April 28, 1997 - Introduced by Representatives SCHNEIDER, MUSSER, HASENOHRL, BOYLE, BOCK and GRONEMUS, cosponsored by Senator BUETTNER. Referred to Committee on Government Operations.

1 **AN ACT** *to amend* 230.35 (1) (g) 1 and 230.35 (1m) (f); and *to create* 230.35 (3)
2 (e) of the statutes; **relating to:** leaves of absence for certain state employes to
3 participate in providing certain disaster relief services.

Analysis by the Legislative Reference Bureau

Under current law, a state employe is entitled to leaves of absence with pay from his or her job for certain purposes. A state employe who is a member of the national guard, the state defense force or any other reserve component of the U.S. military forces is entitled to a leave of absence in order to attend military schools, annual field training, annual active duty for training or any other active tour of duty. A state employe is also entitled to a leave of absence when he or she is summoned for jury duty or in order to engage in job promotion examinations or interviews.

This bill allows a state employe to be granted a leave of absence in order to help provide specialized disaster relief services through the American Red Cross. The bill defines "specialized disaster relief services" as professional, technical or other services that require advanced training or expertise and that are provided to assist persons affected by a disaster. Under the bill, the employe's appointing authority (the person in charge of personnel matters in the employe's agency) may grant a leave of absence to an employe if: 1) the disaster occurred in this state; 2) the employe is a certified disaster service volunteer of the American Red Cross; 3) the American Red Cross makes a written request for the services of the employe to the employe's appointing authority; and 4) the employe has successfully completed his or her probationary period and has permanent employe status, if the employe's position is

included in the classified service. The bill also allows an appointing authority to grant a leave of absence to allow an employe to provide services in connection with a disaster that occurs outside this state if: 1) the governor authorizes appointing authorities to grant leaves of absence with respect to that disaster; and 2) the employe satisfies the requirements listed above in items #2, 3 and 4.

A leave of absence to help provide disaster relief services may not exceed 30 workdays each year. An employe who is granted a leave of absence to help provide disaster relief services is entitled to his or her base rate of pay during the leave of absence. A leave of absence to provide disaster relief services does not affect the employe's earning of paid annual leave (vacation), sick leave or retirement benefits. Also, for purposes of calculating seniority, pay or pay advancement and performance awards, the time during which an employe is on a leave of absence to help provide disaster relief services counts as time served in the state service.

Provisions of the bill affecting the wages, fringe benefits, hours or conditions of employment of represented employes apply to the extent provided in applicable collective bargaining agreements.

The bill takes effect on the first day of the 4th month beginning after publication.
