SENATE BILL 1

May 14, 2002 – Introduced by COMMITTEE ON SENATE ORGANIZATION. Referred to Committee on Environmental Resources.

1 **AN ACT** *to repeal* 29.181 (3) and 29.559 (1r) (b); *to renumber* 29.307 and 29.559
2 (1r) (a); *to amend* 20.370 (5) (fq), 29.971 (7), 29.971 (11) and 167.31 (2) (d); and
3 **to create** 20.370 (5) (fs), 20.370 (5) (fv), 29.063, 29.307 (2), 29.307 (3), 29.335
4 and 167.31 (4) (bg) of the statutes; **relating to:** chronic wasting disease,
5 hunting animals from aircraft, feeding of wild animals for purposes other than
6 hunting, shooting a firearm or arrow from or across a highway, requiring a lapse
7 to the general fund, authorizing the extension of emergency rules, requiring the
8 exercise of rule-making authority, and making appropriations.

Analysis by the Legislative Reference Bureau

This bill does the following in relation to controlling chronic wasting disease in this state:

1. Provides funding of up to \$2,000,100 in fiscal year 2002-03, from the revenues from the wildlife damage surcharge collected on the sale of most hunting licenses, to manage, and conduct testing for, chronic wasting disease in cervids, a class which consists of all species of deer and elk.

2. Authorizes the department of natural resources (DNR) to supplement this funding by up to \$2,000,000 from segregated fund sources such as the conservation fund or the recycling fund. Of this amount, no more than \$1,000,000 may come from wildlife damage surcharge revenues.

3. Provides a portion of the funding specified above to the veterinary diagnostic laboratory for the purpose of testing cervids for chronic wasting disease.

The bill requires that DNR promulgate rules to regulate the recreational and supplemental feeding of wild animals for purposes other than hunting. The bill exempts any state or federal employee from the ban against shooting firearms or arrows across or from a highway or from hunting from an aircraft if the state or federal employee is acting in the course of his or her employment and if the employee is authorized by DNR to take animals in the wild for purposes of testing for disease or for removing diseased animals. These exemptions are further limited to hunting only animals that are located in a chronic wasting disease eradication zone as designated by DNR.

The provisions regarding the regulation and supplemental feeding, the shooting of firearms and arrows, and hunting from aircraft sunset on August 31, 2003, unless the standing committees for natural resources matters of each house of the legislature determine that in order to control the spread of disease it is necessary to continue these provisions.

Under current law, an emergency rule remains in effect for 150 days, except that the joint committee for review of administrative rules (JCRAR) may extend an emergency rule for a maximum of 120 additional days. This bill authorizes JCRAR to extend the department of agriculture, trade and consumer protection's emergency rule related to chronic wasting disease in cervids, which took effect on April 9, 2002, until September 1, 2003.

The bill lapses \$933,900 from the appropriation to the University of Wisconsin System for the veterinary diagnostic laboratory to the general fund.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.

12 promulgated by the department of agriculture, trade and consumer protection
13 relating to chronic wasting disease in cervids that took effect on April 9, 2002, for
14 periods specified by the committee and may grant any number of extensions, except
15 that the committee may not extend the effective period of the rules beyond
16 September 1, 2003.

17 (b) The department of agriculture, trade and consumer protection may amend
18 the emergency rules described in paragraph (a), while those rules are in effect, using
19 the procedure in section 227.24 of the statutes, and any amendment remains in effect
20 for the period provided under paragraph (a).

21 (5) VETERINARY DIAGNOSTIC LABORATORY.
