1 **AN ACT to amend** 79.03 (3) (b) 4. f. of the statutes; **relating to:** including
2 assessments made by a town sanitary district against the residents of a town
3 in the town's aidable revenues for shared revenue.

Analysis by the Legislative Reference Bureau

Under current law, shared revenue payments are based in part on aidable revenues, which are various revenues that local units of government collect. Among those aidable revenues are special assessment revenues: charges collected by a municipality or county for capital improvements. Under this bill, assessments made by a town sanitary district against the residents of a town are included in the town's special assessment revenues.

For further information see the *local* fiscal estimate, which will be printed as an appendix to this bill.
