Referred to Committee on Education.

1 **AN ACT** *to amend* 121.91 (7); and *to create* 121.91 (4) (m) of the statutes;
2 **relating to:** a school district revenue limit adjustment for the cost of employing
3 school nurses.

Analysis by the Legislative Reference Bureau

Current law generally limits the total amount of revenue per pupil that a school district may receive from general school aids and property taxes in a school year to the amount of revenue allowed per pupil in the previous school year plus a per pupil increase, if any, as provided by law. However, current law also includes several adjustments to the general revenue limit. For example, if a school district increases the services that it provides by adding responsibility for providing a service transferred to it from another governmental unit, the school district's revenue limit is increased by the cost of that service.

This bill creates a school district revenue limit adjustment for the costs of employing school nurses. Under the bill, if a school board adopts a resolution, the school district's revenue limit is increased by the amount the school district spent during the second previous school year on salaries and benefits for school nurses.
