### *Analysis by the Legislative Reference Bureau*

Under current law, whenever a vacancy in a position in the classified service of the state is to be filled, the appointing authority is required to notify the administrator of the division of merit recruitment and selection in the department of employment relations. The administrator is generally required to certify a certain number of names from the the register of eligible applicants for appointment to the position. The register is assembled on the basis of competitive examination. Those certified for appointment include a certain number of individuals at the top of the register and may also include a certain number of applicants who are handicapped, are a specified gender or belong to certain racial or ethnic groups. In addition, those certified may also include a certain number of veterans who, with veteran points added to their examination scores, have a score equal to the lowest examination score of a person who is among the individuals certified from the top of the register. The appointing authority is then required to make the appointment from among the list of certified applicants.

This bill creates a special procedure for the appointment of certain disabled veterans to positions in the classified service of the state. Under the bill, whenever a vacancy occurs in a position in the classified service, other than a position in the

**SENATE BILL 190**

department of corrections, the appointing authority may appoint a disabled veteran who is not from among the list of certified applicants if all of the following occur:

1. The disabled veteran served in the U.S. armed forces and is included on a U.S. armed forces permanent disability list with a disability rating of at least 30% or the disabled veteran has been rated by the U.S. department of veterans affairs as having a compensable service-connected disability of at least 30%.

2. The disabled veteran presents to the appointing authority written documentation from an appropriate department of the federal government certifying the existence and extent of the disability. This certification must have been issued by the appropriate department of the federal government within the year preceding appointment.

3. The appointing authority determines that the disabled veteran is qualified to perform the duties and responsibilities of the position.

4. The appointing authority notifies the administrator in writing that the position is to be filled with a disabled veteran on a noncompetitive basis.

Under the bill, if an appointing authority chooses to appoint a disabled veteran to a vacant position in the classified service, the appointing authority is not required to interview any person certified for appointment to the position. This bill does not authorize an appointing authority to waive competitive requirements for positions that are to be filled by promotion.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
