

## 1997 ASSEMBLY BILL 656

December 11, 1997 - Introduced by COMMITTEE ON HIGHWAYS AND TRANSPORTATION.  
Referred to Committee on Highways and Transportation.

1     **AN ACT to amend** 30.12 (4) (a) of the statutes; **relating to:** interdepartmental  
2             coordination of certain environmental protection measures applicable to  
3             transportation projects.

---

### *Analysis by the Legislative Reference Bureau*

Under current law, no permit is required from the department of natural resources (DNR) for highway and bridge work that is directed and supervised by the department of transportation (DOT) and that involves the placement of structures or the deposition of material in navigable waters of this state if the work is accomplished in accordance with interdepartmental liaison procedures established by DOT and DNR for minimizing the adverse environmental impact, if any, of the work.

This bill exempts any transportation project directed and supervised by DOT from having to obtain a permit from DNR to place structures or deposit material in navigable waters if the transportation project is accomplished in accordance with the interdepartmental liaison procedures.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
