASSEMBLY BILL 549

The bill also requires the TCS Board to award one-time grants of up to \$1,000,000 to technical colleges to purchase manufacturing or advanced manufacturing equipment or to enhance facilities for advanced manufacturing instruction. A grant may be awarded only if the technical college provides at least an equal amount of matching funding. A technical college awarded a grant must submit a report that includes information related to the grant and use of the grant proceeds.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
