

1999 SENATE BILL 448

March 7, 2000 – Introduced by Senator CLAUSING, cosponsored by Representative RHOADES. Referred to Committee on Insurance, Tourism, Transportation and Corrections.

1 **AN ACT** *to renumber and amend* 348.27 (9r); *to amend* 348.27 (9r) (title); and
2 *to create* 348.27 (9r) (b) of the statutes; **relating to:** size and weight
3 limitations for vehicles and combinations of vehicles transporting biosolids
4 from a facility that recycles or processes metallic or nonmetallic scrap.

Analysis by the Legislative Reference Bureau

Under current law, the department of transportation (DOT) may issue annual and consecutive month permits authorizing certain vehicles and combinations of vehicles that exceed size, weight or load limitations to operate upon a highway. One such permit authorizes the operation of oversize or overweight vehicles and combinations of vehicles that are transporting metallic or nonmetallic scrap for the purpose of recycling or processing.

This bill authorizes DOT to issue annual or consecutive month permits for the transport of oversize or overweight vehicles and combinations of vehicles transporting biosolids from a facility that recycles or processes metallic or nonmetallic scrap. Like other permits authorizing the operation of oversize or overweight vehicles, the permit is not valid on highways designated as part of the national system of interstate or defense highways.

Because this bill concerns an exception to the vehicle weight limits specified in chapter 348 of the Wisconsin Statutes, DOT, as required by law, will prepare a report to be printed as an appendix to this bill.
