### *Analysis by the Legislative Reference Bureau*

Under current law, the department of natural resources (DNR) issues annual fishing licenses to state residents who have certain disabilities for a fee of \$6.25, including the issuing fee. Veterans who are state residents and who have certain disabilities pay a reduced fee. The period of validity for all of these licenses is a maximum of one year, so that these license holders must apply and qualify for these licenses on an annual basis. Under current law, the fee for a regular annual resident fishing license is \$12, including the issuing fee, and the maximum period of validity is one year.

This bill changes the period of validity for a fishing license issued to a disabled resident or disabled resident veteran to be for as long as the licensee is a resident and his or her disability continues. Under the bill, these disabled residents are exempt from having to pay any fee for the license.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
