1 AN ACT **relating to:** school district achievement guarantee contracts and making

2   an appropriation.

Analysis by the Legislative Reference Bureau

Under current law, certain school districts are eligible to enter into an achievement guarantee contract with the department of public instruction. The contract requires the school district to reduce class size, provide a rigorous academic curriculum, develop a staff development program, keep school open every day from early in the morning until late in the day and collaborate with community organizations to make educational and recreational opportunities available in the school to all school district residents. School districts entering into such contracts receive additional state aid.

This bill increases the amount of state aid provided to such school districts in the 1997–99 fiscal biennium.

For further information see the **state and local** fiscal estimate, which will be printed as an appendix to this bill.
